Cinema and the Indian Freedom Struggle

Cinema is one of the most influential instruments in opinion building, and Indian cinema is no exception to this case. Indian cinema explores the niche of nationalism at the heart of the collective consciousness of several generations of Bharat's (India's) people. The contribution made to nation and opinion building by the Indian cinema community is not adequately acknowledged, and so this book celebrates these unsung heroes' contributions and ponders the power of cinema in perception building. This collection of essays examines the role played by Indian cinema in narrating, inspiring, determining, and challenging our comprehension of India as a nation.

Nationalism in Indian Cinema

Based on detailed onsite observation of documentary production, circulation practices and the analysis of film texts, this book identifies independence as a'tactical practice', contesting the normative definitions and functions assigned to culture, cultural production and producers in a neoliberal economic system.

Indian Documentary Film and Filmmakers

A visual narration of India s history in the first few tumultuous decades of the last century, this is a compilation of 50 prints with their corresponding textual references. It takes a look at the popular visual documentation of India s journey through freedom struggle, to independence and partition, and the years immediately subsequent to it. At one level, the collection testifies to the crucial role played by what we call the calendar art in disseminating the spirit of nationalism across the country. It is conveyed here as a two-pronged process: the first dealing with the creation of a popular imagery for the masses to identify with; and secondly, the gradual perpetuation of these idioms that haven t lost their connotation even till this day.

Images of Freedom

This book analyses 100 years of Hindi cinema, India's principal film industry, to explore how much space it has given to Mahatma Gandhi, the most prominent leader of the Indian struggle for freedom, and his principles. It compares films on Gandhi with the written literature on him, and juxtaposes the celluloid Gandhi with the man who walked on the earth 'ever in flesh and blood'. From his childhood through his legal practice in South Africa to his non-violent struggle against the British Empire in India, the book covers all major events of his life and their portrayal on the silver screen.

INDIAN DOCUMENTARY FILM AND FILMMAKERS

Shyam Benegal is an Indian director and screenwriter whose work is considered central to New Indian cinema. By closely analysing several of Benegal's films, this book provides an understanding of India's post-independence history. The book examines the filmmaker's focus on women by highlighting his subtle and critical engagement with a truism of Indian nationalism: women's centrality to the (nation-) state's negotiation with modernity. It looks at the importance Benegal accords to history – its little known, contested, or iconic events and figures – in crafting national culture and identities, and goes on to discuss the filmmaker's nuanced representation of the developmental agendas of the nation-state. The book presents an account of the relationship of historical film and fiction to official history, and provides a fuller understanding of Indian cinema, and how it is shaped by as well as itself shapes national imperatives. Filling a gap in the literature, the book offers an analysis of cinematic treatment of post-independence narratives and gives important insights into the imagination of the time. It is a useful contribution for students and scholars of Film Studies, South Asian History and South Asian Culture.

Encyclopaedia of Hindi Cinema

Seminar paper from the year 2007 in the subject English Language and Literature Studies - Literature, grade: 1,0, University of Constance (Fachbereich Anglistik und Amerikanistik), course: Bollywood, 21 entries in the bibliography, language: English, abstract: 1.Introduction The Rising: Ballad of Mangal Pandey tells the story of the sepoy Mangal Pandey who triggers what the film calls the "first Indian War of Independence" in 1857. Embedded in a story about the friendship between Mangal and William Gordon, his English superior, The Rising, I would claim, sets out to create nothing less than a myth of birth of the modern Indian nation - the mainstream Hindi film (Bollywood) is, after all, "society's biggest and most influential mythmaker". The Rising moves beyond the themes of generational / social class / gender conflicts of Indian popular cinema that are dealt with ad nauseam, but remains true to its 'origins' as regards the characterisation of its protagonists. It touches on questions of imperialism,

colonialism and identity as well as, on a narrower level, friendship and morale. This paper will try to analyse the mechanisms upon which the construction of meaning within the film as well as the narrative of nation and nationalism rests - the assumed meaning being deciphered in another step -, concluding that the film moves in a space in-between nationalist ideas (and ideals) and a post-colonial struggle to de-colonise and "Indianize"³ the history and culture of the nation by creating a unifying, i.e., inclusive and exclusive myth of the activist (Indian) individual. The portrayal of characters of Indians and English is therefore paramount. To what extent the above aim is achievable by means of popular and traditionally colourful filmmaking is a different question that can only be speculated about.

