Naae Soch - Naae Disha

This is Rajender (Rajan) Chopra's second book of Hindi poems. His first book was 'Samay Sang - Jeewan Rang'. In this book, every poem is the essence of his life experiences and observations about the lives of millions of people, who have experienced hardships due to undue socioeconomic circumstances.

Modern Hindi Poetry: an Anthology

A book that showcases experimentalism in modern Hindi poetry.

Nayi Kavita

Unique and comprehensive, this volume integrates the most updated theory and research relating to adolescent coping and its determinants. This book is the result of the author's long interest in, and study of, stress, coping, and relationships in adolescence. It begins with an overview of research conducted during the past three decades and contrasts research trends in adolescent coping in the United States and Europe over time. Grounded on a developmental model for adolescent coping, the conceptual issues and major questions are outlined. Supporting research ties together the types of stressors, the ways of coping with normative and non-normative stressors, and the function that close relationships fulfill in this context. More than 3,000 adolescents from different countries participated in seven studies that are built programmatically on one another and focus on properties that make events stressful, on coping processes and coping styles, on internal and social resources, and on stress-buffering and adaptation. A variety of assessment procedures for measuring stress and coping are presented, including semi-structured interviews, questionnaires, and content analysis. This multimethod-multivariate approach is characterized by assessing the same construct via different methods, replicating the measures in different studies including cross-cultural samples, using several informants, and combining standardized instruments with very open data gathering. The results offer a rich picture of the nature

of stressors requiring adolescent coping and highlight the importance of relationship stressors. Age and gender differences in stress appraisal and coping style are also presented. Mid-adolescence emerges as a turning point in the use of certain coping strategies and social resources. Strong gender differences in stress appraisal and coping style suggest that females are more at risk for developing psychopathology. The book demonstrates how adolescents make use of assistance provided by social support systems and points to the changing influence of parents and peers. It addresses controversial issues such as benefits and costs of close relationships or the beneficial or maladaptive effects of avoidant coping. Its clear style, innovative ideas, and instruments make it an excellent textbook for both introductory and advanced courses. Without question, it may serve as a guide for future research in this field. This book will be of value to researchers, practitioners, and students in various fields such as child clinical and developmental psychology and psychopathology.

Attitudes, Themes and Advances

What are we? If not mere stories just waiting to be told... In the early sixties my parents eloped! A fair, light eyed, handsome lad hailing from an illustrious Maharashtrian family fell hook, line and sinker, for a dusky, meek, simple Jain refugee. Love had travelled all the way down from Multan in Pakistan, to Guru Dutt's 'Bombay Meri Jaan'. An innocent romance surreptitiously bloomed. It resulted in an unlikely union of contrary minds and tribes. Grass eating herbivores up against hardcore carnivores. Robust Kshatriyas matching wits with crafty Vaishyas. 'Lite Le' is an ode to their unholy yet, 'Happily Ever After' alliance. A collection of stories of love, loss, life and chaos. Narratives sprinkled with familiar yet unique quirky colourful characters. Tales of universal appeal, some philosophical, others downright funny. Disclaimer All characters appearing in this work are fictitious. So 'Lite Le...' – Take a chill pill! Any resemblance to persons living or dead, is a wild exaggeration of your purely crooked imagination

The History of India, as Told by Its Own Historians

Jaishankar Prasad's epic poem Kamayani (1936) is a feast for intellectuals. It operates at three different levels: the gross or mythological, the emotional and the spiritual. Prasad infused the vision of a rishi, a sage, into this work. The reader experiences poetic currents of human emotions - anxiety, hope, desire, love, shyness, sorrow, conflict - and finally emerges at an elevated level of consciousness.

Using tricks to handle coupled nonlinear dynamical many-body systems, several advancements have already been made in understanding the behavior of markets/economic/social systems and their dynamics. The book intends to provide the reader with updated reviews on such major developments

in both econophysics and sociophysics, by leading experts in the respective fields. This is the first book providing a panoramic view of these developments in the last decade.

