Burning Money: The Cost of Smoking

Though it's illegal to advertise tobacco products on television and Big Tobacco no longer sponsors major sporting events, it doesn't mean that cigarettes have been relegated to the back pages of little-read magazines. Quite the contrary. Though they might not be advertised-at least in the traditional meaning of the word-cigarettes continue to hold a prominent place in the media.

False Images, Deadly Promises: Smoking and the Media

Everyone knows that smoking is an expensive habit. Cigarettes, after all, cost money. But as readers will learn from Burning Money: The Cost of Smoking, buying cigarettes and other smoking materials is only part of the costs associated with smoking.

Frequently Asked Questions About Smoking

Describes the health risks of smoking cigarettes, why some people begin smoking, and the different methods of quitting.

You Can Stop Smoking

The easy, smoker-friendly way to quit from the founder of Smokenders. Completely revised and updated, this book provides all the information necessary to guide smokers through the quitting process with sections on weight gain, addiction, nicotine patches, and avoiding relapses.

Burning Ambition

This is a unique insight into the life of the world's anti-smoking guru. His methods are tried and tested. Six million people can't be wrong. For over thirty years Allen Carr was addicted to smoking. His first cigarette led to a one-hundred-a-day habit that he couldn't break. He tried every method of quitting and

they all failed, until he discovered the Easyway. From that moment he knew he would never go back. This is his story.

Burning Money

The definitive work on the subject, this Dictionary - available again in its eighth edition - gives a full account of slang and unconventional English over four centuries and will entertain and inform all language-lovers.

BEWARE !! THE CHURCH BRAIN SYNDROME (CHAPTER 11) If you dare to read on, you will find that the author is not being facetious, cynical, or mean-spirited. Nor is his goal to be provocative, in order to stir up controversy. Strike three-You're out!! Game over? I just realized, I didn't even have a bat in my hands. But a "higher power" put me back in the game of life. A brand new bat, one more strike, and a different attitude. Who Cares? "When the Saints Come Marching In" is a candid, brutally honest, true story. Given up for dead at birth and nearly killed by alcohol as an adult. In this searing self-portrayal, Thomas John Ford answers questions dealing with life, and a search for the TRUTH. "What is your age in God's Time?" Does God Know Everything? The "Church Brain" Quiz. "What are the lies of the Devil?" "12 steps in my search for God" The truth had always been up-side my head. Now it was in my face. Too afraid to blink, I stepped backward, but I dared not turn away- This was my last strike! "THE TRUTH SHALL MAKE YOU FREE!" BUT NOT ALWAYS HAPPY!

The Bulletin

Biographies of more than 100 Irish scientists (or those with strong Irish connections), in the disciplines of Chemistry and Physics, including Astronomy, Mathematics etc., describing them in their Irish and international scientific, social, educational and political context. Written in an attractive informal style for the hypothetical 'educated layman' who does not need to have studied science. Well received in Irish and international reviews.

Report of the Commission of Fine Arts

For years researchers have looked for ways to understand why some people seem to become addicted to cigarette smoking with the first puff while others don't. Studies have focused on why certain individuals have an easier time breaking the bonds of smoking and how smoking cessation success rates could be improved.

A Dictionary of Slang and Unconventional English

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

Fire Safe Cigarettes

There's no doubt about it. Tobacco has played an important role in the history of the United States. It supported early colonies and helped create a nation.

Who Cares? When The Saints Come Marching In

Everyone knows that tobacco is a heavily regulated industry. But it hasn't always been that way. The road to regulation has been a long one, with twists and turns that are on the level of the best Hollywood blockbuster.

It's Part of What We Are - Volumes 1 and 2 - Volume 1: Richard Boyle (1566-1643) to John Tyndall (1820-1893); Volume 2: Samuel Haughton (18210-1897) to John Stewart Bell (1928-1990)

For years now we've all heard the dangers of smoking cigarettes. To avoid those health risks, many people have turned to "chew," "plug," "chaw"-smokeless tobacco. No smoke, no danger. Right?

In addition to publishing the reprint of Bill Burke's iconic "I Want To Take Picture," Twin Palms Publishers is pleased to be distributing first edition copies of "Mine Fields," Burke's follow-up to "I Want To Take Picture," published by Nexus Press in 1995. "Mine Fields (a sequel to Bill Burke's justly famous "I Want To Take Picture"), is Burke's scrapbook of his life and his pursuit of the history and daily life of Cambodia. Part adventure story, part personal confession, part travelogue, and always fascinating, Burke's negotiation of the mine fields of divorce and war is a compelling collage of photopgraphs, found objects, stories, and the contrast between gloeious ancient temples and the horrors of war and genocide." --Nexus Press
