Oxford Mini Dictionary and Thesaurus

First published in 1991, the very successful first edition of The Oxford Thesaurus has now sold over 126,000 copies. This new edition (NB new format), which for the first time includes antonyms in the main A-Z text, along with many additional new synonyms, broadens the book's appeal still further. The Oxford Thesaurus remains the most useful A-Z thesaurus available today, with more practical guidance for the user than any other competing title. Around 350,000 synonyms and antonyms, covering general

English as well as thousands of regional and idiomatic words and expressions, are listed in A-Z form for ease of reference. Generous and detailed labelling shows how to use synonyms, and example sentences throughout make it even easier to select the correct synonym. The most useful synonyms (ie those that are closest in meaning to the headword) are listed first - a more helpful arrangement than a simple alphabetical listing under the headword. If the word for which you seek an alternative is not to be found as a headword, you can simply turn to the synonym index which lists 265,000 synonyms and shows you under which headword each synonym is located. In addition, all synonyms which also have their own headword entry (at which further related words may be found) are indicated by a simple cross-reference symbol. On the first edition: 'handier than Roget both in being alphabetical and in offering example-sentences. The most just in just a mo.' Prof. Sir Randolph Quirk, The Observer.

Excerpt from *The Artist's Repository, or Encyclopedia of the Fine Arts, Vol. 4: Dictionary and History of Art* In London there have been for many years academical Institutions, in which living models have been selected for the study of the naked; originally in a more confined manner, at the academy in St. Martin's Lane; afterwards, when the Royal Incorporated Society of Artists of Great Britain obtained his Majesty's charter, they had a more considerable academy, and some public lectures: to these succeeded the Royal Academy. The principal studies in an academy usually are, Design, which is practised first from plaster models, casts from the best antiques, &c. which is generally the first school: and after the student has acquired a facility in treating these subjects, the living model is his next study. Anatomy, in its relation to art, is usually taught by some eminent surgeon. The other professors, such as of architecture, painting, sculpture, &c. are commonly members of the academy, and deliver lectures in their turns. The Royal Academy of London consists of forty academicians, painters, sculptors, or architects; twenty associates; and six associate engravers, who are incapable of offices, and of voting. The Officers are a president, council, consisting of eight members, four of whom go out by rotation, yearly; and who at each meeting receive two pounds five shillings, equally divided among them, or are fined for non-attendance. The whole body of the academicians meet once a year, to adjudge premiums, &c. and each receives five shillings for his attendance. There is also a secretary, who has apartment, in Somerset House, and a salary of 60l. per annum; a keeper, who has apartments, and a salary of 100l per annum, who superintends the academy; a treasurer, salary 60l. per annum; librariin, salary 50l. The Artist's Repository, or Encyclopedia of the Fine Arts, Vol. 4

The Encyclopedia of Fictional Artists (1605 – today) is a project by Koen Brams, who together with co-editors, initiated a compilation of biographies from fictional artists as presented in world literature. Although published and distributed in a different context (literature), this compilation provokes the perception of the art context as a descriptive narrative and is therefore to be seen as a conceptual framework for potential artistic additions. The Addition is Krist Gruijthuisen's editorial answer To The Encyclopedia, inviting more than 20 artists to reflect upon the problematics of fiction, history, and encyclopedic knowledge. Brought together by a bellyband, The two volumes constitute the first English edition of Brams' classic (first published in Dutch). Published with Kunstverein, Amsterdam; de Appel arts centre, Amsterdam; Mondriaan Foundation, Amsterdam; and with the help of the Flemish Literature Fund, Antwerp as well as the Foundation For The Production and Translation of Dutch Literature.

Robert Fawcett who was known by his peers as 'The illustrator's illustrator', is recently chronicled in a book by Auad publishing, a well known publisher for quality books on artists from the turn of the century to the 'Golden Age of Illustration'. Walt Reed who is a legend in his own time as an artist and a purveyor of famous artists for almost a century was a personal friend of Robert Fawcett wrote the introduction for the book. The book will contain more than a hundred color illustrations and numerous black and white drawings. These are images which have long been out of circulation and are largely unavailable today. Many of the images from the book were made from the originals which have been hidden away for decades by private collectors so the quality will be superior to the images published in magazines decades ago. The book will measure 9X12\

This "visually arresting" photography book collects and organizes images from the natural and built world according to the spectrum of colors in a rainbow (Country Living). This playful collection of rainbows is a bright and beautiful appreciation of all the color that surrounds us. Artist Julie Seabrook Ream invites us to see the extraordinary beauty of ordinary objects: she gathers colorful iterations of a single type of thing, from feathers to fishing gear, matchbooks to macarons, and neatly arranges them in rainbow order. A fascinating index details all the objects in each rainbow, bringing the magnetic appeal of meticulous organization to this burst of color in book form. This celebratory book is a treasure for those who love art, design, and a fresh perspective. "[These images] kinda just make you feel like everything is right with the world." —BuzzFeed "The perfect book for color organizing enthusiasts." —Mental Floss "Whether you're a color fiend or an organization enthusiast, Encyclopedia of Rainbows is sure to make you see the world around you through a whole new (colorful) lens." —My Modern Met "Encyclopedia of Rainbows is a reminder to stay curious: To think about the natural colors we might find in nature, the objects we might be overlooking. And to consider what we can create when we bring all of these together." —Hello Giggles "This fun new photography book is filled with rainbows made of everything from flowers to stamps to sweets." —Martha Stewart Weddings

Encyclopedia of Colour for Watercolour Artists

Encyclopedia of Jewish American Artists presents over 80 19th- and 20-century Jewish American artists, ranging from the critically neglected Theresa Bernstein, Ruth Gikow, and Jennings Tofel, to the well-known Eva Hesse, Roy Lichtenstein, and Larry Rivers. The subject matter of some of these artists may surprise readers. Adolph Gottlieb designed and supervised the fabrication of a 35-foot wide, four-story high stained glass facade for a synagogue; Louise Nevelson sculpted a Holocaust memorial; and Philip Pearlstein painted a version of Moses with the Tablets of the Law early in his career. Covering painters, sculptors, printmakers, and photographers, as well as artists who engage in newer forms of visual expression such as video, conceptual, and performance art, the book is in part intended to stimulate further scholarship on these artists. When appropriate, entries reveal the influence of the Jewish American encounter on the artists' work along with other factors such as gender and the immigrant experience. In many cases, the artists' own words are employed to flesh out perspectives on their art as well as on their Jewish identity. To that end, the volume contains excerpts from recent interviews conducted by the author with some of the artists, including Judy Chicago, Audrey Flack, Jack Levine, and Sol LeWitt. Illustrations accompanying each artist's entry, some in color, aid this invaluable look at Jewish American art.
