Speeches Against Catilina...

A commentary for students on the four speeches delivered by Cicero during the crisis of 63 BC, when, as consul, he faced a conspiracy to overthrow the Roman state launched by the frustrated consular candidate Lucius Sergius Catilina. They show him at the height of his oratorical powers and political influence.

M. Tullii Ciceronis in L. Catilinam

The Catiline Orations are four speeches given to the Roman Senate in 63 BC by Marcus Tullius Cicero, accusing Lucius Sergius Catilina of treason against Rome. *Oratio in Catilinam Prima in Senatu Habita* *Oratio in Catilinam Secunda Habita ad Populum* *Oratio in Catilinam Tertia ad Populum* *Oratio in Catilinam Quarta in Senatu Habita* This edition does not contain page numbers. The text is in Latin.

Quae Fertur Oratio IV. in Catilinam

It's an essay on old age and death. Its rational and philosophical subject matter is embellished by beautiful language. This book is a luminous substantiation of Cicero's meticulous emblematic style. It is still popular as Cicero's powerful commentary over a very momentous issue of growing age with explanatory notes is astounding. Timeless!

Catiline Orations

On Obligations (De officiis) was written by Cicero in late 44 BC after the assassination of Julius Caesar to provide principles of behaviour for aspiring politicians. It explores the apparent tensions between honourable conduct and expediency in public life, and the right and wrong ways of attaining political leadership. The principles of honourable behaviour are based on the Stoic virtues of wisdom, justice, magnanimity, and propriety; in Cicero's view the intrinsically useful is always identical with the honourable. Cicero's famous treatise has played a seminal role in the formation of ethical values in western Christendom. Adopted by the fourth-century Christian humanists, it became transmuted into the moral code of the high Middle Ages. Thereafter, in the Renaissance from the time of Petrarch, and in the Age of Enlightenment that followed, it was given central prominence in discussion of the government of states. Today, when corruption and conflict in political life are the focus of so much public attention, *On Obligations* is still the foremost guide to good conduct.

The Speeches

De Officiis (On Duties) was Cicero's last philosophical work. In it he made use of Greek thought to formulate the political and ethical values of Roman Republican society as he saw them, revealing incidentally a great deal about actual practice. Writing at a time of political crisis after the assassination of Julius Caesar in 44 BC, when it was not clear how much of the old Republican order would survive, Cicero here handed on the insights of an elder statesman, adept at political theory and practice, to his son, and through him, to the younger generation in general. *De Officiis* has often been treated merely as a key to the lost Greek works that Cicero used. This volume aims to render *De Officiis*, which was such an important influence on later masterpieces of Western political thought, more intelligible by explaining its relation to its own time and place. A wholly new translation is accompanied by a lucid introduction and all the standard features of Cambridge Texts in the History of Political Thought, including a chronology, select bibliography, and notes on the vocabulary and significant individuals mentioned in the text.

On Old Age

Orations were speeches given in 63 BC by Marcus Tullius Cicero, the consul of Rome to expose to the Roman Senate the plot to overthrow the Roman government, purportedly led by Lucius Sergius Catilina and his allies. There is scholarly debate about the trustworthiness of Cicero's speeches, including questions as to how factually true they are, with some ancient historians such as Sallust hinting that Catiline is a more complex and sympathetic character than Cicero's writings suggest. These accounts took place almost a hundred years or more after the orations, but portray Catiline in a more sympathetic light, even going so far as to excuse him of any involvement at all, leading to questions of whether the Catilinarians were political propaganda designed to solidify Cicero's position in the political sphere rather than a factual account of the events of 63. However, most accounts of the events come from Cicero's pen himself. This is one of, if not the most, well documented events taking place in the ancient world, and has set the stage for classic political struggles pitting homeland security against civil liberties. As political orations go, it was relatively short, some 3,400 words, and to the point. The opening remarks are still widely remembered and used after 2000 years: *Quo usque tandem abutere, Catilina, patientia nostra? Quam diu etiam furor iste tuus nos eludet? Quem ad finem sese effrenata iactabit audacia?* When, O Catiline, do you mean to cease abusing our patience? How long is that madness of yours still to mock us? When is there to be an end of that unbridled audacity of yours, swaggering about as it does now? Also remembered is the famous exasperated exclamation, *O tempora, o mores!* (Oh the times! Oh the customs!). Catiline was present when the speech was delivered. He replied to it by asking people not to trust Cicero because he is *Homo Novus* and to trust Catiline because of the history of his family.

