Indigenous Peoples of the British Dominions and the First World War

The first comprehensive examination and comparison of the indigenous peoples of the five British dominions during the First World War.

Indigenous Peoples of the British Dominions and the First World War

The first comprehensive examination and comparison of the indigenous peoples of the five British dominions during the First World War.

Indigenous Peoples of the British Dominions and the First World War

The first comprehensive examination and comparison of the indigenous peoples of the five British dominions during the First World War.

For King and Kanata

"The first comprehensive history of the Aboriginal First World War experience on the battlefield and the home front. When the call to arms was heard at the outbreak of the First World War, Canada's First Nations pledged their men and money to the Crown to honour their long-standing tradition of forming military alliances with Europeans during times of war, and as a means of resisting cultural assimilation and attaining equality through shared service and sacrifice. Initially, the Canadian government rejected

these offers based on the belief that status Indians were unsuited to modern, civilized warfare. But in 1915, Britain intervened and demanded Canada actively recruit Indian soldiers to meet the incessant need for manpower. Thus began the complicated relationships between the Imperial Colonial and War Offices, the Department of Indian Affairs, and the Ministry of Militia that would affect every aspect of the war experience for Canada's Aboriginal soldiers. In his groundbreaking new book, *For King and Kanata*, Timothy C. Winegard reveals how national and international forces directly influenced the more than 4,000 status Indians who voluntarily served in the Canadian Expeditionary Force between 1914 and 1919--a per capita percentage equal to that of Euro-Canadians--and how subsequent administrative policies profoundly affected their experiences at home, on the battlefield, and as returning veterans."--Publisher's website.

Fighting with the Empire

Canadians often characterize their military history as a march toward nationhood, but in the first eighty years of Confederation they were fighting for the British Empire. War forced Canadians to re-examine their relationship to Britain and to one another. As French Canadians, Indigenous peoples, and those with roots in continental Europe and beyond mobilized for war, their participation challenged the imagined homogeneity of Canada as a British nation. *Fighting with the Empire* examines the paradox of a national contribution to an imperial war effort, finding middle ground between affirming the emergence of a nation through warfare and equating Canadian nationalism with British imperialism.

Indigenous Peoples and the Second World War

A transnational history of how Indigenous peoples mobilised en masse to support the war effort on the battlefields and the home fronts.

Australians and the First World War

This book contributes to the global turn in First World War studies by exploring Australians' engagements with the conflict across varied boundaries and by situating Australian voices and perspectives within broader, more complex contexts. This diverse and multifaceted collection includes chapters on the composition and contribution of the Australian Imperial Force, the experiences of prisoners of war, nurses and Red Cross workers, the resonances of overseas events for Australians at home, and the cultural legacies of the war through remembrance and representation. The local-global framework provides a fresh lens through which to view Australian connections with the Great War, demonstrating that there is still much to be said about this cataclysmic event in modern history.

All the King's Men

This comparative study focuses on the ways in which the British settler colonies of Australia, Canada, New Zealand and South Africa treated indigenous peoples in relation to political rights, encompassing the imperial policies of the 1830s and the national political settlements in place by 1910.

Equal Subjects, Unequal Rights

In the summer of 1914 Germany's Pacific colonies were a quiet backwater of its empire. But the shots of Sarajevo shattered the Pacific as well as Europe. Within weeks of the outbreak of World War I Western Samoa - German territory to be taken in the war - New Guinea, and the Micronesian lands, were occupied by Australian, New Zealand, and Japanese forces. Current historiography claims that World War I made little difference to the indigenous populations of the Pacific and that this change in colonial masters had little effect on those they ruled. *The Neglected War* challenges this interpretation. World War I and its aftermath, Hermann Hiery claims, had a tremendous effect on the Pacific Islands. Hiery details the policies pursued by Australia, New Zealand, and Japan, showing how each viewed and treated the indigenous populations. Administered by military officers with little civil oversight, the new colonial regimes employed the mandates they had received at the Paris Peace Conference with impunity. Hiery's scrupulous review of the evidence, gathered from largely unknown primary sources, has uncovered a story of masquerades and coverups, negligence and duplicity, leading in some cases to full blown atrocities. Most of all, he tells the story of Pacific Islanders, how they coped with the dramatic changes brought about by the war, and how they tried to influence its consequences. Many Islanders were fully aware that their political destiny was to be redefined after the war, and a few even saw it as an opportunity to achieve independence. This is also the story of their failure. Behind the

evidence gathered here lie fundamental questions. How important are the differences in the nature of particular colonial regimes, and what effect do such differences have on indigenous peoples? How do indigenous peoples interpret disparities in colonial rule? This revisionist work addresses these issues while shedding light on a crucial time in the history of the Pacific.

