31 Days of Praying God's Wisdom for My Children

God wants to bless our children with an abundance of wisdom. He greatly desires for them to be wise and knowledgeable, whether they have to deal with simple or complex circumstances at home, in school, with friends, or even when they are just sitting around and having fun. God is eager to anoint them with the ability to be aware, alert, and balanced in the running of their young lives. He so wants to bless our children with the Fruit of the Spirit, helping them to pursue excellence in daily living by planting good seed in fertile soil to bring honor and glory to His name. Our gracious Lord has fashioned mothers to be tender and loving, yet firm, natural nurturers of their children. He uses us as moms to assist Him in the shaping of our precious offspring. For He knows that left to themselves, our kids are prone to being selfish, self-centered persons who have the natural tendency to do perpetually silly, unproductive things. Their minds can become consumed with what is right for them: what they want for themselves, what makes them feel satisfied, what they should be entitled to, or what they think they deserve. And society often promotes and encourages such vain mindsets. Youngsters today are growing up in a typically "I" consumed nation. Let's face it; choosing to live selfishly is natural. Living wisely, on the other hand, is something one has to be proactive and intentional about, something that has to be taught and instilled. In other words, our children need help! Our little ones especially need God's help if they are to succeed in making wise decisions for the many concerns in their lives, but they also need our assistance. In the midst of such an unhealthy standard of living, moms are challenged to groom and foster positive growth in their offspring. 31 Days of Praying God's Wisdom for My Children is a prayer book that focuses on insights gathered from a selected verse or verses from every chapter of the book of Proverbs. It is written as a prayer guide to support and help mothers, who in this ambiguous culture, genuinely desire God to fill their children with His wisdom enabling them to live holy, God-honoring lives, and bringing strength, direction, and stability to their daily walk. The great need for wise insight is highlighted over and over again in the book of Proverbs. This book teaches us honest truths about how to use wisdom in watching what we say and do, and how we should treat others. It gives us sound principles for living holy and devout lives that bring honor and glory to God. It uses words like wisdom, knowledge, understanding, and instruction, again and again, to assist us in gaining a God-perspective for any given situation in life. The book of Proverbs indeed gives us instructions on how to grow in wisdom. This devotional book will encourage all of us as moms to take out 31 days of focused time, seeking God in prayer for His wisdom, His guidance, and His direction for the many concerns and situations in the lives of our children. It will inspire mothers to look to His Word in the book of Proverbs and to pray that God's Word would take root in our posterity, strengthening them so that they can apply His insights to their daily lives. This prayer book also seeks to inspire women to take time out to listen to God and to journal (Wisdom Notes) any directives or insights He imparts to them concerning their children. Most of all, it strives to inform us, determined moms, that we are not alone, that indeed, many others will be taking this exciting journey with us - praying persistently for our youngsters and gleaning God's perfect plan and vision for their lives! 31 Days of Praying God's Wisdom for My Children encourages mothers to pray for our precious children to grow in wisdom day by day. We pray. God answers.

God and My Neighbour

'God and My Neighbour' is an agnostic work on the Christian faith by Robert Blatchford. Blatchford seeks to explain his stand as an agnostic. He opines, "I cannot believe that any religion has been revealed to Man by God. Because a revealed religion would be perfect, but no known religion is perfect; and because history and science show us that the known religions have not been revealed, but have been evolved from other religions. There is no important feature of the Christian religion which can be called original. All the rites, mysteries, and doctrines of Christianity have been borrowed from older faiths."

The Catholic Youth Bible

The Mythology of the Aryan Nations

This unique book offers a Catholic view of the Holy Land in the debate that rages among Jews, Christians, and Muslims. Alain Marchadour and David Neuhaus, two biblical scholars and priests living in Jerusalem, clearly analyze the Promised Land-as concept, history, and contested terrain-in Catholic teaching and doctrine. They offer an analytical reading of the entire Christian Bible (Old and New Testaments) with reference to the idea of the Land promised by God. They explore early and medieval attitudes, especially with regard to the Holy Places and the Jewish people. Moving carefully to the present day, they focus on anti-Semitism, the tragedy of the Shoah, Western colonialism in the Middle East, the creation of the State of Israel, and the birth of the Palestinian refugee problem as they examine Catholic reactions to the tumultuous events of the nineteenth and twentieth centuries, particularly the renewal of Catholic thought in the aftermath of the Second Vatican Council. Studying the most recent Church documents, Marchadour and Neuhaus confront the ongoing struggle for peace, justice, and reconciliation in the Middle East. This illuminating book is an essential tool for all those struggling to understand the links between the Bible, the Church, and contemporary Middle Eastern realities, especially in Israel and Palestine.

