

The Great Irish Potato Famine

[#Irish Potato Famine](#) [#Great Famine Ireland](#) [#Potato Blight History](#) [#Irish History 1840s](#) [#Mass Emigration Ireland](#)

The Great Irish Potato Famine, also known as An Gorta Mór or the Great Hunger, was a period of mass starvation, disease, and emigration in Ireland between 1845 and 1849. Caused by a devastating potato blight, this historical catastrophe led to over a million deaths and fundamentally reshaped Ireland's demographic, social, and political future.

Intro

What's good for the goose is good for the gander.

A good retreat is better than a bad stand.

God made time, man made haste.

A good laugh and a good night's sleep are the best cures in the doctor's book.

The longest road out is the shortest road home.

A trout in the pot is better than a salmon in the sea.

Better good manners than good looks.

Where the tongue slips it speaks the truth.

You've got to do your own growing, no matter how tall your grandfather was.

Instinct is stronger than upbringing.

Never bolt your door with a boiled carrot.

Perseverance is the mother of good luck.

Patience is a poultice for all wounds.

Never burn a penny candle looking for a halfpenny.

A sword, a spade and a thought should never be allowed to rust.

A constant drip wears a hole in a stone.

When the cat is out the mice will dance.

Learning is the desire of the wise.

Character is better than wealth.

Even black hens lay white eggs.

It's not a delay to stop to sharpen the scythe.

Hindsight is the best insight to foresight.

There's no use boiling your cabbage twice.

Climate is what you expect. Weather is what you get.

In the land of the blind, the one-eyed man is king.

We are all in the gutter, but some of us are looking up at the stars.

Take the world nice and easy, and the world will take you the same.

Two people shorten the road.

A cabin with plenty of food is better than a castle with none.

The Great Irish Famine

A concise analysis of one of the great disasters of Irish history.

Irish Potato Famine

This title examines an important historic event, the Irish Potato Famine. Readers will learn the history of Ireland leading up to the famine, key players and happenings during the famine, and the event's effect on society. Color photos and informative sidebars accompany easy-to-read, compelling text. Features include a timeline, facts, additional resources, web sites, a glossary, a bibliography, and an index. Essential Events is a series in Essential Library, an imprint of ABDO Publishing Company. Grades 6-9.

This Great Calamity

An examination of the famine in Ireland, the response by the Anglo-Irish and British governments, and the impact of the death and immigration of over two million people from Ireland during those seven years.

The Truth Behind the Irish Famine 1845-1852

During the famine of 1845-50 over one million of the Irish population died in a crop failure unprecedented in the history of modern Europe. Dependency on the potato as the main source of food brought widespread starvation and disease throughout Ireland and was followed by mass emigration to Britain, North America, Canada and Australia. A century and a half later, the famine is a catastrophe that has never been forgotten, a pivotal point in the destiny of modern Ireland. Beautifully reproduced documentary illustrations and eyewitness testimonies interwoven with a gripping text, bring this disaster vividly to life.

The Irish Famine

The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland – socially, politically, demographically and culturally. In the space of only four years, Ireland lost twenty-five per cent of its population as a consequence of starvation, disease and large-scale emigration. Certain aspects of the Famine remain contested and controversial, for example the issue of the British government's culpability, proselytism, and the reception of emigrants. However, recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis, both before 1845 and after 1852. This volume breaks new ground in bringing together foundational narratives of one of Europe and North America's first refugee crises — making visible their impact in shaping perceptions, public opinion, and patterns of memorialization of Irish forced migration. It documents eyewitness impressions of suffering Irish emigrants, and especially orphaned infants, which became iconic images of the Famine migration.

The History of the Irish Famine

The National Library of Ireland is a major source for the study of the Irish Famine. Its collections include the newspapers, the parliamentary debates, and the various official reports published at the time. The Department of Manuscripts holds the records of many of the great landed estates, which provide primary evidence on the landlords' role in the crisis. The Library's extensive collection of prints and drawings enables us to visualise conditions at the time, and to empathise with our ancestors in their travails. To give as broad an understanding as possible of this vast and complex subject, the book also includes documents and illustrations from a number of other repositories. They include the National Archives, the Department of Irish Folklore at University College Dublin, Dublin Diocesan Archives, Birmingham Library Services, the British Library, the National Library of Scotland, the McKinney Library in Albany, U.S.A., and the National Archives of Canada.

