De Historia Et Veritate Unicornis

An illuminated manuscript setting forth the fictional fifteenth-century diary of one Magnalucius, who records his first-hand observations of unicorns along with the facts he has learned about their natural history.

De Historia Et Veritate Unicornis

An illuminated manuscript setting forth the fictional fifteenth-century diary of one Magnalucius, who records his first-hand observations of unicorns along with the facts he has learned about their natural history.

Unicornis

"Unicornis" presents a facsimile of the journals of Magnalucius, a medieval artistmystic, detailing the legendary unicorns mysterious habits, haunts, and origin. Beautifully illustrated in color, this is a stunning and daring work of the imagination. This revised edition includes a new clue to locate the silver treasure of the Unicorn!

Unicorns

"Explains the history, origins, theories, and various tellings of unicorns"--

The Unicornis Manuscripts

An illuminated manuscript setting forth the fictional fifteenth-century diary of one Magnalucius, who records his first-hand observations of unicorns along with the facts he has learned about their natural history.

Unicorn Postcard Book

The Book of the Magical Mythical Unicorn is an anthology of esoteric knowledge, myths, and legends about the most magical of beasts: the mythical unicorn. Utilizing a global lens, the authors delve into the critical importance of the timeless unicorn across multiple cultures and spiritual traditions to display the transformative energy of the creature and its larger effect on humanity's consciousness. No other mythological creature is enjoying as rapid an ascent into the public eye and consciousness as the magical unicorn. The unicorn is now a fixture in contemporary pop culture. This book explores a diverse assortment of tales about the unicorn, ranging from its presence in the Garden of Eden, its foretelling of the births of Confucius and the Buddha, its protection of India from the wrath of Genghis Khan's

army, and its depiction within heraldry, including in the Scottish and British thrones. It features in-depth sections on the use of the unicorn's horn for detecting poisons and healing, the horn's connection to the opening of the third eye, and the unicorn's depictions in ancient Sumeria, Egypt, and many other early civilizations.

The Book of the Magical Mythical Unicorn

Including an international directory of museum permanent collection catalogs.

Art Books

Science fiction constitutes one of the largest and most widely read genres in literature, and this reference provides bibliographical data on some 20,000 science fiction, fantasy, and horror fiction books, as well as nonfiction monographs about the literature. A companion to Reginald's Science Fiction and Fantasy Literature, 1700-1974 (Gale, 1979), the present volume is alphabetically arranged by approximately 10,000 author names. The entry for each individual work includes title, publisher, date and place published, number of pages, hardbound or paperback format, and type of book (novel, anthology, etc.). Where appropriate, entries also provide translation notes, series information, pseudonyms, and remarks on special features (such as celebrity introductions). Includes indexes of titles, series, awards, and "doubles" (for locating volumes containing two novels). Annotation copyright by Book News, Inc., Portland, OR.

Science Fiction and Fantasy Literature, 1975-1991

A Primer of Medieval Latin was published with two purposes in mind: to provide a collection of material to prepare students to read ordinary medieval Latin texts and to meet the need of advanced students by furnishing an anthology of medieval Latin prose and poetry. PRAISE FOR THE BOOK: "The anthology reflects a broad literary and historical interest. . . . Too high praise cannot be given the choice of selections. Whether the student's interests lie in the medieval drama, the short story, the lyric, historical writing, he will find examples long enough to be enlightening, competently chosen and admirably edited."-- Speculum

The Exempla Or Illustrative Stories from the Sermones Vulgares of Jacques de Vitry

A Primer of Medieval Latin

Philosophy, Religion, Social sciences, Law, Education, Economy, Exact and natural sciences, Medicine, Science and technology, Agriculture, Management, Architecture, Art, History, Sport, Biography, Literature.

A Hobbit's Journal

The Magical Unicorn Society has released from its top-secret case files an entire book full of tales of unicorn encounters from throughout world history. From the story of the 17th century sailors rescued from pirates by Water Moon unicorns, to the mystery about the girls who believed they'd discovered a Woodland Flower unicorn in modern-day Central Park, this book shares some of the most amazing stories of humanity's experiences alongside these magical creatures. Brought to life by vivid and enchanting artwork throughout, A Brief History of Unicorns is an essential companion to The Magical Unicorn Society Official Handbook. A truly magical must-have for unicorn enthusiasts of all ages!

