## Korean Pronunciation Guide - How to Sound Like a Korean

Korean Pronunciation Guide - How to Sound like a Korean Author : Kim Jimin, Yoon Shinae, Lee Eunju  
Book page : 280 pages Supplement : MP3 CD About This Book Korean Pronunciation Guide - How to Sound Like a Korean is a learning material for the self-study of pronunciation, targeted for Level 2 to 4 learners, or beginners and intermediate learners of Korean. The pronunciation rules that have been covered in bits and pieces in existing Korean textbooks are summarized here in systematic structures and contents. Basic Korean pronunciations are presented by consonants, vowels, final consonants (Batchim) and liaisons; then rules that learners want to know the most in studying pronunciation are summarized in order, including palatalization and nasalization. After learning the basics and rules, learners can perform self-diagnosis of the accuracy and speed of pronunciation based on the colloquial and literary words categorized by difficulty and by subject. This book will help learners start the study from the pronunciation principles and eventually expand the study to improve speaking and listening skills. <sup>a</sup> A systematic 3-step structure, composed of basics, rules and recitation The basics step will help learners study the fundamental Korean pronunciations starting from the principles applied in creating hangeul. The rules part will help learners study pronunciation rules applied between syllables. In the last step, learners can study the applications of these rules and practice to read texts out following the actual dialogue speed. <sup>a</sup> Vivid illustrations and detailed English explanations to effectively study complicated pronunciations Illustrations are detailed and vivid, how the speech organs are moved when articulating. These will allow learners to compare and study pronunciations that they are particularly struggling with. All explanations are offered in English so that even Korean learners with less than intermediate proficiency can easily understanding the contents. <sup>a</sup> 20 texts for recitation with diverse

materials to learn culture and improve fluency The writing materials are closely linked to real life, and total 20 texts are offered both in colloquial and literary styles. Learners can listen and repeat after them, expanding their understanding and knowledge of Korean culture. Texts in various styles are read by professional voice actors and learners can practice and improve their fluency as they try to follow the recorded reading speed. **MP3 (CD)** Downloadable (www.darakwon.co.kr) **4 Korean Pronunciation Guide - How to Sound Like a Korean** @ \m' 2~4 X Yp • d Á< \ \ ÁY© L Yp P-tä. 0t \m' P-tä è < \ äèX \m' L ÜY L -tD © " L ÜYD u • ä. ### Korean-English Bilingual Visual Dictionary with Free Audio App

With over 6,500 fully illustrated words and phrases in Korean and English, along with a free bilingual audio app, using and learning Korean has never been easier. Perfect for tourists, business travellers and students, DK's Korean English Bilingual Visual Dictionary is your essential companion when buying food, talking about work, discussing health, and studying the Korean language. The dictionary is incredibly easy to follow, with thematically organized vocabulary so you can find closely related words on a particular topic. Words and phrases are illustrated with full-colour photographs and artworks, helping to fix new vocabulary in your mind. A comprehensive two-way index provides an instant reference point for new Korean vocabulary. The supporting audio app enables you to hear over 6,500 words and phrases spoken out loud in both Korean and English. Available on the App Store and Google Play, the audio app is easy to use and provides an intuitive reference for language learning, helping you learn, retain, and pronounce important vocabulary. The dictionary gives a pronunciation guide for every Korean word, and you can use this alongside the app to perfect your pronunciation.

### English as a second language. A Case Study of the learner Hu Jeong

Studienarbeit aus dem Jahr 2015 im Fachbereich Amerikanistik - Linguistik, Note: 1,0, Universität Mannheim, Sprache: Deutsch, Abstract: This case study analyzes the language errors of the Korean English as a second language learner Hu Jeong, who is currently attending the California State University of Long Beach as part of an exchange program. The case study and the analysis of Hu's errors are based on his conversation with two students who speak English on a native-like level. For this purpose, it will be analyzed if Hu's speech errors are due to a negative L1 transfer. To come to a conclusion, his phonological and morpho-syntactic knowledge will be analyzed.

