### Grown and Flown

PARENTING NEVER ENDS. From the founders of the #1 site for parents of teens and young adults comes an essential guide for building strong relationships with your teens and preparing them to successfully launch into adulthood The high school and college years: an extended roller coaster of academics, friends, first loves, first break-ups, driver's ed, jobs, and everything in between. Kids are constantly changing and how we parent them must change, too. But how do we stay close as a family as our lives move apart? Enter the co-founders of Grown and Flown, Lisa Heffernan and Mary Dell Harrington. In the midst of guiding their own kids through this transition, they launched what has become the largest website and online community for parents of fifteen to twenty-five year olds. Now they've compiled new takeaways and fresh insights from all that they've learned into this handy, must-have guide. Grown and Flown is a one-stop resource for parenting teenagers, leading up to—and through—high school and those first years of independence. It covers everything from the monumental (how to let your kids go) to the mundane (how to shop for a dorm room). Organized by topic—such as academics, anxiety and mental health, college life—it features a combination of stories, advice from professionals, and practical sidebars. Consider this your parenting lifeline: an easy-to-use manual that offers support and perspective. Grown and Flown is required reading for anyone looking to raise an adult with whom you have an enduring, profound connection.

### Care Packages

Ideas and inspiration for crafting beautiful parcels for any occasion Michelle Mackintosh is on a mission to encourage people to reconnect with each other. Many of us send care packages without even realizing it – get-well packs, student treats, food packages to expats, clothes packages to charities,

family packages to loved ones in the military – the list can be endless. Put together with Michelle's beautiful collage aesthetic, Care Packages brings back the art of crafting packages with love and care. The book is split into several chapters including reasons to send a care package, types of care packages, delivery, what to include and projects on how to design, craft, and decorate your care package. Projects are easy to achieve with step-by-step photography and instructions. This book will inspire a sense of time, love, and affection when corresponding with a loved one.

### What to Expect When Your Child Leaves for College

According to experts in the field of psychology, more than half of parents experience some sort of separation anxiety when their child leaves for college. You may have been looking forward to your child's departure for 18 years, but now that the time has finally come you are experiencing mixed emotions. *What to Expect When Your Child Leaves for College* will provide you with valuable information and will help make the transition easier. In this new book, you will learn how to encourage independence, how to offer support, how to handle the drop-off, how to deal with empty nest syndrome, how to talk to your child about his or her emotions, how to keep the lines of communication open, how to plan meaningful family time, and how to teach your child to live on his or her own. Additionally, you will be provided with insight into your child's emotions, which will help you understand his or her behavior, such as spending excessive amounts of time with friends, ignoring you, or being disagreeable. You will learn how to handle the emotional rollercoaster, how to give your child time to adjust to college life, how to prepare for your child's first visit home, and how to help others deal with the transition. By reading this book, you will learn how your life will change, and you will discover ways to fill the void. *What to Expect When Your Child Leaves for College* provides you with countless ways to prepare yourself for your child's departure, as well as advice from parents, students, and psychologists. Whether your first child is leaving for college or it is your youngest child going away to school, you will find ways to cope with this difficult time in your life. ### Almost Grown: Launching Your Child from High School to College

A time of tumult, your children's transition from high school to college can also be a time of growth. This book shows you how. Almost Grown is a guide for parents to the final years of high school and first years of college, offering intelligent counsel not only in practical issues such as developing a college search plan or handling questions of money, sex, and substance abuse, but also in the psychological issues that arise during this family transition. Writing as both psychologist and parent, Patricia Pasick tackles the key question of how mothers and fathers can foster adolescents' growth and autonomy while maintaining family connections and stability. She also explores the unexpected: the impact of the changing family on younger siblings, the benefits and frustrations of college students' returning home, the challenges and opportunities that nontraditional families face, and more. Pasick delves into another critical yet underplayed aspect of the college transition: how parents' lives change. Almost Grown guides readers through this major step in adult development and new start to adult partnerships. Almost Grown contains advice from high school and college admissions counselors across the country and, at the heart of the book, stories of personal experience from parents and adolescents who are making, or have made, the transition.