Cicero: In Catilinam I and II

'Two things alone I long for: first, that when I die I may leave the Roman people free...and second, that each person's fate may reflect the way he has behaved towards his country.' Cicero (106-43 BC) was the greatest orator of the ancient world and a leading politician of the closing era of the Roman republic. This book presents nine speeches which reflect the development, variety, and drama of his political career, among them two speeches from his prosecution of Verres, a corrupt and cruel governor of Sicily; four speeches against the conspirator Catiline; and the Second Philippic, the famous denunciation of Mark Antony which cost Cicero his life. Also included are *On the Command of Gnaeus Pompeius*, in which he praises the military successes of Pompey, and *For Marcellus*, a panegyric in praise of the dictator Julius Caesar. These new translations preserve Cicero's rhetorical brilliance and achieve new standards of accuracy. A general introduction outlines Cicero's public career, and separate introductions explain the political significance of each of the speeches. Together with its companion volume, *Defence Speeches*, this edition provides an unparalleled sampling of Cicero's oratorical achievements.

On Obligations

Pro Murena is a speech delivered by Cicero in defense of Lucius Licinius Murena. The speech can be dated to late November of 63 BCE. Four candidates stood for the next year's consulship. Murena was one of the victors.

Cicero: On Duties

The Republic of Cicero by Marcus Tullius Cicero. The imperfect manuscript, a translation of which is now presented to the public, was discovered in the Library of the Vatican, by Professor Angelo Mai; a person of singular ingenuity in the detection of those Palimpsests whose contents were written upon ancient writings partially erased. A fac simile of part of the MSS. accompanies this work. *The Republic of Cicero* was greatly cherished by those who lived in and near his times; of which occasional evidences are found in the writings of antiquity. But the tyranny of the emperors bridled the Romans so soon after its appearance, that Horace, Virgil, Seneca, Quintilian, Pliny, and even Tacitus, have not dared to praise it, lest they should bring down vengeance upon themselves. It is remarkable that while despotism was rapidly extinguishing philosophy and letters, and the very existence of these precious monuments of better times was scarcely thought of; the Christian religion was gradually raising up amidst the persecutions of the primitive church, new champions for truth and justice; to whose works we are indebted for many valuable fragments of the best writers of antiquity, and for almost all the passages of Cicero's *Republic* which we were acquainted with, until the late discovery of professor Mai.

Cicero

How long, Catilina, will you abuse our patience? Can you not read the signs of public excitement which show that your designs are known to all of us? Yet you dare to come here, and we hesitate to inflict upon you the death you deserve. Your predecessors in revolution were summarily dealt with; we have allowed the Senate's decree to lie idle for twenty days.

Orations

As consul in 63 BC Cicero faced a conspiracy to overthrow the Roman state launched by the frustrated consular candidate Lucius Sergius Catilina. Cicero's handling of this crisis would shape foreverafter the way he defined himself and his statesmanship. The four speeches he delivered during the crisis show him at the height of his oratorical powers and political influence. Divided between deliberative speeches given in the senate (1 and 4) and informational speeches delivered before the general public (2 and 3), the Catilinarians illustrate Cicero's adroit handling of several distinct types of rhetoric. Beginning in antiquity, this corpus served as a basic text for generations of students but fell into neglect during the past half-century. This edition, which is aimed primarily at advanced undergraduates and graduate students, takes account of recently discovered papyrus evidence, recent studies of Cicero's language, style and rhetorical techniques, and the relevant historical background.

