The Amazing Idea of You

Fans of Emily Winfield Martin will delight in this loving, gorgeously illustrated story that celebrates new life. Hidden inside every living thing is an idea. That idea can sprout, sing, wriggle, take wing . . . into something amazing! Exploring beginnings both small and great, *The Amazing Idea of You* bonds the human and natural worlds in a lyrical burst of celebration. So dig deep, fly high, look around, and find the extraordinary inside everything . . . including YOU!

The Idea of You

Included on The Skimm's 2020 list of Eight Books Both You and Mom Will Love "The sleeper hit of the pandemic There is no escapism like reading about a nearly middle-aged woman embarking on a glittering, global love affair with a thoughtful young sex god It's electric, triumphant to read." —Vogue.com "An OMG page-turner." —Gabrielle Union Solène Marchand, the thirty-nine-year-old owner of an art gallery in Los Angeles, is reluctant to take her daughter, Isabelle, to meet her favorite boy band. But since her divorce, she's more eager than ever to be close to Isabelle. The last thing Solène expects is to make a connection with one of the members of the world-famous August Moon. But Hayes Campbell is clever, winning, confident, and posh, and the attraction is immediate. That he is all of twenty years old further complicates things. What begins as a series of clandestine trysts quickly evolves into a passionate and genuine relationship. It is a journey that spans continents as Solène and Hayes navigate each other's worlds: from stadium tours to international art fairs to secluded hideaways in Paris and Miami. For Solène, it is a reclaiming of self, as well as a rediscovery of happiness and love. When Solène and Hayes' romance becomes a viral sensation, and both she and her daughter become the target of rabid fans and an insatiable media, Solène must face how her romantic life has impacted the lives of those she cares about most.

The Idea of You

EVERYONE IN THE WORLD KNOWS HIS NAME. BUT IT'S YOU HE WANTS. At thirty-nine, Sol ne Marchand is a devoted mother, a dedicated colleague and a considerate ex-wife. But it's a long time since she's felt like herself. So when someone comes along who seems to see her - to want her - for who she really is, the attraction is instant. And so begins a jet-setting, earth-shattering secret love affair. But what if that someone is world-famous sex symbol Hayes Campbell? Captivating frontman of boy band of the moment August Moon - whose face is everywhere. Including Sol ne's teenage daughter's bedroom wall. Can Sol ne allow herself to fall for the boy the whole world wants? Or will she have to make a devastating choice?

The Idea Book

Bob's red and round, and he bounces 'cause he has no feet. Madame Blueberry lives in a tree. What makes her special? She's as blue as can be. What about those French Peas? They speak with "zee accent." Tots will discover that it's okay to be different, because God made you special and he loves you very much. Through fun rhymes and humor, and some help from those lovable Veggies, little ones will realize that God makes everyone special!"

With advice from the people behind the likes of *Pizza Pilgrims*, *Parkrun* and *Decoded*, *The Idea in You* will show you what to expect, how to think and what to do when launching your own venture. Making your idea happen is possible - and it will be one of the most inspiring and energizing experiences of your life. What are you waiting for? 'A wonderfully inspirational book that will help unleash your ideas on the world' Michael Acton Smith, creator of *Moshi Monsters* 'Every great business starts with an idea . . . this book will help you find yours' Richard Reed, co-founder *Innocent Drinks* 'It seems to me that many could-be creators simply lack support in their lives, someone genuine who listens to their ideas and pushes boundaries to make it all seem possible. Alex and Martin must recognize this, too, because their book is a generous offer of encouragement and spirit, a drum beat that stirred my creative confidence' Zach Klein, co-founder of *Vimeo*

Grenville makes awkward atmospheres and fumbling encounters wonderfully vivid. Read it and cringe' *The Times* *The Idea of Perfection* is a funny and touching romance between two people who've given up on love. Set in the eccentric little backwater of Karakarook, New South Wales, pop. 1374, it tells the story of Douglas Cheeseman, a gawky engineer with jug-handle ears, and Harley Savage, a woman altogether too big and too abrupt for comfort. Harley is in Karakarook to foster 'Heritage', and Douglas is there to pull down the quaint old Bent Bridge. From day one, they're on a collision course. But out of this unpromising conjunction of opposites, something unexpected happens: sometimes even better than perfection. 'From these two reticent characters, besieged by two lifetimes of regret, doubt and dismay, Grenville manufactures an extraordinary comedy of manners, made all more powerful by her own reticence as a writer' *Guardian* 'Outrageously entertaining' *Daily Mail* 'Mined throughout with little pockets of danger and depth' *Guardian* 'A truly amazing writer' Rosie Boycott, chair of the Orange Prize jury

