How to Get A's in College

These days college is not a luxury but a necessity. With four (or more) long years of college life ahead of them, it's essential that students have some help to make the most of their time. This book explains how, featuring peers who talk directly and personally to students. Here, hundreds of successful college grads explain how to get top grades, find the right major, manage time, stay motivated, avoid stress, seek out the best teachers and courses, form important relationships, and graduate — happily — at the top of the class. Short, pithy chapters cover such topics as writing a good paper, research and the college library, taking advantage of college support services, balancing athletics and academics, navigating modern college technology, and more.

How to Survive Your Freshman Year

"The work is a compilation of advice and stories from hundreds of students at more than 100 colleges across the US, regarding all the important aspects of life as a first-year college student, based on interviews with those students. Topics covered include: leaving home, dormitory life, studying, choosing classes and majors, fraternities, extra-curricular activities, campus food, etc. The work also includes short "expert articles" written by professionals who work with college students. This is the 5th edition of How to Survive Your Freshman Year"--

How to Survive Getting Into College

Getting into college is a national obsession among high school students and their parents, and it's only getting worse. Each year, there are more applications and tougher admissions standards at competitive schools. In a tight job market, the stakes are higher than ever. Businesses, books, and programs exist to help students win acceptance to top schools, but why not go to the real source — recent high school graduates who survived the college admissions process. In How to Survive Getting Into College, hundreds of students share their hard-won wisdom, thoughts, strategies, struggles, and even failures. Filled with tips, tricks, humor, and horror stories, as well as practical advice on applications, interviews, and financial aid, the book is a lifeline for high school juniors and seniors.

How to Survive the SAT (and ACT)

This guide seeks to encourage and instruct students faced with the daunting first step of the college admissions process: the SAT and ACT tests. More than just a test-prep guide, How to Survive the SAT is a compendium of anecdotes and tips from past test-takers with high scores. From advice on everything from getting into the frame of mind, to crucial test-day rituals, this guide offers practical help for those ready to achieve their best possible scores.

How to Survive Your Freshman Year

Provides college freshmen with advice on such topics as dorm life, roommates, choosing classes, studying, working, laundry, dating, free time, and fraternities and sororities.

University and Chronic Illness

How to figure out what you want out of college—and life. Choosing a college major is the biggest decision of one's college experience, and there are many factors to consider. Here, you will discover which majors will give the best chances of finding employment, which majors are most likely to lead to the highest-paying jobs, what major best suits each personality, and what skills and background you need to realize your goals.

The Complete Idiot's Guide to Choosing a College Major

Getting into college is one of life's most daunting challenges. Why not let the experts help? The experts in this case include dozens of college consultants, admissions officers, parents, and, best of all, hundreds of students who have experienced the process firsthand. Individual chapters cover such topics as getting started, preparing for the SAT, deciding which colleges to apply to, perfecting applications and essays, putting one's best foot forward in an interview, and what to do for extracurricular activities and summer vacations. Additional chapters explain what to look for when visiting schools, how to get financial aid, getting support from counselors and parents, dealing with rejection and acceptance, and how to pick the right school. This expanded edition includes special "Counselor's Corner" features, material on "How to Survive Getting Your Kid into College," Harvard Law grad Jay Brody's discussion of how to write the best application essay, and much more.

American Book Publishing Record

Way to An 'A' will help students of any age to get 'A's in school and life. A study guide that teaches you the tools of success. Learn how to write exams, take notes, manage your time, how to stay motivated and how to overcome failure.

Get into College

Provides college freshmen with advice on such topics as dorm life, roommates, choosing classes, studying, working, laundry, dating, free time, and fraternities and sororities.

How to Survive Your Freshman Year

After the parties, the frat rushes, the Big Test and the Big Game, the caffeinated all-nighters, and the pomp and circumstance, life comes knocking. Finding a job and keeping it; renting an apartment or sharing a sublet; dealing with your own money instead of your parents' money; looking for love (and looking and looking . . .): who knew how complicated the world after college would be? Nearly 800 contributors to this How to Survive book found out, and happily share their hard-won insights. This useful, upbeat book collects stories, tips, and advice on finding the best place to live, entering adulthood without losing passion, taking care of one's health, finding a great job, and not going home for the holidays for the first time. Covering both the psychological adjustments and the nuts and bolts of daily life as a grown-up, How to Survive the Real World is witty, practical, and the perfect gift for the nervous grad.

