Les Étrusques

Les Etrusques continuent à évoquer un monde énigmatique. C'est qu'ils ont laissé une double image d'eux-mêmes : sereine, comme ces couples bien nourris, allongés sur leurs lits funèbres pour l'éternité, ou inquiétante, comme ces horribles grimaces qui ornent d'inoubliables fresques. C'est aussi que les Grecs, qui redoutaient leur puissance, les ont dépeints comme de dangereux pirates aux mœurs dépravées, et que ces légendes ont traversé les siècles. Les anciens habitants des collines de Toscane conservent bien des mystères, car même si leur écriture peut être déchiffrée, leur langue reste en large partie incompréhensible. Mais ce peuple, auquel les Romains empruntèrent tant, est de mieux en mieux connu. Sa civilisation, d'une richesse et d'un faste surprenants, est sans équivalent dans le monde antique. Non moins surprenante est l'histoire de sa découverte. Depuis la Renaissance, en effet, collectionneurs, savants, chasseurs de trésors et amateurs d'antiquités n'ont cessé de fouiller les innombrables tombes de Toscane dans l'espoir de trouver les secrets de ces Etrusques si différents des autres peuples de l'Antiquité.

Les Étrusques

Mythic Paradigms in Literature, Philosophy, and the Arts approaches literary and visual texts from the perspective of Hesperian identification and representation. Included is the first translation into English of Fichte's Supplement of 1801, a document whose content sheds light not only on the atheism controversy of the 1790s, but also on literary/philosophical polarizations in the «Republic of Letters». Condensed from the Hesperian atmospherics of Italy and Latin elegy, Faust II entails a Goethean celebration of auditory and visual sensation. In a text devoted to Shelley, Gregory Corso is seen elaborating a prosopopoeia involving Hypnos, god of sleep, a figure dispelling the effects of reading - the hypnoticon. Eisenhower reads Hölderlin in the context of Pindar, philosophical idealism, and autobiographical projection.

La civilisation étrusque

Avant la Renaissance, avant le règne de l'empereur Auguste, la domination des Étrusques a signé le premier grand moment de l'Italie. La civilisation étrusque, la première d'Italie, connaît son apogée aux VII^e et VI^e siècles avant notre ère. Pendant cette période, les Étrusques ont dominé presque toute la péninsule : en plus de l'Étrurie proprement dite, située entre Arno, Tibre et mer Tyrrhénienne (aujourd'hui la Toscane ainsi qu'une partie de l'Ombrie et du Latium), ils ont occupé aussi une bonne partie de la plaine du Pô au nord et de la Campanie au sud, et on n'oubliera pas que trois rois étrusques

au moins ont régné sur Rome : Servius Tullius et les Tarquins, ces derniers originaires de Tarquinia, cité célèbre aujourd'hui par ses peintures funéraires. La langue et les origines : ce sont les deux aspects de ce que l'on considère souvent comme le mystère étrusque. Un mystère qui nous résiste encore, et que l'on est en partie en voie d'élucider. C'est l'objet de ce livre que de présenter les acquis les plus récents, tant dans le domaine de l'histoire politique que de l'histoire de l'art ou des mœurs. Et de ressusciter par là même dix siècles d'une aventure fondatrice pour le continent européen. Jean-Paul THUILLIER est directeur du Département des sciences de l'Antiquité de l'École Normale Supérieure (Ulm). Prologue : Le mystère de la 8e plaque. Les deux piliers du mystère étrusque : la langue et les origines. Les cinq noms des Étrusques. Etrusci, Tusci, Tyrséniens/Tyrrhéniens. Les Lydiens de Virgile. Rasenna/Rasna. Les trois Étruries. Les quatre phases de l'histoire étrusque. Les douze cités de l'Étrurie. Les trois rois étrusques de Rome. Les Étrusques entre deux mers. Le vin fait partie de notre patrimoine, de notre histoire et aussi de notre quotidien. Ce guide est le résultat et la synthèse de toutes les questions que l'on se pose depuis des années, et ce sont souvent les mêmes : Quelle est l'origine du vin, où l'acheter, comment le conserver, avec quels plats le boire, comment le servir, reconnaître les cépages, comment choisir au restaurant et comment le déguster. Les réponses sont dans ce livre avec en bonus ma formation en ligne en 18 vidéos pour apprendre à déguster en moins d'une heure. Le but de ce guide est de vous rendre autonome dans ce monde du vin que l'on pourrait croire réservé aux experts. Que vous puissiez le partager avec votre famille et vos amis et pourquoi pas les impressionner. Après la lecture de ce guide, vous ne goûterez plus de la même façon, j'en suis certain.