The Idea of Perfection

From New York Times bestselling author Patti Callahan Henry, *The Idea of Love* asks, "Can two people come together for all the wrong reasons and still make it right?" Ella's life has been completely upended. She's young, beautiful, and deeply in love--until her husband dies in a tragic sailing accident. Or so she'll have everyone believe. Screenwriter Hunter needs a hit, but crippling writers' block and a serious lack of motivation are getting him nowhere. He's on the lookout for a love story. It doesn't matter who it belongs to. When Hunter and Ella meet in Watersend, South Carolina, it feels like the perfect match, something close to fate. In Ella, Hunter finds the perfect love story, full of longing and sacrifice. It's the stuff of epic films. In Hunter, Ella finds possibility. It's an opportunity to live out a fantasy--the life she wishes she had. And more real. Besides--what's a little white lie between strangers? But one lie leads to another, and soon Hunter and Ella find themselves caught in a web of deceit. As they try to untangle their lies and reclaim their lives, they feel something stronger is keeping them together.

The Idea of Love

An Edited Life

'Strikingly beautiful' Guardian 'Tough and tender' Joanne Harris After the Sickness has killed off her parents, and the bombs have fallen on the last safe cities, Monster emerges from the Arctic vault which has kept her alive. When she washes up on the coast of Scotland, everyone she knows is dead, and she believes she is alone in an empty world. Slowly, piece by piece, she begins to rebuild a life. Until, one day, she finds a girl: another survivor, feral, and ready to be taught all that Monster knows. But as the lonely days pass, the lessons the girl learns are not always the ones Monster means to teach . . .

My Name Is Monster

When a cluster of expatriate families converges on Provence, it seems as if sunshine, good wine, and an endless round of parties will make for a better life. Then Richard, a pharmaceutical salesman married to sexy Valérie, lands a plum assignment: introducing antidepressants into Africa, virgin territory for the drug industry and for the womanizing he has honed to a science. And idealistic Rachel finds herself Africa-bound too, in search of a little brother or sister for her daughter, Maud, and following some deeper longing she can't seem to quell. For both Richard and Rachel, the excursions will lead them into their own private heart of darkness, and will bring shock waves home to their little Eden, unsettling the very idea of love.

Not My Idea

In the tradition of Phil Knight's Shoe Dog comes the incredible untold story of how Netflix went from concept to company - all revealed by co-founder and first CEO Marc Randolph. "Engaging and insightful." --Reed Hastings, CEO of Netflix "As the founding CEO, Marc Randolph's leadership defined the culture of Netflix and laid the groundwork for successive, global revolutions in how we make and consume entertainment." --Gina Keating, author of Netflixed: The Epic Battle for America's Eyeballs "Charming, fascinating and very funny. If you've ever wondered how to turn an idea into a global household name, Marc Randolph will demystify the world of Silicon Valley start-ups, and make you laugh a lot along the way." --Decca Aitkenhead, The Sunday Times "A charming first-person account of the early days of one of the most successful tech start-ups ever. An engaging read that will engross any would-be entrepreneur." --The Washington Post Once upon a time, brick-and-mortar video stores were king. Late fees were ubiquitous, video-streaming unheard of, and widespread DVD adoption seemed about as imminent as flying cars. These were the widely accepted laws of the land in 1997 when Marc Randolph had an idea. It was a simple thought - leveraging the internet to rent movies - and was just one of many more proposals, like personalised baseball bats and a shampoo delivery service, that Randolph would pitch to his business partner, Reed Hastings, on their commute to work each morning. But Hastings was intrigued, and the pair - with Hastings as the primary investor and Randolph as the CEO - founded a company. Now with over 150 million subscribers, Netflix's triumph feels inevitable but the twenty-first century's most disruptive start-up began with few believers and calamity at every turn. From having to pitch his own mother on being an early investor, to the motel conference room that served as a first office, to server crashes on launch day, to the now-infamous meeting when they pitched Blockbuster to acquire them, Marc Randolph's transformational journey exemplifies how anyone with grit, gut instincts and determination can change the world - even with an idea that many think will never work. What emerges, however, isn't just the inside story of one of the world's most iconic companies. Full of counter-intuitive concepts and written in binge-worthy prose, it answers our most fundamental questions about taking that leap of faith in business or in life: How do you begin? How do you weather disappointment and failure? How do you deal with success? What even is success? From idea generation to team building to knowing when it's time to let go, That Will Never Work is not only the ultimate follow-your-dreams parable but also one of the most dramatic and insightful entrepreneurial stories of our time. "Marc wastes no time cutting through the noise. He understands what is important whether it is your product, your marketing, or your business plan. A remarkable and one of a kind visionary." --Mitch Lowe, founder of RedBox and CEO of MoviePass "An entertaining chronicle of creativity, luck, and unflagging perseverance." --Kirkus

