Star * Avatar

In a profound recollection Miranda* remembers her earthly mission. Under the guidance of Spirit and extra-terrestrials Miranda* undergoes years of training, in multiple dimensions and the synchronistic realm. With spiritual initiations as well as trials and suffering, Miranda* evolves, rapidly integrating lessons learned in other lifetimes, and developing the paranormal abilities needed for the monumental role she is to play as she fulfills her destiny. On a trip to Peru in 2001 she finds an ancient engraved stone, and when she unravels its message, it unveils a Truth so astonishing that she guards it in secret. Revealing the written prophecy too soon may unleash the greatest religious and political revolution in the history of mankind. Tuning in to the collective consciousness, Miranda* has waited to come forward until humanity was not only ready for this momentous message, but eagerly awaiting it. With the Mayan Calendar ending in 2012, that time is now. After "The Secret" which quickly spread around the world, this book is "The Revelation". Adventure, romance, magic and miracles all come together in an inspiring blend of spirituality, mythology and cosmic science. Incredulous as it may appear, this is a true story.

Songlines of the Soul

The title for this book comes from the ancient Aboriginal concept of “song lines” —pathways to another world reached through dreamtime and visionary insight, and encounters with the unknown realm of experience. Veronica Goodchild addresses how dreams, synchronicities, UFO/ET encounters, Crop Circle mysteries, and NDEs all point to the new unfolding vision of reality. She draws on ancient mystery traditions to explore how this metamorphosis is already reflected cross-culturally in Hopi, Aztec, Mayan, Hindu, Tibetan, Maori, Zulu, Dogon, and Egyptian cultures. Songlines of the Soul proposes a new paradigm of reality, a new worldview. The signatures of this new reality are arising both in our own experiences and all around us if only we can stretch wide our stubbornly held perceptions of what is “reality.” As we stand at a crucial turning point in our human history, this book offers hope, a call to awaken and expand our perceptions of the fundamental principles that orchestrate reality. In an age when the answers offered by governments and traditional religion are no longer sufficient, the quest for meaning must—as it always has in the past—arise first through visions, dreams, and journeys to other dimensions of consciousness.

The Maya End Times

According to the Maya Prophecies, the 5,000-year “Fourth Age” will come to its end in 2012. In a remarkable adventure which takes her all over Central South America and involves strange ceremonies at sacred pyramids, scaling an active volcano and chases with drug runners, Patricia Mercier attempts to discover whether 2012 will be the end of the world as we know it or the dawning of a new golden age.

The Hidden Maya

This work explains how Plains Indians used hand signs as symbols for communication, and that the graphic signs derived from hand gestures played an important role in the development of writing. The author deciphers Maya inscriptions to reveal their hidden messages.

Pyramid of Fire: The Lost Aztec Codex

The first translation of a previously unknown Aztec codex and its initiatory teachings for 2012 • Discloses the potential for great spiritual awakening offered at the end of the Aztec calendar cycle • Presents the only existing English-language transcription of the Aztec codex, with line-by-line commentary • Contains the epic poetry and metaphysical insights of Beat poet Marty Matz (1934–2001) In 1961 an unknown Aztec codex was revealed to Beat poet and explorer Marty Matz by a Mazatec shaman in the mountains of Oaxaca, Mexico. Originally intended for dramatic performance, this codex presents a profound metaphysical teaching describing how the end of time will bring about a visionary ascent. At the behest of his Mazatec teacher, Matz transcribed this pictorial codex into a literary form that would preserve its initiatory teachings and reveal its secret meanings to a wider audience. Pyramid of Fire is an epic poem that provides a vehicle to transport the initiate into the higher realms of consciousness. It represents a barely surviving thread of teachings that have been passed down in secret since the time of the Spanish Conquest. Revealed are the techniques by which man is transported to the stellar realm after death via the solar energy within what the ancients called the “serpent of consciousness.” Line-by-line commentary by Matz and John Major Jenkins provides insights into the perennial philosophy contained in the codex and its relevance to our times.