### Korean Pronunciation Guide(CD1¥ih)

This book is a highly readable introduction to Korean pronunciation for students at all levels of proficiency. Beginners will find the information and practice they need to cross the threshold of intelligibility in Korean, while more advanced students will have the opportunity to fine-tune their pronunciation and improve their comprehension. The Sounds of Korean focuses on the most challenging features of Korean pronunciation. Careful attention is paid to the way in which a sound's pronunciation can be modified in different contexts. The first part of the text consists of an overview and chapters on vowel and consonant sounds in Korean, adjustment processes that modify speech sounds in different positions within words and phrases, and the role of prosody in expressing meaning and emotion. The practice exercises that follow are paired with the various contrasts and adjustment processes discussed earlier. These exercises, recorded in MP3 format by two native speakers (male and female) from Seoul, give students systematic, focused exposure to natural colloquial speech that represents the way Korean is actually spoken in the real world.

### The Sounds of Korean

Through its up-to-date and comprehensive coverage of current perspectives, this volume aims to expand understanding of what it means to learn English as a second or additional language. The focus throughout the book is primarily on language learning, but each chapter also discusses the implications for teaching and assessment, thus informing both understanding and practice. The book is organised into nine sections, with 36 chapters presenting a wide and diverse range of accounts of the learning of English. Four major themes which permeate the chapters are: Learning and learners; learning and language; learning and language development; and learning and learning contexts--back cover.

### The Cambridge Guide to Learning English as a Second Language

Designed for beginning Korean learners, Practical Korean gives you only what you need—including an essential pronunciation guide and key grammar points. This concise Korean language book is organized into 46 easy lessons that help you grasp everything from names and greetings to casual remarks. It is designed for English speakers traveling to Korea, although it can be used by anyone wishing to learn Korean and acquire a basic working knowledge of conversational Korean in a short period. Engagingly illustrated with manga-style drawings, this volume includes: A basic pronunciation guide Essential vocabulary and practical sentences Information on Korean sentence patterns and critical grammar points A 3,000-word Korean-to-English and English-to-Korean dictionary Native speaker audio recordings to aid pronunciation Even readers without any prior knowledge of Korean will grasp the necessary basics to get conversing and communicating in Korean fast and painlessly!

### Practical Korean

The Priority Method evolved from theories from first and second language acquisition and child language development. Along with error analysis theories, technical advances in equipment have allowed the Priority Method to offer a complete language diagnostic, analysis and training format. Its significant variation from all previous SLA pedagogy is that it concentrates on areas of weakness, prioritizing common areas of transitional errors from L1 to L2, that commonly occur in the phonetic production and delivery of the ESL student, and focuses on the key areas that have significant sociolinguistic and linguistic effects on the ESL student. Why prioritize errors over other aspects of second language learning? Because errors are the significant areas where the student's self confidence and progress come into play. Because negative aspects in any or all of the above will impede and/or stigmatize the ESL student and can be a major factor in having the student quit. Many errors are common to each ESL language group, giving that group a preliminary map of errors that can be expected before the student arrives at that point. The specific phonetic area covered will be common consonant and vowel errors in the ESL student. There will be a text, workbook and a tape of which the workbook and tape will interact with each other using the Priority Method and a Learning Loop. The Learning Loop is a term that describes the learning system used to facilitate the correct recognition and production of the English sound pattern. It uses two tape recorders of which one is to play the tape with the exercises on it of a Model of English pronunciation. The second tape recorder is recording both the Model pronunciation and the student's attempt to duplicate the Model of English sound pattern. Because the student hears only those sound patterns that are similar or the same to their L1 language the need to compare their L2 production of English with that of a Model of English will result in a more accurate diagnosis. The potential of this method as a supplement to any language course or program is great as it can be used with any language group and at any level of learning.