How to Survive in College

Need a job? An apartment? Insurance? A plan to pay for it all, without going into debt? Know how to cook and iron? And what ever happened to the weekend keg party? It seems like only yesterday that you were tossing your graduation cap in the air. Now, you're confronted with challenging real-world questions. There's no need to stress. Here we help. Hundreds of graduates help you navigate the real world with hard-won wisdom, tips, and advice. It's an orientation guide to becoming a successful, semi-mature adult. "Life After College" is the roommate every new college grad needs. Topics covered include: Finding and Keeping Your Dream Job Working Well with Bosses and Coworkers The Perfect Place to Live and How to Get There Off-Campus Love Cooking, Clothing, Etiquette and Other Grown-Up Stuff Is Grad School for You? Savvy Advice on Budgeting and Getting By with Less With a special financial how-to guide from the American Institute for Economic Research. "

How to Survive the Real World: Life After College Graduation

Congratulations! You've made it to your senior high school year! Your notebooks are bought, your screens are open and you are ready to begin...and then you get your timetable. Yikes! You are suddenly stuck with tough teachers and a cluttered schedule. How will you achieve that a high average? How will you deal with difficult teachers and compulsory courses? How will you ever get into college/university? Find these answers and more in this essential survival guide, specifically tailored to help you navigate through your Grade 12 year. Reading this short but essential guide will give you the advantage. Inside, you'll discover lessons and advice from a senior level teacher who has witnessed students succeed and fail. You'll read about students like Ana, who lost her scholarship with one pivotal error of judgment, or Adam who won it all, including a full scholarship by doing just ONE thing right. You'll also learn about mediocre students like Dan, who still managed to get accepted into his #1 school by following the simple steps included in this guide. Are you ready to learn the TOP 10 PROVEN ways to master your Grade 12 year and enroll in the post-secondary institution of your dreams? This is your ultimate survival guide. Acceptance is just a few short pages away.

Life After College

Beginning with "The Writer's Wonderland—Or: A Warning" and ending with "You've Published a Book—Now What?" The Creative Writer's Survival Guide is a must-read for creative-writing students and teachers, conference participants, and aspiring writers of every stamp. Directed primarily at fiction writers but suitable for writers of all genres, John McNally's guide is a comprehensive, take-no-prisoners blunt, highly idiosyncratic, and delightfully subjective take on the writing life. McNally has earned the right to dispense advice on this subject. He has published three novels, two collections of short fiction, and hundreds of individual stories and essays. He has edited six anthologies and worked with editors at university presses, commercial houses, and small presses. He has earned three degrees, including an MFA from the Iowa Writers' Workshop, and taught writing to thousands of students at nine different universities. But he has received far more rejections than acceptances, has endured years of underpaid adjunct work, and is presently hard at work on a novel for which he has no guarantee of publication. In other words, he's been at the writing game long enough to rack up plenty of the highs and lows that translate into an invaluable guide for anyone who wants to become a writer or anyone who is already a writer but doesn't know how to take the next step toward the writing life. In the sections The Decision to Become a Writer, Education and the Writer, Getting Published, Publicity, Employment for Writers, and The Writer's Life, McNally wrestles with writing degrees and graduate programs, the nuts and bolts of agents and query letters and critics, book signings and other ways to promote your book, alcohol and other home remedies, and jobs for writers from adjunct to tenure-track. Chapters such as "What Have You Ever Done That's Worth Writing About?" "Can Writing Be Taught?" "Rejection: Putting It in Perspective," "Writing as a Competitive Sport," "Seven Types of MLA Interview Committees," "Money and the Writer," and the all-important "Talking about Writing vs. Writing" cover a vast range of writerly topics from learning your craft to making a living at it. McNally acts as the writer's friendly drill sergeant, relentlessly honest but bracingly cheerful as he issues his curmudgeonly marching orders. Alternately cranky and philosophical, full of to-the-point anecdotes and honest advice instead of wonkish facts and figures, The Creative Writer's Survival Guide is a snarky, truthful, and immensely helpful map to being a writer in today's complex world.

Survival Guide For High School Seniors

Serves as a guide to leading and managing a FE College for College Leaders and Senior Managers. This title covers various aspects of running a College, from shaping the organisation and communicating a vision to planning and marketing the programme right through to dealing with people and improving quality.

The Creative Writer's Survival Guide

As every couple discovers when they get married, you don't just acquire a spouse when you wed — you get the whole family! Whether it's navigating a culture clash, kibitzing in marital squabbles, spoiling the grandkids, or ducking out on the holidays, this book can help. Those who've lived to tell about it weigh in here. Packed with stories, advice, humor, and the hard-won wisdom of hundreds of others who've survived those problems and more, this fun, fast-paced book is a perfect — and useful — engagement or wedding gift.