The Land, the Bible, and History

What we propose doing in this book, namely, to make a serious attempt to assist some of those who have inhaled the poisonous fumes of infidelity and been left in a state of mental indecision concerning sacred things. Our principal object will be to set forth some of the numerous indications that the Bible is something far superior to any human production, and give some of the rules which require to be heeded if the Scriptures are to be properly interpreted; and though their scope will go beyond the general title of ""Divine revelation,"" yet they will complement and complete the earlier ones.

The Protestant ethic and the spirit of capitalism

The university world can be a confusing place, filled with many competing worldviews and perspectives. Beliefs and values are challenged at every turn. But Christians need not slip into the morass of easy relativism. David Horner restores sanity to the collegiate experience with this guide to thinking and flourishing as a Christian. Carefully exploring how ideas work, he gives you essential tools for thinking contextually, thinking logically and thinking worldviewishly. Here Horner meets you where faith and reason intersect and explores how to handle doubts, with an eye toward not just thinking clearly but also living faithfully. This is the book every college freshman needs to read. Don't leave home without it.

Doctrine of Revelation

The closing of local mines and factories collapsed the economic and social structure of Ivanhoe, Virginia, a small, rural town once considered a dying community "on the rough side of the mountain." Documenting the creative survival techniques developed by Ivanhoe citizens in the aftermath, *It Comes from the People* tells how this community organized to revitalize the town and demand participation in its future. Photos, interviews, stories, songs, poems, and scenes from a local theater production tell how this process of rebuilding gradually uncovered the community's own local theology and a growing consciousness of cultural and religious values. A significant aspect of this social transformation in Ivanhoe, as in many rural areas, was the emergence of women as leaders, educators, and organizers, developing new approaches to revive the economy and the people simultaneously. This book is unusually open about the difficult process faced by outside researchers working with community members to describe community life. It discusses the inherent dilemmas frankly and presents a model for those who engage in community studies and ethnographic research. Author note: Mary Ann Hinsdale is Associate Professor of Religious Studies at Boston College. Helen M. Lewis is Interim Director of the Appalachian Center at Berea College in Kentucky. S. Maxine Waller is President of the Ivanhoe Civic League and directs community-based student volunteer programs in Virginia.

Mind Your Faith

This volume, the first of six to be published, studies fundamental values of Islam, along with the nature of rights and the responsibilities in a general context. The authors analyse the development of social thought and morality in Islam, and ways in which they are enforced through the family and education. Particular attention is paid to the status of women, children, youth and the socially excluded. Several chapters broach specially Islamic approaches to economics, government and justice. A world religion since its inception in the seventh century A.D., Islam is today seeking vigorous answers to contemporary problems through its multi-faceted history. Issues of poverty and wealth, inequality and demands for political expression, and respect for diversity in a difficult world of conformity are dealt with in this series. The study is organized along thematic rather than chronological lines and thus it is not necessary to read the volumes in order. Volume II is in fact the first to have been published. Volume IV is forthcoming end 2002, volume V mid 2003 and volumes III and VI in 2004. It Comes from the People

In Western religious traditions, God is conventionally conceived as a humanlike creator, lawgiver, and king, a being both accessible and actively present in history. Yet there is a concurrent and strong tradition of a God who actively hides. The two traditions have led to a tension between a God who is simultaneously accessible to humanity and yet inaccessible, a God who is both immanent and transcendent, present and absent. Western Gnostic, esoteric, and mystical thinking capitalizes on the hidden and hiding God. He becomes the hallmark of the mystics, Gnostics, sages, and artists who attempt to make accessible to humans the God who is secreted away. 'Histories of the Hidden

God' explores this tradition from antiquity to today. The essays focus on three essential themes: the concealment of the hidden God; the human quest for the hidden God, and revelations of the hidden God.

