Your ears go red when you lie.

If you sit too close to the TV, you'll hurt your eyes.

You'll get sick if you stand near a working microwave.

You'll get arthritis if you crack your knuckles.

You'll get acne if you eat too much chocolate.

If you swallow chewing gum, it'll stay inside you for 7 years.

If you touch a toad, you'll get warts.

Your hair will grow faster if you have it cut more often.

If you get scared when making a face, it'll stick that way.

If you play video games for too long, you'll destroy your TV.

Social skills training for preschoolers with ASD by VCU RRTC 1,173 views 8 years ago 57 minutes - Play **is**, an integral part of **most**, early childhood special education programs. For many young **children**, with ASD and severe ...

Intro

Overview • What are social skills?

What are social skills? • Set of important skills used to interact with others

What is social competence?

2001- National Research Council Educating Children with Autism

Why is social skill instruction important? • Preschoolers with ASD and severe learning needs have deficits in communication and social abilities

Social Deficits • Social deficits may include

Building Social Skills for Preschoolers

How to Embed Social Skill Instruction Throughout Preschool Curriculum

Explicit Social Skill Instruction

Naturalistic-based Instruction of Social Skills • Promotes social development by using natural environment

Antecedent-based Interventions • Arranging the environment to promote social interactions through-

out the daily routine

Task Analysis • Breaking down a skill into small, teachable parts

Three-term Contingency • Antecedent, Response, Consequence

Prompting • Determine what prompt will be used to ensure the child is successful

Reinforcement

Peer Mediation

Summary • Variety of methods to use in instruction of social skills which incorporate both systematic and naturalistic-based instruction
