A User's Guide to Neglectful Parenting

Meditations on fatherhood from the author of Jerusalem: Chronicles from the Holy City With A User's Guide to Neglectful Parenting, the trademark dry humor that pervades Guy Delisle's landmark and praised graphic travelogues takes center stage. Quick, light vignettes play on the worries and cares any young parent might have, and offer wry solutions to the petty frustrations of being a dad who works from home. Readers familiar with Delisle's stranger-in-a-strange-land technique for storytelling (employed in Jerusalem, Pyongyang, Burma Chronicles, and Shenzhen) will recognize the titular parent in this book; Delisle's travelogues were simultaneously portraits of complex places and times, and portraits of a stay-at-home dad's ever-changing relationship with his children while his wife is out working for Doctors Without Borders. The relationship between young child and all-too-irony-aware parent is beautifully done here, and Delisle's loose flowing style has been set free, creating a wonderful sense of motion throughout. A User's Guide to Neglectful Parenting is an intimate, offbeat look at the joys of parenting. A User's Guide to Neglectful Parenting has been translated from the French by Helge Dascher. Dascher has been translating graphic novels from French and German to English for over twenty years. A contributor to Drawn & Quarterly since the early days, her translations include acclaimed titles such as the Aya series by Marguerite Abouet and Clément Oubrerie, Hostage by Guy Delisle, and Beautiful Darkness by Fabien Vehlmann and Kerascoët. With a background in art history and history, she also translates books and exhibitions for museums in North America and Europe. She lives in Montreal.

The Owner's Manual to Terrible Parenting

Guy Delisle knows all the worst parenting techniques Guy Delisle, the author of Jerusalem: Chronicles from the Holy City and A User's Guide to Neglectful Parenting, shares hilarious new comic strips that pay tribute to all the ways parents can drive their kids crazy, and vice versa, in The Owner's Manual to Terrible Parenting. Slipping grammar lessons into bedtime stories, being challenged by difficult toys, and pretending to forget you even have a son: it's all in a day's work for Delisle. In The Owner's Manual,

Delisle doesn't hesitate to make a slightly bumbling, fictionalized version of himself the butt of the joke, though his children often contribute zingy repartee and laugh-out-loud insight in the stories on display here. The Owner's Manual is the perfect antidote to frustrating car rides filled with "Are we there yet?" and epic battles over homework. Delisle's effortless pacing and witty punch lines reign supreme here, making each vignette zip along to its conclusion.

Factory Summers

For three summers beginning when he was 16, cartoonist Guy Delisle worked at a pulp and paper factory in Quebec City. *Factory Summers* chronicles the daily rhythms of life in the mill, and the twelve hour shifts he spent in a hot, noisy building filled with arcane machinery. Delisle takes his noted outsider perspective and applies it domestically, this time as a boy amongst men through the universal rite of passage of the summer job. Even as a teenager, Delisle's keen eye for hypocrisy highlights the tensions of class and the rampant sexism an all-male workplace permits. Guy works the floor doing physically strenuous tasks. He is one of the few young people on site, and furthermore gets the job through his father's connections, a fact which rightfully earns him disdain from the lifers. Guy's dad spends his whole career in the white collar offices, working 9 to 5 instead of the rigorous 12-hour shifts of the unionized labor. Guy and his dad aren't close, and *Factory Summers* leaves Delisle reconciling whether the job led to his dad's aloofness and unhappiness. On his days off, Guy finds refuge in art, a world far beyond the factory floor. Delisle shows himself rediscovering comics at the public library, and preparing for animation school—only to be told on the first day, "There are no jobs in animation." Eager to pursue a job he enjoys, Guy throws caution to the wind. Translated by Helge Dascher and Rob Aspinall

The Graphic Lives of Fathers

This book explores the representation of fatherhood in contemporary North American autobiographical comics that depict paternal conduct from the post-war period up to the present. It offers equal space to autobiographical comics penned by daughters who represent their fathers' complicated and often disappointing behavior, and to works by male cartoonists who depict and usually celebrate their own experiences as fathers. This book asks questions about how the desire to forgive or be forgiven can compromise the authors' ethics or dictate style, considers the ownership of life stories whose subjects cannot or do not agree to be represented, and investigates the pervasive and complicated effects of dominant masculinities. By close reading these cartoonists' complex strategies of (self-)representation, this volume also places photography and archival work alongside the problematic legacy of self-deprecation carried on from underground comics, and shows how the vocabulary of graphic narration can work with other media and at the intersection of various genres and modes to produce a valuable scrutiny of contemporary norms of fatherhood.