A History of India

#1 New York Times Bestseller “Significant...The book is both instructive and surprisingly moving.” —The New York Times Ray Dalio, one of the world’s most successful investors and entrepreneurs, shares the unconventional principles that he’s developed, refined, and used over the past forty years to create unique results in both life and business—and which any person or organization can adopt to help achieve their goals. In 1975, Ray Dalio founded an investment firm, Bridgewater Associates, out of his two-bedroom apartment in New York City. Forty years later, Bridgewater has made more money for its clients than any other hedge fund in history and grown into the fifth most important private company in the United States, according to Fortune magazine. Dalio himself has been named to Time magazine’s list of the 100 most influential people in the world. Along the way, Dalio discovered a set of unique principles that have led to Bridgewater’s exceptionally effective culture, which he describes as “an idea meritocracy that strives to achieve meaningful work and meaningful relationships through radical transparency.” It is these principles, and not anything special about Dalio—who grew up an ordinary kid in a middle-class Long Island neighborhood—that he believes are the reason behind his success. In *Principles*, Dalio shares what he’s learned over the course of his remarkable career. He argues that life, management, economics, and investing can all be systemized into rules and understood like machines. The book’s hundreds of practical lessons, which are built around his cornerstones of “radical truth” and “radical transparency,” include Dalio laying out the most effective ways for individuals and organizations to make decisions, approach challenges, and build strong teams. He also describes the innovative tools the firm uses to bring an idea meritocracy to life, such as creating “baseball cards” for all employees that distill their strengths and weaknesses, and employing computerized decision-making systems to make believability-weighted decisions. While the book brims with novel ideas for organizations and institutions, *Principles* also offers a clear, straightforward approach to decision-making that Dalio believes anyone can apply, no matter what they’re seeking to achieve. Here, from a man who has been called both “the Steve Jobs of investing” and “the philosopher king of the financial universe” (CIO magazine), is a rare opportunity to gain proven advice unlike anything you’ll find in the conventional business press.

In next 20 minutes your thinking about π is going to change . Explore the hidden side of π Yes it is not the History but the future of π you are going to explore. The most used mathematical constant which remained a secret for thousands of years will be unfolded. know what is common between square , triangle and circle? find yourself how circle is not a special shape but only a regular polygon with infinite sides Don't you want to know a single formula , which you can use for calculating the area of square, triangle and the circle? .Calculate yourself the accurate value of π to any digits, that too in seconds .You will also know the interesting relation between accuracy of π and its result on circumference of circle! So let us start the journey where no one has gone before. Chap-1 is about Pi day, starting point of the journey. Chap-2 is the brief history of origin and works done on Pi. About the people involved in search of accuracy of Pi. Chap-3 will ignite a question about peculiarity of the constant Pi . Chap-4 will show different probable paths for solutions to the above question. Chap-6,7,8,9 will successfully explore new constants equivalent to Pi in shapes such as square, triangle and hexagons. Chap-10 will find a general formula about finding Pi equivalents for each shape. Chap-11 will establish a bridge between all new pi equivalents to the Pi. Chap 12 is about how much accuracy of Pi is enough for the world. Chap 13 end of journey with a great feeling about all the new friends of Pi.

A Study of Nehru

This book discusses the opportunities and challenges facing legal education in the era of globalization. It identifies the knowledge and skills that law students will require in order to prepare for the practice of tomorrow, and explores pedagogical shifts legal education needs to make inside and outside of the classroom. With contributions from leading experts on legal education from various jurisdictions across the globe, the work combines theoretical depth with practical insights. Seeking to understand the changing landscape of legal education in the era of globalization, the contributions find that law schools can, and must, adopt educational strategies that at least present students with different understandings of what studying and practicing law is meant to be about. They find that law schools need to offer their students choices, a vision of practice that is not driven entirely by the demands of the marketplace or the needs of major international law firms. Bridging the gap between theory and practice, this book makes a significant contribution to the impact of globalization on legal education, and how students and law schools need to adapt for the future. It will be of great interest to academics and students of comparative legal studies and legal education, as well as policy-makers and practitioners.