The Neglected War

The British Empire played a crucial part in the First World War, supplying hundreds of thousands of soldiers and labourers as well as a range of essential resources, from foodstuffs to minerals, mules, and munitions. In turn, many imperial territories were deeply affected by wartime phenomena, such as inflation, food shortages, combat, and the presence of large numbers of foreign troops. This collection offers a comprehensive selection of essays illuminating the extent of the Empire's war contribution and experience, and the richness of scholarly research on the subject. Whether supporting British military operations, aiding the British imperial economy, or experiencing significant wartime effects on the home fronts of the Empire, the war had a profound impact on the colonies and their people. The chapters in this volume were originally published in *Australian Historical Studies*, *The Journal of Imperial and Commonwealth History*, *First World War Studies* or *The Round Table: The Commonwealth Journal of International Affairs*.

The British Empire and the First World War

In 1914 almost one quarter of the earth's surface was British. When the empire and its allies went to war in 1914 against the Central Powers, history's first global conflict was inevitable. It is the social and cultural reactions to that war and within those distant, often overlooked, societies which is the focus of this volume. From Singapore to Australia, Cyprus to Ireland, India to Iraq and around the rest of the British imperial world, further complexities and interlocking themes are addressed, offering new perspectives on imperial and colonial history and theory, as well as art, music, photography, propaganda, education, pacifism, gender, class, race and diplomacy at the end of the pax Britannica.

The Great War and the British Empire

Table of contents

Equal Subjects, Unequal Rights

Endurance was an inherent part of the First World War. The chapters in this collection explore the concept in New Zealand and Australia. Researchers from a range of backgrounds and disciplines address what it meant for New Zealanders and Australians to endure the First World War, and how the war endured through the Twentieth Century. Soldiers and civilians alike endured hardship, discomfort, fears and anxieties during the war. Officials and organisations faced unprecedented demands on their time and resources, while Maori, Australian Aborigines, Anglo-Indian New Zealanders and children sought their own ways to contribute and be acknowledged. Family-members in Australia and New Zealand endured uncertainty about their loved ones' fates on distant shores. Once the war ended, different forms of endurance emerged as responses, memories, myths and memorials quickly took shape and influenced the ways in which New Zealanders and Australians understood the conflict. The collection is divided into the themes of Institutional Endurance, Home Front Endurance, Battlefield Endurance, Race and Endurance, and Memorials.

All the King's Men

A comprehensive new history of the shaping and performance of the British army during the First World War.

Endurance and the First World War

This is the first in-depth and comparative study of the experience of colonial encounters for troops from the British Empire during the First World War. Drawing on a rich variety of textual and visual material, Anna Maguire explores new contact zones that materialised beyond the battlefield, on troopships, in ports, in military camps and hospitals, in cafes and city streets. She reveals how the colonial mobilisation of troops during the conflict prompted the emergence of spaces for interactions, fleeting moments or ongoing relationships. Through their personal experiences, she uncovers how men from New Zealand, South Africa and the West Indies viewed themselves and their identities during a time

of global conflict, simultaneously asserting the strength of the existing colonial order and challenging its enactment, through contact, conflict and collaboration. In spaces away from the frontlines, Maguire uses these cultural encounters of colonial troops to offer a more intricate understanding of imperial power relations.

The British Army and the First World War

This book explores how ideas of protection were applied to Indigenous peoples of Britain's antipodean colonies. Focusing on historical actors who were intermediaries of protection practices on the ground, it considers the critical role of protection policy in the making of colonial relations.

Contact Zones of the First World War

During the First World War, Britain was the epicentre of global mass internment and deportation operations. Germans, Austro-Hungarians, Turks, and Bulgarians who had settled in Britain and its overseas territories were deemed to be a potential danger to the realm through their ties with the Central Powers and were classified as 'enemy aliens'. A complex set of wartime legislation imposed limitations on their freedom of movement, expression, and property possession. Approximately 50,000 men and some women experienced the most drastic step of enemy alien control, namely internment behind barbed wire, in many cases for the whole duration of the war and thousands of miles away from the place of arrest. *Enemies in the Empire* is the first study to analyse British internment operations against civilian 'enemies' during the First World War from an imperial perspective. The narrative takes a three-pronged approach. In addition to a global examination, the volume demonstrates how internment operated on a (proto-) national scale within the three selected case studies of the metropole (Britain), a white dominion (South Africa), and a colony under direct rule (India). Stefan Manz and Panikos Panayi then bring their study to the local level by concentrating on the three camps Knockaloe (Britain), Fort Napier (South Africa), and Ahmednagar (India), allowing for detailed analyses of personal experiences. Although conditions were generally humane, in some cases, suffering occurred. The study argues that the British Empire played a key role in developing civilian internment as a central element of warfare and national security on a global scale.

Aboriginal Protection and Its Intermediaries in Britain's Antipodean Colonies

This introductory history of the Scottish diaspora (c.1700 to 1945) explores migration, Scots' experiences where they landed and the reverse impact of this migration on Scotland. It examines the geographies of the diaspora and key theories, concepts and t

Enemies in the Empire

During the first half of the twentieth century, European countries witnessed the arrival of hundreds of thousands of colonial soldiers fighting in European territory (First and Second World War and Spanish Civil War) and coming into contact with European society and culture. For many Europeans, these were the first instances in which they met Asians or Africans, and the presence of Indian, Indo-Chinese, Moluccan, Senegalese, Moroccan or Algerian soldiers in Europe did not go unnoticed. This book explores this experience as it relates to the returning soldiers - who often had difficulties re-adapting to their subordinate status at home - and on European authorities who for the first time had to accommodate large numbers of foreigners in their own territories, which in some ways would help shape later immigration policies.

