59 Seconds

Most people would like to be more creative, more persuasive and more attractive. For years, gurus and life coaches have urged people to improve their lives by changing the way they think and behave, but scientific research has revealed that many of their techniques, from group brainstorming to visualization, are ineffective. Fortunately, psychologist Richard Wiseman is on hand to provide

fast-acting, myth-busting scientific answers to a huge range of everyday problems. From job-hunting to relationships, and from parenting to self-esteem, personal and professional success may be less than a minute away . . .

59 Seconds

A psychologist and best-selling author gives us a myth-busting response to the self-help movement, with tips and tricks to improve your life that come straight from the scientific community. Richard Wiseman has been troubled by the realization that the self-help industry often promotes exercises that destroy motivation, damage relationships, and reduce creativity: the opposite of everything it promises. Now, in 59 Seconds, he fights back, bringing together the diverse scientific advice that can help you change your life in under a minute, and guides you toward becoming more decisive, more imaginative, more engaged, and altogether more happy. From mood to memory, persuasion to procrastination, resilience to relationships, Wiseman outlines the research supporting the new science of “rapid change” and, with clarity and infectious enthusiasm, describes how these quirky, sometimes counterintuitive techniques can be effortlessly incorporated into your everyday life. Or, as he likes to say: “Think a little, change a lot.”

59 Seconds: Persuasion

In 59 Seconds, psychologist Professor Richard Wiseman presents a fresh approach to change that helps people achieve their aims and ambitions in minutes, not months. From mood to memory, persuasion to procrastination, and resilience to relationships, Wiseman outlines the research supporting this new science of rapid change, and describes how these quick and quirky techniques can be incorporated into everyday life. Think a little, change a lot. Discover why even thinking about going to the gym can help you keep in shape Learn how pot plants make you more creative Find out why putting a pencil between your teeth instantly makes you happier 'At last, a self-help guide that is based on proper research. Perfect for busy, curious, smart people' Simon Singh, author of Fermat's Last Theorem 'A triumph of scientifically proven advice over misleading myths of self-help. Challenging, uplifting and long overdue' Derren Brown

59 Seconds: Motivation

Want to improve your relationship, make better decisions or simply be happier? Success is now only seconds away... In 59 Seconds, psychologist Professor Richard Wiseman presents a fresh approach to change that helps people achieve their aims and ambitions in minutes, not months. From mood to memory, persuasion to procrastination, and resilience to relationships, Wiseman outlines the research supporting this new science of rapid change, and describes how these quick and quirky techniques can be incorporated into everyday life. Think a little, change a lot.

Quirkology

Ever wondered why bad musicians always win the Eurovision Song Contest, or how incompetent politicians get elected? You need some Quirkology in your life. While other scientists beaver away on obvious problems, Richard Wiseman has been busy uncovering the secret ingredients of charisma, exploring how our personalities are shaped by when we are born and examining why people usually miss the obvious signs of their partner's infidelity. Using scientific methods to investigate offbeat topics that interest the general public as well as the scientific community, Quirkology brings a new understanding to the backwaters of the human mind and takes us to places where mainstream scientists fear to tread. Comparable to Freakonomics, but British, far more populist, and a lot funnier. Findings include: How does your surname influence your life? What does the way you walk reveal about your personality? Why should women have men write their personal ads? What is the funniest joke in the world?

Did You Spot The Gorilla?

In a recent series of ground-breaking psychological experiments, volunteers were shown a 30-second film of some people playing basketball and told to count the number of passes made with the ball. After just a few seconds, a man dressed as a gorilla slowly walked into frame, beat his chest at the camera, and sauntered off. Unbelievably, almost none of the people watching the film noticed the gorilla. Exactly the same psychological mechanisms that cause people to miss the gorilla also make them miss unexpected but vitally important opportunities in their professional and personal lives. This book outlines the scientific evidence and thinking behind this remarkable new phenomenon, and shows you how you can spot gorillas in your life - and what to do when you see one.