AB Bookman's Weekly

Early modern Germany saw the dissemination of vast quantities of information at unprecedented speed. Popular knowledge, scientific inquiry, and scholarship influenced the political order, poetic expression, public opinion, and mechanisms of social control. This collection presents twelve essays by distinguished scholars regarding the transcendent nature of the Divine, the natural world, the body, sexuality, intellectual property, aesthetics, demons, and witches. The contributors are Thomas Cramer, Walter Haug, C. Stephen Jaeger, Thomas DaCosta Kaufmann, Jan-Dirk Maller, James A. Parente, Jr., Stephan K. Schindler, Gerhard F. Strasser, Lynne Tatlock, Elaine Tennant, Horst Wenzel, and Gerhild Scholz Williams.

Slay them not: Twelfth-Century Christian-Jewish Relations and the Glossed Psalms

This volume tries to map out the intriguing amalgam of different, partly conflicting approaches that shaped early modern zoology. It demonstrates that theology and philology played a pivotal role in the complex formation of this new science.

Bibliografia nacional de Catalunya

"During a mission in Antarctica, anthropologist Gordon Tallbear and his researchers stumble across what they believe could be a limitless source of clean energy for the planet. Buried deep in the mountains, this secret cavern contains computers from Atlantis itself -- a discovery that will change life as we know it forever. But when their discovery reaches the Gnomes of Zurich, a group committed to furthering the interests of carbon fuel conglomerates, Tallbear finds himself fighting for his life in a tense game of cat-and-mouse."--Page 4 of cover.

Index translationum

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Magical Unicorn Society: A Brief History of Unicorns

A vibrantly illustrated official guide to everything unicorn-related, from the Magical Unicorn Society. After centuries of mystery, the mythical Magical Unicorn Society has published its official handbook. These learned lovers of unicorns have created a veritable treasure trove of unicorn lore—the facts, the fiction, the where, why and what of these elusive creatures. Discover where unicorns really live around the world, how to find them, and what they eat. Learn how to look after them, what powers they have, how to tempt them, train them, and even ride them, and so much more. With breathtaking artwork from Helen Dardik and Harry and Zanna Goldhawk, this special book is the ultimate gift for true believers.

The Velveteen Rabbit

A fascinating and lively quest for the real animals that gave rise to the unicorn of our fascination, by a leading natural historian.

Knowledge, Science, and Literature in Early Modern Germany

No creature of myth has held mankind's attention more compellingly than the Unicorn, whose story has evolved throughout many eras and cultures, from early Christian and European Middle Age legends to tales from the Near East, Ethiopia, and the Americas. Conjuring up universal images of beauty and innocence, this mystical white, horselike creature is brought to stunning life by the breathtaking illustrations of Linda and Roger Garland, who portray the Unicorn in all its majesty, in both its ferocious and gentle guises.

Zoology in Early Modern Culture: Intersections of Science, Theology, Philology, and Political and Religious Education

Green opens up the gripping story of the Book of Acts, highlighting the astonishing, volcanic eruption of faith found there and comparing it to the often halfhearted Christianity of the modern Western world.

Song of Atlantis

A tantalizing web of deceptive artwork and wordplay lures us to play detective in this fascinating and puzzling book. Over a million copies sold! The missing letters in the alphabet on the edges of each page can be rearranged to make the name of an animal. The reader must then try to find that animal in the artwork.

The Medieval Book of Birds

Tells of the legends of the unicorn from such places as Indian, Persia, Abyssinia, Scandinavia, Poland, Florida, Canada, Maine, South Africa, and Tibet.

The Magical Unicorn Society Official Handbook

In this volume, specialists from various disciplines (Neo-Latin, French, German, Dutch, History, History of Science, Art History) explore the fascinating early modern discourses on animals in science, literature and the visual arts.

The Natural History of Unicorns

The Ford of Heaven, an ancient river port in north-eastern China, gave travellers access to the Celestial City of Peking and the Emperor of Heaven eighty miles to the west. Tientsin, as British settlers called The Ford of Heaven, became a treaty port in 1860 in the wake of the Opium Wars. In the 1920s and 1930s it was occupied by Britain, France, Germany, Russia, America and other foreign powers. This memoir evokes a childhood spent in this strange and exotic place. In contrast to other accounts of lives lived in foreign enclaves, Brian Powers early experiences were shaped not by his parents values but by the loving care and calm spirit of his Chinese amah Y Jieh, who gave him the gift of Chinese and an understanding of her peoples legends and superstitions.

