Latin Literature of the Fourth Century (Routledge Revivals)

This volume, offering an insight into the literary world of Rome in the fourth century AD, reflects an increased interest in the writers of the 150 years before the collapse of the Western Empire, who have long been over-shadowed by the pre-eminence accorded since the eighteenth century to the Golden and Silver ages. Among the writers examined are Ausonius, the poet, Imperial official and tutor to Gratian; Claudian, the last major 'classical' poet; Prudentius, and Paulinus of Nola, two of the founders of Christian Latin poetry; Symmachus, the letter writer and supporter of die-hard paganism; and St. Augustine, whose influence on Christian thought and the Middle Ages is incalculable. These essays consider how such writers responded to a world where vitality was ebbing from the old forms of political life, religion and literature, giving way to new institutions, modes of life and horizons of reflection.

Latin Literature of the Fourth Century

Professor Dihle sees the Greek and Latin literature between the 1st century B.C. and the 6th century A.D. as an organic progression. He builds on Schlegel's observation that art, customs and political life in classical antiquity are inextricably entwined and therefore should not be examined separately. Dihle does not simply consider narrowly defined 'literature', but all works of cultural socio-historical significance, including Jewish and Christian literature, philosophy and science. Despite this, major authors like Seneca, Tacitus and Plotinus are considered individually. This work is an authoritative yet personal presentation of seven hundred years of literature.

A History of Later Latin Literature from the Middle of the Fourth to the End of the Seventeenth Century

This work provides an assessment of the ancient and modern evidence on Latin prose rhythm. It covers the theories of Greek and Roman rhetoricians and literary critics, and includes discussions of the methodologies crafted by German, French, and Italian scholars since 1881 to analyze prose rhythm.

Greek and Latin Literature of the Roman Empire

Challenging ideas about the declining social role and impact of literature in Late Antiquity, *Literature and Society in the Fourth Century AD* demonstrates how Greek and Latin literature of the fourth century AD continued to play an important role in public performance and debate, the creation of reality, and self-presentation.

Prose Rhythm in Latin Literature of the Roman Empire

This is volume 12 of the Catholic Library of Religious Knowledge.

Literature and Society in the Fourth Century AD

"Early Christian Greek and Latin literature examines early Christian writings with particular attention paid to their literary characteristics and their effect on the development of Western culture."--Cover.

The Cambridge History of Classical Literature

This history of Latin literature offers a comprehensive survey of the 1000 year period from the origins of Latin as a written language to the early Middle Ages. It offers a wide-ranging panorama of all major Latin authors.

Latin Literature

For a host of reasons, traditionalist scholarship has failed to give a full and positive account of the formal, aesthetic and religious transformations of ancient poetics in Late Antiquity. This collection of new essays attempts to capture the vibrancy of the living ancient tradition reinventing itself in a new context in the hands of a series of great Latin writers of the fourth and fifth centuries AD.

A History of Later Latin Literature from the Middle of the Fourth to the End of the Seventeenth Century

Latin Fiction provides a chronological study of the Roman novel from the Classical period to the Middle Ages, exploring the development of the novel and the continuity of Latin culture. Essays by eminent and international contributors discuss texts including: * Petronius, *Satyricon* and *Cena Trimalchionis* * Apuleius, *Metamorphoses* (*The Golden Ass*) and *The Tale of Cupid and Psyche* * The History of Apollonius of Tyre * The Trojan tales of Dares Phrygius and Dictys Cretensis * The Latin Alexander * Hagiographic fiction * Medieval interpretations of Cupid and Psyche, Apollonius of Tyre and the Alexander Romance. For any student or scholar of Latin fiction, or literary history, this will definitely be a book to add to your reading list.

The Christian Latin Literature of the First Six Centuries

It explores how the texts from classical Greece and Rome have survived and gives an account of the reasons why it was thought worthwhile to preserve them for future generations. In this 4th edition adjustments have been made to the text and the notes have been revised in order to take account of advances in scholarship over the last twenty years.

Early Christian Greek and Latin Literature

A body of Greek literature collected in an attempt to draw attention to often underrated literary excellence.

Latin Literature

Beyond the Fifth Century brings together 13 scholars from various disciplines (Classics, Ancient History, Mediaeval Studies) to explore interactions with Greek tragedy from the 4th century BC up to the Middle Ages. The volume breaks new ground in several ways: in its chronological scope, the various modes of reception considered, the pervasive interest in interactions between tragedy and society-at-large, and the fact that some studies are of a comparative nature.