The Mayan Code

Bestselling author Barbara Hand Clow shows how the Mayan Calendar is a bridge to galactic wisdom that fosters personal growth and human evolution • Unearths the meaning behind the calendar, its message for modern civilization, and what will happen when the calendar ends • Reveals how time acceleration is a manifestation of the acceleration of consciousness • By the author of *The Pleiadian Agenda* The Mayan Code is a deep exploration of how, as we approach the end of the Mayan Calendar, time and consciousness are accelerating, giving us a new understanding of the universe. Using Carl Johan Calleman’s research, as well as the ideas of other Mayan Calendar scholars, Barbara Hand Clow examines 16.4 billion years of evolution to decode the creative patterns of Earth—the World Mind. These great patterns culminate in 2011, and then during 2012 major astrological influences will inspire us to attain oneness and enlightenment. The Mayan Code shows how the time cycles of the Calendar match important periods in the evolutionary data banks of Earth and the Milky Way Galaxy. These stages of evolution are converging during the final stage of the Calendar, the period between 1999

and 2011. War and territoriality, resource management and separation from nature, are all part of daily events we must process during these few short years: evidence of the tightening spiral of time that we experience as time speeding up. Barbara Hand Clow counsels that our own personal healing is the most important factor as we prepare to make this critical leap in human evolution--now referred to as the awakening of the World Mind.

Time and the Technosphere

A groundbreaking study that distinguishes the natural time of the cosmos from artificial mechanistic time. • Reveals September 11 as the signal of the end of artificial time according to the Law of Time. • Long awaited sequel to the author's bestselling book *The Mayan Factor*. • Explains the Great Calendar Change of 2004 and its enormous potential for the future of humanity. In *Time and the Technosphere*, José Argüelles presents a groundbreaking study that distinguishes the natural time of the cosmos from the artificial mechanistic time under which we currently live. Argüelles defines the actual nature of time as the frequency of synchronization. Applying this Law of Time to an understanding of the entire system of life on Earth, he shows that in order to not destroy Earth's ability to sustain life, we must change our definition of time and adopt a natural harmonic calendar based on the 13-moon 28-day cycle. Until the creation of the Gregorian calendar and the 60-minute hour, most of humanity lived by the 28-day cycle of natural time. The adoption of artificial time has subjected us to a 12:60 time frequency that governs the entire global industrialized civilization--the technosphere. With the collapse of the Twin Towers on September 11, a fissure was created in this artificial technosphere, opening up the noosphere (Earth's mental envelope). Humanity has a golden opportunity to leave the strife of the past and enter a time of peace by adopting a harmonious natural calendar that will repair the damages caused by the irregular tempo of technospheric time. Our last best chance to adopt this natural time and step into the bright new future promised by the galactic shift of 2012 is the Great Calendar Change of 2004, a new discovery based on the author's mathematical research into the Mayan calendar first begun in his landmark work *The Mayan Factor*. In *Time and the Technosphere*, Argüelles reveals the clear distinction between third-dimensional astronomical time and the fourth-dimensional synchronic order of the Law of Time, which holds enormous potential for the future of humanity.

Feminine Mysteries in the Bible

An exploration of the repressed, esoteric feminine mysteries in the Bible through the lives of four women, all archetypes of the sacred prostitute • Shows how these four archetypal women represent the four stages of development of soul consciousness • Reveals how the fear of the power of the sacred prostitute led to a rejection of female sexuality and a destructive dualistic notion of men and women • Explains how the dogma of the Immaculate Conception represents the repression of the divine feminine in Christianity In *Feminine Mysteries in the Bible*, Ruth Rusca unveils sacred mysteries of the feminine and the alchemical relationship of the male and female forces at the heart of the Judeo-Christian tradition. Drawing on over 30 years of research, she explores four archetypal women in the Bible: Tamar, the sacred prostitute; Rahab, the meretrix; Ruth, who redeems the soul; and Bathsheba, the daughter of the Goddess. These women--sacred prostitutes one and all--represent the indestructible feminine life force, the wisdom of the Goddess, and the transformative power of the soul, and they symbolize the four stages of the development of soul consciousness. Mary, mother of Jesus, is the quintessence of these four women, but Rusca shows that the dogma of the Immaculate Conception has repressed the significance of Mary and subverted the divine feminine in Christianity due to the church's fear of women and their life-giving energy. These women pass an imperishable feminine life force from generation to generation, and understanding their lives creates a path to overcoming the destructive tendencies of dualistic "male-female" thinking--a duality that profanes feminine sexuality and mysteries rather than revering and celebrating them.

Red Rock Road, Light Blue Sea

Edging Spain, southern France, and Portugal, a midlife Canadian couple tracks landscapes between bliss and burnout, art and love. After the rigors of backpacking and wild camping, a Formentera cottage offers cozy comfort, honeymoon bliss, creative freedom. Noella sketches in watercolor, while Wilson skirts the boundaries of the postmodern novel. Amid the wild and picturesque beauty of landscape and sea, their refuge becomes a crucible of creative and romantic tension. Will it yield despair and separation—or, through willing embrace, a new intimacy, a new metafictional art?