That Will Never Work

New York Times AND INTERNATIONAL BESTSELLER "Boldly plotted, tightly knotted--a provocative true-or-false thriller that deepens and darkens to its ink-black finale. Marvelous." --AJ Finn, author of The Woman in the Window My name is Amber Reynolds. There are three things you should know about me: 1. I'm in a coma. 2. My husband doesn't love me anymore. 3. Sometimes I lie. Amber wakes up in a hospital. She can't move. She can't speak. She can't open her eyes. She can hear everyone around her, but they have no idea. Amber doesn't remember what happened, but she has a suspicion her husband had something to do with it. Alternating between her paralyzed present, the week before her accident, and a series of childhood diaries from twenty years ago, this brilliant psychological thriller asks: Is something really a lie if you believe it's the truth?

These two volumes provide a translation of the philosophical works of Descartes, based on the best available Latin and French texts. They are intended to replace the only reasonably comprehensive selection of his works in English, by Haldane and Ross, first published in 1911. All the works included in that edition are translated here, together with a number of additional texts crucial for an understanding of Cartesian philosophy, including important material from Descartes' scientific writings. The result should meet the widespread demand for an accurate and authoritative edition of Descartes' philosophical writings in clear and readable modern English.

Und es prangt nicht nur an Hauswänden, auf Bussen und U-Bahnstationen, sondern auch an der Wand des Zimmers von Solènes Teenagertochter. In the tradition of Phil Knight's Shoe Dog comes the incredible untold story of how Netflix went from concept to company - all revealed by co-founder and first CEO Marc Randolph. "Engaging and insightful." --Reed Hastings, CEO of Netflix "As the founding CEO, Marc Randolph's leadership defined the culture of Netflix and laid the groundwork for successive, global revolutions in how we make and consume entertainment." --Gina Keating, author of Netflixed: The Epic Battle for America's Eyeballs "Charming, fascinating and very funny. If you've ever wondered how to turn an idea into a global household name, Marc Randolph will demystify the world of Silicon Valley start-ups, and make you laugh a lot along the way." --Decca Aitkenhead, The Sunday Times "A charming first-person account of the early days of one of the most successful tech start-ups ever. An engaging read that will engross any would-be entrepreneur." --The Washington Post Once upon a time, brick-and-mortar video stores were king. Late fees were ubiquitous, video-streaming unheard of, and widespread DVD adoption seemed about as imminent as flying cars. These were the widely accepted laws of the land in 1997 when Marc Randolph had an idea. It was a simple thought - leveraging the internet to rent movies - and was just one of many more proposals, like personalised baseball bats and a shampoo delivery service, that Randolph would pitch to his business partner, Reed Hastings, on their commute to work each morning. But Hastings was intrigued, and the pair - with Hastings as the primary investor and Randolph as the CEO - founded a company. Now with over 150 million subscribers, Netflix's triumph feels inevitable but the twenty-first century's most disruptive start-up began with few believers and calamity at every turn. From having to pitch his own mother on being an early investor, to the motel conference room that served as a first office, to server crashes on launch day, to the now-infamous meeting when they pitched Blockbuster to acquire them, Marc Randolph's transformational journey exemplifies how anyone with grit, gut instincts and determination can change the world - even with an idea that many think will never work. What emerges, however, isn't just the inside story of one of the

world's most iconic companies. Full of counter-intuitive concepts and written in binge-worthy prose, it answers our most fundamental questions about taking that leap of faith in business or in life: How do you begin? How do you weather disappointment and failure? How do you deal with success? What even is success? From idea generation to team building to knowing when it's time to let go, *That Will Never Work* is not only the ultimate follow-your-dreams parable but also one of the most dramatic and insightful entrepreneurial stories of our time. "Marc wastes no time cutting through the noise. He understands what is important whether it is your product, your marketing, or your business plan. A remarkable and one of a kind visionary." --Mitch Lowe, founder of RedBox and CEO of MoviePass "An entertaining chronicle of creativity, luck, and unflagging perseverance." --Kirkus