New Indian Cinema in Post-Independence India

"This book is an empirico-historical enquiry into the empire cinema made in Hollywood and Britain during the turbulent 1930s and 1940s. It shows how empire cinema constructed the colonial world, its rationale for doing so, and the manner in which such constructions were received by the colonised people".--Back cover.

Cinema and Censorship

This volume provides a different understanding of India's post-independence history through a close analysis of several feature and documentary films of Shyam Benegal. Providing a fuller understanding of Indian cinema, this book gives important insights into the imagination of the time.

Cinema at the End of Empire

Transcript of interviews by Indian freedom fighter and reminiscences of their association in the Indian freedom movement.

Colonial India and the Making of Empire Cinema

Many people actively participated in the freedom struggle of India. Many of these freedom fighters are remembered, but many have been forgotten. These freedom fighters gave their everything for the freedom of the country. Many fighters had to face the severe punishment of Kalapani, but they did not waver from their intentions. The stories of these freedom fighters are no less exciting than a film. Some were killed with sticks; some were beheaded with a sword; some were gunned down. A veritable, exciting book!

New Indian Cinema in Post-independence India

Identity conflicts, a prominent feature of our times, a phenomenon of belonging somewhere yet belonging nowhere, are increasingly finding their way into cinema. This book looks at the representations of identity conflicts in India on the canvas of Indian cinema, connecting them with broader

socio-political developments in contemporary India. Starting with the historical background of how political developments in Europe like the emergence of Nation states, secularism, modernity influenced socio-political developments in India in the past century, the book looks at how those developments have shaped modern India. While looking at the cinematic representations of a variety of identity conflicts through the lens of cultural and political analysis, it provides insights into how the construct of an Identity and the inherent conflicts associated with it evolve and manifest themselves through the medium of a film.

Freedom Fighters Remember

In the long drawn political struggle for the attainment of swaraj several leaders representing various regions of our sub-continent played their historic role. Each volume contains the significant phase of the movement which generated the spirit of patriotism among the millions of people. This multivolume work illuminates the role played by the Freedom Fighters during the freedom struggle. In fact, besides majority community, all minorities have played important role in freedom struggle. Dalit leaders equally played important role in 1857. This multivolume work thus highlights the contributions of people from all sections of society in the freedom movement during Indian freedom. This is an attempt to draw upon their remembrance of the freedom struggle. Efforts have been made to include Freedom Fighters from various regions. The reminiscences of these unsung heroes reveal deep dedication and spirit with which they fought against the atrocities of the British risking their life and profession. The history of Freedom Movement would be incomplete without mentioning the contribution of women. In the Volume IV, we can study about women who participated in the freedom struggle and made rich contribution in various ways. Some of them were imprisoned, fined and suffered for freedom, and their contributions cannot be overlooked. The great contributions of these ladies and lords should be brought to the knowledge of the present generation, and this would be the best way to pay homage to them. This multivolume is a tribute to the Freedom Fighters in India's freedom movement.

The Unsung Indian Freedom Fighters

Mahatma Gandhi remains one of the most photographed and filmed persons in the world. The camera loved him, and followed him like a shadow throughout his life. Yet, despite being a public communicator par excellence, Gandhi chose not to use the then newest form of art-cinema. He was steadfast in his belief that it was a bad influence. From A.K. Chettiar's Mahatma Gandhi: Twentieth-Century Prophet to Attenborough's Gandhi, The Mahatma on Celluloid unravels many unknown facts about the newsreels, documentaries and films made on Gandhi. Based on extensive research, the book also includes excerpts and anecdotes from interviews with filmmakers like Rajkumar Hirani, Vidhu Vinod Chopra, Naseeruddin Shah, Jahnu Barua, Feroz Abbas Khan and Girish Kasarwalli who share their insights on the Mahatma's enduring tryst with cinema.