### The Priority Method for Korean ESL Students

This book is ideal for learners of Korean as a second language who want to communicate more effectively and also for learners of English who know Korean. This book lists 8,752 core Korean words with English equivalents. Main entries are in Romanized Korean in boldface type alphabetically with Hangul (Korean alphabet) and Chinese characters, if any. Next, in the same line, parts of speech label, and the entry's English equivalents with stressed syllables\* in boldface type) followed by standard American English pronunciation. Korean is written with two different scripts: Hangul and Hanja (Chinese character). While Hangul is mostly used, Chinese characters must be used in order to clarify meaning and almost 80% of Korean language derives from Chinese characters. \* Please refer to the website for more information. ### Korean-English Romanized Dictionary

An interactive workbook for beginners to learn how to write and read Korean quickly! This easy workbook has everything you need to learn the Korean scripts--clear explanations, plentiful practice exercises, and free online audio recordings by native speakers. No prior knowledge of Korean is needed! Even if you're a complete beginner, you'll soon be reading and writing Korean with confidence. This book gives you a thorough grounding in the written Korean language, including its history and basic principles, the correct alphabet order, and clear instructions on how to read, write, and pronounce all the letters. The book is divided into three sections: Section 1: Vowels and Consonants. Shows you how the individual Korean letters are written and pronounced and how they are combined to form syllables and words. Section 2: "Say It Like a Korean!" Teaches you to pronounce the sounds of Korean naturally. Section 3: Reading and Writing Practice. Fun exercises to reinforce your skills and expand your vocabulary--with useful everyday topics such as numbers, days of the week, places, shopping, and food. The ability to recognize, write, and pronounce Korean Hangeul is reinforced through plentiful writing and listening exercises. Helpful drawings assist you to learn and remember the letters, while detailed guides show various handwriting styles and examples of poor letter formation. Printable flashcards to accompany the text are available for free online and help you to memorize and review what you learn. The approachable, conversational tones of this workbook combined with the highly effective exercises make this a perfect introduction to Hangeul for beginning Korean language learners.

### Korean Hangeul for Beginners: Say it Like a Korean

### Express Korean Vocabulary 1000

I've taught English as a second language all over the world. I've taught ambitious company owners to school children. It's been a fun ride. A few years ago, I taught a private English class to a middle-aged Korean lady named Kim. She was extremely intelligent and studious. Kim had an excellent vocabulary and understanding of grammar however she was hesitant to speak. After a few lessons, we discovered she had lost her confidence in speaking English. This was because she had difficulty pronouncing the sounds "z" for a zoo, "j" for jam and "ts" for bits. Which is a common problem amongst Korean speakers. She explained she had been learning English for a decade but still couldn't pronounce certain sounds. We explained it was normal and proceeded to address the problem by going back

to the basics. After 3 months, Kim's speaking ability had massively improved and she was speaking fluently, clearly and confidently. If you want to speak English like a native speaker. Read on. Speak English with fluency, confidence, and clarity . Would you like to dramatically enhance your English speaking in 4 months? I'll be honest. It will take hard work but if you are motivated to learn. Then you are in the right place! As an English Second Language teacher. It was hard to watch my students struggle to speak English despite learning for many years. In this book, I provide a step-step detailed method to speak English like a native speaker, learn 65% of used English vocabulary and hack English Grammar rules. In this book, are various free tools which will aid, motivate and inspire you to continue practicing English. This includes missions and examples, flashcards, language exchange partnerships, pronunciation trainers and even the best movies and audiobooks for speaking English. In this book you will learn: ENGLISH GRAMMAR. Have an expert understanding with fifteen rules to improve your grammar. VOCABULARY BUILDING. Learn 65% of the English language in just a few weeks using my free 625-word guide. SPEAK ENGLISH LIKE AN AMERICAN NATIVE for easy fluent conversation. Learn to use the International Phonetic Alphabet to develop perfect American pronunciation. THE ULTIMATE MINDSET for learning to speak English including outlining your journey to speaking English in 4 months. ENGLISH ANKI PRONUNCIATION trainer included which contains over 700 flashcards . The trainer contains 625 commonly used words and the letters of the IPA. Each flashcard will produce the word and picture as well test you. BONUS: A free English pronunciation trainer (includes 700 ANKI flashcards) Rowan James White (ESL Teacher)