World Record Holders

Universally beloved cartoonist Guy Delisle showcases a career-spanning collection of his work with a sly sense of humor and warm characterization. Before Delisle became an international superstar with his globe-hopping travelogues, he was an animator experimenting with the comics form. Always aware of the elasticity of the human form and honing his keen observer's eye, young Delisle created hilarious set pieces. *World Record Holders* ranges from wistful childhood nostalgia to chagrined post-fame encounters, touching on formally ambitious visual puns and gut-busting what-ifs. Delisle again and again shows how life is both exhilarating and embarrassing. Delisle visits an exhibition of his work in another country and is confronted by an angry spouse who blames him for destroying her marriage. A juvenile game of Bows and Arrows turns menacing as arrows shot straight up in the air turn into barely visible missiles of death. A coded message from space creates different reactions from different people—debates, dance festivals, gallery shows. Translated by Helge Dascher.

The Handbook to Lazy Parenting

And the award for worst dad ever still goes to . . . *The Handbook to Lazy Parenting* is the bestselling cartoonist Guy Delisle's final tribute to the frequently hilarious and absurd situations that any parent will find themselves in when raising young children—all told with his trademark sarcastic wit. But even as his children grow older, wiser, and less interested in their father's antics, Delisle has no shortage of bad-parenting stories, only now, sometimes the joke is on him! From trying to convince Louis to play video games instead of letting him do his homework, to forgetting Alice in a stationery store after buying a pen, to tricking the kids out of dessert to make up for his own blunder, Delisle tells relatable

stories of parenthood, the mistakes we have trouble admitting to, and the impulse that we all sometimes have to give a comically serious answer to a child's comically serious question. With impressive timing and pacing in these lighthearted vignettes, Delisle delivers his gut-wrenchingly funny punch lines in self-deprecating fashion, letting everyone know who is ultimately the butt of the joke. The Handbook to Lazy Parenting will delight parents, of course, but also anyone who has raised or known an inquisitive child and needs some pro tips on being, well, a bad dad!

Children's needs - parenting capacity

This second edition of "Children's needs - parenting capacity" updates the original exploration of the research literature in the light of legal and policy changes in England and findings from more recent national and international research. The edition has also been expanded to cover parental learning disabilities and how it may impact on parenting and children's health and development. The findings show that these parenting issues affect children differently depending on their age and individual circumstances. While some children grow up apparently unscathed, others exhibit emotional and behavioural disorders. This knowledge can inform practitioners undertaking assessments of the needs of children and their families and effective service responses. This publication is essential reading for practitioners, managers and policy makers concerned with improving the outcomes for children and families who are experiencing such problems.

Shenzhen

Guy Delisle's work for a French animation studio requires him to oversee production at various Asian studios on the grim frontiers of free trade. His employer puts him up for months at a time in 'cold and soulless' hotel rooms where he suffers the usual deprivations of a man very far from home. After Pyongyang, his book about the strange society that is North Korea, Delisle turned his attention to Shenzhen, the cold, urban city in Southern China that is sealed off with electric fences and armed guards from the rest of the country. The result is another brilliant graphic novel - funny, scary, utterly original and illuminating.

User's Guide to Marine Corps Leadership

Parents of the world rejoice! Our bestselling How to Traumatize Your Children has been revamped with all-new totally dysfunctional illustrations. This groundbreaking instructional volume teaches you how to give your children the lifelong gifts of mental and emotional damage. Whether you employ the same ruinous techniques your parents used or try out an entirely new approach, you're bound to succeed!

How to Traumatize Your Children

Therapeutic parenting is a deeply nurturing parenting style, and is especially effective for children with attachment difficulties, or who experienced childhood trauma. This book provides everything you need to know in order to be able to effectively therapeutically parent. Providing a model of intervention, The A-Z of Therapeutic Parenting gives parents or caregivers an easy to follow process to use when responding to issues with their children. The following A-Z covers 60 common problems parents face, from acting aggressively to difficulties with sleep, with advice on what might trigger these issues, and how to respond. Easy to navigate and written in a straightforward style, this book is a 'must have' for all therapeutic parents.