Our usual representations of the opposition between the "civilized" and the "primitive" derive from willfully ignoring the relationship of distance our social science sets up between the observer and the observed. In fact, the author argues, the relationship between the anthropologist and his object of study is a particular instance of the relationship between knowing and doing, interpreting and using, symbolic mastery and practical mastery—or between logical logic, armed with all the accumulated instruments of objectification, and the universally pre-logical logic of practice. In this, his fullest statement of a theory of practice, Bourdieu both sets out what might be involved in incorporating one's own standpoint into an investigation and develops his understanding of the powers inherent in the second member of many oppositional pairs—that is, he explicates how the practical concerns of daily life condition the transmission and functioning of social or cultural forms. The first part of the book, "Critique of Theoretical Reason," covers more general questions, such as the objectivization of the generic relationship between social scientific observers and their objects of study, the need to overcome the gulf between subjectivism and objectivism, the interplay between structure and practice (a phenomenon Bourdieu describes via his concept of the *habitus*), the place of the body, the manipulation of time, varieties of symbolic capital, and modes of domination. The second part of the book, "Practical Logics," develops detailed case studies based on Bourdieu's ethnographic fieldwork in Algeria. These examples touch on kinship patterns, the social construction of domestic space, social categories of perception and classification, and ritualized actions and exchanges. This book develops in full detail the theoretical positions sketched in Bourdieu's *Outline of a Theory of Practice*. It will be especially useful to readers seeking to grasp the subtle concepts central to Bourdieu's theory, to theorists interested in his points of departure from structuralism (especially from Lévi-Strauss), and to critics eager to understand what role his theory gives to human agency. It also reveals Bourdieu to be an anthropological theorist of considerable originality and power.

Scots Confession

This book examines the effects of Jewish conversions to Christianity in late medieval Spanish society. Ingram focuses on these converts and their descendants (known as conversos) not as Judaizers, but as Christian humanists, mystics and evangelists, who attempt to create a new society based on quietist religious practice, merit, and toleration. His narrative takes the reader on a journey from the late fourteenth-century conversions and the first blood purity laws (designed to marginalize conversos), through the early sixteenth-century Erasmian and radical mystical movements, to a Counter-Reformation environment in which conversos become the advocates for pacifism and concordance. His account ends at the court of Philip IV, where growing intolerance towards Madrid's converso courtiers is subtly attacked by Spain's greatest painter, Diego Velázquez, in his work, *Los Borrachos*. Finally,

Ingram examines the historiography of early modern Spain, in which he argues the converso reform phenomenon continues to be underexplored.

A Simple Prayer Book

The White Goddess is perhaps the finest of Robert Graves's works on the psychological and mythological sources of poetry. In this tapestry of poetic and religious scholarship, Graves explores the stories behind the earliest of European deities—the White Goddess of Birth, Love, and Death—who was worshipped under countless titles. He also uncovers the obscure and mysterious power of "pure poetry" and its peculiar and mythic language.

Finally, Grieve focuses on the misogynistic elements of the story and asks why the fall of Spain is figured as a cautionary tale about a woman's sexuality.

Anyone deeply interested in converts seeks an exposition of the Catholic Faith which not only defines each article of the Creed and each doctrine of the Church, but which also gives an explanation and a

reason for the doctrine," writes Fulton J. Sheen in the Foreword to this classic of religious instruction. "Such an ideal is beautifully satisfied in a Catechism written by one of our zealous missionary Bishops, Most Reverend Louis L. R. Morrow, S.T.D., Bishop of Krishnagar. Studies in Words

A gripping biography by the author of *Brave New World* In 1634 Urbain Grandier, a handsome and dissolute priest of the parish of Loudun was tried, tortured and burnt at the stake. He had been found guilty of conspiring with the devil to seduce an entire convent of nuns. Grandier maintained his innocence to the end but four years after his death the nuns were still being subjected to exorcisms to free them from their demonic bondage. Huxley's vivid account of this bizarre tale of religious and sexual obsession transforms our understanding of the medieval world.

The White Goddess

Who is Allah? What does He ask of those who submit to His teachings? Pulitzer Prize-winner Jacke Miles gives us a deeply probing, revelatory portrait of the world's second largest, fastest-growing and perhaps most tragically misunderstood religion. In doing so, Miles illuminates what is unique about Allah, His teachings, and His resolutely merciful temperament, and he thereby reveals that which is false, distorted, or simply absent from the popular conception of the heart of Islam. So, too, does Miles uncover the spiritual and scriptural continuity of the Islamic tradition with those of Judaism and Christianity, and the deep affinities among the three by setting passages from the Hebrew Bible, the New Testament, and the Qur'an side by side. In the spirit of his two previous books, *God and Christ*, and with his characteristic sensitivity, perspicacity and prodigious command of the subject, Miles calls for us all to read another's scriptures with the same understanding and accommodating eye that we turn upon our own.