The As If Principle

The best-selling author of 59 Seconds challenges popular self-help approaches while counseling readers to take specific actions to improve outlook and circumstances, drawing on scientific findings to demonstrate how simple physical activities, from smiling to walking briskly, can alleviate common challenges.

Tiny Habits

The world's leading expert on habit formation shows how you can have a happier, healthier life: by starting small. Myth: Change is hard. Reality: Change can be easy if you know the simple steps of Behavior Design. Myth: It's all about willpower. Reality: Willpower is fickle and finite, and exactly the wrong way to create habits. Myth: You have to make a plan and stick to it. Reality: You transform your life by starting small and being flexible. BJ FOGG is here to change your life--and revolutionize how we think about human behavior. Based on twenty years of research and Fogg's experience coaching more than 40,000 people, Tiny Habits cracks the code of habit formation. With breakthrough discoveries in every chapter, you'll learn the simplest proven ways to transform your life. Fogg shows you how to feel good about your successes instead of bad about your failures. Already the habit guru to companies around the world, Fogg brings his proven method to a global audience for the first time. Whether you

want to lose weight, de-stress, sleep better, or be more productive each day, Tiny Habits makes it easy to achieve.

59 Seconds: Persuasion

Want to improve your relationship, make better decisions or simply be happier? Success is now only seconds away... Verity

Whose truth is the lie? Stay up all night reading the sensational psychological thriller that has readers obsessed, from the #1 New York Times bestselling author of Too Late and It Ends With Us. #1 New York Times Bestseller · USA Today Bestseller · Globe and Mail Bestseller · Publishers Weekly Bestseller Lowen Ashleigh is a struggling writer on the brink of financial ruin when she accepts the job offer of a lifetime. Jeremy Crawford, husband of bestselling author Verity Crawford, has hired Lowen to complete the remaining books in a successful series his injured wife is unable to finish. Lowen arrives at the Crawford home, ready to sort through years of Verity's notes and outlines, hoping to find enough material to get her started. What Lowen doesn't expect to uncover in the chaotic office is an unfinished autobiography Verity never intended for anyone to read. Page after page of bone-chilling admissions, including Verity's recollection of the night her family was forever altered. Lowen decides to keep the manuscript hidden from Jeremy, knowing its contents could devastate the already grieving father. But as Lowen's feelings for Jeremy begin to intensify, she recognizes all the ways she could benefit if he were to read his wife's words. After all, no matter how devoted Jeremy is to his injured wife, a truth this horrifying would make it impossible for him to continue loving her.

The Little Engine That Could

The special anniversary edition of The Little Engine That Could™ contains the entire text and original artwork. Young readers, as well as parents and grandparents, will treasure the story of the blue locomotive who exemplifies the power of positive thinking.

59 Seconds: Decision-Making

Want to improve your relationship, make better decisions or simply be happier? Success is now only seconds away... In 59 Seconds, psychologist Professor Richard Wiseman presents a fresh approach to change that helps people achieve their aims and ambitions in minutes, not months. From mood to memory, persuasion to procrastination, and resilience to relationships, Wiseman outlines the research supporting this new science of rapid change, and describes how these quick and quirky techniques can be incorporated into everyday life. Think a little, change a lot.

Paranormality

'People are emotionally drawn to the supernatural. They actively want weird, spooky things to be true . . . Wiseman shows us a higher joy as he deftly skewers the paranormal charlatans, blows away the psychic fog and lets in the clear light of reason.' Richard Dawkins Professor Richard Wiseman is clear about one thing: paranormal phenomena don't exist. But in the same way that the science of space travel transforms our everyday lives, so research into telepathy, fortune-telling and out-of-body experiences produces remarkable insights into our brains, behaviour and beliefs. Paranormality embarks on a wild ghost chase into this new science of the supernatural and is packed with activities that allow you to experience the impossible. So throw away your crystals, ditch your lucky charms and cancel your subscription to Reincarnation Weekly. It is time to discover the real secrets of the paranormal. Learn how to control your dreams -- and leave your body behind Convince complete strangers that you know all about them Unleash the power of your unconscious mind

