### The Home Cook Book of Chicago

Excerpt from The Home Cook Book: Compiled From Recipes Contributed by Ladies of Chicago and Other Cities and Towns; Originally Published for the Benefit of the Home for the Friendless, Chicago Good diet, with wisdom, best comforteth man. - Thomas Tusser. Sir Thomas Browne has quaintly observed, that at some time or other we have all been on our own trenchers; and if the present rendering of science be true in the relation of matter to mind, it may be a subject of no slight importance how the psychological units that go to build up our brain and nerve forces are set before us, and how our dinners are cooked may be a more momentous question than who is to be the next President. With all supplied advice upon this subject, there are two qualities which have been seldom attained in any treatise hitherto published upon this science, viz: the art of uniting plain, simple and practical methods in the preparation of food, with that finish and perfection of detail, and that delicate blending of material, which are products of a refined and exquisite perception, and a delicate and sensitive taste. In short, that "gumption," by which the woman who possesses the genius for housekeeping graces her table daily with viands that in her skillful hands become a "perpetual feast of delights." ### The Home Cook Book of Chicago

Culinary Landmarks is a definitive history and bibliography of Canadian cookbooks from the beginning, when La cuisinière bourgeoise was published in Quebec City in 1825, to the mid-twentieth century. Over the course of more than ten years Elizabeth Driver researched every cookbook published within the borders of present-day Canada, whether a locally authored text or a Canadian edition of a foreign work. Every type of recipe collection is included, from trade publishers' bestsellers and advertising cookbooks, to home economics textbooks and fund-raisers from church women's groups. The entries for over 2,200 individual titles are arranged chronologically by their province or territory of publication, revealing cooking and dining customs in each part of the country over 125 years. Full bibliographical

descriptions of first and subsequent editions are augmented by author biographies and corporate histories of the food producers and kitchen-equipment manufacturers, who often published the books. Driver's excellent general introduction sets out the evolution of the cookbook genre in Canada, while brief introductions for each province identify regional differences in developments and trends. Four indexes and a 'Chronology of Canadian Cookbook History' provide other points of access to the wealth of material in this impressive reference book.

### The Home Cook Book of Chicago

Favorite Dishes is a celebrity cookbook of autographed recipes, accented by portraits of the distinguished contributors, that was compiled on the occasion of the 1893 World's Columbian Exposition in Chicago. It is a handsome sourcebook on nineteenth-century cookery as well as a testament to the desire of well-educated, well-placed women to use their position for social good. It is also a prime example of the genre of charitable cookbooks that began after the Civil War and extends to today's Junior League community cookbooks. The world's fair in Chicago was the first event of its kind that offered women a conspicuous and responsible role. A Woman's Building was designed by a woman architect, decorated with the statues and paintings of prominent women artists, and overseen by a Board of Lady Managers, comprised of 115 wives and daughters of prominent political and business leaders from every state and territory. Carrie Shuman approached the president of this unprecedented body, Bertha Honoré Palmer, with the idea of producing a charitable cookbook, endorsed and autographed by the Lady Managers, of their prize recipes. The books would be offered to women of limited means--women who dreamed "longingly and hopelessly of the Exposition"--who could sell them to raise money to cover the expense of a visit to the fair. This reissue of Favorite Dishes is set off by a pair of new introductions. Reid Badger discusses the phenomenon of world's fairs and the particular success and significance of the 1893 Exposition in Chicago. Bruce Kraig examines the culinary significance of the book and sets it in the context of the era's food standardization, changing cooking technology, recipe book conventions, and social practices.

### The Home Cook Book

From corn flakes to pancakes, *Breakfast: A History* explores this "most important meal of the day" as a social and gastronomic phenomenon. It explains how and why the meal emerged, what is eaten commonly in this meal across the globe, why certain foods are considered indispensable, and how it has been depicted in art and media. Heather Arndt Anderson's detail-rich, culturally revealing, and entertaining narrative thoroughly satisfies.

### Tried and True Recipes

Excerpt from *Tried and True Recipes, the Home Cook Book: Compiled From Recipes Contributed by Ladies of Toledo and Other Cities; Published for the Joint Benefit of the Home for Friendless Women and the Orphans' Home* The first edition of our home cook book having been exhausted, with increasing demands for the same, has led to the publication of a second edition, which is now presented to the public. In the preparation of this, all of the most valuable material in the first edition has been retained, to which a large amount of new subject of unquestionable value and interest has been added, gathered from a wide variety of sources. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