The Irish Famine

Over one million people died in the Great Famine, and more than one million more emigrated on the coffin ships to America and beyond. Drawing on contemporary eyewitness accounts and diaries, the book charts the arrival of the potato blight in 1845 and the total destruction of the harvests in 1846 which brought a sense of numbing shock to the populace. Far from meeting the relief needs of the poor, the Liberal public works programme was a first example of how relief policies would themselves

lead to mortality. Workhouses were swamped with thousands who had subsisted on public works and soup kitchens earlier, and who now gathered in ragged crowds. Unable to cope, workhouse staff were forced to witness hundreds die where they lay, outside the walls. The next phase of degradation was the clearances, or exterminations in popular parlance which took place on a colossal scale. From late 1847 an exodus had begun. The Famine slowly came to an end from late 1849 but the longer term consequences were to reverberate through future decades.

The Great Famine

The Famine of the 1840s deserves the capital letter it invariably gets. It was the greatest national calamity ever to befall a people in times of peace and has left its mark on the Irish ever since. This account provides the story of the disaster: its causes and the inadequate official response.

The Irish Famine, 1845-52

The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland – socially, politically, demographically and culturally. In the space of only four years, Ireland lost twenty-five per cent of its population as a consequence of starvation, disease and large-scale emigration. Certain aspects of the Famine remain contested and controversial, for example the issue of the British government's culpability, proselytism, and the reception of emigrants. However, recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis, both before 1845 and after 1852. This volume breaks new ground in bringing together foundational narratives of one of Europe and North America's first refugee crises — making visible their impact in shaping perceptions, public opinion, and patterns of memorialization of Irish forced migration. It documents eyewitness impressions of suffering Irish emigrants, and raises questions about what literary conventions, mnemonic motifs, and popular images can be found in eyewitness accounts, press coverage, and foundational narratives of Famine Irish forced migration. These primary sources provide a model for understanding how representations of forced migration shape public opinion and policy.

The History of the Irish Famine

When the great Irish famine of the years 1845-49 finally ceased it had taken a toll of the Irish nation from which it has never fully recovered. More than 1.2 million people died as a result of hunger or disease. In six years, from 1846-1851, more than 1.8 million left the country. Those who were left in a stricken motherland were sunk in misery and despair. With the decimation and emigration of its users, the Irish language suffered a mortal blow. The nation seemed doomed to extinction. This definitive work is a vivid record of this catastrophe that almost wiped out the Irish nation. It also provides a history of previous famines in Ireland and gives a fascinating account of the arrival of the potato in Europe and its introduction to Ireland. Also discussed is the onslaught of the blight and the puny efforts by the London government to counter its effects.-- Publisher description

The Great Irish Famine

The most wide-ranging series of essays ever published on the Irish famine.

The Great Irish Famine

The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland – socially, politically, demographically and culturally. In the space of only four years, Ireland lost twenty-five per cent of its population as a consequence of starvation, disease and large-scale emigration. Certain aspects of the Famine remain contested and controversial, for example the issue of the British government's culpability, proselytism, and the reception of emigrants. However, recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis, both before 1845 and after 1852. This volume seeks to counterbalance the recent historiographical focus on the Great Irish Famine which has overshadowed the impact of other periods of subsistence crisis, both before 1845 and after 1852. As occurred during the Great Famine, they often resulted in increased levels of evictions, emigration, disease and death, although the scale was lower.

A Lecture on the Antecedent Causes of the Irish Famine in 1847

In the century before the great famine of the late 1840s, the Irish people, and the poor especially, became increasingly dependent on the potato for their food. So when potato blight struck, causing the tubers to rot in the ground, they suffered a grievous loss. Thus began a catastrophe in which approximately one million people lost their lives and many more left Ireland for North America, changing the country forever. During and after this terrible human crisis, the British government was bitterly accused of not averting the disaster or offering enough aid. Some even believed that the Whig government's policies were tantamount to genocide against the Irish population. James Donnelly's account looks closely at the political and social consequences of the great Irish potato famine and explores the way that natural disasters and government responses to them can alter the destiny of nations.

The History of the Irish Famine

The Irish Potato Famine of the 1840s has been popularly perceived as a genocide attributable to the British government. In professional historical circles, however, such singular thinking was dismissed many years ago, as evidenced by the scathing academic response to Cecil Woodham-Smith's 1963 classic, *The Great Hunger*, which, in addition to presenting a vivid and horrifying picture of the human suffering, made strong accusations against the British government's failure to act. And while British governmental sins of omission and commission during the famine played their part, there is a broader context of land agitation and regional influences of class conflict within Ireland that also contributed to the starvation of more than a million people. This remarkable book opens a door to understanding all sides to this tragedy with an absorbing history provided by novelist Colm Toibin that is supported by a collection of key documents selected by historian Diarmaid Ferriter. An important piece of revisionist thinking, *The Irish Famine: A Documentary* is sure to become the classic primer for this lamentable period of Irish history.