When Breath Becomes Air

**** SUNDAY TIMES NUMBER ONE BESTSELLER**** 'Rattling. Heartbreaking. Beautiful.' Atul Gawande, bestselling author of Being Mortal What makes life worth living in the face of death? At the age

of thirty-six, on the verge of completing a decade's training as a neurosurgeon, Paul Kalanithi was diagnosed with inoperable lung cancer. One day he was a doctor treating the dying, the next he was a patient struggling to live. When *Breath Becomes Air* chronicles Kalanithi's transformation from a medical student asking what makes a virtuous and meaningful life into a neurosurgeon working in the core of human identity - the brain - and finally into a patient and a new father. Paul Kalanithi died while working on this profoundly moving book, yet his words live on as a guide to us all. When *Breath Becomes Air* is a life-affirming reflection on facing our mortality and on the relationship between doctor and patient, from a gifted writer who became both. 'A vital book about dying. Awe-inspiring and exquisite. Obligatory reading for the living' Nigella Lawson

You Are Not So Smart

Explains how self-delusion is part of a person's psychological defense system, identifying common misconceptions people have on topics such as caffeine withdrawal, hindsight, and brand loyalty.

Storyworthy

A five-time Moth GrandSLAM winner and bestselling novelist shows how to tell a great story — and why doing so matters. Whether we realize it or not, we are always telling stories. On a first date or job interview, at a sales presentation or therapy appointment, with family or friends, we are constantly narrating events and interpreting emotions and actions. In this compelling book, storyteller extraordinaire Matthew Dicks presents wonderfully straightforward and engaging tips and techniques for constructing, telling, and polishing stories that will hold the attention of your audience (no matter how big or small). He shows that anyone can learn to be an appealing storyteller, that everyone has something "story worthy" to express, and, perhaps most important, that the act of creating and telling a tale is a powerful way of understanding and enhancing your own life.

Never Let Me Go

Why do we do the things we do? Over a decade in the making, this game-changing book is Robert Sapolsky's genre-shattering attempt to answer that question as fully as perhaps only he could, looking at it from every angle. Sapolsky's storytelling concept is delightful but it also has a powerful intrinsic logic: he starts by looking at the factors that bear on a person's reaction in the precise moment a behavior occurs, and then hops back in time from there, in stages, ultimately ending up at the deep history of our species and its genetic inheritance. And so the first category of explanation is the neurobiological one. What goes on in a person's brain a second before the behavior happens? Then he pulls out to a slightly larger field of vision, a little earlier in time: What sight, sound, or smell triggers the nervous system to produce that behavior? And then, what hormones act hours to days earlier to change how responsive that individual is to the stimuli which trigger the nervous system? By now, he has increased our field of vision so that we are thinking about neurobiology and the sensory world of our environment and endocrinology in trying to explain what happened. Sapolsky keeps going--next to what features of the environment affected that person's brain, and then back to the childhood of the individual, and then to their genetic makeup. Finally, he expands the view to encompass factors larger than that one individual. How culture has shaped that individual's group, what ecological factors helped shape that culture, and on and on, back to evolutionary factors thousands and even millions of years old. The result is one of the most dazzling tours de horizon of the science of human behavior ever attempted, a majestic synthesis that harvests cutting-edge research across a range of disciplines to provide a subtle and nuanced perspective on why we ultimately do the things we do...for good and for ill. Sapolsky builds on this understanding to wrestle with some of our deepest and thorniest questions relating to tribalism and xenophobia, hierarchy and competition, morality and free will, and war and peace. Wise, humane, often very funny, *Behave* is a towering achievement, powerfully humanizing, and downright heroic in its own right.

