Financial Markets and Institutions

In Financial Markets and Institutions, bestselling authors Frederic S. Mishkin and Stanley G. Eakins provide a practical introduction to prepare students for today's changing landscape of financial markets and institutions. A unifying framework uses core principles to organize students' thinking then examines the models as real-world scenarios from a practitioner's perspective. By analysing these applications, students develop the critical-thinking and problem-solving skills necessary to respond to challenging situations in their future careers. Although this text has undergone a major revision, the Eighth Edition retains Mishkin/Eakins' hallmark pedagogy that make it the best-selling textbook on financial markets and institutions.

FINANCIAL MARKETS, INSTITUTIONS, AND FINANCIAL SERVICES

Today, with the financial sector experiencing an unprecedented boom due to a variety of factors such as liberalisation, globalisation and consumer spending, the subject of this book has become more important than ever before. And this book compresses, within the covers of a single volume, the entire gamut of financial markets, institutions and financial services. Divided into three parts—Part I on Financial Markets deals with different Indian and global money markets, and primary and secondary markets. It also covers stock exchanges and their trade mechanism, foreign exchanges, as well as capital markets and their regulations; Part II, Financial Institutions covers diverse banking and non-banking institutions and their legislation; Part III, Financial Services discusses about the financial services which include mutual funds, lease financing, securitisation, and credit and debit cards. **KEY FEATURES :** A unique attempt to comprehensively analyse, within a single volume, the working of the three pillars of the financial system—financial markets, financial institutions, and financial services. Gives updated and latest financial data and related information on the subject. Provides tables and diagrams to illustrate the concepts, and questions (short answer and long answer/essay type) to test the comprehension skills of the students. Intended primarily as a text for the undergraduate and postgraduate students of Commerce, this accessible text will prove to be extremely useful also for the postgraduate students of Management, Economics, as well as for competitive examinations. In addition, it will be a ready reference for Chartered Accountants and all those who would like to acquaint themselves with Indian banking and capital market.

Financial Markets and Institutions

Financial Markets, Instruments and Institutions, 2/e offers a perspective that centers on the function, pricing and institutional structure of the financial markets. It focuses on these areas because financial markets, instruments and institutions have undergone substantial change over the last decade. Santomero/Babbel covers the wide range of financial instruments and the structure of financial markets and institutions, issues not addressed by traditional "Money and Banking" books. Santomero/Babbel also includes valuation and pricing methodologies, issues avoided by lower level "Money and Capital Markets" books.