Bringers of the Dawn

Compiled from more than four hundred hours of channeling by Barbara Marciniak, *Bringers of the Dawn* imparts to us the wisdom of the Pleiadians, a group of enlightened beings who have come to Earth to help us discover how to reach a new stage of evolution. Master storytellers and humorists, they advise us to become media free, to work in teams, and to eliminate the words "should" and "try" from our vocabularies. We learn how to go beyond fear, how the original human was a magnificent being with twelve strands of DNA and twelve chakra centers, and who our "gods" are. Startling, intense, intelligent, and controversial, these teachings offer essential reading for anyone questioning their existence on this planet and the direction of our collective conscious--and unconscious. By remembering that we are Family of Light, that we share an ancient ancestry with the universe around us, we become "bringers of the dawn," consciously creating a new reality, a new Earth.

How to Practice Mayan Astrology

A contemporary and practical guide to Mayan astrological techniques • Discusses the logic and meaning of the 20 day-signs of the Mayan calendar • Explains the many cycles of Mayan astrology, such as the 9-day cycle of the Night Lords and the 13-day trecena • Contains extensive tables of Mayan astrological data, allowing readers to cast their own Mayan horoscopes *How to Practice Mayan Astrology* presents a contemporary guide to one of the most sophisticated astrological systems ever developed. Like other ancient peoples, the Maya looked to the cycles of the planets as markers of time and designators of order. The predictable cycles they observed became codified in the Mayan calendar and astrological system as a way of organizing the seeming chaos of human life. Mayan astrology is based on 20 named days that are cycled 13 times to create a 260-day calendar, the Tzolkin. The authors explain the symbolism, logic, and meaning of the 20 day-signs; how these signs reflect 260 possible personality types; and how they can be used for divination. They also explain the important role of the Four Directions and the planet Venus in one's personality matrix and life issues. Included are extensive, easy-to-use tables of Mayan astrological data, allowing readers to determine their day-signs, to see how these signs are also influenced by the cycle of the Night Lords and the 13-day trecena, and to cast their own horoscopes.

Gaia's New DreamCoat

Gaia's New DreamCoat opens us to a story that unfolds simply by asking those wise shepherds of the Earth in the Devic and Faerie Realms, to assist us in learning how to transform Earth and ourselves. In the process, we will have to ask ourselves what will happen if we don't act in a timely way to support Gaia's greening. The Light Loom weaving that is being made by the various characters from the subtle realms must be complete and activated before Gaia can no longer sustain human life. Is there a more compelling discovery to be made right now on Earth? It's simply time to tune-up and listen to the amazing wisdom that each of these caretakers of the natural world holds! In that delightful exploration, we are awakened to the power we each hold to affect the outcome of the story that we are re-writing on Earth. Sojourns of the Soul

Sojourns of the Soul differs from other inspirational travel books by providing a rare mix of in-depth wisdom and literary insights from the holistic view of one experienced female traveler. Dana Micucci gives a compelling account of her growing spiritual illumination through visits to some of the most sacred places on earth. Her lively, engaging narrative takes us to seven sites in all: the Australian

outback, Angkor in Cambodia, the Valley of the Kings in Egypt, Lhasa in Tibet, Chichen Itza in the Yucatan; the Monastery of Christ in the Desert in New Mexico, and Machu Picchu in Peru. Micucci links each visit with the awakening of a particular chakra- the chakras being the seven energy centers of the body associated in Hinduism with progressive enlightenment. In the afterword, she reflects on how her experiences continue to shape her life after resuming her career as a journalist in New York City: she finds she is more tolerant, can engage in daily activities with more heart-centered awareness, and can sustain states of joy and gratitude for longer periods of time. The book will be a page turner for readers who yearn for long-delayed adventure, with the added benefit that it is not just a journey log but more of a seeker's manual; travel is simply the vehicle. Readers will find that they don't have to travel to far-flung places for the spiritual inspiration available in their everyday lives. As Micucci says, "Each day brings new remembrances of our divinity, of the Divine presence in all beings, and of our eternal connection to each other. I am so grateful to be here NOW . . . with you."

The Origin of Consciousness in the Breakdown of the Bicameral Mind

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—American Journal of Psychiatry

