Cowen carefully outlines fishing tactics, along with detailed photographs of the steps involved, covering: Retrieving a striper Fishing a point, uphill and downhill Working a topwater fly (constant retrieve) Hooking a fish (strip strike) Fishing a hump Fishing a saddle or blow-through Fishing a breakwater Using the countdown method Fishing a deep hole in a river Fishing a creek in a river And much more! Cowen also takes a close look at freshwater striped bass, explaining how natural and stocked fisheries are managed as well as the difference between the various species. Along with help choosing equipment and some notes on wading tactics, anglers will have everything they need to improve their fishing techniques or make a start on this popular all-American outdoor sport.