The Book of the Unicorn

This fascinating autobiography of the country music legend Johnny Cash recounts the highs and lows, the struggles and hard won triumphs of his remarkable life. His memoir also reveals his friendships with Roy Orbison, Bob Dylan and Billy Graham.

Thirty Years That Changed the World

Explores the prophecies of the Essene sect and offers the belief that there are still people today who are carrying out the Armageddon Script.

Puzzle Island

The extensive body of work by 13th-century mystic poet Jelaluddin Rumi continues to fascinate readers with a taste for the spiritual, and his writings, which speak passionately of truth, enlightenment, and love for God, appeal to those of all religions. Translations of Rumi's writings by the contemporary poet Coleman Barks have sold more than 500,000 copies since 1981. Now acclaimed illustrator Michael Green -- who collaborated with Barks on *The Illuminated Rumi* -- has produced a new and fabulous mystic fusion of sacred poetry and art. This all-new volume features rare poems of Rumi, some of which have never before been translated. There are many collections of Rumi's poetry, but few are illustrated-and none as gorgeously as this full-color book. It is well positioned to capture the favor of spiritual seekers of all ages, including today's spiritually adventurous young adults.

Bibliografía española

Rise up nimbly and go on your strange journey to the ocean of meanings... In the mid-thirteenth century, in a dusty marketplace in Konya, Turkey, a city where Muslim, Christian, Hindu, and Buddhist travelers mingled, Jelaluddin Rumi, a popular philosopher and scholar, met Shams of Tabriz, a wandering dervish. Their meeting forever altered the course of Rumi's life and influenced the mystical evolution of the planet. The bond they formed was everlasting--a powerful transcendent friendship that would flow through Rumi as some of the world's best-loved ecstatic poetry. Rumi's passionate, playful poems find and celebrate sacred life in everyday existence. They speak across all traditions, to all peoples, and today his relevance and popularity continue to grow. In *The Illuminated Rumi*, Coleman Barks, widely regarded as the world's premier translator of Rumi's writings, presents some of his most brilliant work, including many new translations. To complement Rumi's universal vision, Michael Green has worked the ancient art of illumination into a new, visually stunning form that joins typography, original art, old masters, photographs, and prints with sacred images from around the world. *The Illuminated Rumi* is a truly groundbreaking collaboration that interweaves word and image: a magnificent meeting of ancient tradition and modern interpretation that uniquely captures the spiritual wealth of Rumi's teachings.

Coleman Barks's wise and witty commentary, together with Michael Green's art, makes this a classic guide to the life of the soul for a whole new generation of seekers.

The Unicorn

A Beloved Classic Returns to Print Here, for a new generation of readers, is the exciting (and witty) tale of Pисwyck, a young nobleman not quite ready for the world of magic and derring-do: his Particolored Unicorn (it has bad habits: it farts, and worse, it speaks in iambic pentameter), and their quest to rescue the beautiful Miranda, who has been carried off to Far Bermuda by her wicked Uncle Smagdarone (the Great?) and is held captive there in the magically-moved castle of Mad King Ludwig (Neuschwanstein), which said wicked wizard has surrounded with an impenetrable wall of man-eating gelatin. There are trolls, hang glider battles, great green sharks, gymnastics in swordplay, Black Elves, a giant chartreuse septapus named Ralph, and a war in which the most important weapon is perhaps the umbrella. Humor, lots of action, and a truly amazing cast of characters. "The Particolored Unicorn most certainly does run through a full spectrum of adventure." --Esther Friesner, author of Harlot's Ruse. "Jon DeCles...wrote this delightful humorous romp of a post-apocalyptic fantasy that I shelve right next to The Last Unicorn. His style is light and irreverent while allowing his characters to be serious or angry. I wish he'd write a sequel." --The Library of Gothos "I ran across this book on my mother's shelves, and devoured it in a single sitting. It both is, and is not, a quintessential 'find the princess, reclaim your lost kingdom' sort of story. Some of its undeniable humor comes from how little it takes itself seriously (which doesn't mean it's internally inconsistent or stupidly self-referential - think *Scream* or *Spaceballs*, not *Scary Movie*). Off-the-wall realities of its fictional world are presented completely deadpan (unicorns produced by magical genetic engineering; an Evil Wizard -- the protagonist's fiancée's uncle -- who transported Neuschwanstein to Bermuda and lives in it, surrounded by a protective moat of carnivorous pink jelly) in a way I find most appealing; almost a British sort of sense of humor is at work here. If you like Pratchett, Asprin, or Holt, give this book a try." --eloisebd, on Amazon