### Doing Holy Business

Welcome to the new gold standard in critical care transport training. Published in conjunction with the American Academy of Orthopaedic Surgeons (AAOS) and the American College of Emergency Physicians (ACEP), Critical Care Transport offers cutting edge content relevant to any healthcare provider training in critical care transport. Like no other textbook in this market, Critical Care Transport thoroughly prepares medical professionals to function as competent members of a critical care team by covering the material that everyone—paramedics, nurses, physicians, and specialty crew—needs to know to operate effectively in the prehospital critical care environment. This book meets the curricula of major critical care training programs, including University of Maryland, Baltimore County (UMBC). It covers both ground and flight transport, and meets the objectives of critical care transport certification exams such as the Certified Flight Paramedic (FP-C) exam administered by the Board for Critical Care Transport Paramedic Certification. Content includes information specific to prehospital critical care transport, such as flight physiology, lab analysis, hemodynamic monitoring, and specialized devices such as the intra-aortic balloon pump. Standard topics such as airway management, trauma, and pharmacology are covered in the context of critical care. Chapters have been authored by leading critical care professionals across the country and represent the most current, state-of-the-art information on management of critical care patients.

### Critical Care Transport

Many Americans believe that people who lack health insurance somehow get the care they really need. Care Without Coverage examines the real consequences for adults who lack health insurance. The study presents findings in the areas of prevention and screening, cancer, chronic illness, hospital-based care, and general health status. The committee looked at the consequences of being uninsured for people suffering from cancer, diabetes, HIV infection and AIDS, heart and kidney disease, mental illness, traumatic injuries, and heart attacks. It focused on the roughly 30 million-one in seven-working-age Americans without health insurance. This group does not include the population over 65 that is covered by Medicare or the nearly 10 million children who are uninsured in this country. The main findings of the report are that working-age Americans without health insurance are more likely to receive too little medical care and receive it too late; be sicker and die sooner; and receive poorer care when they are in the hospital, even for acute situations like a motor vehicle crash.

### The Traffic World

Families with boys often find the world reacts to them in mock horror. Even though parents love their sons, privately they admit that boys can be a handful to raise--they are boisterous, competitive, reckless, distractable. The challenge of wills between parent and son starts early, and the quest to civilize young bulls may seem hopeless some days. Yet believers know that God has given them children as a gift of heaven, specially chosen for their particular families and marked as a blessing. If that's so, why does it seem so hard? How can we prepare these boys to serve God when it's all we can do to make it through another day? Isn't there a better way? Raising Real Men: Surviving, Teaching and Appreciating Boys shows the answer is emphatically yes. Written by the parents of six boys, Raising Real Men provides hope and encouragement to families with sons. Starting from the premise that God made boys to become men, Hal and Melanie Young offer Biblical principles and tested, practical ideas for training the manly virtues that can drive parents and teachers up the wall. This is a practical guide to equipping the hearts and minds of boys without breaking or losing your own. "...earthy, realistic, humorous, and scriptural ..." -- Douglas Wilson, author, Future Men "This is just what the doctor ordered for parents who want to raise capable Christian men of character." -- John Rosemond, author, Parenting By The Book

Ophthalmic Nursing provides an overview for those just setting out in a role within ophthalmic nursing. It includes basic and comprehensible anatomy and physiology – the foundations for understanding how the eye functions and why and how problems occur – and relates them to the care and needs of the patient. This accessible text includes evidence-based procedure guidelines and the inclusion of reflective activities in most chapters allows readers to apply their knowledge to the realities of the care setting. Also covered are the most recent National Institute for Health and Care Excellence (NICE) guidelines for glaucoma and age-related macular degeneration. Since the publication of the fourth edition, there have been many advances in the care and management of the ophthalmic patient.

The authors have updated the chapters accordingly and included new colour images and diagrams. References, further reading and websites have also been updated to reflect current trends. A valuable resource for nurses in practice and training, this book continues to be the 'go-to' source for those caring for the ophthalmic patient.