Scottish Diaspora

The little-known story of how army veterans returning to reservation life after World War I transformed Native American identity. Drawing from archival sources and oral histories, Thomas Grillot demonstrates how the relationship between Native American tribes and the United States was reinvented in the years following World War I. During that conflict, twelve thousand Native American soldiers served in the U.S. Army. They returned home to their reservations with newfound patriotism, leveraging their veteran cachet for political power and claiming all the benefits of citizenship—even supporting the termination policy that ended the U.S. government's recognition of tribal sovereignty.

Colonial Soldiers in Europe, 1914-1945

In this fresh and controversial account of Britain's end of empire, Grob-Fitzgibbon reveals that the British government developed a successful strategy of decolonization following the Second World War based on devolving power to indigenous peoples within the Commonwealth.

First Americans

World War II is often presented from a European perspective and the extent of the colonies contribution to the success of the Allies is little known. This book is one of the first of its kind to detail the massive commitment and impact made from people of colour during World War II from former British Empire territories and Commonwealth countries. Written for young people and to help develop research and interpretation skills in History, English and Citizenship (key stages 3-4), it includes authentic photographs, case studies and activities, which will make learning fun and enjoyable. Royalties from the sales of the book go to the Royal Commonwealth Ex-Services League (RCEL) who support veterans from the Commonwealth and former British Empire many of whom are World War II veterans

Imperial Endgame

Was the First World War really 'For King and Country'? This is the first full history of the monarchy's role.

Under One Flag

This book recasts the role of the Indian Army on the Western Front, questioning why its performance was traditionally deemed a failure.

For King and Country

Recasts the role of the Indian Army on the Western Front, questioning why its performance was traditionally deemed a failure.

The Indian Army on the Western Front

Aboriginal and Torres Strait Islander people have been protecting country since time immemorial. One way they have continued these traditions in recent times is through service in the Australian military, both overseas and within Australia. In Defence of Country presents a selection of life stories of Aboriginal and Torres Strait Islander ex-servicemen and women who served in the Australian Army, Navy and Air Force after World War Two. In their own words, participants discuss a range of issues including why they joined up; racial discrimination; the Stolen Generations; leadership; discipline; family; war and peace; education and skills development; community advocacy; and their hopes for the future of Indigenous Australia. Individually and collectively, the life stories in this book highlight the many contributions that Aboriginal and Torres Strait Islander servicemen and women have made, and continue to make, in defence of country.

The Indian Army on the Western Front South Asia Edition

There is no single volume that shines a light on Asia's collective involvement in the First World War, and the impact that war had on its societies. Moreover, no volume in any language explores the experiences Asian countries shared as they became embroiled, with divergent results, in the war and its repercussions. Asia and the Great War moves beyond the national or even international level by presenting a 'shared' history from non-national and transnational perspectives. Asian involvements make the Great War not only a true 'world' war but also a 'great' war. The war generated forces that would transform Asia both internally and externally. Asian involvement in the First World War is a unique chapter in both Asian and world history, with Asian participation transforming the meaning and implications of the broader conflict. Asia and the Great War also takes steps to recover memories of the war and re-evaluate the war in its Asian contexts. Asia's part in the war and the part the war played in the collective development of Asia represent the first steps of the long journey to full national independence and international recognition. This volume aims to bring the Great War more fully into Asian history and the people of Asia into the international history of the war, in the hope that the shared history could lay the groundwork for a shared future.

In Defence of Country

Indigeneity is inseparable from empire, and the way empire responds to the Indigenous presence is a key historical factor in shaping the flow of imperial history. This book is about the consequences of the encounter in the early nineteenth century between the British imperial presence and the First Peoples of what were to become Australia and New Zealand. However, the shape of social relations between Indigenous peoples and the forces of empire does not remain constant over time. The book tracks how the creation of empire in this part of the world possessed long-lasting legacies both for the settler colonies that emerged and for the wider history of British imperial culture.

Asia and the Great War

Imaginatively conceived and compellingly told, *War under Heaven* redefines our understanding of Anglo-Indian relations in the colonial period."--BOOK JACKET.

Empire and Indigeneity

In *The Last Treaty*, Michelle Tusan profoundly reshapes the story of how the First World War ended in the Middle East. Tracing Europe's war with the Ottoman Empire through to the signing of Lausanne, which finally ended the war in 1923, she places the decisive Allied victory over Germany in 1918 in sharp relief against the unrelenting war in the East and reassesses the military operations, humanitarian activities and diplomatic dealings that continued after the signing of Versailles in 1919. She shows how, on the Middle Eastern Front, Britain and France directed Allied war strategy against a resurgent Ottoman Empire to sustain an imperial system that favored Europe's dominance within the nascent international system. The protracted nature of the conflict and ongoing humanitarian crisis proved devastating for the civilian populations caught in its wake and increasingly questioned old certainties about a European-led imperial order and humanitarian intervention. Its consequences would transform the postwar world.