The Great Irish Potato Famine

Famine Echoes is a groundbreaking oral account of the Great Irish Potato Famine of 1845–52, telling the stories of its victims for the first time ever in their own words and those of their descendants. 'When the potato crop failed no other food was available and the people perished by the hundreds of thousands, along the roadside, in the ditches, in the fields from hunger and cold, and what was even worse – the famine fever. The strongest men were reduced to mere skeletons and they could be met daily with the clothes hanging on them like ghosts.' *The Great Irish Famine* is the greatest tragedy in Irish history. Over one million people died and nearly two million emigrated as a result. *Famine Echoes* gives a voice to its victims, offering a unique perspective on the Great Hunger, the defining event of modern Irish history. In *Famine Echoes*, descendants of Famine survivors recall the community memories of the great hunger in their own words, conveying like never before the heartbreak and horrors their relatives experienced. This remarkable book, a seminal record of the oral transmission of folk memory, is a record of the last living link with the survivors of Ireland's most devastating historical event. In the 1940s, the Folklore Commission conducted interviews with thousands of elderly people around Ireland who remembered what they themselves had heard from ancestors who had survived the Famine. Cathal Póirtéir has edited a selection of these recollections, arranging the material in an order which follows the rough chronology of the Famine itself. *Famine Echoes* is published to coincide with the RTÉ Radio series of the same name. *Famine Echoes: Table of Contents* - Folk Memory and the Famine - Before the Bad Times - Abundance Abused and the Blight - Turnips, Blood, Herbs and Fish - 'No Sin and You Starving' - Mouths Stained Green - 'The Fever, God Bless Us' - The Paupers and the Poorhouse - Boilers, Stirabout and 'Yellow Male' - New Lines and 'Male Roads' - 'Soupers', 'Jumpers' and 'Cat Breacs' - The Bottomless Coffin and the Famine Pit - Landlords, Grain and Government - Agents, Grabbers and Gombeen Men - 'A Terrible Levelling of Houses' - The Coffin Ships and the Going Away - Of Curses, Kindness and Miraculous Food Appendix I Appendix II

The Irish Famine

*Includes pictures *Includes accounts of the famine by Irishmen who suffered through it *Includes online resources and a bibliography for further reading *Includes a table of contents "I have called it an artificial famine: that is to say, it was a famine which desolated a rich and fertile island that produced every year abundance and superabundance to sustain all her people and many more. The English, indeed, call the famine a 'dispensation of Providence;' and ascribe it entirely to the blight on potatoes. But potatoes failed in like manner all over Europe; yet there was no famine save in Ireland." - John Mitchel, Young

Ireland Movement Anyone who has ever heard of "the luck of the Irish" knows that it is not something to wish on someone, for few people in the British Isles have ever suffered as the Irish have. As one commissioner looking into the situation in Ireland wrote in February 1845, "It would be impossible adequately to describe the privations which they habitually and silently endure...in many districts their only food is the potato, their only beverage water...their cabins are seldom a protection against the weather...a bed or a blanket is a rare luxury...and nearly in all their pig and a manure heap constitute their only property." Even his fellow commissioners agreed and expressed "our strong sense of the patient endurance which the laboring classes have exhibited under sufferings greater, we believe, than the people of any other country in Europe have to sustain." Still, in their long history of suffering, nothing was ever so terrible as what the Irish endured during the Great Potato Famine that struck the country in the 1840s and produced massive upheaval for several years. While countless numbers of Irish starved, the famine also compelled many to leave, and all the while, the British were exporting enough food from Ireland on a daily basis to prevent the starvation. Over the course of 10 years, the population of Ireland decreased by about 1.5 million people, and taken together, these facts have led to charges as severe as genocide. At the least, it indicated a British desire to remake Ireland in a new mold. As historian Christine Kinealy noted, "As the Famine progressed, it became apparent that the government was using its information not merely to help it formulate its relief policies, but also as an opportunity to facilitate various long-desired changes within Ireland. These included population control and the consolidation of property through various means, including emigration... Despite the overwhelming evidence of prolonged distress caused by successive years of potato blight, the underlying philosophy of the relief efforts was that they should be kept to a minimalist level; in fact they actually decreased as the Famine progressed." Although the Famine obviously weakened Ireland and its people, it also stiffened Irish resolve and helped propel independence movements in its wake. By the time the Famine was over, it had changed the face of not just Ireland but also Great Britain, and it had even made its effects felt across the Atlantic in the still young United States of America. The Great Famine: The History of the Irish Potato Famine during the Mid-19th Century looks at the history of the notorious famine and its results. Along with pictures and a bibliography, you will learn about the Irish Potato Famine like never before, in no time at all.