Resources in Education

How to Survive Your Freshman Year (6th edition) is the perfect send-off gift for college-bound high school graduates. This revamped edition of America's #1 college advice guide includes new advice from hundreds of college students from around the country, alongside the best timeless advice from earlier editions. This ultimate "insider's guide" to college life helps entering freshmen navigate the challenging transition to college life. In addition, the book features expert advice from college advisers and administrators, mental health professionals and others.

Survival Guide for College Managers and Leaders

In this guide M.J. Wilson explains: How to choose the right major and school; how to deal with difficult professors and impossible exams; how to keep from changing your major again (and again, and again!); how to reduce test stress, improve your G.P.A. and graduate on time; how to handle being homesick, lovesick and lonely; how to leave a legacy, improve your resume and make a grand exit!

How to Survive Your In-laws

Discusses what the label "gifted" means, and covers such issues as intelligence testing, educational options, and relationships with parents and friends.

How to Survive Your Freshman Year

Study smarter, not harder! Every high school and college student would love to know how to get the highest grades with the least amount of effort. This book gives students a guiding philosophy for every class, every time, laying the foundation for lifelong learning. With the wisdom gained from these tips, success stories from other students, and mini-assessments, they'll be empowered to succeed in class preparation, reading comprehension, exam-taking, and more. • No one method fits every student, so included are many tried-and-true methods. • Useful for every subject, from foreign languages to mathematics, from high school through college and beyond. • Helps students find their particular learning styles.

The Best College Student Survival Guide Ever Written

The Secrets of College Success

Advice for teenagers on such aspects of growing up as identity, parents, siblings, school, friends, dating, love, sex, etiquette, crisis-coping, and planning the future.

How to Get Free Food in College

You study hard. You memorize. You work at a problem over and over until it feels like your head is going to explode. You think, finally I'm ready for the big test. And you still don't make the grade. Relax. The truth is, Dr. Gordon Green knows exactly how you feel. He was a bright student. And he studied hard, too. But he struggled his freshman year at college anyway. What happened? He developed a unique ten-step program based on the simple principle that academic success is not so much a question of how hard you study, but how smart you study. Did it work? After college, Dr. Green went on to earn a Ph.D. in economics at a prestigious university--all the while maintaining straight A's! Thousands of student have benefited from his program. How he has adapted his study methods to apply to you. This is an easy, do-it-yourself guide to help you turn frustration into success. Topics include: How to get the most out of what you need How to budget your time How to take a test Keys to developing effective study habits It's not enough to survive school. This guide will help you excel. And remember: There is no such thing as a mediocre student. Only mediocre results. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Straight A's

First Year University

The perfect gift for any student going to college or graduating high school. This book is filled with the advice and inspiration needed to help them navigate this exciting time of life. Broken down by 45 topics, this book of 300+ quotes were handpicked after working with college students for 16 years and seeing what students tend to struggle with the most. Tackle any obstacle with the perfect quote and words of wisdom. "In the age of style over substance, this book actually combines both!" - Johnny C, "Absolute must read for freshman, consider this your survival guide to a successful and happy first year of school. This would be a great gift for any incoming freshman or anyone who tends to be more of a wallflower." - Courtney Aldrich, Read it from beginning to end, or thumb to a relevant topic when needed. Topics include: Commuting Belonging, Making Friends, and Social Media Spirituality and Religion Cheating and Plagiarism Dating and Romance Diversity Drugs, Alcohol, and Parties Eating Well, Sleep, and Hygiene Finances Finding Jobs and Internships Getting Involved Going to Class and Homework Grades and Procrastination Picking a Major and Graduation Greek Life Homesickness and Loneliness Living on Campus and Safety Setbacks and Failures Every page is beautifully designed to be a student's guide through one of the most exciting and challenging times in life.

The Ultimate College Survival Guide

Here's something worth learning: Studying doesn't have to be a chore! This fun and accessible resource provides the tools you need to develop better study habits, boost your grades, and position yourself for academic success. Educational consultant Cynthia Clumeck Muchnick uses a wide range of ideas taken from hundreds of students to help you find a unique, effective method suited for your individual learning style. You'll improve transcripts for college applications, ace standardized tests, and become a better student at any level of education. This indispensable guide shows you how to: Get the most out of class time Use the best strategies for note-taking and memorizing Improve writing skills Prepare completely for tests Safely and effectively conduct online research Use Skype, iChat, or social media to form study groups With this guide in your backpack, you'll be able to balance school and activities, avoid pre-test panic, and achieve consistently better results.