War Under Heaven

As the British empire expanded throughout the world, the English language played an important role in power relations between Britain and its colonies. English was used as a colonizing agent to suppress the indigenous cultures of various peoples and to make them subject to British rule. With the end of World War II, many countries became gradually decolonized, and their indigenous cultures experienced a renaissance. Colonial mores and power systems clashed and combined with indigenous traditions to create postcolonial texts. This volume treats postcoloniality as a process of cultural and linguistic interplay, in which British culture initially suppressed indigenous cultures and later combined with them after the decline of the British empire. The first section of this book provides an introductory overview of English postcoloniality. This section is followed by chapters discussing postcoloniality and literature from an historical perspective in particular countries around the world. The third section gives special attention to the literature and culture of indigenous peoples. A selected bibliography concludes the work.

The Last Treaty

This book explores the Kuki uprising against the British Empire during the First World War in the northeast frontier of India (then the Assam–Burma frontier). It sheds light on how the three-year war (1917–1919), spanning over 6,000 square miles, is crucial to understanding present-day Northeast India. Companion to the seminal *The Anglo-Kuki War, 1917–1919*, the chapters in this volume:

- Examine several aspects of the Anglo-Kuki War, which had far-reaching consequences for the indigenous Kuki population, including economy, politics, identity, indigenous culture and belief systems, and traditional institutions during and after the First World War itself;
- Highlight finer themes such as the role of the chiefs and war councils, symbols of communication, indigenous interpretation of the war, remembrance, and other policies which continued to confront the Kuki communities;
- Interrogate themes of colonial geopolitics, colonialism and the missionaries, state making, and the frontier dimensions of the First World War. Moving away from colonial ethnographies, the volume taps on a variety of sources – from civilisational discourse to indigenous readings of the war, from tour diaries to oral accounts – meshing together the primitive with the modern, the tribal and the settled.

This book will be of great interest to scholars and researchers of South and Southeast Asian Studies, area studies, modern history, military and strategic studies, insurgency and counterinsurgency studies, tribal warfare, and politics.

English Postcoloniality

This book relays the largely untold story of the approximately 1,100 Australian war graves workers whose job it was to locate, identify exhumed and reburied the thousands of Australian soldiers who died in Europe during the First World War. It tells the story of the men of the Australian Graves Detachment and the Australian Graves Service who worked in the period 1919 to 1922 to ensure that grieving families in Australia had a physical grave which they could mourn the loss of their loved ones. By presenting biographical vignettes of eight men who undertook this work, the book examines the mechanics of the commemoration of the Great War and extends our understanding of the individual toll this onerous task took on the workers themselves.

Against the Empire

As the hundredth anniversary approaches, it is timely to reflect not only upon the Great War itself and on the memorials which were erected to ensure it did not slip from national consciousness, but also to reflect upon its rich and substantial cultural legacy. This book examines the heritage of the Great War in contemporary Britain. It addresses how the war maintains a place and value within British society through the usage of phrases, references, metaphors and imagery within popular, media, heritage and political discourse. Whilst the representation of the war within historiography, literature, art, television and film has been examined by scholars seeking to understand the origins of the 'popular memory' of the conflict, these analyses have neglected how and why wider popular debate draws upon a war fought nearly a century ago to express ideas about identity, place and politics. By examining the history, usage and meanings of references to the Great War within local and national newspapers, historical societies, political publications and manifestos, the heritage sector, popular expressions, blogs and internet chat rooms, an analysis of the discourses which structure the remembrance of the war can be created. The book acknowledges the diversity within Britain as different regional and national identities draw upon the war as a means of expression. Whilst utilising the substantial field of heritage studies, this book puts forward a new methodology for assessing cultural heritage and creates an original perspective on the place of the Great War across contemporary British society.

Australian War Graves Workers and World War One

During the Second World War, Indigenous people in the United States, Australia, New Zealand and Canada mobilised en masse to support the war effort, despite withstanding centuries of colonialism. Their roles ranged from ordinary soldiers fighting on distant shores, to soldiers capturing Japanese prisoners on their own territory, to women working in munitions plants on the home front. R. Scott Sheffield and Noah Riseman examine Indigenous experiences of the Second World War across these four settler societies. Informed by theories of settler colonialism, martial race theory and military sociology, they show how Indigenous people and their communities both shaped and were shaped by the Second World War. Particular attention is paid to the policies in place before, during and after the war, highlighting the ways that Indigenous people negotiated their own roles within the war effort at home and abroad.

Cultural Heritage of the Great War in Britain

Drawing upon fresh archival material this book recovers the experience of different ethnic groups during the First World War conflict.

Indigenous Peoples and the Second World War

Offers an overview of the role played by Black British soldiers in the First World War.