Behave

Here's the secret in 3 steps: 1. Suspend disbelief as you read the following: 2. ""We Become What We Think About."" - Earl Nightingale 3. Then, decide that it's true. Now, the rest of your life, you'll be testing this for yourself. You may be asking questions like these: - Can you actually change what you think about? - Do positive thoughts create a positive personal environment? - By being critical of anything or anyone around you actually improve conditions? - Is your health affected by negative thinking? You'll find continuing instances of how this is true and how it might not be. You'll be "haunted" by this singular

thought, although the results will help you awake with fresh inspirations about how to live your life even better than you are now. In this first part, the basics of Nightingale's philosophy are revealed, based on notes from key recordings. As Earl Nightingale once said: ""Start today. You have nothing to lose - but you have your whole life to win.""

How to Completely Change Your Life in 30 Seconds - Part I

Peter Bregman, author of the Wall Street Journal bestseller *18 Minutes*, offers strategies to replace energy-wasting, counter-productive habits that commonly derail us with truly effective ones. The things we want most—peace of mind, fulfilling relationships, to do well at work—are surprisingly straightforward to realize. But too often our best efforts to attain them are built on destructive habits that sabotage us. In *Four Seconds*, Peter Bregman shows us how to replace negative patterns with energy boosting and productive behaviors. To thrive in our fast-paced world all it takes is to pause for as few as four seconds—the length of a deep breath—allowing us to make intentional and tactical choices that lead to better outcomes. *Four Seconds* reveals: Why listening—not arguing—is the best strategy for changing someone's mind Why setting goals can actually harm performance How to use strategic disengagement to recover focus and willpower How taking responsibility for someone else's failure can actually help your team Practical and insightful, *Four Seconds* provides simple solutions to create the results you want without the stress.

Four Seconds

Bestselling psychologist Richard Wiseman unravels the science behind our beliefs in telepathy, clairvoyants, mediums, ghosts, and more... "People are emotionally drawn to the supernatural. They actively want weird, spooky things to be true . . . Wiseman shows us a higher joy as he deftly skewers the paranormal charlatans, blows away the psychic fog and lets in the clear light of reason." --Richard Dawkins Professor Richard Wiseman is clear about one thing: paranormal phenomena don't exist. But in the same way that the science of space travel transforms our everyday lives, so research into telepathy, fortune-telling and out-of-body experiences produces remarkable insights into our brains, behaviour and beliefs. *Paranormality* embarks on a wild ghost chase into this new science of the supernatural and is packed with activities that allow you to experience the impossible. So throw away your crystals, ditch your lucky charms and cancel your subscription to *Reincarnation Weekly*. It is time to discover the real secrets of the paranormal. Learn how to control your dreams -- and leave your body behind Convince complete strangers that you know all about them Unleash the power of your unconscious mind

Paranormality

Throughout your life, you've had parents, coaches, teachers, friends, and mentors who have pushed you to be better than your excuses and bigger than your fears. What if the secret to having the confidence and courage to enrich your life and work is simply knowing how to push yourself? Using the science habits, riveting stories and surprising facts from some of the most famous moments in history, art and business, Mel Robbins will explain the power of a "push moment." Then, she'll give you one simple tool you can use to become your greatest self. It take just five seconds to use this tool, and every time you do, you'll be in great company. More than 8 million people have watched Mel's TEDx Talk, and executives inside of the world's largest brands are using the tool to increase productivity, collaboration, and engagement. In *The 5 Second Rule*, you'll discover it takes just five seconds to: Become confident Break the habit of procrastination and self-doubt Beat fear and uncertainty Stop worrying and feel happier Share your ideas with courage *The 5 Second Rule* is a simple, one-size-fits-all solution for the one problem we all face—we hold ourselves back. The secret isn't knowing what to do—it's knowing how to make yourself do it. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

The 5 Second Rule

THE TIKTOK SENSATION THAT EVERYONE IS TALKING ABOUT 'After finishing this book, my heart was pounding and I couldn't find words big enough to describe how brilliant, beautiful, and powerful it is.' L.E. Flynn, author of *All Eyes On Her* All Eden wants is to rewind the clock. To live that day again. She would do everything differently. Not laugh at his jokes or ignore the way he was looking at her that night. And she would definitely lock her bedroom door. But Eden can't turn back time. So she buries the truth, along with the girl she used to be. She pretends she doesn't need friends, doesn't need love,

doesn't need justice. But as her world unravels, one thing becomes clear: the only person who can save Eden ... is Eden.

