Introduction • Human beings learn and improve from experience • Reflection and introspection • A tool to understand learning from experience

Description • This step is all about describing the situation in detail and just understand what happened. • Questions to ask yourself in this step • What did you do?

Feeling • Understand what one felt before, during and after the situation • Questions to ask ourselves • What was the feeling after the situation?

Evaluation We start looking objectively at the situation Questions that can be used here: • What was negative about it? What did not go as well as expected?

Analysis • Understand why the experience was positive or negative

Conclusions • We draw conclusions on what happened. • Summarise the learning and highlight what changes could improve the outcome

Action Plan Specific plan of action based on your conclusions. • How you position yourself to do things

When it comes to preparing a delicate dish, timing is key. It was Therefore necessary to follow a recipe and understand how long meat should be cooked and at what temperature • The starter needed to be prepared just before the guests arrived so that It's still hot and fresh and not a couple of hours before the event. And there should have been additional supplies of ketchup

Conclusion • The evening was fun because of the personalities of the guests that were invited and the games and drinks provided • The focus therefore needs to be on making the evening more fun and for the food to not play spoilsport in any way. . With some proper preparation and reference, the food experience will be better and the evening will be more fun

Action Plan . The main dish that wasn't perfect needs to be perfected with the help of a simple recipe book A couple of practice run of food preparation will ensure that there is no panic or nerves on the day . Additional condiments need to be added to the shopping list so that there