Race, Empire and First World War Writing

This book provides a new approach to the historical treatment of indigenous peoples' sovereignty and property rights in Australia and New Zealand. By shifting attention from the original European claims of possession to a comparison of the ways in which British players treated these matters later, Bain Attwood not only reveals some startling similarities between the Australian and New Zealand cases but revises the long-held explanations of the differences. He argues that the treatment of the sovereignty and property rights of First Nations was seldom determined by the workings of moral principle, legal doctrine, political thought or government policy. Instead, it was the highly particular historical circumstances in which the first encounters between natives and Europeans occurred and colonisation began that largely dictated whether treaties of cession were negotiated, just as a bitter

political struggle determined the significance of the Treaty of Waitangi and ensured that native title was made in New Zealand.

Ever Since Eve

From time immemorial, younger women have been asking older women, "What is it like to have a baby?" Here at last is a book that brings together the reactions of a wide array of women--some rich, some poor, some famous, some not-so-famous--to the experience of childbirth. Ranging from Sophia Loren to Queen Victoria, from Colette to Elzire Dionne, it explains in human terms as no clinical description can what the experience of having a baby is really like. A universal process that is unique in each instance, birth is inherently dramatic and changes even people who never expected to be deeply affected. Indeed, some of the most revealing pieces in *Ever Since Eve* are the testimony of men about fatherhood, men as diverse as Napoleon and W.C. Fields. A fascinating collection of vignettes, *Ever Since Eve* examines childbirth in different parts of the globe, offers some intriguing footnotes to history, and presents a view of public figures in their most private moments. Compelling reading for every pregnant woman, this book will be a treasured keepsake for anyone who has ever had--or would like to have--a baby.

Ever Since Eve (The Keeping Secrets Series, Book 1)

Eve Triopolous is unemployed with a disabled father to support. When she spots an ad for a surrogate mother, she impulsively responds. But it's the longing on the faces of Derek and Kelly Lang that puts her signature on the bottom line. Then tragedy strikes, leaving Derek a widower and Eve with a task she didn't expect: prove that she is the best mommy for the precious life growing beneath her heart, and convince Derek that he's the love of her life. **REVIEWS:** "...[a] committed writer of romantic fiction who isn't afraid to tackle difficult issues." ~Romantic Times **THE KEEPING SECRETS SERIES**, in order *Ever Since Eve* **Through Eyes of Love** **Sunshine and Shadows** **Touch the Stars** **THE BEACH BACHELORS SERIES**, in order *The Beach Bachelors* **Boxset** (*Sea of Gold*, *Touch of Gold*, + *Sands of Gold*) **Interior Designs** *Cherished Beginnings*

Ever Since Eve

This collection of essays composed by an international array of friends and colleagues typifies the career accomplishments and scholarly endeavors of W. G. Lambert.

Ever Since Eve

Heartfelt Treasures, Dorothy Hall-Ramey's first book, is heralded for its spiritualness, simplicity, warmth and colorful wording. It is a book of 101 poems written from the author's hometown of Homer, Louisiana. This book tells the author's life story as one of eight children struggling for a better life. It also tells of Dorothy's romantic, spiritual and heartfelt side. This collection of poems is projected toward today's families. This book will enrich your life in so many ways. Through Dorothy's prayers, proverbs and Psalms, she expresses in the purest forms how we should address the Lord and praise Him for His many blessings. Her wisdom through her poems teaches us not only to love our fellow man, but also to show that love through works and good deeds. Through her love and dedication for the children, she acknowledges concern that they are properly taught about the Lord, as well as their scholastic teachings. She also addresses the importance of love and romance in today's relationships. She recognizes true friendship and devotion. Above all she displays a strong sense of love for God and His amazing creations.

Ever Since Eve

The roots of community theater can be traced back to before the Revolutionary War. In the years that followed, many towns throughout America were fortunate to have both professional and amateur acting companies. The evolution of the moving picture forced many of these professional theaters to close their doors, but theater lovers in small communities still wanted the real thing, live theater.

Today there are numerous community theater groups around the Boston area, including the oldest continuing community theater group in the country, the Footlight Club, which was founded in 1877. In the spirit of community, many theater companies donate to charities and sponsor playwriting contests and scholarship programs. They all share a common goal: bring live theater to suburban communities. Greater Boston Community Theater presents rare photographs from more than a dozen community theaters to document and celebrate the rich tapestry of theater life.

Wisdom, Gods and Literature

"For many decades, Marion Davies's story has been a source of fascination to the public. From her humble days in Brooklyn to her rise to fame alongside press baron William Randolph Hearst, her story seems like a modern fairy tale. Gossip columnists and fan magazines have tried to capture her unique story for over one hundred years, and biopics and documentaries have tried to incorporate her story into countless screenplays. Amid the interest, the real Marion Davies has been largely hidden. Due to her wariness of strangers and the press, she shied away from interviews and trusted very few with the details of her own unusual life story. *Captain of Her Soul: The Life of Marion Davies* lifts that veil to explore the life of this remarkable woman in detail. Through meticulous archival research, letters, notes, tapes, and interviews with family and friends, a woman emerges of enormous strength and resolve. Faced with many challenges in her life, Davies weathered the storms with her head held high. She was a woman who remained in control of her own destiny, and who aptly referred to herself as 'captain of my soul.'"