Political Speeches

Benjamin Patrick Newton's translation of Cicero's *On Duties* is the most complete edition of a text that has been considered a source of moral authority throughout classical, medieval, and modern times. Marcus Tullius Cicero was a preeminent Roman statesman, orator, and philosopher who introduced philosophy into Rome, and through Rome, into Christendom and the modern world. *On Duties* was championed by important thinkers including Thomas Aquinas, Montesquieu, and Voltaire, and it was one of the earliest books printed on the Gutenberg press. The true significance of *On Duties* lies in its examination of several fundamental problems of political philosophy, the most important being the possible conflict between the honorable and the useful. The honorable encompasses the virtues of human beings, which include justice and concern for the common good. The useful refers to the needs of living beings, which includes certain necessities and concern for private good. Only by understanding the possible conflict between these two sides of human nature, Cicero declares, may we understand our duties to our community and to ourselves. This new edition of *On Duties* aims to provide readers who cannot read Latin but wish to study the book with a literal yet elegant translation. It features an introduction, outline, footnotes, interpretative essay, glossary, and indexes, making Cicero's thought accessible to a general audience.

The Republic of Cicero

Though his name does not appear on the titlepage, any merit discoverable in the translation of *De Oratore*, Book I is largely due to my friend Mr. Charles Stuttaford, sometime of Amersham Hall School. Originally entrusted with the execution of both these volumes, he had done much preliminary work on the text and translation of Book I, when reasons of health compelled him to relinquish his task. I most gratefully acknowledge my heavy indebtedness to his labours...

Speeches against Catilina

An accessible 2001 translation of Cicero's important work on ethics.

Cicero: Catilinarians

This famous oration by the Roman statesman and philosopher Cicero is a scathing indictment of the senator Catiline, who is accused of plotting against the Roman Republic. Cicero's speech is a masterful work of rhetoric, widely regarded as one of the greatest speeches in the history of the Latin language. This edition includes the original Latin text, along with a new English translation and extensive notes on the historical and literary context of the speech. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Speeches Against Catilina

In his youth, in preparation for a public career, Cicero devoted himself with ardour and success to the study of philosophy, and, during the whole of an exceptionally busy life, spent all his spare moments in reading and in the society of the learned. As a relaxation from public employment he produced in 55 B.C. his *De oratore*, in 54 his *De republica* and in 52 his *De legibus*. His choice of literature as his chief pursuit was due to political causes.

On Duties

Oratio in Catilinam Prima in Senatu Habita

De Officiis Or on Duties on Obligations

Marcus Tullius Cicero (106 BC-43 BC) was a Roman statesman, lawyer, political theorist, philosopher, and Roman constitutionalist. He is widely considered one of Rome's greatest orators and prose stylists. He is generally perceived to be one of the most versatile minds of ancient Rome. He introduced the Romans to the chief schools of Greek philosophy and created a Latin philosophical vocabulary, distinguishing himself as a linguist, translator, and philosopher. An impressive orator and successful lawyer, he probably thought his political career his most important achievement. Today, he is appreciated primarily for his humanism and philosophical and political writings. Although a great master of Latin rhetoric and composition, Cicero was not Roman in the traditional sense, and was quite self-conscious of this for his entire life. He was declared a "righteous pagan" by the early Catholic Church, and therefore many of his works were deemed worthy of preservation. Saint Augustine and others quoted liberally from his works *On the Republic* and *On the Laws*, and it is due to this that we are able to recreate much of the work from the surviving fragments.

Cicero: On Moral Ends

CICERO (Marcus Tullius, 3rd Jan. 106-7th Dec. 43 B.C.), Roman lawyer, orator and politician (and even philosopher), of whom we know more than of any other Roman, lived through the stirring era which saw the rise, dictatorship, and death of Julius Caesar in a tottering republic. In his political speeches especially and in his correspondence we see the excitement, tension and intrigue of politics and the part he played in the turmoil of the time. Of about 106 Speeches, delivered before the Roman people or the Senate if they were political, before jurors if judicial, 58 survive (a few of them incompletely). In A.D. 1345 Petrarch discovered copies of a collection of more than 900 Letters of which more than 800 were written by Cicero and nearly 100 by others to him. These afford a revelation of the man and all the more striking because they were not written for publication. Six Rhetorical works survive and another in fragments. Philosophical works include seven extant major compositions and a number of others; and some lost. There is also poetry, some original, some as translations from the Greek.