A History of Later Latin Literature

Originally published in 1901, this book examines life in the Roman Empire in the late fourth century through 'the writings of a series of typical men' from the period, focusing on literature rather than scientific writings. Glover analyses the works of Ammianus Marcellinus, Julian, Quintus of Smyrna,

Ausonius, Symmachus, Macrobius, Claudian, Prudentius, Sulpicius Severus, Palladas, Synesius and the Confessions of St Augustine. A review of the work of women pilgrims and some Greek and early Christian novels is also included. This book will be of value to anyone with an interest in this often-overlooked period of literary history or in the history of the Late Roman Empire more generally.

Studies in Latin Literature and Roman History

The most up-to-date history of Greek literature from its Homeric origins to the age of Augustus. This magisterial survey by one of the leading European authorities on classical literature is establishing itself as the standard account.

The Poetics of Late Latin Literature

A Companion to Latin Literature gives an authoritative account of Latin literature from its beginnings in the third century BC through to the end of the second century AD. Provides expert overview of the main periods of Latin literary history, major genres, and key themes. Covers all the major Latin works of prose and poetry, from Ennius to Augustine, including Lucretius, Cicero, Catullus, Livy, Vergil, Seneca, and Apuleius. Includes invaluable reference material – dictionary entries on authors, chronological chart of political and literary history, and an annotated bibliography. Serves as both a discursive literary history and a general reference book.

Latin Fiction

In the second edition of this classic work a section of notes was included, and a new chapter was added which dealt with some aspects of scholarship since the Renaissance. For this third edition the authors have responded to the urgent need to take account of the very large number of discoveries in this rapidly advancing field of knowledge by substantially revising or enlarging certain sections.

A History of Later Latin Literature

This book is a historical novel by the American classical scholar, Frank Frost Abbot. It deals with the lives of the Roman common people, their language and literature, their occupations and amusements, and with their social, political and economic conditions. We are interested in the common people of Rome because they made the Roman Empire what it was. They carried the Roman standards to the Euphrates and the Atlantic: they lived abroad as traders, farmers and soldiers to Romanize the provinces. Or they stayed at home, working in different professions to supply the needs of the capital.

Scribes and Scholars

Literary Texts and the Roman Historian looks at literary texts from the Roman Empire which depict actual events. It examines the ways in which these texts were created, disseminated and read. Beside covering the major Roman historical authors such as Livy and Tacitus, he also considers the contributions of authors in other genres like: * Cicero * Lucian * Aulus Gellius. Literary Texts and the Roman Historian provides an accessible and concise introduction to the complexities of Roman historiography.

Later Greek Literature

Decimus Magnus Ausonius of Bordeaux, whose life spanned the greater part of the fourth century AD, was one of the most significant literary and political figures of his age. After an academic career in his native Gaul he was appointed tutor to the future emperor Gratian, a position through which he achieved great power for himself and his family. He was made consul in 379 and later lived to enjoy a ripe old age as the grand old man of Latin letters. In this modern edition of Ausonius' short poems, collected together under the general heading of epigrams, N.M. Kay gives a line-by-line commentary dealing with points of literary, linguistic, historical and other interest. The epigrams throw light on many aspects of Ausonius' life, career and attitudes as well as on fourth-century Latin literature, and will thus be of interest to students of the fourth-century western world, of Latin literature, and of the epigram form in particular. This edition includes both Latin text and translation.

A History of Later Latin Literature, from the Middle of the Fourth to the Fourth to the End of the Seventeenth Century

From the archaic period onwards, ancient literary authors working within a range of genres discussed and quoted a variety of inscriptions. This volume offers a wide-ranging set of perspectives on the diversity of epigraphic material present in ancient literary texts, and the variety of responses, both ancient and modern, which they can provoke.

Beyond the Fifth Century

This collection of essays was published in 1989 in celebration of C. O. Brink, formerly Kennedy Professor of Latin at Cambridge University. Ten leading scholars of contribute papers on Latin literature, Roman history and the manuscript tradition.

Life and Letters in the Fourth Century

Discover the essential works of Latin literary masters with this A-to-Z reference guide spanning from ancient Rome to the Renaissance. In *Dictionary of Latin Literature*, classics scholar and translator James H. Martinband provides students and curious readers with an authoritative, accessible, and wide-ranging reference book. It includes detailed entries on significant works and authors as well as important terms and concepts. Covering the history of Latin literature from the early Roman Republic to the Middle Ages and the Renaissance, this single volume offers a treasure trove of fascinating information.