The Way I Used to Be

Make Your Bed

Just three seconds. The time it takes to make a decision. That's all that lies between settling for "Whatever" ... or insisting on "Whatever it takes."3 Seconds shows how to unleash the inner resources that can move you to a whole new level of success. It comes down to six predictable impulses that most of us automatically accept without a second thought. You can replace them with new impulses that lead toward impact and significance. For instance, it takes Three Seconds to ...Disown Your Helplessness: The First Impulse: "There's nothing I can do about it." The Second Impulse: "I can't do everything, but I can do something."Quit Stewing and Start Doing: The First Impulse: "Someday I'm going to do that." The Second Impulse: "I'm diving in ... starting today."Fuel Your Passion: The First Impulse: "I'll do what happens to come my way." The Second Impulse: "I'll do what I'm designed to do."Inhale ... exhale ... the difference of your lifetime can begin in the space of a single breath. The decision is yours. Start today.

3 Seconds

World-renowned Stanford University psychologist Carol Dweck, in decades of research on achievement and success, has discovered a truly groundbreaking idea-the power of our mindset. Dweck explains why it's not just our abilities and talent that bring us success-but whether we approach them with a fixed or growth mindset. She makes clear why praising intelligence and ability doesn't foster self-esteem and lead to accomplishment, but may actually jeopardize success. With the right mindset, we can motivate our kids and help them to raise their grades, as well as reach our own goals-personal and professional. Dweck reveals what all great parents, teachers, CEOs, and athletes already know: how a simple idea about the brain can create a love of learning and a resilience that is the basis of great accomplishment in every area.

Mindset - Updated Edition

Thinking, Fast and Slow

On the 50th anniversary of the Apollo 11 moon landing, renowned psychologist Richard Wiseman reveals the powerful life lessons behind humanity's greatest achievement. The historic moon landings were achieved against remarkable odds and within the space of just a few years. How can we apply the secrets of this astronomical success to our own goals, to achieve the impossible in work and in life? Psychologist Richard Wiseman brings together history, psychology, and self-help in this unique and powerful guide to achieving the impossible in work and in life. The result of intensive research, including interviews with surviving members of the Apollo mission-control team, Moonshot delivers eight key lessons on teamwork, leadership, persistence, creativity, and more, each one a vital part of the mindset for success. Filled with never-before-told stories and fresh insights, Moonshot sheds new light on the science of success--and empowers each of us to achieve the impossible.

Moonshot

Is luck just fate, or can you change it? A groundbreaking new scientific study of the phenomenon of luck and the ways we can bring good luck into our lives. What is luck? A psychic gift or a question of intelligence? And what is it that lucky people have that unlucky people lack? Psychologist Dr. Richard Wiseman put luck under a scientific microscope for the very first time, examining the different ways in which lucky and unlucky people think and behave. After three years of intensive interviews and experiments with over 400 volunteers, Wiseman arrived at an astonishing conclusion: Luck is something that can be learned. It is available to anyone willing to pay attention to the Four Essential Principles: . Creating Chance Opportunities . Thinking Lucky . Feeling Lucky . Denying Fate Readers can determine their capacity for luck as well as learn to change their luck through helpful exercises that appear throughout the book. Illustrated with anecdotes from the lives of the famous such as Harry Truman and Warren Buffett, *The Luck Factor* also richly portrays the lives of ordinary people who have been extraordinarily lucky or unlucky. Finally Dr. Wiseman gives us a look into "The Luck School" where he instructs unlucky people and also teaches lucky people how to further enhance their luck. Smart, enlightening, fun to read, and easy to follow, *The Luck Factor* will give you revolutionary insight into the lucky mind and could, quite simply, change your life.