Famine

*Includes pictures *Includes accounts of the Famine written by survivors and newspapers *Includes a bibliography for further reading "I have called it an artificial famine: that is to say, it was a famine which desolated a rich and fertile island that produced every year abundance and superabundance to sustain all her people and many more. The English, indeed, call the famine a 'dispensation of Providence;' and ascribe it entirely to the blight on potatoes. But potatoes failed in like manner all over Europe; yet there was no famine save in Ireland." - John Mitchel, Young Ireland Movement Anyone who has ever heard of "the luck of the Irish" knows that it is not something to wish on someone, for few people in the British Isles have ever suffered as the Irish have. As one commissioner looking into the situation in Ireland wrote in February 1845, "It would be impossible adequately to describe the privations which they habitually and silently endure...in many districts their only food is the potato, their only beverage water...their cabins are seldom a protection against the weather...a bed or a blanket is a rare luxury...and nearly in all their pig and a manure heap constitute their only property." Although the Famine obviously weakened Ireland and its people, it also stiffened Irish resolve and helped propel

independence movements in its wake. By the time the Famine was over, it had changed the face of not just Ireland but also Great Britain, and it had even made its effects felt across the Atlantic in the still young United States of America. The Irish Potato Famine looks at the history of the Great Famine and what it produced. Along with pictures and a bibliography, you will learn about the Irish Potato Famine like never before, in no time at all.

Famine Echoes – Folk Memories of the Great Irish Famine

The award-winning author pens a fascinating account of the potato blight that struck in Ireland, telling the story of the men, women, and children who made every attempt to survive and hang on to hope.

The Irish Famine

"Provides comprehensive information on the history leading up to the Irish potato famine, presents accounts of narrow escapes, and discusses the legacy of the event"--Provided by publisher.

The Irish Crisis

The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland – socially, politically, demographically and culturally. In the space of only four years, Ireland lost twenty-five per cent of its population as a consequence of starvation, disease and large-scale emigration. Certain aspects of the Famine remain contested and controversial, for example the issue of the British government's culpability, proselytism, and the reception of emigrants. However, recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis, both before 1845 and after 1852. This first volume addresses the questions: when did the famine begin and end; to what extent is the British government after 1846 culpable for the suffering and mortality; how important was philanthropy in alleviating the distress; what was the role and responsibility of Irish elites; is the word famine appropriate given that Ireland continued to export large amounts of food.

The Great Famine

The Great Irish Famine of 1845-51 was both one of the most lethal famines in modern history and a watershed in the development of modern Ireland. This book - based on a wide range of little-used sources - demonstrates how the Famine profoundly affected many aspects of Irish life: the relationship between the churches; the nationalist movement; and the relationship with the monarchy. In addition to looking at the role of the government, Kinealy shows the importance of private charity in saving lives. One of the most challenging aspects of the publication is the chapter on food supply, in which Kinealy concludes that, despite the potato blight, Ireland was still producing enough food to feed its people. The long-term impact of the tragedy, notably the way in which it has been remembered and commemorated, is also examined.

The Irish Potato Famine

Here Ireland's premier economic historian and one of the leading authorities on the Great Irish Famine examines the most lethal natural disaster to strike Europe in the nineteenth century. Between the mid-eighteenth and early-nineteenth centuries, the food source that we still call the Irish potato had allowed the fastest population growth in the whole of Western Europe. As vividly described in Ó Gráda's new work, the advent of the blight *phytophthora infestans* transformed the potato from an emblem of utility to a symbol of death by starvation. The Irish famine peaked in Black '47, but it brought misery and increased mortality to Ireland for several years. Central to Irish and British history, European demography, the world history of famines, and the story of American immigration, the Great Irish Famine is presented here from a variety of new perspectives. Moving away from the traditional narrative historical approach to the catastrophe, Ó Gráda concentrates instead on fresh insights available through interdisciplinary and comparative methods. He highlights several economic and sociological features of the famine previously neglected in the literature, such as the part played by traders and markets, by medical science, and by migration. Other topics include how the Irish climate, usually hospitable to the potato, exacerbated the failure of the crops in 1845-1847, and the controversial issue of Britain's failure to provide adequate relief to the dying Irish. Ó Gráda also examines the impact on urban Dublin of what was mainly a rural disaster and offers a critical analysis of the famine as represented in folk memory and tradition. The broad scope of this book is matched by its remarkable

range of sources, published and archival. The book will be the starting point for all future research into the Irish famine.