The Mahatma on Celluloid

One film out of every five made anywhere on earth comes from India. From its beginnings under colonial rule through to the heights of Bollywood, Indian Cinema has challenged social injustices such as caste, the oppression of Indian women, religious intolerance, rural poverty, and the pressures of life in the burgeoning cities. And yet, the Indian movie industry makes only about five percent of Hollywood's annual revenue. In this Very Short Introduction, Ashish Rajadhyaksha delves into the political, social,

and economic factors which, over time, have shaped Indian Cinema into a fascinating counterculture. Covering everything from silent cinema through to the digital era, Rajadhyaksha examines how the industry reflects the complexity and variety of Indian society through the dramatic changes of the 20th century, and into the beginnings of the 21st. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Gandhi and Indian Freedom Struggle

This book is about the popular cinema of North India ("Bollywood") and how it recasts literary classics. It addresses questions about the interface of film and literature, such as how Bollywood movies rework literary themes, offer different (broader or narrower) interpretations, shift plots, stories, and characters to accommodate the medium and the economics of the genre, sometimes even changing the way literature is read. This book addresses the socio-political implications of popular reinterpretations of "elite culture"

A History of Indian Freedom Struggle

Although Indian popular cinema has a long history and is familiar to audiences around the world, it has rarely been systematically studied. This book offers the first detailed account of the popular film as it has grown and changed during the tumultuous decades of Indian nationhood. The study focuses on the cinema's characteristic forms, its range of meanings and pleasures, and, above all, its ideological construction of Indian national identity. Informed by theoretical developments in film theory, cultural studies, postcolonial discourse, and "Third World" cinema, the book identifies the major genres and movements within Bombay cinema since Independence and uses them to enter larger cultural debates about questions of identity, authenticity, citizenship, and collectivity. Chakravarty examines numerous films of the period, including *Guide* (Vijay Anand, 1965), *Shri 420* [The gentleman cheat] (Raj Kapoor, 1955), and *Bhumika* [The role] (Shyam Benegal, 1977). She shows how "imperso-nation," played out in masquerade and disguise, has characterized the representation of national identity in popular films, so that concerns and conflicts over class, communal, and regional differences are obsessively evoked, explored, and neutralized. These findings will be of interest to film and area specialists, as well as general readers in film studies.

The Role of Minorities in Freedom Struggle

This book traces the journey of popular Hindi cinema from 1913 to contemporary times when Bollywood has evolved as a part of India's cultural diplomacy. Avoiding a linear, developmental narrative, the book re-examines the developments through the ruptures in the course of cinematic history. The essays in the volume critically consider transformations of the Hindi film industry from its early days to its present self-referential mode, issues of gender, dance and choreography, Bombay cinema's negotiations with the changing cityscape and urbanisms, and concentrate on its multifarious regional, national and transnational implications in the 21st century. One of the most comprehensive volumes on Bollywood, this work presents an analytical overview of the multiple histories of popular cinema in India and will be useful to scholars and researchers interested in film and media studies, South Asian popular culture and modern India, as well as to cinephiles and general readers alike.

The Illustrated History of the Freedom Struggle

This collection of essays by subject specialists examines the politics of violence, communalism, and terrorism as negotiated in cinema; the representations of identitarian politics; and the complex ideological underpinnings of literary adaptations.