Ever Since Eve

Film Composers in America is a landmark in the history of film. Here, renowned film scholar Clifford McCarty has attempted to identify every known composer who wrote background musical scores for films in the United States between 1911 and 1970. With information on roughly 20,000 films, the book is an essential tool for serious students of film and a treasure trove for film fans. It spans all types of American films, from features, shorts, cartoons, and documentaries to nontheatrical works, avant-garde films, and even trailers. Meticulously researched over 45 years, the book documents the work of more than 1,500 composers, from Robert Abramson to Josiah Zuro, including the first to score an American film, Walter C. Simon. It includes not only Hollywood professionals but also many composers of concert music--as well as popular music and other genres--whose cinematic work has never before been fully catalogued. The book also features an index that lets readers quickly find the composer for any American film through 1970. To recover this history, much of which was lost or never recorded, McCarty corresponded with or interviewed hundreds of composers, arrangers, orchestrators, musical directors, and music librarians. He also conducted extensive research in the archives of the seven largest film studios--Columbia, MGM, Paramount, RKO, 20th Century-Fox, Universal, and Warner Bros.--and wherever possible, he based his findings on the most reliable evidence, that of the manuscript scores and cue sheets (as opposed to less accurate screen credits). The result is the definitive guide to the composers and musical scores for the first 60 years of American film.

Catalog of Copyright Entries

Provides historical background from Christian, Jewish, and Muslim perspectives to show the relevance and prominence of Adam and Eve's story in life today, where we are inundated with references to the Garden of Eden in popular culture from an early age.

Greater Boston Community Theater

This book lifts up women of the Hebrew Bible who, working with the Divine, play amazing roles in the stories of Israel—prophet, judge, worship leader, warrior, scholar, scribe. They helped people celebrate the Divine's triumph over oppression. They spoke boldly to those in power. They went into battle to secure their people's safety. They gave wise judgments in important legal matters. They authenticated sacred texts and inspired a reform to help Israel return to the way of Torah. In roles that were not tied to their wombs or fertility, these women made Israel's story possible and helped it to continue to future generations.

Captain of Her Soul

Statistics on the American family are sobering. From 1975 to 2000, one-third of all children were born to single mothers, and one-half of all marriages ended in divorce. While children from broken homes are two to three times more likely to develop behavioral and learning difficulties, two-parent families are not immune to problems. The cost of raising children has increased dramatically, and married couples with children are now twice as likely as childless couples to file for bankruptcy. Clearly, the American family is in trouble. But how this trouble started, and what should be done about it, remain hotly contested. In a multifaceted analysis of the current state of a complex institution, *Family Transformed* brings together outstanding scholars from the fields of anthropology, demography, ethics, history, law, philosophy, primatology, psychology, sociology, and theology. Demonstrating that the family is both distinctive in its own right and deeply interwoven with other institutions, the authors examine the roles of education, work, leisure, consumption, legal regulation, public administration, and biology in shaping the ways we court and marry, bear and raise children, and make and break family bonds. International in approach, this wide-ranging volume situates current American debates over sex, marriage, and family within a global framework. Weighing mounting social science evidence that supports a continued need for the nuclear family while assessing the challenges posed by new advocacy for same-sex marriage, and delegitimized coupling, the authors argue that only by reintegrating the family into a just moral order of the larger community and society can we genuinely strengthen it. This means not simply upholding traditional family values but truly grasping the family's growing diversity, sustaining its coherence, and protecting its fragility for our own sake and for the common good of society.

Film Composers in America

A lively and entertaining account of the broad panorama of human sexual behaviour which reveals our actions to be an inextricable mixture of nature and nurture - a combination of innate actions evolved over the millennia, overlain by more recent cultural constraints imposed by civilization.

Approaching Eden

Alone in the world except for her special-needs toddler, Sage McKenna is the go-to handyman in her small town. Even her smile has been known to mend a broken heart or two. Adam Hracek never wanted a permanent home until he arrives in Willoree and meets the town's handyman. If Sage can cobble together an extended family by repairing things and mending broken hearts, maybe she can heal him, too. But he'll be gone in a year, Sage won't allow herself or her daughter to grow close to Adam, and love has no respect for their plans to stay apart. **REVIEWS:** "A touching love story with unique characters wrapped in an unforgettable plot." ~Romantic Times **CIRCLES OF LOVE SERIES**, in order *Until Spring Kisses in the Rain* Morgan's Child Handyman Special Also by Pamela Browning... **THE BEACH BACHELORS SERIES**, in order *The Beach Bachelors Boxset* (Sea of Gold, Touch of Gold, and Sands of Gold) *Interior Designs Cherished Beginnings* **THE KEEPING SECRETS SERIES**, in order *Ever Since Eve* *Through Eyes of Love* *Sunshine and Shadows* *Touch the Stars*

Ever Since Eve

Eve's Longing: The Infinite Possibilities in All Things is a story of a modern fictional saint in the making. Deborah McKay's moving yet unsentimental novel explores alarming real-life resolutions to universal complexities and offers instead of answers the seductive and dangerous experience of its captivating central character.