First published in 2012, this catalogue presents fifty-six Etruscan, Greek, and Italic carved ambers from the Getty Museum's collection—the second largest body of this material in the United States and one of the most important in the world. The ambers date from about 650 to 300 BC. The catalogue offers full description of the pieces, including typology, style, chronology, condition, and iconography. Each piece is illustrated. The catalogue is preceded by a general introduction to ancient amber (which was also published in 2012 as a stand-alone print volume titled *Amber and the Ancient World*).

Through exquisite visual examples and vivid classical texts, this book examines the myths and legends woven around amber—its employment in magic and medicine, its transport and carving, and its incorporation into jewelry, amulets, and other objects of prestige. This publication highlights a group of remarkable amber carvings at the J. Paul Getty Museum. This catalogue was first published in 2012 at museumcatalogues.getty.edu/amber/. The present online edition of this open-access publication was migrated in 2019 to www.getty.edu/publications/ambers/; it features zoomable, high-resolution photography; free PDF, EPUB, and Kindle/MOBI downloads of the book; and JPG downloads of the catalogue images.

Répertoire national des chercheurs, sciences sociales et humaines (4). Études littéraires français, grec, latin, littérature comparée

The Italian spoken in most of Tuscany is characterized by a number of peculiar pronunciations which for over half a century Romance scholars have explained by a theory of linguistic substratum influence. This theory postulates that present-day Tuscan pronunciation is a survival of the 'foreign accent' with which the ancient Etruscans must have spoken Latin when Rome first began to extend its power and language over the rest of Italy. Professor Izzo has undertaken a new and thorough investigation of modern Tuscan pronunciation, disproving this hypothesis and providing a definitive conclusion to the debate. He delineates clearly the errors in reasoning of those who trace the Tuscan pronunciation to an Etruscan influence, and presents his conclusions objectively. This study will interest Romance linguists, especially historians of the Italian language; but it will also interest historical linguists in general, for by disproving one of the most plausible and best-documented cases of alleged substratum influence, it casts doubt on many other cases where such influence has been claimed with little evidence.

National Union Catalog

NATIONAL BESTSELLER • Discover the game-changing theory of the cycles of history and what past generations can teach us about living through times of upheaval—with deep insights into the roles that Boomers, Generation X, and Millennials have to play. First comes a High, a period of confident expansion. Next comes an Awakening, a time of spiritual exploration and rebellion. Then comes an Unraveling, in which individualism triumphs over crumbling institutions. Last comes a Crisis—the Fourth Turning—when society passes through a great and perilous gate in history. William Strauss and Neil Howe will change the way you see the world—and your place in it. With blazing originality, *The Fourth Turning* illuminates the past, explains the present, and reimagines the future. Most remarkably, it offers an utterly persuasive prophecy about how America's past will predict what comes next. Strauss and Howe base this vision on a provocative theory of American history. The authors look back five hundred years and uncover a distinct pattern: Modern history moves in cycles, each one lasting about the length of a long human life, each composed of four twenty-year eras—or “turnings”—that comprise history's seasonal rhythm of growth, maturation, entropy, and rebirth. Illustrating this cycle through a brilliant analysis of the post–World War II period, *The Fourth Turning* offers bold predictions about how all of us can prepare, individually and collectively, for this rendezvous with destiny.