A History of Greek Literature

In *The Space That Remains*, Aaron Pelttari offers the first systematic study of the major fourth-century poets since Michael Robert's foundational *The Jeweled Style*. It is the first book to give equal attention to both Christian and Pagan poetry and the first to take seriously the issue of readership. As Pelttari shows, the period marked a turn towards forms of writing that privilege the reader's active involvement in shaping the meaning of the text. In the poetry of Ausonius, Claudian, and Prudentius we can see the increasing importance of distinctions between old and new, ancient and modern, forgotten and remembered. The strange traditionalism and verbalism of the day often concealed a desire for immediacy and presence. We can see these changes most clearly in the expectations placed upon readers. The space that remains is the space that the reader comes to inhabit, as would increasingly become the case in the literature of the Latin Middle Ages.

A Companion to Latin Literature

"Here is a superb new translation of Books 6 to 10 of Livy's monumental history of Rome, covering the period when Rome, in a series of ever greater wars, imposed mastery over virtually the entire Italian peninsula. Livy paints vivid portraits of all the notable figures, such as young Manlius Torquatus, victor in a David-versus-Goliath duel with a Gallic chieftain, and Appius Claudius who built Rome's first major highway, the Appian Way. Livy's blend of factual narrative and imaginative recreation brings to life a key moment in the rise of Rome, and the one complete account we have, as the city passes from the mists of legend into the light of history. J. C. Yardley's translation gives a vivid sense of the energy, variety, and literary skill of Livy's great work. Dexter Hoyos's Introduction sets Livy in the context of Roman historiography and deftly explains why this period was so critical an era for the rise of Rome. The most up-to-date edition, drawing on the latest scholarship, this major work of Roman literature and history includes comprehensive notes that clarify problems of historical content, topography, and chronology, a detailed glossary of Roman technical terms, an appendix on the Roman legion of the time, and two maps."--Publisher's website.

Russia possesses one of the richest and most admired literatures of Europe, reaching back to the eleventh century. A History of Russian Literature provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day, still rife with the creative experiments of post-Soviet literary life. The volume proceeds chronologically in five parts, extending from Kievan Rus' in the 11th century to the present day. The coverage strikes a balance between extensive overview and in-depth thematic focus. Parts are organized thematically in chapters, which a number of keywords that are important literary concepts that can serve as connecting motifs and 'case studies', in-depth discussions of writers, institutions, and texts that take the reader up close and. Visual material also underscores the interrelation of the word and image at a number of points, particularly significant in the medieval period and twentieth century. The History addresses major continuities and discontinuities in the history of Russian literature across all periods, and in particular bring out trans-historical features that contribute to the notion of a national literature. The volume's time-range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries, space, Holy Russia, and the charismatic king that offers culturally relevant material to later writers. This volume delivers a fresh view on a series of key questions about Russia's literary history, by providing new mappings of literary history and a narrative that pursues key concepts (rather more than individual authorial careers). This holistic narrative underscores the ways in which context and text are densely woven in Russian literature, and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures, historical events and literary politics, literary theory and literary innovation.

History of Russian Literature

Surveys Russian literature from the eleventh century to the present, set within the context of political, social, religious, and philosophical developments

A History of Russian Literature

Russian authors such as Pushkin, Tolstoy and Dostoyevsky have long been recognized by critics and readers alike as some of the world's most gifted literary artists. However, their complex prose and weighty philosophical ideas can be overwhelming. This in-depth guide to Russian literature is an invaluable tool for readers who are just beginning to explore these writers, or for long-time fans who want to expand their appreciation.

History of Russian Literature

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

History of Russian Literature

The nineteenth century was of particular importance to Russian literature. This significant era in Russian letters is now the subject of an incisive critical history by one of the foremost scholars of Slavic literatures in the West.

History of Russian Literature from the Eleventh Century to the End of the Baroque

The culture of nineteenth-century Russia is often seen as dominated by realism in the arts, as exemplified by the novels of Leo Tolstoy and Ivan Turgenev, the paintings of 'the Wanderers,' and the historical operas of Modest Mussorgsky. Paradoxically, nineteenth-century Russia was also consumed with a passion for spiritualist activities such as table-rappings, seances of spirit communication, and materialization of the 'spirits.' Ghostly Paradoxes examines the surprising relationship between

spiritualist beliefs and practices and the positivist mindset of the Russian Age of Realism (1850-80) to demonstrate the ways in which the two disparate movements influenced each other. Foregrounding the important role that nineteenth-century spiritualism played in the period's aesthetic, ideological, and epistemological debates, Ilya Vinitsky challenges literary scholars who have considered spiritualism to be archaic and peripheral to other cultural issues of the time. *Ghostly Paradoxes* is an innovative work of literary scholarship that traces the reactions of Russia's major realist authors to spiritualist events and doctrines and demonstrates that both movements can be understood only when examined together.