The A-Z of Therapeutic Parenting

Do you ever worry that your child feels neglected? Maybe you and your partner both work jobs that require you to spend a lot of hours out of the house, and you fear that leaving your children with babysitters is leading to them feeling neglected? Perhaps you have already started to see signs of your child's behaviour changing and you have begun to wonder whether it is a reaction to feeling neglected? Or maybe you haven't seen any signs yet, but you know it is becoming more common for children to feel neglected and you want to make sure your child does not feel that way? Rest assured, Childhood Emotional Neglect is the book that you have been searching for! You will have everything you need to understand the causes, effects, and impact of childhood neglect, as well as how you can deal with this problem quickly and effectively before there are any lasting impacts. Childhood neglect can happen under the radar so easily, but it can have a major impact in that person's life. From reading this book, you will have a better understanding of the key stages of development that you need to tackle as a

parent and how to spot when your child is feeling neglected. If you don't educate yourself properly on this important topic, you risk missing out on key signs that your child is feeling neglected, and by the time you realize it, it may be too late! Inside *Childhood Emotional Neglect*, discover: How to bond with your baby, even while it is in the womb The 7 key development stages in child's early years How to show your child unconditional love The dire consequences of childhood emotional neglect Ways to set healthy boundaries with your child 5 powerful ways to strengthen your parent-child relationship How to confront any potential feelings you have about childhood neglect 4 tips to help your child identify and express their feelings How to create a safe space for your child Steps to discipline your child without hurting them Why it is important to let go of your feelings And much, much more! Give your child the best possible start in life by investing in this book. Click on "buy now with one click" and start educating yourself further on this important topic!

Aline and the Others

A resource for daughters of mothers with narcissistic personality disorder explains how to manage feelings of inadequacy and abandonment in the face of inappropriate maternal expectations and conditional love, in a step-by-step guide that shares recommendations for creating a personalized program for self-protection and recovery. 50,000 first printing.

Childhood Emotional Neglect

This wordless graphic novel follows the lives of the title character and other men in twenty-six short vignettes.

Will I Ever be Good Enough?

A groundbreaking guide to raising responsible, capable, happy kids Based on the latest research on brain development and extensive clinical experience with parents, Dr. Laura Markham's approach is as simple as it is effective. Her message: Fostering emotional connection with your child creates real and lasting change. When you have that vital connection, you don't need to threaten, nag, plead, bribe—or even punish. This remarkable guide will help parents better understand their own emotions—and get them in check—so they can parent with healthy limits, empathy, and clear communication to raise a self-disciplined child. Step-by-step examples give solutions and kid-tested phrasing for parents of toddlers right through the elementary years. If you're tired of power struggles, tantrums, and searching for the right "consequence," look no further. You're about to discover the practical tools you need to transform your parenting in a positive, proven way.

Albert and the Others

Guy Delisle's newest travelogue revolves around a year spent in Burma (also known as Myanmar) with his wife and son. Burma is notorious for its use of concealment and isolation as social control: where scissor-wielding censors monitor the papers, the de facto leader of the opposition has been under decade-long house arrest, insurgent-controlled regions are effectively cut off from the world, and rumour is the most reliable source of current information. An impressive and moving work of comics journalism from the author of *Pyongyang* and *Shenzen*.

Peaceful Parent, Happy Kids

A comprehensive guide to empirically supported approaches for child protection cases The *Wiley Handbook of What Works in Child Maltreatment* offers clinicians, psychologists, psychiatrists and other professionals an evidence-based approach to best professional practice when working in the area of child protection proceedings and the provision of assessment and intervention services in order to maximize the well-being of young people. It brings together a wealth of knowledge from expert researchers and practitioners, who provide a comprehensive overview of contemporary work informing theory, assessment, service provision, rehabilitation and therapeutic interventions for children and families undergoing care proceedings. Coverage includes theoretical perspectives, insights on the prevalence and effects of child neglect and abuse, assessment, children's services, and interventions with children, victims and families.

Burma Chronicles

Modern families face challenges unprecedented in human history. The time, attention and vigilance required of parents is exhausting and consuming family life. Parents are required to balance complex schedules, be technology aware, social media informed, constantly monitor children's screen time and media communication, cope with academic problems, shield them from the dangers of immorality, find inventive ways to overcome their boredom, organize extracurricular activities, and handle everything within financially constrained circumstances that increasingly require both to be working. Little wonder that anxiety is on the rise and parents are increasingly fearing for their children's future. The authors in this book attempt to address parents' concerns and equip them with the confidence and tools necessary to work towards understanding and addressing the real needs of both themselves and their children, to nurture the child's character, self-confidence, life skills, moral boundaries, spiritual development and much more. There is no quick-fix. Myths are debunked, and practical tips offered throughout which can be implemented immediately, with fun activities outlined at the end of each chapter with the aim of improving parent-child relationships through bonding, love, patience, openness, respect and communication.

