Zenjirou safely returns from the Gaziel march to good news—his wife may be pregnant! With the rainy season setting in, he practices teleportation with more vigor than ever, knowing this new spell will enable him to bring a healer from the Gilbelle family when the child arrives. Margrave Gaziel also returns to the capital, this time accompanied by Nilda. Her addition to the register of names reminds the margrave just how much he owes the prince consort for his actions during the wedding festivities. But is his gratitude a

sign that Zenjirou is going too far beyond the bounds of his position as a mere figurehead? Meanwhile, the inner palace is taking applications for new maids, but the Uppasalans have other issues caused by their unfamiliarity with the local climate. Zenjirou's insight might just offer a unique new perspective for both Freya...and Aura!

The Way True Life Story Volume 8

This book is a series of essays that explore the unique concept of the intelligibility and orderliness of the natural world...to human beings alone...that also highlights the capacity of humans to comprehend the God-composed journey of faith life-scripts...as patterned in the biblical narrative stories of faith...that exposes and highlights the fundamental reality of purpose and meaning in the universe.

Nana, Vol. 8

The contents of the verses of this book were chosen from the 12-volume work called The Book of True Life, and have been ordered by themes, resulting in a compendium that uses the original wording, but which offers the reader an introduction of more manageable size to this Divine work. The twelve volumes are made up of a total of 366 chronologically numbered "Teachings". Although this book is arranged by topics, the Teachings are subdivided by verse numbers to facilitate their identification and for easy comparison between translations made to other languages. However, they are also identified, either singly, or at the end of a block of verses taken whole from the twelve volumes of The Book of True Life, by the original Teaching and Volume numbers for those, who wish to expand their knowledge of the work, or who wish to check the full context for citations they find to be of special interest. For example, a numerical citation such as: (356, 4-5) means: Teaching 356, verses four and five, of the original. Below, is a small table showing the Teaching numbers contained in each of the twelve volumes: Volume 1 1 - 28 Volume 7 175 - 207 Volume 2 29 - 54 Volume 8 208 - 241 Volume 3 55 - 82 Volume 9 242 - 276 Volume 4 83 - 110 Volume 10 277 - 309 Volume 5 111 - 142 Volume 11 310 - 338 Volume 6 143 - 174 Volume 12 339 - 366
