Keep your friends close and your enemies closer

If the enemy leaves a door open, you must rush in

Build your defenses before you need them

The skillful leader subdues the enemy's troops without any fighting

To win 100 victories in 100 battles is not the acme of skill. To subdue the enemy without fighting is the acme of skill

When you surround an army, leave an outlet free

The general who wins the battle makes many calculations in his temple before the battle is fought

In the midst of chaos, there is also opportunity

Even the finest sword plunged into salt water will eventually rust
Rewards for good service should not be deferred a single day
If you wait by the river long enough, the bodies of your enemies will float by
Supreme excellence consists of breaking the enemy's resistance without fighting
The clever combatant imposes his will on the enemy but does not allow the enemy's will to be imposed on him
