The title of Charles Taliaferro's book is derived from poems and stories in which a person in peril or on a quest must follow a cord or string in order to find the way to happiness, safety, or home. In one of the most famous of such tales, the ancient Greek hero Theseus follows the string given him by Ariadne to mark his way in and out of the Minotaur's labyrinth. William Blake's poem "Jerusalem" uses the metaphor of a golden string, which, if followed, will lead one to heaven itself. Taliaferro extends Blake's metaphor to illustrate the ways we can link what we see, feel, and do with deep spiritual realities. Taliaferro offers a foundational case for the recognition of the experience of the eternal God of Christianity, in which God is understood as the fount of all goodness and the subject and object of our best love, revealed through scripture, tradition, philosophical reflection, and encountered in everyday events. He addresses philosophical obstacles to the recognition of such experiences, especially objections from the "new atheists," and explores the values involved in thinking and experiencing God as eternal. These include the belief that the eternal goodness of God subordinates temporal goods, such as the pursuit of fame and earthly glory; that God is the essence of life; and that the eternal God hallows domestic goods, blessing the everyday goods of ordinary life. An exploration of the moral and spiritual riches of the Christian tradition as an alternative to materialism and naturalism, *The Golden Cord* brings an originality and depth to the debate in accessible and engaging prose.

"Not of woman born, the Fortunate, the Unborn"—the terms designating those born by Caesarean section in medieval and Renaissance Europe were mysterious and ambiguous. Examining representations of Caesarean birth in legend and art and tracing its history in medical writing, Renate Blumenfeld-Kosinski addresses the web of religious, ethical, and cultural questions concerning abdominal delivery in the Middle Ages and the Renaissance. *Not of Woman Born* increases our understanding of the history of the medical profession, of medical iconography, and of ideas surrounding "unnatural" childbirth. Blumenfeld-Kosinski compares texts and visual images in order to trace the evolution of Caesarean birth as it was perceived by the main actors involved—pregnant women, medical practitioners, and artistic or literary interpreters. Bringing together medical treatises and texts as well as hitherto unexplored primary sources such as manuscript illuminations, she provides a fresh perspective on attitudes toward pregnancy and birth in the Middle Ages and the Renaissance; the meaning and consequences of medieval medicine for women as both patients and practitioners, and the professionalization of medicine. She discusses writings on Caesarean birth from the twelfth and thirteenth centuries, when Church Councils ordered midwives to perform the operation if a mother died during childbirth in order that the child might be baptized; to the fourteenth century, when the first medical text, Bernard of Gordon's *Lilium medicinae*, mentioned the operation; up to the gradual replacement of midwives by male surgeons in the fifteenth and sixteenth centuries. *Not of Woman Born* offers the first close analysis of Franois Rousset's 1581 treatise on the operation as an example

of sixteenth-century medical discourse. It also considers the ambiguous nature of Caesarean birth, drawing on accounts of such miraculous examples as the birth of the Antichrist. An appendix reviews the complex etymological history of the term "Caesarean section." Richly interdisciplinary, *Not of Woman Born* will enliven discussions of the controversial issues surrounding Caesarean delivery today. Medical, social, and cultural historians interested in the Middle Ages and the Renaissance, historians, literary scholars, midwives, obstetricians, nurses, and others concerned with women's history will want to read it.

The Golden Cord

Kingdom of Nokia tells a fascinating story of corporatism in Finland. How did the mobile phone giant Nokia make the Finnish elite willing to serve the interests of the company? Nokia became a global player in mobile communications in the 1990s, and helped establish Anglo-Saxon capitalism in Finland. Through its success and strong lobbying, the company managed to capture the attention of Finnish politicians, civil servants, and journalists nationwide. With concrete detailed examples, Kingdom of Nokia illustrates how Nokia organised lavishing trips to journalists and paid direct campaign funding to politicians to establish its role at the core of Finnish decision-making. As a result, the company influenced important political decisions such as joining the European Union and adopting the euro, and further, Nokia even drafted its own law to serve its special interests. All this in a country considered one of the least corrupt in the world.

The Restorer

The British country house has long been regarded as the jewel in the nation's heritage crown. But the country house is also an expression of wealth and power, and as scholars reconsider the nation's colonial past, new questions are being posed about these great houses and their links to Atlantic slavery. This book, authored by a range of academics and heritage professionals, grew out of a 2009 conference on 'Slavery and the British Country house: mapping the current research' organised by English Heritage in partnership with the University of the West of England, the National Trust and the Economic History Society. It asks what links might be established between the wealth derived from slavery and the British country house and what implications such links should have for the way such properties are represented to the public today. Lavishly illustrated and based on the latest scholarship, this wide-ranging and innovative volume provides in-depth examinations of individual

houses, regional studies and critical reconsiderations of existing heritage sites, including two studies specially commissioned by English Heritage and one sponsored by the National Trust.