The Luck Factor

'Boldly reactionary... What looks like feast, Carr argues, may be closer to famine' Sunday Times 'Chilling' The Economist In this ground-breaking and compelling book, Nicholas Carr argues that not since Gutenberg invented printing has humanity been exposed to such a mind-altering technology. *The Shallows* draws on the latest research to show that the Net is literally re-wiring our brains inducing only superficial understanding. As a consequence there are profound changes in the way we live and communicate, remember and socialise - even in our very conception of ourselves. By moving from the depths of thought to the shallows of distraction, the web, it seems, is actually fostering ignorance. *The Shallows* is not a manifesto for luddites, nor does it seek to turn back the clock. Rather it is a revelatory reminder of how far the Internet has become enmeshed in our daily existence and is affecting the way we think. This landmark book compels us all to look anew at our dependence on this all-pervasive technology. This 10th-anniversary edition includes a new afterword that brings the story up to date, with a deep examination of the cognitive and behavioural effects of smartphones and social media.

The Shallows

Winner of best smart thinking book 2022 (Business Book Awards) Guardian best books of 2021 'Original, thought-provoking and a joy to read' Tim Harford 'Highly recommended. It's not easy to become (more of) a scout, but it's hard not to be inspired by this book' Rutger Bregman When it comes to what we believe, humans see what they want to see. In other words, we have what Julia Galef calls a 'soldier' mindset. From tribalism and wishful thinking, to rationalising in our personal lives and everything in between, we are driven to defend the ideas we most want to believe - and shoot down those we don't. But if we want to get things right more often we should train ourselves to think more like a scout. Unlike the soldier, a scout's goal isn't to defend one side over the other. It's to go out, survey the territory, and come back with as accurate a map as possible. Regardless of what they hope to be the case, above all, the scout wants to know what's actually true. In *The Scout Mindset*, Galef shows that what makes scouts better at getting things right isn't that they're smarter or more knowledgeable than everyone else. It's a handful of emotional skills, habits, and ways of looking at the world - which anyone can learn. With fascinating examples ranging from how to survive being stranded in the middle of the ocean, to how Jeff Bezos avoids overconfidence, to how superforecasters outperform CIA operatives, to Reddit threads and modern partisan politics, Galef explores why our brains deceive us and what we can do to change the way we think. 'With insights that are both sharp and actionable, *The Scout Mindset* picks up where *Predictably Irrational* left off. Reading it will teach you to think more clearly, see yourself more accurately, and be wrong a little less often' Adam Grant

The Scout Mindset

Of all the writing that emerged from the existentialist movement, Simone de Beauvoir's groundbreaking study of women will probably have the most extensive and enduring impact. It is at once a work of anthropology and sociology, of biology and psychoanalysis, from the pen of a writer and novelist of penetrating imaginative power. *THE SECOND SEX* stands, five decades after its first appearance,

as the first landmark in the modern feminist upsurge that has transformed perceptions of the social relationship of man and womankind in our time

The Second Sex

The actor's best friend. A treasure trove of advice, support and encouragement that no performer should be without.

The Golden Rules of Acting that Nobody Ever Tells You

In "Watching The English" anthropologist Kate Fox takes a revealing look at the quirks, habits and foibles of the English people. She puts the English national character under her anthropological microscope, and finds a strange and fascinating culture, governed by complex sets of unspoken rules and byzantine codes of behaviour. The rules of weather-speak. The ironic-gnome rule. The reflex apology rule. The paranoid-pantomime rule. Class indicators and class anxiety tests. The money-talk taboo and many more ... Through a mixture of anthropological analysis and her own unorthodox experiments (using herself as a reluctant guinea-pig), Kate Fox discovers what these unwritten behaviour codes tell us about Englishness.

Watching the English
