Intro

You don't usually get to \$1 Billion and still own 100% of your business

Real-estate will make you a millionaire, Private Equity makes you a billionaire

Do not use your own money, use someone else's to make yourself rich

Everything is a buy low - sell high equation, only the scale differs.

Art is a preferred store of value that can easily be moved around

Stocks won't get you to a billion, neither will luck

Every new billionaire, turns other millionaires into billionaires

Less than 5% of their worth is liquid

The real money is made in a crisis

They all had and still have experts minimizing risk and increasing returns

Very few billionaires are Direct-to-consumer, most of the money is in Enterprise deals

Most billionaires don't start from the bottom

Most industry tycoons get wealthy by exporting slave labour where you can't see it - and the world doesn't really care.

Almost all are sociopathically obsessed with money and success

Decision making & Persuasion are the only 2 Billionaire-Tier skills

The Millionaire Real Estate Mindset

The Millionaire Real Estate Mindset: Mastering the Mental Skills to Build Your Fortune in Real Estate There are scores of books on real estate investing on the market today, and most give sound information and helpful advice. Yet few people have become wealthy. In The Millionaire Real Estate Mindset, Russ Whitney asks, "Why isn't everyone rich?" and perhaps more important, "Why aren't you rich?" What is missing in most people's real estate strategy, Whitney says, is the millionaire real estate mindset. And, in this book, he tells readers exactly how to develop one. Whitney explains how you can break free of the fears that hold so many people back. A key part of succeeding in real estate, Whitney claims,

is a willingness to spend time educating yourself about the various techniques, options, insights, and possibilities it entails. Other professions and trades require years of education and practice before you can hope to generate significant income. Building wealth in real estate requires similar focus and dedication. He provides specific investing strategies that can work in virtually any market, whether you have cash to start, or not. Once you have a few successes under your belt, he encourages investors to move up to larger deals. He explains the complexities of raw land investing and development as well as international real estate investing. He examines a variety of funding techniques, from no-money-down to syndications to make the wisest use of your cash. Whitney candidly discusses what can go wrong and how to anticipate and address unpleasant surprises. From invaluable insights into personal motivation, to advice on improving one's communication skills, strengthening relationships, and building personal financial strategies, Whitney helps readers overcome feelings of insecurity about investing and move into the market with certainty and self-assurance. With its unique focus on the psychological aspects of investing—an ingredient missing from other how-to real-estate investment guides—The Millionaire Real Estate Mindset will enable readers to break through the “poverty” mentality, take advantage of the booming real estate market, and join the ranks of the rich and superrich.

7 Steps to Wealth

Get the most out of property investment and secure your financial future 7 Steps to Wealth is the only real estate book in Australia endorsed by three of Australia's property billionaires. It shares John L. Fitzgerald's own 35-year proven property strategy, supported statistically and with real life case studies from readers of earlier editions. Now in its 8th edition the book is completely up-to-date with the latest census data, location criteria and growth forecasts. Most importantly the book exposes the difference between property and real estate, proving that it's only the land that appreciates and that the buildings that sit on the land actually depreciate. Indeed 7 Steps to Wealth uses Warren Buffet's secret of compound growth but adapted for Australian property investors. Fitzgerald proves that certain residential land is Australia's best growth asset — and will continue to be given current record population growth. • Unlock the secret power of compound growth and make it work for you • Avoid the common mistakes that most property investors make • Read case studies and testimonials from millionaires using the 7 step strategies • Understand how to safely build wealth in property, be cashflow positive and still get a tax deduction. With Australia's record population growth, there is no better time for Australians to use this proven strategy to safely build wealth for a comfortable retirement, one that doesn't mean relying on government welfare.