More Than a Womb

This book is a concise statement of what economics is, what it is not, and how it may be applied to a variety of problems. It shows connections between economics and other social sciences and contains questions that give the reader a guide toward understanding the discipline.

Family Transformed

In the United States, against the background of secularization, the religious atmospheres have changed radically in the past 40 years. In 1965, President Lyndon Johnson signed the Immigration and Naturalization Act, which opened America's doors to immigrants from all over the world. As a result, approximately one million immigrants legally enter the United States each year and bring with them religious traditions such as Islam, Buddhism, and Hinduism. *Catholic Spirituality and Prayer in the Secular City* presents the role of religion and spirituality in a rapidly changing religious scenario. Author

Robert A. Burns explores ways Catholics have been called upon to develop their spiritual lives in the most religious pluralistic society that has ever existed. Burns acknowledges the struggle that many people face when seeking a deeper spirituality and do not know where or how to begin, and seeks to guide readers through the confusion and back to the meaning of spirituality. This book leads readers through the various approaches taken to achieving a deeper spiritual life by presenting and discussing the religious philosophies of spiritual leaders throughout history. Ultimately, *Catholic Spirituality and Prayer in the Secular City* provides readers with the ability to see themselves in a proper context by offering a new avenue for deeper spirituality.

Ever Since Adam and Eve

Man is driven to find the GOD he lost in the garden of Eden, and now you know the truth! Some men are so desperate that they look to cold dumb rocks for the majesty of creation, and that pursuit leads them to another creator, another god, and the greatest lie ever told: "evolution." Perhaps some people just didn't get the GOD gene or perhaps they got it, but the gene is just flawed. How else could evolution end up leading to the worship of strange gods? It is all just rocks, fake pictures, and the dirt shoveled out of the way trying to bury GOD with a lie. You can seek the popular opinion and ignore the GOD coursing through your veins, but it will be at your loss and truly sad. The fire will still be in your heart, but it will burn for a strange god and one that lies.

Handyman Special (Circles of Love Series, Book 4)

Eve was a seventeen-year-old student who arrived in Canada for the first time on December 25, 2007. She was new to the country and left to tackle her university studies alone in an unfamiliar environment. Eve's personality and character are highlighted throughout the book as we watch her navigate distinct interactions. She starts as an introvert who lives with a roommate almost three times her age, then blossoms into an extrovert as the years go by. Her adventures kick off when she heads to her first university class. There she meets a young lady called Samara—an encounter that shaped her life—and today, they still have a rapport. During her university days and early career as a young graduate, she lived with nine roommates before getting hitched and beginning life with her spouse in the same home. Life was not always rosy—the struggles were real, the battles were worth fighting. But in the end, love, joy, and peace reigned. Today she has blossomed into a knowledgeable young woman sharing her lessons across the globe.

Eve's Longing

A Vindication of the Redhead investigates red hair in literature, art, television, and film throughout Eastern and Western cultures. This study examines red hair as a signifier, perpetuated through stereotypes, myths, legends, and literary and visual representations. Brenda Ayres and Sarah E. Maier provide a history of attitudes held by hegemonic populations toward red-haired individuals, groups, and genders from antiquity to the present. Ayres and Maier explore such diverse topics as Judeo-Christian narratives of red hair, redheads in Pre-Raphaelite paintings, red hair and gender identity, famous literary redheads such as Anne of Green Gables and Pippi Longstocking, contemporary and Neo-Victorian representations of redheads from *The Black Widow* to *The Girl with the Dragon Tattoo*, and more. This book illuminates the symbolic significance and related ideologies of red hair constructed in mythic, religious, literary, and visual cultural discourse.

What is Economics?

The headline of the *Variety* extra on October 27, 1926, proclaimed "Vitaphone1 Thrills L.A.!" Vitaphone, a subsidiary of Warner Bros. formed in association with Western Electric, was one of the major producers of talkies, even though its sound-on-disc technology barely lasted four years. The Vitaphone features and shorts that have survived intact, or that have been so carefully restored, preserve much of the show business history that might otherwise have been lost with the industry's fast-paced advances in movie making. This book is a catalogue of Vitaphone features and shorts. The first section lists the features and shorts by release number. The New York productions (1926–1940) are listed first, followed by the West Coast productions (1927–1970). For shorts, the following particulars, if known and if applicable, are given: title, alternate title(s), instrumental and vocal selections performed on screen, composer(s) and performers of instrumental and vocal selections, release date and synopsis of the film, names of major cast members and directors, set information if two or fewer sets were used, and the amount paid to early performers. For features, entries list release dates, genre, and major cast

members. The section on performers includes only those who appeared in shorts, listing dates and places of birth when known.