The Wiley Handbook of What Works in Child Maltreatment

If you grew up with an emotionally immature, unavailable, or selfish parent, you may have lingering feelings of anger, loneliness, betrayal, or abandonment. You may recall your childhood as a time when your emotional needs were not met, when your feelings were dismissed, or when you took on adult levels of responsibility in an effort to compensate for your parent's behavior. These wounds can be healed, and you can move forward in your life. In this breakthrough book, clinical psychologist Lindsay Gibson exposes the destructive nature of parents who are emotionally immature or unavailable. You will see how these parents create a sense of neglect, and discover ways to heal from the pain and confusion caused by your childhood. By freeing yourself from your parents' emotional immaturity, you can recover your true nature, control how you react to them, and avoid disappointment. Finally, you'll learn how to create positive, new relationships so you can build a better life. Discover the four types of difficult parents: The emotional parent instills feelings of instability and anxiety The driven parent stays busy trying to perfect everything and everyone The passive parent avoids dealing with anything upsetting The rejecting parent is withdrawn, dismissive, and derogatory

Parent-Child Relations: A Guide to Raising Children (Revised Edition)

HOW DOES ONE SURVIVE WHEN ALL HOPE IS LOST? In the middle of the night in 1997, Doctors Without Borders administrator Christophe André was kidnapped by armed men and taken away to an unknown destination in the Caucasus region. For three months, André was kept handcuffed in solitary confinement, with little to survive on and almost no contact with the outside world. Close to twenty years later, award-winning cartoonist Guy Delisle (Pyongyang, Jerusalem, Shenzhen, Burma Chronicles) recounts André's harrowing experience in *Hostage*, a book that attests to the power of one man's determination in the face of a hopeless situation. Marking a departure from the author's celebrated first-person travelogues, Delisle tells the story through the perspective of the titular captive, who strives to keep his mind alert as desperation starts to set in. Working in a pared down style with muted colour washes, Delisle conveys the psychological effects of solitary confinement, compelling us to ask ourselves some difficult questions regarding the repercussions of negotiating with kidnappers and what it really means to be free. Thoughtful, intense, and moving, *Hostage* takes a profound look at what drives our will to survive in the darkest of moments.

Adult Children of Emotionally Immature Parents

Heightened awareness of the problem of sexual abuse has led to deep anxiety over adults touching children in nearly any context. This book probes the disquieting issue of how we can draw a clear line between natural affection towards children and perverse exploitation of them.

Domestic Criminal Violence

Years of program development and research have provided effective strategies for strengthening America's families to prevent delinquency. This guide has been written to help program planners, policy makers, and service providers determine the most effective family-focused and parenting intervention strategies for high-risk youth and families. It reviews what is known about the impact of family characteristics on the risk for delinquency as well as promising family interventions. Providers using the guide will be better able to choose or modify existing programs or create new interventions for high-risk youth.

A User's Guide to Division of Community Services Information Systems

As Bowlby himself points out in his introduction to this seminal childcare book, to be a successful parent means a lot of very hard work. Giving time and attention to children means sacrificing other interests and activities, but for many people today these are unwelcome truths. Bowlby's work showed that the early interactions between infant and caregiver have a profound impact on an infant's social, emotional, and intellectual growth. Controversial yet powerfully influential to this day, this classic collection of Bowlby's lectures offers important guidelines for child rearing based on the crucial role of early relationships.

Hostage

This book provides expert knowledge about the effects of parental substance misuse, coupled with facts, figures and guidance presented in a straightforward and accessible style. Parenting a child affected by parental substance misuse explores general issues around substance misuse and children entering care as well as the impact on children of exposure to substances during pregnancy, including both specific effects (such as Foetal Alcohol Syndrome) and wider issues (such as genetic susceptibilities).

Erotic Attunement

Cribsheet meets The Sh!t No One Tells You in this no-holds-barred, judgment-free parenting guide that sets the record straight on every hot-button parenting topic by longtime journalist and founder of the viral #NoShameParenting movement. What if you could do more for your kids, by doing a whole lot less? Parenting today has become a competitive sport, and it seems that everyone is losing. From the very moment that little line turns blue, parents-to-be find themselves in a brave new world where every decision they make is fraught, every action they take is judged, and everything they do seems to be the wrong thing. Formula feed? Breast is best. Breastfeed in public? That's indecent. Cry it out? You're causing permanent harm to your child. Don't sleep train? Your child will never learn to sleep on his or her own. Stay home? You're setting a bad example for your kids. Go back to work? Don't you love your kids more than your job? Lindsay Powers—former editor-in-chief of Yahoo! Parenting, creator of the #NoShameParenting movement, and mom of two—is here to help parents everywhere breathe a collective sigh of relief. This laugh-out-loud funny, accessible, and reassuring book sets the record straight on all of the insane conflicts that parents face—from having a glass of wine while pregnant to sleep training, childcare, feeding, and even sex after baby. Drawing on the latest research and delivered in a relatable, comforting voice, You Can't F*ck Up Your Kids demonstrates that it is possible to take the stress out of parenting and sit back and enjoy the ride.