Shamanic Mysteries of Egypt

A book of wisdom teachings and rituals that invoke ancient Egyptian deities to awaken human consciousness • Provides guided shamanic visualizations to invoke 26 of the most significant gods • Takes the reader through shamanic portals of death, rebirth, and illumination • Reconciles internal conflict through a sacred marriage of heart and mind In *Shamanic Mysteries of Egypt*, Nicki Scully and Linda Star Wolf renew humanity's connection to the ancient gods of Egypt, the neteru. Voices from these divine ancestors remind us of the healing power of the heart, and call us to bring their consciousness into the present to help us remember our true nature as divine humans with sacred purpose. The authors provide rituals, meditations, and rites of passage to help us meet our personal and planetary challenges with grace, wisdom, and love. The shamanic initiations provided are invoked, directly experienced, and transformed into embodied wisdom that awakens consciousness and illumines the intelligence of the heart. Scully and Star Wolf focus their rituals on 26 of the primary divine entities that preside over the ancient mysteries whose roots are in Old Kingdom and pre-historic Egypt. This fresh interpretation of ancient mysteries unites the energies of Thoth and Anubis to guide us through the current cycle of Earth changes and to help us remember who we really are at heart. Through these passages, Anubis lives up to his ancient title as the Opener of the Way, and Thoth as the Architect of Higher Learning. Together they evoke their power to unite heart and mind in the sacred marriage that brings transformation, renewal, and the awakening of consciousness.

Filmmaker Alejandro Jodorowsky's insights into the Tarot as a spiritual path • Works with the original Marseille Tarot to reveal the roots of Western wisdom • Provides the key to the symbolic language of the Tarot's "nomadic cathedral" • Transforms a simple divination tool into a vehicle for self-realization and healing Alejandro Jodorowsky's profound study of the Tarot, which began in the early 1950s, reveals it to be far more than a simple divination device. The Tarot is first and foremost a powerful instrument of self-knowledge and a representation of the structure of the soul. The *Way of Tarot* shows that the entire deck is structured like a temple, or a mandala, which is both an image of the world and a representation of the divine. The authors use the sacred art of the original Marseille Tarot--created during a time of religious tolerance in the 11th century--to reconnect with the roots of the Tarot's Western esoteric wisdom. They explain that the Tarot is a "nomadic cathedral" whose parts--the 78 cards or "arcana"--should always be viewed with an awareness of the whole structure. This understanding is essential to fully grasp the Tarot's hermetic symbolism. The authors explore the secret associations behind the hierarchy of the cards and the correspondences between the suits and energies within human beings. Each description of the Major Arcana includes key word summaries, symbolic meanings, traditional interpretations, and a section where the card speaks for itself. Jodorowsky and Costa then take the art of reading the Tarot to a depth never before possible. Using their work with Tarology, a new psychological approach that uses the symbolism and optical language of the Tarot to create a mirror image of the personality, they offer a powerful tool for self-realization, creativity, and healing.

El código maya constituye una profunda exploración de la manera en que, a medida que nos aproximamos al final del calendario maya, el tiempo y la conciencia se aceleran y nos proporcionan una nueva comprensión del universo. Valiéndose de las investigaciones de Carl Johan Calleman, y de las ideas de otros expertos en el calendario maya, Barbara Hand Clow examina 16 400 millones de años de evolución y descodifica las pautas creativas de la Tierra, o sea, la conciencia mundial. Estas grandes pautas culminan en 2011 y luego, durante 2012, importantes influencias astrológicas nos inspirarán a alcanzar la unidad y la iluminación. El código maya muestra cómo los ciclos temporales del calendario coinciden con períodos importantes en los bancos de datos evolutivos de la Tierra y la Galaxia de la Vía Láctea. Estas fases de la evolución convergen durante la etapa final del Calendario, el período comprendido entre 1999 y 2011. Tanto la guerra y la territorialidad como la gestión de los recursos y la separación de la naturaleza son parte de los acontecimientos cotidianos que debemos procesar durante estos escasos años: son prueba de la espiral del tiempo cada vez más compacta que estamos experimentando debido a la aceleración del tiempo. Barbara Hand Clow nos asegura que nuestra propia sanación personal es el factor más importante al prepararnos para dar este salto crítico en la evolución humana. Esto se ha dado en llamar "el despertar de la conciencia mundial". Bestselling author Barbara Hand Clow shows how the Mayan Calendar is a bridge to galactic wisdom that fosters personal growth and human evolution • Unearths the meaning behind the calendar, its message for modern civilization, and what will happen when the calendar ends • Reveals how time acceleration is a manifestation of the acceleration of consciousness • By the author of *The Pleiadian Agenda* In this book, Barbara Hand Clow draws on the work of biologist Carl Johan Calleman and many other New Paradigm researchers to unearth the deeper meaning behind the Mayan Calendar and its message for modern civilization, especially during its final five years. As we approach the end of the calendar, time and consciousness are accelerating. Working with Calleman's time-acceleration theory, Barbara Hand Clow shows how the cycles of time marked by the calendar match important periods in the evolutionary data banks of Earth and the Milky Way Galaxy and that the calendar describes the evolutionary stage

to come. She explores how our own personal healing is the most important factor as we prepare to make this critical leap in human evolution--now referred to as the awakening of the World Mind.