Black Potatoes

When the great Irish famine of the years 1845-49 finally ceased it had taken a toll of the Irish nation from which it has never fully recovered. More than 1.2 million people died as a result of hunger or disease. In six years, from 1846-1851, more than 1.8 million left the country. Those who were left in a stricken motherland were sunk in misery and despair. With the decimation and emigration of its users, the Irish language suffered a mortal blow. The nation seemed doomed to extinction. This definitive work is a vivid record of this catastrophe that almost wiped out the Irish nation. It also provides a history of previous famines in Ireland and gives a fascinating account of the arrival of the potato in Europe and its introduction to Ireland. Also discussed is the onslaught of the blight and the puny efforts by the London government to counter its effects.-- Publisher description

The Irish Famine

The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland - socially, politically, demographically and culturally. In the space of only four years, Ireland lost twenty-five per cent of its population as a consequence of starvation, disease and large-scale emigration. Certain aspects of the Famine remain contested and controversial, for example the issue of the British government's culpability, proselytism, and the reception of emigrants. However, recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis, both before 1845 and after 1852. The narratives of those who perished, those who survived and those who emigrated form an integral part of this history and these volumes will make available, for the first time, some of the original documentation relating to an event that changed not only Irish history, but the history of the countries to which the emigrants fled - Britain, the United States, Canada and Australia. By bringing together letters, government reports, diaries, official documents, pamphlets, newspaper articles, sermons, eye-witness testimonies, poems and novels, these volumes will provide a fresh way of understanding Irish history in general, and famine and migration in particular. Comprehensive editorial apparatus and annotation of the original texts are included along with bibliographies, appendices, chronologies and indexes that point the way for further study.

The Irish Potato Famine

The History of the Irish Famine

Famine Ghost: Englands Genocide of the Irish,/i> Famine Ghost is a book of historical fiction, the story of the Irish Famine (1845-1850) as seen through the eyes of young Johnjoe Kevane. He and his family are evicted from their cottage in Dingle. Disdaining the option of life in the local workhouse, the Kevanes sail in a coffin ship to Grosse Ile in Canada. Johnjoe keeps a diary of his familys suffering in the dark bowels of the overcrowded ship. When his parents die of ship fevertyphusJohnjoe returns home to exact revenge on the landlord, Major Mahon. OKeefe has delicately balanced history with touching humanity and humor. He has provided readers with a vivid tale, surprising in all the right ways, and an unabashed glimpse into the shocking truth of the Irish Famine. A masterful read cover to cover. --Sara Wolski, literary agent Famine Ghost captures the realities of the 1845-1850 Great Irish Famine and is filled with valuable research on the tragedy. An imaginative and thoughtful author, OKeefe has a real gift for the dialog and pace of language of 19th century Ireland. His vivid portrayal and historical perspective bring the hardships of Irelands troubles to our awareness in the 21st century, like no other book. --Helen Gallagher, Computer Clarity, www.cclarity.com

A Death-Dealing Famine

In the fall of 1845, a mysterious blight ravaged Ireland's potato harvest, beginning a prolonged period of starvation, suffering, and emigration that reduced the Irish population by as much as twenty-five per cent in a mere six years. The Famine profoundly impacted Ireland's social and political history and altered its relationships with the United Kingdom and the rest of the world. This document collection provides a broad selection of historical perspectives depicting the causes, the course, and the impact of the Famine. Letters, speeches, newspaper articles, and other works are collected within, carefully described and annotated for the reader. A substantial introduction, a chronology of events, and a useful glossary are also included to aid in the interpretation of the primary texts.

The Irish Potato Famine

Discusses the 19th century Irish potato famine, including the causes and the effects on the people.

The Irish Famine

In the mid-1840s, potato blight ruined the crops of impoverished farmers across Ireland. Many families went hungry without their main source of food. Disease struck down people weakened by starvation as the government struggled to address the problem. Would the country ever recover? To understand the impact of a disaster, you must understand its causes. How did the system of landlords and tenants contribute to the disaster? How did British views of the Irish keep leaders from providing suitable aid? Investigate the disaster from a cause-and-effect perspective and find out!

The Great Famine

This book introduces readers to the Irish potato famine, a period when many Irish people were forced to make a decision: leave their homeland or starve. Readers will learn about the injustices the Irish faced in Ireland, as well as the challenges they faced when they reached the United States. The book also explains the success the Irish found after much hard work, and the legacy they left in America. Primary sources and vivid photographs illustrate captivating text to give readers a deep understanding of the subject. This book is an excellent supplement to social studies curricula and will provide a dynamic reading experience.