### English in 4 Months

This book lists approximately 9,000 core Korean words that can be searched with English equivalents. It's ideal for learners of Korean as a second language who want to communicate more effectively and also for learners of English who know Korean. Korean is written with two different scripts: Hangul and Hanja (Chinese character). While Hangul is mostly used, Chinese characters should be used in order to clarify meaning and almost 80% of Korean language derives from Chinese characters. English main entries are in alphabetical order and stressed syllables of them are in boldface type for clear communication in English. (The contrast between stressed and unstressed syllables is very important because it helps to create the rhythm of English.) Each main entry is followed by parts of speech label and the entry's Korean equivalents. All Korean equivalent for main entries are written in both roman letters and Korean writing: Hangul and Hanja (Chinese characters) if applicable. [example: area [n.] ji yeok ~~Ar~~nyeon jeok ~~to~~Me] Learners can select to learn Chinese characters according to their needs and levels. For those who know Chinese characters, it might be easier to learn Korean. Since many Korean prefer to use foreign words in daily conversation, Korean pronunciation of foreign words are romanized in this book for better communication with Korean. [example: picnic [n.] pi keu nik <pi, pung CE>] Please refer to the website for more information. [www.corevoca.com](http://www.corevoca.com)

### Resources in Education

Conversational English for Korean ESL Learners: Usually in English we write and speak simply with sentence structures that generally follow grammar principles and words that can be understood through word for word translation but this is not the case for slang, idioms and many common conversational expressions. In this book I will introduce some common expressions used in day-to-day conversation in North America and illustrate their application. for more information about other books by the author please check his website: [jameslifebooks.weebly.com](http://jameslifebooks.weebly.com)

#### Teach Me Korean - Hangeul Bootcamp (2015 Edition)

The Best Textbook Series for Learning the Korean Language by the Leading Experts in Korea —The National Institute of the Korean Language and Language Education Institute at Seoul National University Originally consisted of three volumes, Korean through English series was first published in 1992 and has widely been used as easy yet educational textbook series for foreign learners of Korean. In 2012, the new edition is published in two volumes, keeping the major learning objectives as the previous version and meeting new trends and learners' needs. Book One is designed for beginners who start to learn Korean as a foreign or second language for the first time. The textbook is to help the learners understand the fundamental system of Korean letters (hangeul) and acquire basic vocabulary and grammatical items. Book Two, which is forthcoming, targets intermediate learners who should advance their Korean language skills to the upper level. The textbook is to help them become more confident of using the Korean language with accuracy and fluency. The current revision has been made by Sang-Oak Lee who wrote the original version and Seungmie Lee at the Language Education Institute of Seoul National University. Systematical Organization to Fit for the Learners' Level and Needs Korean through English Book One, designed for beginners, consists of 25 lessons. Lessons 1 through 4 are devoted to introduction and practice of the Korean alphabet, hangeul, and also include writing and reading exercises with detailed stroke orders to help students familiarize themselves with hangeul. Lessons 5 through 25 are made up of Vocabulary, Pronunciation, Conversation, Grammar, and Exercise. Several lessons include Information at the end of the lesson and it is supplement to help learners understand Korean culture more deeply. In the beginning of every lesson, the new vocabularies of the lessons are accompanied by a short gloss in English. These glosses provide a general idea of the meaning of the words of following conversation part. A brief pronunciation guide to Korean words singles out vocabulary items which are unusual or which have proven particularly difficult for English speakers. In the Conversation section, every effort has been made to provide both realistic and interesting dialogues. They have chosen to focus more on the everyday-life and modern cultural features which the students are more likely to encounter. The authors have also included varied notes on Korean culture and language that are necessary in learning Korean. The Grammar items covered were also selected according to their high-frequency of occurrence in modern Korean and the explanations are presented in English. Copious Exercises give students opportunity to practice and use the new vocabulary and grammar presented in each lesson. Besides, the cultural columns on Korea are supplements to help students understand important aspects of Korean culture that would be unfamiliar to most foreigners. The "Information," when possible, picks up the theme of the main text and is designed to enhance the understanding of traditional culture and modern society of Korea.

#### The Ultimate Korean Phrase Book