The House on Mango Street

NATIONAL BESTSELLER • A coming-of-age classic about a young girl growing up in Chicago • Acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. “Cisneros draws on her rich [Latino] heritage...and seduces with precise, spare prose, creat[ing] unforgettable characters we want to lift off the page. She is not only a gifted writer, but an absolutely essential one.” —The New York Times Book Review The House on Mango Street is one of the most cherished novels of the last fifty years. Readers from all walks of life have fallen for the voice of Esperanza Cordero, growing up in Chicago and inventing for herself who and what she will become. “In English my name means hope,” she says. “In Spanish it means too many letters. It means sadness, it means waiting.” Told in a series of vignettes—sometimes heartbreaking, sometimes joyous—Cisneros’s masterpiece is a classic story of childhood and self-discovery and one of the greatest neighborhood novels of all time. Like Sinclair Lewis’s *Main Street* or Toni Morrison’s *Sula*, it makes a world through people and their voices, and it does so in language that is poetic and direct.

This gorgeous coming-of-age novel is a celebration of the power of telling one's story and of being proud of where you're from.

A Study Guide for Sandra Cisneros's Once Again I Prove the Theory of Relativity

Winner of the PEN Center USA Literary Award for Creative Nonfiction From Chicago to Mexico, the places Sandra Cisneros has lived have provided inspiration for her now-classic works of fiction and poetry. But a house of her own, a place where she could truly take root, has eluded her. In this jigsaw autobiography, made up of essays and images spanning three decades-and including never-before-published work-Cisneros has come home at last. Written with her trademark lyricism, in these signature pieces the acclaimed author of The House on Mango Street and winner of the 2019 PEN/Nabokov Award for Achievement in International Literature shares her transformative memories and reveals her artistic and intellectual influences. Poignant, honest, and deeply moving, A House of My Own is an exuberant celebration of a life lived to the fullest, from one of our most beloved writers.

A House of My Own

Thirteen-year-old Boli and his friends are deep in the middle of a game of marbles. An older boy named Mosca has won the prized Devil's Fire marble. His pals are jealous and want to win it away from him. This is Izayoc, the place of tears, a small pueblo in a tiny valley west of Mexico City where nothing much happens. It's a typical hot Sunday morning except that on the way to church someone discovers the severed head of Enrique Quintanilla propped on the ledge of one of the cement planters in the plaza and everything changes. Not apocalyptic changes, like phalanxes of men riding on horses with stingers for tails, but subtle ones: poor neighbors turning up with brand-new SUVs, pimply teens with

fancy girls hanging off them. Boli's parents leave for Toluca and don't arrive at their destination. No one will talk about it. A washed out masked wrestler turns up one day, a man only interested in finding his next meal. Boli hopes to inspire the luchador to set out with him to find his parents. NATIONAL BESTSELLER • Every year, Ceyala “Lala” Reyes’ family—aunts, uncles, mothers, fathers, and Lala’s six older brothers—packs up three cars and, in a wild ride, drive from Chicago to the Little Grandfather and Awful Grandmother’s house in Mexico City for the summer. From the celebrated bestselling author of *The House on Mango Street* and winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. Struggling to find a voice above the boom of her brothers and to understand her place on this side of the border and that, Lala is a shrewd observer of family life. Reader's Guide to the Short Story

The internationally acclaimed author of *The House on Mango Street* and winner of the PEN/Nabokov Award for Achievement in International Literature gives us a deeply moving tale of loss, grief, and healing: a lyrically told, richly illustrated fable for grown-ups about a woman's search for a cat who goes missing in the wake of her mother's death. The word "orphan" might not seem to apply to a fifty-three-year-old woman. Yet this is exactly how Sandra feels as she finds herself motherless, alone like "a glove left behind at the bus station." What just might save her is her search for someone else gone missing: Marie, the black-and-white cat of her friend, Roz, who ran off the day they arrived from Tacoma. As Sandra and Roz scour the streets of San Antonio, posting flyers and asking everywhere, "Have you seen Marie?" the pursuit of this one small creature takes on unexpected urgency and meaning. With full-color illustrations that bring this transformative quest to vivid life, *Have You Seen Marie?* showcases a beloved author's storytelling magic, in a tale that reminds us how love, even when it goes astray, does not stay lost forever.