How Shall the Rich Escape?

For decades, Screen World has been the film professional's, as well as the film buff's, favorite and indispensable annual screen resource, full of all the necessary statistics and facts. Now Screen World editor Barry Monush has compiled another comprehensive work for every film lover's library. In the first of two volumes, this book chronicles the careers of every significant film actor, from the earliest silent screen stars – Chaplin, Pickford, Fairbanks – to the mid-1960s, when the old studio and star systems came crashing down. Each listing includes: a brief biography, photos from the famed Screen World archives, with many rare shots; vital statistics; a comprehensive filmography; and an informed, entertaining assessment of each actor's contributions – good or bad! In addition to every major player, Monush includes the legions of unjustly neglected troupers of yesteryear. The result is a rarity: an invaluable reference tool that's as much fun to read as a scandal sheet. It pulsates with all the scandal, glamour, oddity and glory that was the lifeblood of its subjects. Contains over 1 000 photos!

Catholic Spirituality and Prayer in the Secular City

A new exploration of the complexities and resolutions at play in the writings of Marguerite de Navarre, offering insights into how her work reflected the turbulence, uncertainties, and assurances of her historical period. Marguerite de Navarre was a Renaissance princess, diplomat, and mystical poet. She is arguably best known for *The Heptameron*, an answer to Boccaccio's *Decameron*, a brilliant and open-ended collection of short stories told by a group of men and women stranded in a monastery. The stories explore love, desire, male and female honour, individual salvation, and the iniquity of Franciscan monks, while the discussions between the storytellers enact and embody the tensions, ideologies, and prejudices underlying the stories. Marguerite herself was deeply involved in the debates and conflicts of her time. Her work reflects the turbulence, uncertainties, and assurances of her historical period, as the Renaissance re-imagined the past and the Reformation re-made the church, and represents her original and sometimes provocative position on these questions. This book presents *The Heptameron* and its investigations into gender relations, the nature of love, and the nature of religious faith in the context of the intellectual, religious, and political questions of the sixteenth century, setting it alongside Marguerite's other writings: her poetry, plays, and diplomatic letters. In chapters on communities, religion, politics, gender relationships, desire, and literary technique, it explores the complexities and resolutions of Marguerite's writing and her world. It aims to offer a guide to the critical tradition on Marguerite's work along with new readings of her texts, revealing both the historical specificity of her writing and its continuing relevance.

Evolution

In 1929, Hollywood mogul William Fox (1879–1952) came close to controlling the entire motion picture industry. His Fox Film Corporation had grown from a \$1600 investment into a globe-spanning \$300 million empire; he also held patents to the new sound-on-film process. Forced into a series of bitter power struggles, Fox was ultimately toppled from his throne, and the studio bearing his name would merge in 1935 with Darryl F. Zanuck's flourishing 20th Century Pictures. The 25-year lifespan of the Fox Film Corporation, home of such personalities as Theda Bara, Tom Mix, Janet Gaynor and John Ford, is chronicled in this thorough illustrated history. Included are never-before-published financial figures revealing costs and grosses of Fox's biggest successes and failures, and a detailed filmography of the studio's 1100-plus releases, among them *What Price Glory?*, *Seventh Heaven* and the Oscar-winning *Cavalcade*.

The Roommate: Space sharing adventures: experiences to give insight to every student and adult!

As a feature film producer, Hearst was responsible for some of the most talked-about movies of the 1920s and the 1930s. Behind the scenes in Hollywood, Hearst had few equals - he was a much-feared power broker from the Silent Era to the Blacklisting Era."

A Vindication of the Redhead

The mainline Protestant churches played a vital role in the settlement of the West. Yet historians have, for the most part, bypassed this theme. This account recreates the unique religious and cultural mix that

sets this region apart from the rest of the nation. From itinerant circuit riders to powerful urban bishops, western clergy were continually involved in the maturation of their communities. Their duties on the frontier extended far beyond delivering Sunday sermons; they also served as librarians, counselors, social workers, educators, booksellers, peacekeepers, and general purveyors of culture. Weaving together the varied experiences of men and women from the five major Protestant denominations—Baptist, Methodist, Presbyterian, Congregational, and Episcopal—the author discusses their responses to life on the frontier: the violence, the tumultuous growth of the cities, the isolation of farm life, and the widespread hunger, especially among women, for refinement.

Vitaphone Films

During the Great Depression, economic, political, and social crises converge with a rapidly expanding movie industry to create a product that offers a unique history of the period. This text studies 1930s films as a unique and sometimes camouflaged record of the great crisis.

The Poetical Works of Robert Browning

Practicing midwife Maura McNeill requires an M.D. to be her hospital sponsor. Dr. Xan Copeland is willing, but far too sexy for Maura's taste, never mind the uncomfortable sparks already flying between them. Then Maura discovers Xan is her neighbor on Teoway Island in the South Carolina Lowcountry. Before long, Xan is talking of making love to her beside the sea, but consummating their growing passion will force Maura to reveal her carefully guarded secret.
