ME476 Material Handling & Facilities Planning Module IV-5 - ME476 Material Handling & Facilities Planning Module IV-5 by BMV Tech 89 views 3 years ago 10 minutes, 11 seconds - Principles of Material Handling.

ME476 - Material Handling And Facilities Planning

The Planning Principle • Large-scale material handling projects usually require a team

MH and storage activities should be fully integrated to form a coordinated, operational system that spans receiving, inspection, storage, production, assembly, ..., shipping, and the handling of returns Material flow pattern must be determined be operation sequence and pattern of equipment arrangement

Gravity principle Utilize gravity to move material whenever practical. - Use slides, hoppers etc.

Space utilization principle • The better we use our building cube, the less space we need to buy or Standardization Principle • Equipments and methods should be standardized • Standardize the equipment, containers etc.

Motion Principle • The handling principle should be kept in motion ie minimum period

Obsolescence principle (Out of date) • Obsolete methods and equipments be replaced by efficient methods