Chicana/o literature frequently depicts characters who exist in a vulnerable liminal space, living on the border between Mexican and American identities, and sometimes pushed to the edge by authorities who seek to restrict their freedom. As this groundbreaking new study reveals, the books themselves have occupied similarly precarious positions, as Chicana/o literature has struggled for economic viability and visibility on the margins of the American publishing industry, while Chicana/o writers have grappled with editorial practices that compromise their creative autonomy. *From the Edge* reveals the tangled textual histories behind some of the most cherished works in the Chicana/o literary canon, tracing the negotiations between authors, editors, and publishers that determined how these books appeared in print. Allison Fagan demonstrates how the texts surrounding the authors' words—from editorial prefaces to Spanish-language glossaries, from cover illustrations to reviewers' blurbs—have crucially shaped the reception of Chicana/o literature. To gain an even richer perspective on the politics of print, she ultimately explores one more border space, studying the marks and remarks that readers have left in the margins of these books. *From the Edge* vividly demonstrates that to comprehend fully the roles that ethnicity, language, class, and gender play within Chicana/o literature, we must understand the material conditions that governed the production, publication, and reception of these works. By teaching us how to read the borders of the text, it demonstrates how we might perceive and preserve the faint traces of those on the margins.

There is a dearth of multicultural literature in schools since few schools offer a curriculum that promotes multicultural education. However, by the year 2050, ethnic minority children will make up the majority of the United States public school classrooms. Multicultural literature is the building block of a multicultural education which reflects our nation's diversity and helps all students learn by providing help to bridge the cultural gap, and promote racial awareness. Teachers often find it difficult to identify or find quality multicultural literature that adheres to the standard curriculum. *Turning the Page: The Ultimate Guide for Teachers to Multicultural Literature* helps educators find and evaluate multicultural books that are suitable for the classroom and align with the standard curriculum. The book includes a peer-reviewed metric that shows teachers how to substitute biased books with multicultural literature that endorse the same themes. Second, the book includes reviews, lesson plans, and curated book lists of multicultural books. Finally, the book offers a stepwise plan on how to create a task force of school stakeholders who can implement a comprehensive, multicultural program. In 2018, The National Association for Multicultural Education released standards for multicultural education to encourage school staff to become culturally competent and linguistically diverse. *Turning the Page: The Ultimate Guide for Teachers to Multicultural Literature* moves educators in that direction.

A monumental novel capturing how one man comes to terms with the mutable past. 'A masterpiece... I would urge you to read - and re-read ' Daily Telegraph **Winner of the Man Booker Prize for Fiction** Tony Webster and his clique first met Adrian Finn at school. Sex-hungry and book-hungry, they would navigate the girl-less sixth form together, trading in affectations, in-jokes, rumour and wit. Maybe Adrian was a little more serious than the others, certainly more intelligent, but they all swore to stay friends for life. Now Tony is retired. He's had a career and a single marriage, a calm divorce. He's certainly never

tried to hurt anybody. Memory, though, is imperfect. It can always throw up surprises, as a lawyer's letter is about to prove.

Key works of popular fiction are often rewritten to capitalize on their success. But what are the implications of this rewriting process? Such is the question addressed by this detailed study of several rewritings of Eugène Sue's *Mystères de Paris* (1842-43), produced in the latter half of the nineteenth century, in response to the phenomenal success of Sue's archetypal urban mystery. Pursuing a compelling analogy between city and text, and exploring the resonance of the palimpsest trope to both, Amy Wigelsworth argues that the *mystères urbains* are exemplary rewritings, which shed new light on contemporary reading and writing practices, and emerge as early avatars of a genre still widely consumed and enjoyed in the 21st century.