National Identity in Indian Popular Cinema, 1947-1987

The vibrant Swahili coast port city of Dar es Salaam—literally, the “Haven of Peace”—hosts a population reflecting a legacy of long relations with the Arabian Peninsula and a diaspora emanating in waves from the Indian subcontinent. By the 1960s, after decades of European imperial intrusions, Tanzanian nationalist forces had peacefully dismantled the last British colonial structures of racial segregation and put in place an official philosophy of nonracial nationalism. Yet today, more than five decades after independence, race is still a prominent and publicly contested subject in Dar es Salaam. What makes this issue so dizzyingly elusive—for government bureaucrats and ordinary people alike—is East Africa's location on the Indian Ocean, a historic crossroads of diverse peoples possessing varied ideas about how to reconcile human difference, social belonging, and place of origin. Based on a range of archival, oral, and newspaper sources from Tanzania and India, this book explores the history of cross-cultural encounters that shaped regional ideas of diaspora and nationhood from the earliest days of colonial Tanganyika—when Indian settlement began to expand dramatically—to present-day Tanzania, a nation always under construction. The book focuses primarily on two prominent city spaces, schools and cinemas: the one a site of education, the other a site of leisure; one typically a programmatic entity of government, the other usually a bastion of commercial enterprise. Nonetheless, the forces shaping schools and cinemas as they developed into busy centers of urban social interaction were surprisingly similar: the state, community organizations, nationalist movements, economic change, and the transnational winds of Indian Ocean culture and capital. Whether in the form of institutional apparatuses like networks of Indian teacher importation and curricula adoption, or through the market predominance of the Indian film industry, schools and cinemas in East Africa historically were influenced by actions and ideas from around the Indian Ocean. *Diaspora and Nation in the Indian Ocean* argues that an Indian Ocean-wide perspective enables an examination of the transnational production of ideas about race against a backdrop of changing relationships and claims of belonging as new notions of nationhood and

diaspora emerged. It bridges an academic divide, because historians often either focus on the Indian diaspora in isolation or write it out of the story of African nation building. Further, in contrast to the swell of publications on global Indian or South Asian diasporas that highlight longings for and contacts with the "homeland," the book also demonstrates that much of the creative production of diasporic Indian identities formed in East Africa was a result of local (albeit cosmopolitan) encounters across cities like Dar es Salaam.

History of the Freedom Movement in India (1857-1947)

Through the lens of cinema, this book explores the ways in which the United States, Britain and India impacted each other politically, culturally and ideologically. It argues that American films of the 1920s posited alternative notions of whiteness and the West to that of Britain, which stood for democracy and social mobility even at a time of virulent racism. The book examines the impact that the American cinema has on Indian filmmakers of the period, who were integrating its conventions with indigenous artistic traditions to articulate an Indian modernity. It considers the way American films in the 1920s presented an orientalist fantasy of Asia, which occluded the harsh realities of anti-Asian sentiment and legislation in the period as well as the exciting engagement of anti-imperial activists who sought to use the United States as the base of a transnational network. The book goes on to analyse the American 'empire films' of the 1930s, which adapted British narratives of empire to represent the United States as a new global paradigm. Presenting close readings of films, literature and art from the era, the book engages cinema studies with theories of post-colonialism and transnationalism, and provides a novel approach to the study of Indian cinema.

The popular Hindi film industry is the largest in India and the most conspicuous film industry in the non-Western world. This book analyses the pivotal visual and narrative conventions employed in popular Hindi films through the combined prism of film studies and classical Indian philosophy and ritualism. The book shows the films outside Western paradigms, as visual manifestations and outcomes of the evolution of classical Hindu notions and esthetic forms. These include notions associated with the Advaita-Vedānta philosophical school and early Buddhist thought, concepts and dynamism stemming from Hindu ritualism, rasa esthetic theories, as well as Brahmanic notions such as dharma (religion, law, order), and moksha (liberation). These are all highly abstract notions which the author defines as "the unseen": a cluster of diversified concepts denoting what subsists beyond the phenomenal, what prevails beyond the empirical world of samsāra and stands out of this world (alaukika), while simultaneously being embodied and transformed within visual filmic imagery, codes and semiotics that are teased out and analyzed. A culturally sensitive reading of popular Hindi films, the interpretations put forward are also applicable to the Western context. They enable a fuller understanding of religious phenomena outside the primary religious field, within the vernacular arenas of popular culture and mass communication. The book is of interest to scholars in the fields of Indology, modern Indian studies, film, media and cultural studies.
