Die Schrecken des Eises und der Finsternis

Christoph Ransmayrs gefeierter erster Roman. Im Zentrum dieses vielschichtigen Abenteuerromans steht das Schicksal einer österreichisch-ungarischen Nordpolexpedition in den Jahren 1872 bis 1874. Die »Payer-Weyprecht-Expedition« bricht im arktischen Sommer 1872 in das unerforschte Meer nordöstlich des sibirischen Archipels Nowaja Semlja auf. Das Expeditionsschiff wird bald – und für immer – vom Packeis eingeschlossen. Nach einer mehr als einjährigen Drift durch alle Schrecken des Eises und der Finsternis entdeckt die vom Skorbut geplagte Mannschaft eine unter Gletschern begrabene Inselgruppe am Rande der Welt und tauft sie zu Ehren eines fernen Herrschers »Kaiser-Franz-Joseph-Land«. Einer der letzten blinden Flecke ist damit von der Landkarte der Alten Welt getilgt. Parallel zum Drama dieser historischen Expedition erzählt Ransmayr die Geschichte eines jungen, in Wien lebenden Italieners namens Mazzini, der mehr als hundert Jahre später zum besessenen Sammler aller hinterlassenen Zeugnisse und Dokumente der »Payer-Weyprecht-Expedition« wird und schließlich ins Eismeer aufbricht, um als Passagier eines norwegischen Forschungsschiffes die Entdeckung des »Franz-Joseph-Landes« nachzuvollziehen. Aber im Verlauf seiner Recherchen zur polaren Entdeckungsgeschichte gerät Mazzini immer tiefer in die arktische Gegenwart und verschwindet schließlich, ein Schlittenreisender, in den Gletscherlandschaften Spitzbergens.

Wüsten breiten sich zunehmend aus. In der Literatur spielen sie nicht nur als Realitäten eine Rolle, sondern sind auch Faszinationsobjekte vielfältiger kultureller Zuschreibungen. Seit der Antike sind Wüsten Orte ambivalenter kultureller Zuschreibungen. Für Forschungsreisende und die Naturwissenschaften sind sie immer wieder neu zu entdeckendes Faszinationsobjekt, Eremiten und Pilger suchen sie auf, um zur (Selbst-) Erkenntnis zu gelangen. Und auch moderne Reisende erfahren die Durchquerung von Wüsten als liminalen Prozess, aus dem sie als andere hervorgehen. Im Bereich der Literatur sind Wüsten nicht nur an geografische bzw. naturräumliche Erfahrungen geknüpft. Vielmehr dienen sie dort auch als Reflexionsbilder alternativer Daseinsentwürfe in einer krisenbewussten Moderne. Gerade durch die Assoziation der Wüste mit dem Ungeformten kommt solchen Entwürfen ein seis-

mografisches Potenzial zu, um auch gegenwärtig Formen kultureller Sinnbildung zu beobachten. So werden nicht nur Dürre und extreme Trockenheit als Effekte des menschengemachten Klimawandels, als Phänomene der Desertifikation beobachtbar und ökokritisch diskutiert, sondern Wüsten auch als kulturelle Metapher lesbar. schliff N°17 bildet den fünften Band der Themenreihe Elementarwelten und versammelt literarische, bildkünstlerische und literatur- bzw. kulturwissenschaftliche Beiträge zum Thema "Wüsten".

Unformed Landscape begins in a small village on a fjord in the Finnmark, on the northeastern coast of Norway, where the borders between Norway, Sweden, Finland, and Russia lie covered in snow and darkness, where the real borders are between day and night, summer and winter, and between people. Here, a sensitive young woman like Kathrine finds few outlets for her desires. Half Norwegian, half Sami (an indigenous people), Kathrine works for the customs office inspecting the fishing boats arriving regularly in the harbor. She is in her late 20s, has a son from an early marriage, and has drifted into a second loveless marriage to a man whose cold and dominating conventionality forms a bold stroke through the unformed landscape of her life. After she makes a discovery about her husband that deeply wounds her, Kathrine cuts loose from her moorings and her confusion and sets off in search of herself. Her journey begins aboard a ship headed south, taking her below the Arctic Circle for the first time in her life. Kathrine makes her way to France and has the bittersweet experience of a love affair that flares and dies quickly, her starved senses rewarded by the shimmering beauty of Paris. Through a series of poignant encounters, Kathrine is led to the richer life she was meant to have and is brave enough to claim. Using simple words strung together in a melodic alphabet, Peter Stamm introduces us, through a series of intimate sketches, to the heart of an unforgettable woman. Her story speaks eloquently about solitude, the fragility of love, lost illusions, and self-discovery. From the Trade Paperback edition.