The book, which takes place in late 19th century New York City, tells the story of Basil March, who finds himself in the middle of a dispute between his employer, a self-made millionaire named Dryfoos, and his old German teacher, an advocate for workers' rights named Lindau. The main character of the novel, Basil March, provides the main perspective throughout the novel. He resides in Boston with his wife and children until he is persuaded by his idealistic friend Fulkerson to move to New York to help him start a new magazine, where the writers benefit in a primitive form of profit sharing. Considered by to be author's best work, the book is also considered to be the first novel to portray New York City. In this novel, Howells primarily deals with issues of post-war "Gilded Age" America, like labor disputes, the rise of the self-made millionaire, the growth of urban America, the influx of immigrants, and other industrial-era problems. Also, Howells here portrays a variety of people from different backgrounds. The book was well-received for its portrayal of social injustice. _x000D_ William Dean Howells (1837-1920) was an American realist author, literary critic, and playwright. He was the first American author to bring a realist aesthetic to the literature of the United States. His stories of Boston upper crust life set in the 1850s are highly regarded among scholars of American fiction.

Rewriting 'Les Mystères de Paris'

Reproduction of the original: *The Fortunate Foundlings* by Eliza Fowler Haywood

A Hazard of New Fortunes

This revealing study considers the remarkable alliance between chemistry and art from the late eighteenth century to the period immediately following the Second World War. *Synthetic Worlds* offers fascinating new insights into the place of the material object and the significance of the natural, the organic, and the inorganic in Western aesthetics. Esther Leslie considers how radical innovations in chemistry confounded earlier alchemical and Romantic philosophies of science and nature while profoundly influencing the theories that developed in their wake. She also explores how advances in chemical engineering provided visual artists with new colors, surfaces, coatings, and textures, thus dramatically recasting the way painters approached their work. Ranging from Goethe to Hegel, Blake to the Bauhaus, *Synthetic Worlds* ultimately considers the astonishing affinities between chemistry and aesthetics more generally. As in science, progress in the arts is always assured, because the impulse to discover is as immutable and timeless as the drive to create.

The History of Miss Betsy Thoughtless

Volume 9, Part 2 of The Cambridge History of China is the second of two volumes which together explore the political, social and economic developments of the Ch'ing Empire during the seventeenth and eighteenth centuries prior to the arrival of Western military power. Across fifteen chapters, a team of leading historians explore how the eighteenth century's greatest contiguous empire in terms of geographical size, population, wealth, cultural production, political order and military domination peaked and then began to unravel. The book sheds new light on the changing systems deployed under the Ch'ing dynasty to govern its large, multi-ethnic Empire and surveys the dynasty's complex relations with neighbouring states and Europe. In this compelling and authoritative account of a significant era of early modern Chinese history, the volume illustrates the ever-changing nature of the Ch'ing Empire, and provides context for the unforeseeable challenges that the nineteenth century would bring.

The Fortunate Foundlings

This book is an account of Aristotle's *Metaphysics*. The work is considered as a whole and each of its parts or books is taken up in the order that it has in the traditional text. The book is based on an examination of all of the manuscript readings reported in the three most recent editions of the work (those of Christ, Ross, and Jaeger), and it attempts in this way and others to come as close as possible to what would have been the original text. The *Metaphysics* is of course a much-studied work. What distinguishes this new effort to understand it is the working assumption that Aristotle presents in it his most comprehensive reflection on science: its character and aims, its foundations or presuppositions, and the obstacles or objections that constitute a challenge to its possibility.--

Synthetic Worlds

There can be no justice that is not spatial. Against a recent tendency to despatialise law, matter, bodies and even space itself, this book insists on spatialising them, arguing that there can be neither law nor justice that are not articulated through and in space. *Spatial Justice* presents a new theory and a radical application of the material connection between space – in the geographical as well as sociological and philosophical sense – and the law – in the broadest sense that includes written and oral law, but also embodied social and political norms. More specifically, it argues that spatial justice is the struggle of various bodies – human, natural, non-organic, technological – to occupy a certain space at a certain time. Seen in this way, spatial justice is the most radical offspring of the spatial turn, since, as this book demonstrates, spatial justice can be found in the core of most contemporary legal and political issues – issues such as geopolitical conflicts, environmental issues, animality, colonisation, droning, the cyberspace and so on. In order to argue this, the book employs the *lawscape*, as the tautology between law and space, and the concept of atmosphere in its geological, political, aesthetic, legal and biological dimension. Written by a leading theorist in the area, *Spatial Justice: Body, Lawscape, Atmosphere* forges a new interdisciplinary understanding of space and law, while offering a fresh approach to current geopolitical, spatiolegal and ecological issues.