A History of Russian Literature

"Russian literature has always been inseparably linked to Russian history. D. S. Mirsky, in dealing with this fact, constantly keeps in mind the ever-colorful and ever-changing aspects of the one in discussing the other. Mirsky's book is essential reading for anyone interested in Russian literature. *A History of Russian Literature: From its Beginnings to 1900* contains all of the author's *History of Russian Literature* and the first two chapters of his *Contemporary Russian Literature*."--BOOK JACKET.

History of Russian Literature from the Eleventh Century to the End of the Baroque

"An anthology of Old Russian literature from its beginnings until the late 17th century. In English translation with introductions, commentary, and bibliographical references"--

History of Russian Literature, from the Eleventh Century to the End of the Baroque

Russia possesses one of the richest and most admired literatures of Europe, reaching back to the eleventh century. This volume provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day, still rife with the creative experiments of post-Soviet literary life.

History of Seventeenth Century Russian Literature

Waiting for Pushkin provides the only modern history of Russian fiction in the early nineteenth century to appear in over thirty years. Prose fiction has a more prominent position in the literature of Russia than in that of any other great country. Although nineteenth-century fiction in particular occupies a privileged place in Russian and world literature alike, the early stages of this development have so far been overlooked. By combining a broad historical survey with close textual analysis the book provides a unique overview of a key phase in Russian literary history. Drawing on a wide range of sources, including rare editions and literary journals, Alessandra Tosi reconstructs the literary activities occurring at the time, introduces neglected but fascinating narratives, many of which have never been studied before and demonstrates the long-term influence of this body of works on the ensuing "golden age" of the Russian novel. *Waiting for Pushkin* provides an indispensable source for scholars and students of nineteenth-century Russian fiction. The volume is also relevant to those interested in women's writing, comparative studies and Russian literature in general.

This Is A New Release Of The Original 1886 Edition.

A History of 18th Century Russian Literature

This volume charts the changing aspects of gender in Russia's cultural and social history from the late seventeenth century to the Stalinist era and the collapse of the Soviet Union. The works, while focusing on women as a primary subject, highlight in particular gender difference, the construction of both femininity and masculinity in a culture that has undergone major transformation and disruptions over the period of three centuries.

The Great Masters of Russian Literature in the Nineteenth Century

The Routledge Companion to Russian Literature is an engaging and accessible guide to Russian writing of the past thousand years. The volume covers the entire span of Russian literature, from the Middle Ages to the post-Soviet period, and explores all the forms that have made it so famous: poetry, drama and, of course, the Russian novel. A particular emphasis is given to the nineteenth

and twentieth centuries, when Russian literature achieved world-wide recognition through the works of writers such as Pushkin, Dostoevsky, Tolstoy, Chekhov, Nabokov and Solzhenitsyn. Covering a range of subjects including women's writing, Russian literary theory, socialist realism and émigré writing, leading international scholars open up the wonderful diversity of Russian literature. With recommended lists of further reading and an excellent up-to-date general bibliography, *The Routledge Companion to Russian Literature* is the perfect guide for students and general readers alike.

History of Russian Literature from the Eleventh Century to the End of the Baroque. With ... Plates

This translation of Likhachev's *Poetika Drevnerusskoy Literatury* (*The Poetics of Early Russian Literature*), is a study of medieval Russian literature, as contrasted with modern literature in its narrative methods, use of symbols, and depictions of time, space and situation. The gradual emergence of realism and the principle of a single author is outlined with examples from medieval and modern literature.

A History of Eighteenth Century Russian Literature

Excerpt from *A History of Russian Literature* In the year 1834 the great Biéliniski, on his maiden appearance as a literary critic, bestowed the following epigraph, borrowed from one of his fellow-critics, Senkowski, on his first essay: - "Do we possess a literature?" "No, we have nothing but a book-trade!" Eighteen months later, he began to publish a half-yearly Review under this somewhat confusing title, - *Nothings about Nothing*. Hence we may conceive what the country of Pouch-kine, of Gogol, of Tourgueniev, and of Tolstoi has gained by the labour of the past half-century. For this labour has not confined itself to the amassing of a treasure-house of conceptions, exquisite or stately. It has endowed the nation that conceived them, and Bielinski himself as well, with the conscious possession of a national genius, the anterior manifestations of which had escaped appreciation, because they had been judged from the æsthetic point of view only, and not from that historical standpoint which alone befitted them. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