Efraim's Book is the sophisticated, offbeat novel about the peculiar society of post-World-II Berlin. Its hero George Efraim is a Jewish reporter who has fought for the British on the Italian front and lost both parents to Auschwitz. He returns home to Berlin in 1962 for the first time since the war to investigate the wartime disappearance of his editor's daughter, only to begin writing a novel, which helps him "to embark on a certain arrangement of signs with the help of which I hope to chart my position." Like the great German novels of Günter Grass and Heinrich Böll, Alfred Andersch's Efraim's Book grapples with the legacy of World War II and the Holocaust in all its horror and sad humanity. A troubling yet often humorous book, it offers a poignant account of the traumatized German state.

The Terrors of Ice and Darkness

Originally published in 1924, Copse 125 (Das Wäldchen 125) is Ernst Jünger's third book, where he further recounts his experiences in one particularly treacherous stretch of the Western Front. In Copes 125, Jünger chronicles the deadlocked positions of battle located in an "isolated little patch of wood" during the last year of the war. Along with his later recollections of the event, Jünger also shares his

ruminations concerning the material and spiritual implications of the front line warrior. This is a new English translation of *Das Wäldchen 125*, published by E.S. Mittler & Son, Berlin, Germany, 1925.

German books in print

Arguing against the prevailing view that Holocaust survivors (encouraged by a new and flourishing culture of 'witnessing') have come forward only recently to tell their stories, *Writing the Holocaust* examines the full history of Holocaust testimony, from the first chroniclers confined to Nazi-enforced ghettos to today's survivors writing as part of collective memory. Zoë Waxman shows how the conditions and motivations for bearing witness changed immeasurably. She reveals the multiplicity of Holocaust experiences, the historically contingent nature of victims' responses, and the extent to which their identities - secular or religious, male or female, East or West European - affected not only what they observed but also how they have written about their experiences. In particular, she demonstrates that what survivors remember is substantially determined by the context in which they are remembering.

Writing the Holocaust

The novel *The Register* describes from varying perspectives the lives of two Austrian brothers. Moritz and Vinzenz, who meet again after a long estrangement. They remember shared and individual experiences, prompted by questions from their sister, photographs in family albums, and encounters with current reality during a visit to their home town. The memories that form most of the novel's substance highlight the fundamental problems of their development and the reasons for their successes and failures in life: sibling rivalries, conflicts between them and their father; inability and unwillingness

to identify with their Austrian heritage; missed opportunities, breakdowns in communication, failed relationships with other people; guilt incurred through betrayal of their girlfriend Magda and each other.

Manifest Perdition

"Senelick's accomplishment is astounding."—Library Journal Anton Chekhov is a unique force in modern drama, his works cherished for their brilliant wit and insight into the human condition. In this stunning new translation of one of Chekhov's most popular and beloved plays, Laurence Senelick presents a fresh perspective on the master playwright and his groundbreaking dramas. He brings this timeless trial of art and love to life as memorable characters have clashing desires and lose balance in the shifting eruptions of society and a modernizing Russia. Supplementing the play is an account of Chekhov's life; a note on the translation; an introduction to the work; and variant lines, often removed due to government censorship, which illuminate the context in which they were written. This edition is the perfect guide to enriching our understanding of this great dramatist or to staging a production.