Byronic Heroes in Nineteenth-Century Women's Writing and Screen Adaptation charts a new chapter in the changing fortunes of a unique cultural phenomenon. This book examines the afterlives of the Byronic hero through the work of nineteenth-century women writers and screen adaptations of their fiction. It is a timely reassessment of Byron's enduring legacy during the nineteenth century and beyond, focusing on the charged and unstable literary dialogues between Jane Austen, Elizabeth Gaskell, George Eliot and a Romantic icon whose presence takes centre stage in recent screen adaptations of their most celebrated novels. The broad interdisciplinary lens employed in this book concentrates on the conflicted rewritings of Byron's poetry, his 'heroic' protagonists, and the cult of Byronism in nineteenth-century novels from *Pride and Prejudice* to *Middlemarch*, and extends outwards to the reappearance of Byronic heroes on film and in television series over the last two decades.

The Cambridge History of China: Volume 9, The Ch'ing Dynasty to 1800, Part 2

When the French actress Sarah Bernhardt made her first American tour in 1880, the term feminism had not yet entered our national vocabulary. But over the course of the next half-century, a rising generation of daring actresses and comics brought a new kind of woman to center stage. Exploring and exploiting modern fantasies and fears about female roles and gender identity, these performers eschewed theatrical convention and traditional notions of womanly modesty. They created powerful images of themselves as ambitious, independent, and sexually expressive New Women. *Female Spectacle* reveals the theater to have been a powerful new source of cultural authority and visibility for women. Ironically, theater also provided an arena in which producers and audiences projected the uncertainties and hostilities that accompanied changing gender relations. From Bernhardt's modern methods of self-promotion to Emma Goldman's political theatrics, from the female mimics and Salome dancers to the upwardly striving chorus girl, Glenn shows us how and why theater mattered to women and argues for its pivotal role in the emergence of modern feminism.

Aristotle as Teacher

Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The role of testimony in the getting of reliable belief or knowledge is a central but neglected epistemological issue. Western philosophical tradition has paid scant attention to the individual thinker's reliance upon the word of others; yet we are in fact profoundly dependent on others for a vast amount of what any of us claims to know. Professor Coady begins by exploring the nature and depth of our reliance upon testimony, addressing the complex definitional puzzles surrounding the idea. He analyses the tradition of debate on the topic in order to reveal the epistemic individualism which has given rise to an illusory ideal of 'autonomous knowledge', and to gain a deeper understanding of the issues. He concludes this part of the book by showing what a feasible justification of testimony as a source of knowledge could be. In the second half of the book the author uses this new view of testimony to challenge certain widespread assumptions in the fields of history, mathematics, psychology, and law.