Other Major Predictors of Your Ability To Manage Your Financial Life

But I'M Also Teaching You the Idea that in Order for this Plan To Be Successful You'Re Going To Have To Engage in Certain Behaviors Are Actually Not Engaged in Certain Behaviors and that Becomes a Critical Piece of It As Well so We'Ve all Probably Had Bosses That Were Really Really Smart but Weren't Great at Their Jobs because Maybe They Weren't Great Managers for Example It's the Same with that Intelligence Piece Where You Can Have this Sort of Cognitive Ability That's off the Charts but Your Ability To Manage Your Financial Life Is Low

They Have a Different Situation and There's a Different Maybe Desire There Maybe They Want To Start Their Own Business like I Said to To Meet some Goal That They Have for Changing the World

That Sounds Real Grandiose but that Becomes More of What's Driving Them Then Okay I Want To Reach Millionaire Status Is Millionaire Status Particularly among the Emerging Millionaires That You Surveyed Is that an Aspiration or Is It a Natural Consequence of the Way in Which They Live It Depends that's What a Good Psychologist Would Say Right It Depends There Are Individuals Who Really Focus on that as a Goal and Then There Are Others Who Simply Live a Lifestyle That Would Never Be Wasteful

... Author of the **Millionaire Next Door**, Household Lessons ...

That's Allowing Us To Do Other Things and We Talked about What those Other Things Are in Broad Terms so We're Not Doing Specifics Necessarily but It's Things like Saving for College or Saving for Other Things That You Might Want To Buy Later We Also Talked about the Idea that What You See Isn't Always What You Get and that It's Very Easy and that that's Where the Credit Card Debt those Kinds of Conversations Can Come into Play because Explaining How a Credit Card Works Is Fascinating if You Don't Know It Like Think about Not Knowing What a Credit Card Means You Know You Just Get Up to the Counter You Give a Credit Card You Get Your Item Well at some Point You Have To Pay for that and I Think that Helping Them Understand What that Looks like and What that Means Has Been Really Really Useful It Also Helps Them Understand How Someone Can Come to School What's the Brand New Outfit

We Also Talked about the Idea that What You See Isn't Always What You Get and that It's Very Easy and that that's Where the Credit Card Debt those Kinds of Conversations Can Come into Play because Explaining How a Credit Card Works Is Fascinating if You Don't Know It Like Think about Not Knowing What a Credit Card Means You Know You Just Get Up to the Counter You Give a Credit Card You Get Your Item Well at some Point You Have To Pay for that and I Think that Helping Them Understand What that Looks like and What that Means Has Been Really Really Useful It Also Helps Them Understand How Someone Can Come to School What's the Brand New Outfit and You Know in a Brand New Car for Example

And these Are Real Challenges yet that Does Not Change the Fact that There Are Core Behaviors Frugality Industriousness Resourcefulness a Strong Internal Locus of Control That Are Major Predictors of whether or Not a Person Will Become a Millionaire and that Core Set of Behaviors Is What Is Consistent through the Decades I Think that What We Knew Was that There Were Tremendous Changes in Terms of Technology in Terms of Small Business Ownership Costs of Health Care and Education and Things like that a Lot of that He Had Kept Up with and Sort Of Written About throughout His Lifetime on His Blog and Things like that

So for Example You CanNot Control Broad Macroeconomic Forces outside of Your Control You Can't Control How Well the Dow Jones Industrial Average Is Going To Perform but You Can Control Your Contributions to It You CanNot Control Market Appreciation within the Housing Market You Can't Control the Rate at Which Houses in Aggregate Will Appreciate over Time but You Can Control whether or Not You Buy a Rental Property with a Strong Cap Rate and You Can Control the Renovations and Other Forced Appreciation That You Bring to the Deal by Virtue of the Judgment That You Execute

But You Can Control whether or Not You Buy a Rental Property with a Strong Cap Rate and You Can Control the Renovations and Other Forced Appreciation That You Bring to the Deal by Virtue of the Judgment That You Execute and So Operating inside of Your Circle of Influence Is a Way To Bring this Notion of Internal Locus of Control to Life and so that Is Key Takeaway Number Two Key Takeaway Number Three before any Major Purchase Such as a Car a Home or an Expensive Trip Ask Yourself a Series of Questions To Identify if You Genuinely Want this or if You Only Think You Want-because of the Influences around You Think about You Know How Did I Make that Purchase Where Did I Learn about that Particular Whatever It Was Item