Mizah Araştırmaları

This anthology explores tensions between the individualistic artistic ideals and the collective industrial realities of contemporary cultural production with eighteen all-new chapters presenting pioneering empirical research on the complexities and controversies of comics work. Art Spiegelman. Alan Moore. Osamu Tezuka. Neil Gaiman. Names such as these have become synonymous with the medium of comics. Meanwhile, the large numbers of people without whose collective action no comic book would

ever exist in the first place are routinely overlooked. *Cultures of Comics Work* unveils this hidden, global industrial labor of writers, illustrators, graphic designers, letterers, editors, printers, typesetters, publicists, publishers, distributors, translators, retailers, and countless others both directly and indirectly involved in the creative production of what is commonly thought of as the comic book. Drawing upon diverse theoretical and methodological perspectives, an international and interdisciplinary cohort of cutting-edge researchers and practitioners intervenes in debates about cultural work and paves innovative directions for comics scholarship.

Strengthening America's Families

Focusing as much on the emotional well-being of the parent as on the needs of the child, this non-prescriptive guide is based on the Nurturing Programme, a ten-week course that encourages parents and carers to enjoy bringing up children and get the best out of family life.

A Secure Base

February issue includes Appendix entitled Directory of United States Government periodicals and subscription publications; September issue includes List of depository libraries; June and December issues include semiannual index

Parental Substance Misuse

FROM THE BESTSELLING PARENTING EXPERTS BEHIND THE WHOLE-BRAIN CHILD COMES A HIGHLY SUCCESSFUL PLAN FOR HELPING YOUR CHILD BECOME MORE INDEPENDENT AND RESILIENT. 'This unique book shows us how to help our children embrace life with all of its challenges. It's a treasure chest of parenting insights and techniques' CAROL DWECK, bestselling author of *Mindset* Children can often act out or shut down when faced with a setback or a tricky issue like homework, food or screen time. This is what acclaimed parenting experts Dr Siegel and Dr Bryson call the 'No Brain' response. But you can help your child develop the ability to cope, solve their own problems and thrive by nurturing their 'Yes Brain'. Drawing on their successful work with thousands of parents and children from all backgrounds, Dr Siegel and Dr Bryson provide the advice, tools and activities to help parents with children of all ages. This is what the 'Yes Brain' approach looks like in action: *A 5-year-old boy thinks about his first day at school and says, 'I'm nervous but I'll give it a try.' *An 8 year-old girl says, 'I'd like to join the football team, even though none of my friends like football.' *A 14 year-old boy looks at a test he's earned a D- for and says, 'That's not the mark I wanted but it's not the end of the world. I'll ask the teacher how I can improve.'

You Can't F*ck Up Your Kids

Do you think your parent might be toxic? Do you feel like you are living with the consequences of bad parenting? Does your parent still treat you badly even though you are an adult? Maybe your parent has passed away, but you still seem to be affected by them and can't stop thinking about the way they treated you. This Book is for anyone that has been in a toxic relationship with their parent and would like to learn more about it and learn how to recover from the long lasting traumatic effects that the relationship has left you with. But First, A Warning: Before we go further, let me make something abundantly clear: This book does not contain a "magic wand" that will bring you instant answers without having to do any work. What I'm about to share with you takes both time and effort and has worked wonders for me and my private clients. And I believe it can help you too. But this only works for those who are willing to look deep inside themselves and are committed to finding true happiness. So with that said, let me tell you... Does any of this sound familiar to you? As a child: - You felt like you were never good enough - Your parent seemed wrapped up in themselves and their life - Your parent didn't seem to care about your feelings - Your parent was very controlling and manipulative - You were made to feel bad or wrong if you got upset - Your needs weren't met As an adult: - You still feel like you are not good enough - You feel confused, anxious, sad in your relationship with your parent - Your parent puts you down, and never celebrates your achievements - You sometimes doubt your perception of events, and feel like you are going crazy - You struggle to make decisions and have difficulty trusting your gut instinct or intuition - Your parent is very critical, manipulative, controlling and tells lies - They still don't seem to care about your feelings or your needs - You feel like you are the one parenting them This Book is for you if you have been in a toxic relationship with your parent and you just want to make sense of it and make some changes. Maybe you have tried to talk to your partner or friends about your relationship, but they don't understand either and they may even tell you that it couldn't have been that bad. Maybe