Born Brilliant

The invasions of Korea launched by the dictator Toyotomi Hideyoshi (1592-1593 and 1597-1598) are unique in Japanese history for being the only time that the samurai assaulted a foreign country. Hideyoshi planned to invade and conquer China, ruled at the time by the Ming dynasty, and when the Korean court refused to allow his troops to cross their country, Korea became the first step in this ambitious plan of conquest. In 1592 a huge invasion force of 150,000 men landed at the ports of Busan and Tadaejin under the commanders Konishi Yukinaga and Kato Kiyomasa. These two Japanese divisions rapidly overran their Korean counterparts, taking the principal cities of Seoul and then Pyongyang and driving the remnants of the Korean Army into China. The Japanese division under Kato Kiyomasa even started to advance into Manchuria. However, the Korean strength was in their navy and the vital Korean naval victory of Hansando disrupted the flow of supplies to the invasion forces, forcing them to hold their positions around Pyongyang. In 1593, the Chinese invaded capturing Pyongyang from the Japanese and driving them southwards. This phase of the war ended in a truce, with the Japanese forces withdrawing into enclaves around the southern port of Busan while the Ming armies largely withdrew to China. In 1597, following the breakdown in negotiations, the Japanese invaded again with a force of 140,000 men. However, the Chinese and Koreans were now better prepared and the advance came to a halt south of Seoul, and then forced the Japanese southwards. In November 1598 Hideyoshi died, and with him the enthusiasm for the military adventure. The Japanese council of regents ordered the withdrawal of the remaining forces, and the naval battle of Noryang, which saw the Japanese fleet annihilated by the Korean admiral Yi-Sunshin, proved to be the last significant act of the conflict.

Semantics

This first volume of Niklas Luhmann's two-part final work was initially published in German in 1997. The culmination of his thirty-year theoretical project to reconceptualize sociology, it offers a comprehensive description of modern society on a scale not attempted since Talcott Parsons. Beginning with an account of the fluidity of meaning and the accordingly high improbability of successful communication, Luhmann analyzes a range of communicative media, including language, writing, the printing press, and electronic media as well as "success media," such as money, power, truth, and love, all of which structure this fluidity and make communication possible. An investigation into the ways in which social systems produce and reproduce themselves, the book asks what gives rise to functionally differentiated social systems, how they evolve, and how social movements, organizations, and patterns of interaction emerge. The advent of the computer and its networks, which trigger potentially far-reaching processes of restructuring, receive particular attention. A concluding chapter on the semantics of modern society's self-description bids farewell to the outdated theoretical approaches of "old Europe," that is, to ontological, holistic, ethical, and critical interpretations of society, and argues that concepts such as "the nation," "the subject," and "postmodernity" are vastly overrated. In their stead, "society"—long considered a suspicious term by sociologists, one open to all kinds of reification—is defined in purely operational terms. It is the always uncertain answer to the question of what comes next in all areas of communication.

Female Spectacle

The six-volume set *Witchcraft and Magic in Europe*, of which this volume is the fifth, provides a scholarly survey of the supernatural beliefs of Europeans from ancient times to the present. Contributors combine political, legal, and social historical approaches with a critical synthesis of cultural anthropology, historical psychology, and gender studies. With the end of witch trials in the 18th century, the writers

chart the process of and reasons for the decriminalization of witchcraft, but also challenge the widespread assumption that Europe became "disenchanted." Presented here are surveys of the social role of witchcraft, as well as a full treatment Victorian supernaturalism and the continued importance of witchcraft and magic as topics of debate among intellectuals and other writers. Three authors contribute three extensive articles: "The Decline and End of Witchcraft Prosecutions" by Brian P. Levack (U. of Texas); "Witchcraft After the Witch-Trials" by Marijke Gijswijt-Hofstra (U. of Amsterdam); and "Witchcraft and Magic in Enlightenment, Romantic and Liberal Thought" by Roy Porter (Wellcome Institute for the History of Medicine). This domain includes investigations into those psychological processes that occur between the process of selecting media messages for consumption and assessments of whatever processes mediate the long-term impact such message consumption may have on consumers' subsequent behavior. The late 1690 and early 70s may be remembered as the years of the great bank and other armed robberies in Kenya. This is the true story of one of the participants in some of those robberies, John Kiriamiti. In raw and candid language, Kiriamiti tells the story of how he dropped out of secondary school when he was only fifteen years old, and for a time became a novice pickpocket, before graduating into crimes like car-breaking and ultimately into violent robbery. This spell-binding story takes the reader into the underworld of crime, and it depicts graphically the criminals struggle for survival against the forces of law. John Kiriamiti was imprisoned on 6 January 1971, after being convicted on a charge of committing robbery at Naivasha on 4 November 1970. Kiriamiti left Naivasha Maximum Security Prison in August 1984, just five months after the publication of this novel and those following which were a sensation with Kenyan youth in the late 1980s and '90s.
