In this live ...

... Digital **Health**, Investments - A **Guide**, from The **Medical**, ...

Welcome to The Medical Futurist Live Q&A session

What does a Futurist do?

What are the best remote patient monitoring devices?

What trends could be emerging in medical education in 2021?

How would you weight the adoption of digital solutions in a certain country in measuring their business attractivity?

In the post-Covid world, do you think home health delivery will continue to grow? Are providers adopting telehealth applications in large numbers?

What is the method you use for identifying the top digital health investments?

How can we increase our lifespan by using A.I.?

What aspects of face-to-face interaction with doctors and patients cannot be replaced by digital health?

How does a smartwatch work in detecting arrhythmias? How sensitive is it?

Digital Health by the Numbers: Investment Trends in 2020

Where will the biggest "obstacles" to the broader adoption of Telehealth will come from? Patients, physicians, or admins/clinics?

What experience do you have with financial tools assessment to do some recommendations to the healthcare arena investors?

How will tech giants reshape the landscape of digital health? Will they directly compete with big pharma?

What do you see as the future of "empathetic medical A.I."? How do we make A.I. more empathetic?

What do you think about the new AI-symptoms applications such as Babylon and Ada?

What is the most surprising for you about digital health investments?

Would you let an A.I. algorithm triage patients with no human supervision?

What (future) trends do you see in health prevention and personalisation?

What has been the most successful example of a digital health solution that the industry can get inspired by and why?

What kind of new digital health technology are you expecting to see in the next 5-10 years?

Is Genome Engineering a new heaven for investors (ex. CRISPR)?

The Top 100 Digital Health Companies in 2020

Will the wider adoption of Telehealth pave the way to a massive roll-out of Remote Patient Management systems?

What's your view on investing in a healthcare software company?

Will the future of digital healthcare lead to more or less inequality in healthcare treatment?

Which companies are developing algorithms for digital health?

Who are the best health technology social impact investors we should know about?

Where do you see digital health technologies after the pandemic?

When do you think global data availability is realistic?

What is the most common reason you see that lead a digital health company failing?

How can we ensure quality measures are met with digital health?

Are there funds focused on digital health companies?

What medical specialty would you recommend for medical students?

When a company claims to use A.I. what questions would you want them to answer?

Investing in Digital **Health**, - The **Medical**, Futurist's ...