The Story Behind *THE LEGEND OF BAGGER VANCE* If you've read his books *THE WAR OF ART* and *TURNING PRO*, you know that for thirty years Steven Pressfield (*GATES OF FIRE*, *THE AFGHAN CAMPAIGN* etc.) wrote spec novel after spec novel before any publisher took him seriously. How did he finally break through? Ignoring just about every rule of commercial book publishing, Pressfield's "first" novel not only became a major bestseller (over 250,000 copies sold), it was adapted into a feature film directed by Robert Redford and starring Matt Damon, Will Smith, and Charlize Theron. Where did he get the idea? What magical something did *THE LEGEND OF BAGGER VANCE* have that his previous manuscripts lacked? Why did Pressfield decide to write a novel when he already had a well established screenwriting career? How does writing a publishable novel really work? Taking a page from John Steinbeck's classic *JOURNAL OF A NOVEL*, Steven Pressfield offers answers for these and scores of other practical writing questions in *THE AUTHENTIC SWING*.

The Very Best Bad Idea

The definitive history of America's greatest incubator of innovation and the birthplace of some of the 20th century's most influential technologies "Filled with colorful characters and inspiring lessons . . . The Idea Factory explores one of the most critical issues of our time: What causes innovation?" —Walter Isaacson, *The New York Times Book Review* "Compelling . . . Gertner's book offers fascinating evidence for those seeking to understand how a society should best invest its research resources." —*The Wall Street Journal* From its beginnings in the 1920s until its demise in the 1980s, Bell Labs-officially, the research and development wing of AT&T-was the biggest, and arguably the best, laboratory for new ideas in the world. From the transistor to the laser, from digital communications to cellular telephony, it's hard to find an aspect of modern life that hasn't been touched by Bell Labs. In *The Idea Factory*, Jon Gertner traces the origins of some of the twentieth century's most important inventions and delivers a riveting and heretofore untold chapter of American history. At its heart this is a story about the life and work of a small group of brilliant and eccentric men-Mervin Kelly, Bill Shockley, Claude Shannon, John Pierce, and Bill Baker-who spent their careers at Bell Labs. Today, when the drive to invent has become a mantra, Bell Labs offers us a way to enrich our understanding of the challenges and solutions to technological innovation. Here, after all, was where the foundational ideas on the management of innovation were born.

The Idea Shapers

'This witty book reveals the humbling vastness of our ignorance about the universe, along with charming insights into what we actually do understand' Carlo Rovelli, author of Seven Brief Lessons on Physics and Reality Is Not What It Seems In our small corner of the universe, we know how some matter behaves most of the time and what even less of it looks like, and we have some good guesses about

where it all came from. But we really have no clue what's going on. In fact, we don't know what about 95% of the universe is made of. So what happens when a cartoonist and a physicist walk into this strange, mostly unknown universe? Jorge Cham and Daniel Whiteson gleefully explore the biggest unknowns, why these things are still mysteries, and what a lot of smart people are doing to figure out the answers (or at least ask the right questions). While they're at it, they helpfully demystify many complicated things we do know about, from quarks and neutrinos to gravitational waves and exploding black holes. With equal doses of humour and delight, they invite us to see the universe as a vast expanse of mostly uncharted territory that's still ours to explore. This is a book for fans of Brian Cox and What If. This highly entertaining highly illustrated book is perfect for anyone who's curious about all the great mysteries physicists are going to solve next.

Ideas Man

Why does a rolling ball stop rolling? Why doesn't the sun burn out? Why can't you unscramble an egg? Why can't we live forever? These are all questions that a curious kid might ask. In What's the BIG Idea?, renowned juvenile science educator Vicki Cobb answers these and thirty-one other fascinating questions to help kids learn more about the world through the wonders of science. A big idea is one that has no simple or easy answer, and there are four big ideas in this book: motion, energy, matter, and life. The motion of nonliving objects—rolling balls, falling stones, the moon and stars—seems so ordinary and familiar that most people take it for granted. Matter, on the other hand, comes in so many different forms—solids, liquids, gases, metals, nonmetals, living material—it is hard to imagine anything that all matter has in common. Energy is an idea that is in the news just about every day, yet most people couldn't tell you what the big idea of energy is. And life seems mind-boggling and infinitely complicated. How do we bend our brains around it? Scientists learn by asking questions. And What's the Big Idea? is designed to make young readers stop and think about each of the thirty-five questions before reading what scientists have learned that answers each question. They'll be able to do simple things to see for themselves and build their own scientific knowledge in the process. By the time they've finished this book, they'll have a pretty good idea of what science is all about.