A Voyage Towards the South Pole and Round the World; Volume 2

The pirates of the Caribbean have a name for kids who can walk on water -- they call them polliwogs. As far as 14-year-old Jolly knows, she's the last polliwog still alive. She is valuable to the pirate captain who raised her, for she can sneak up on an enemy ship by walking over the waves. When someone sets a trap for Jolly's ship, Jolly alone escapes. She is washed up on a tiny island inhabited by a farming family -- and the ghosts who labor for them. The farmers have a son, Munk, who has been raised almost in hiding. Munk longs to go to sea, but his parents say that they are afraid of pirates, and they have forbidden Munk to reveal his true identity -- he, too, is a polliwog. But pirates are not the only threat in the Caribbean. Evil forces are stirring, and a demon from the sea attacks and murders Munk's parents. Was the demon really after Munk? And Jolly, too? Why are the polliwogs so valuable, and who wants them enough to kill for them? Jolly and Munk must sail with a strange crew of outcasts, led by the mysterious Ghost Trader, to avenge their loved ones and try to stop an ancient, malevolent force known as the Maelstrom. What it will cost both teens, no one can tell -- in this thrilling, swashbuckling fantasy from the extraordinary Kai Meyer.

American Cold War Culture

These articles deal with the functioning, and malfunctioning, of the Carreira da India, the round voyages made between Portugal and its possessions in India that began after Vasco da Gama had opened up the route round the Cape of Good Hope in 1497-99. On such voyages was the Portuguese colonial empire built, and these studies illustrate the conditions under which they operated - the ships, the crews, their navigation and their cargoes. For instance, details are given of the medicines carried on board and the hospital established at the way-station of Moçambique in an attempt to combat the perennial

scourge of disease. The principal hazard, however, remained that of loss through shipwreck or enemy action, events all too common in the history of the Carreira, which are brought to life most vividly in the Portuguese literary classic, the *História Trágico-Marítima*; the early printed editions of such tales form the subject of two of the articles and the backdrop to much of the volume.

The Register

While grief is suffered in all cultures, it is expressed differently all over the world in accordance with local customs and beliefs. Music has been associated with the healing of grief for many centuries, with Homer prescribing music as an antidote to sorrow as early as the 7th Century BC. The changing role of music in expressions of grief and mourning throughout history and in different cultures reflects the changing attitudes of society towards life and death itself. This volume investigates the role of music in mourning rituals across time and culture, discussing the subject from the multiple perspectives of music history, music psychology, ethnomusicology and music therapy.

The Seagull

This book addresses itself to the concept of the implied author, which has been the cause of controversy in cultural studies for some fifty years. The opening chapters examine the introduction of the concept in Wayne C. Booth's "Rhetoric of Fiction" and the discussion of the concept in narratology and in the theory and practice of interpretation. The final chapter develops proposals for clarifying or replacing the concept.

The Call of the Toad

Charting the exploration of an unknown world—our own—with a new cartography of living things rather than space available for conquest or colonization. This book charts the exploration of an unknown world: our own. Just as Renaissance travelers set out to map the terra incognita of the New World, the mapmakers of Terra Forma have set out to rediscover the world that we think we know. They do this with a new kind of cartography that maps living things rather than space emptied of life and available to be conquered or colonized. The maps in Terra Forma lead us inward, not off into the distance, moving from the horizon line of conventional cartography to the thickness of the ground, from the global to the local. Each map in Terra Forma is based on a specific territory or territories, and each tool, or model, creates a new focal point through which the territory is redrawn. The maps are "living maps," always under construction, spaces where stories and situations unfold. They may map the Earth's underside rather than its surface, suggest turning the layers of the Earth inside out, link the biological physiology of living inhabitants and the physiology of the land, or trace a journey oriented not by the Euclidean space of GPS but by points of life. These speculative visualizations can constitute the foundation for a new kind of atlas.

The Star-crossed Renaissance

The published work of Claude Levi-Strauss over the last three and a half decades has established him as one of the world's most innovative anthropologists. Yet throughout this period he was maintaining a full teaching commitment in Paris. The pieces in *Anthropology and Myth* illustrate (in his own words) the efforts, the tentative advances and retreats and now and again the achievements of a thought process during some thirty-two years that amount to a large proportion of an individual life and the span of a generation. Levi-Strauss used to the lecture theatre as a workshop in which to try out and develop new ideas, and many of the familiar themes of his books will be found here: analysis of myth and ritual, totemism, kinship, marriage and social structure. Offering a unique glimpse of the genesis of such subjects throughout his teaching career, this book provides a sketchbook of the themes painted elsewhere in larger, more finished form, and thus forms a document of vital importance for the history of anthropological thought.