you know that your parent treated you badly and unfairly growing up, and you know its affecting you now but you don't know what to do about it. Sometimes a parent can have a mental health illness like depression, borderline personality disorder, narcissistic personality disorder, or addictions, which unfortunately would have created a toxic environment for you to grow up in. If so, then you might be feeling really alone and confused, frustrated and unable to see a way out or how things can change. This Book will help you to: - No longer feel confused or questioning your parents behavior - Finally make sense of your childhood - Learn what was really going on - Learn why you feel the way you do - Make sense of your experiences - Learn how to protect yourself from any future toxic relationships - Regain that lost self esteem and self worth I can't promise you that reading to this book is going to be a "total cure"

Cultures of Comics Work

Attachment is at the heart of family life and adoption. Schifield and Beek trace the pathways of secure and insecure patterns of attachment from birth to adulthood, exploring the impact of past experiences of abuse, neglect and separation on children's behaviour in foster and adoptive families. They explain from an attachment perspective the dimensions of parenting that are associated with helping children to feel more secure and fulfil their potential in the family - with peers, at school and in the community.

Child Neglect

This User's Guide is intended to support the design, implementation, analysis, interpretation, and quality evaluation of registries created to increase understanding of patient outcomes. For the purposes of this guide, a patient registry is an organized system that uses observational study methods to collect uniform data (clinical and other) to evaluate specified outcomes for a population defined by a particular disease, condition, or exposure, and that serves one or more predetermined scientific, clinical, or policy purposes. A registry database is a file (or files) derived from the registry. Although registries can serve many purposes, this guide focuses on registries created for one or more of the following purposes: to describe the natural history of disease, to determine clinical effectiveness or cost-effectiveness of health care products and services, to measure or monitor safety and harm, and/or to measure quality of care. Registries are classified according to how their populations are defined. For example, product registries include patients who have been exposed to biopharmaceutical products or medical devices. Health services registries consist of patients who have had a common procedure, clinical encounter, or hospitalization. Disease or condition registries are defined by patients having the same diagnosis, such as cystic fibrosis or heart failure. The User's Guide was created by researchers affiliated with AHRQ's Effective Health Care Program, particularly those who participated in AHRQ's DEcIDE (Developing Evidence to Inform Decisions About Effectiveness) program. Chapters were subject to multiple internal and external independent reviews.

The Parenting Puzzle

Research in child abuse has expanded dramatically since the first controlled studies were started in the mid-1970s. The fields of developmental psychology and clinical child psychology have progressed in tandem, resulting in theoretical richness and increased methodological sophistication. With these advances, it is now commonly recognized that child abuse and neglect can be fully understood only through the use of longitudinal research methods --difficult, expensive, and time-consuming though their application may be. THE EFFECTS OF CHILD ABUSE AND NEGLECT reviews the findings from current longitudinal research and also serves as an authoritative guide to the complex methodologic issues involved in conducting such studies. The book's introductory chapter examines the intergenerational transmission of abusive behavior and its adult sequelae. In-depth analyses of three innovative longitudinal investigations follow: the first focuses on the value of an at-risk approach to research in this area; the second evaluates structural equations modeling, a relatively new statistical method; and the third demonstrates the usefulness of a transactional approach to the longitudinal study of different forms of maltreatment. Other contributions focus specifically on the interpretation of existing research and on conducting future studies. Provocative discussions on crucial definitional issues are complemented by equally trenchant analyses of as-yet unresolved design considerations. The remaining chapters deal with basic measurement issues, especially the assessment of parental personality and psychopathology, psychological abuse, parental childrearing belief systems, parent-child attachment and other domains of parent-child interaction, and the impact of maltreatment on physical and emotional development. An effective synthesis of practical and research issues, THE EFFECTS

OF CHILD ABUSE AND NEGLECT is essential reading for all child development, psychiatry, child psychiatry, family sociology, social work, pediatric, nursing, and other human services professionals responsible for recognizing, treating, and preventing child abuse as well as for ameliorating its long-term consequences.