Principles

A college student, a World War II soldier, and a mad scientist, all in different time periods. What could they have in common? Nothing, and yet; a lot. Does your past influence your future or is it the other way round? It depends, you may realize soon. What happens when Max Wheeler, an archaeology student finds a long-lost locket known as "The Relic of Tempus" and events take unexpected turn as he witnesses a crime at the peak of the world war. Will he be able to stop it and come back? Time is of course relative, but what if the Relic gave you power to control it? There are a lot of questions, and so little time to find the answers. So, read on and enjoy the conspiracies and the mysteries which unfold that will have a long-lasting impact on Max and his family. It is after all the past which decides your future...or does it?

Pi is not alone!

Life itself has no meaning. Life is an opportunity to create meaning. Meaning is not to be discovered. It has to be created. So here I choose to work with kids with diverse learning needs, when I made a connection with a student with severe autism while working with different people during college. I have enjoyed working with all the differently abled children. Although it took a while and took many trials, I was finally able to find a way to communicate with them, and this feeling is really amazing. It was and is very rewarding and also a bit challenging as you may have to try several strategies before you find one that works. One of the most important things for me as an educator is to always talk to my students about how all individuals have their strengths and areas that they find challenging. Sometimes they can express and sometimes you need to teach them how to do so. While supporting students with special needs, we need to point out and celebrate their strengths more and more often. They need to believe that everyone learns differently and sometimes it's going to take more effort or more time for them to do certain things, which is OKAY. What's important is that they learn to advocate for themselves as they get older and state when they don't understand something or ask for help when they need it.

I Like this Poem

Since then, many lies have been passed off as truths; half-truths have been mixed with true incidents and passed off as whole truths. 'Gandhi was responsible for Partition'; 'Gandhi favoured Muslims and abandoned Hindus'; 'Killing Gandhi was the only way to save Hindu India'; 'Murdering Gandhi was an act of patriotism'; 'Gandhi gifted 155 crores to Pakistan'-these were, and even today are, some of the statements propagated by Hindu extremist organizations and worshippers of Nathuram Godse, the murderer. This book is written to put the facts straight. Written by Gandhi's great-grandson Tushar Gandhi, *Let's Kill Gandhi!* deals with facts gleaned from a lot of verbal history, from books, archival material, from the records of the murder trial and investigations, from books written by the defence lawyers and judges, from newspaper reports, the report of the J.L. Kapur Commission of Inquiry and from what Tushar grew up hearing in the family. Never in the history of political murders has such a nexus of human errors, procedural foul-ups, and sheer apathy colluded to allow a bunch of bungling amateurs to succeed so easily. This book is a chronicle of the conspiracy that goes beyond Nathuram Godse, Gandhi's murderer. Written by none other than Mahatma Gandhi's great-grandson. The book puts the facts regarding Gandhi's death straight. A well-researched account of the murder, trial and investigations around one of the most debated events in the Indian history.

Family Law in Islam

Things you earnestly believe will happen while your parents are away: 1. You will remember to water the azaleas. 2. You will take detailed, accurate messages. 3. You will call your older brother, Denny, if even the slightest thing goes wrong. 4. You and your best friend/bandmate Lukas will win Battle of the Bands. 5. Amid the thrill of victory, Lukas will finally realize you are the girl of his dreams. Things that actually happen: 1. A stranger calls who says he knew your sister. 2. He says he has her stuff. 3. What stuff? Her stuff. 4. You tell him your parents won't be able to— 5. Sukey died five years ago; can't he— 6. You pick up a pen. 7. You scribble down the address. 8. You get on your bike and go. 9. Things . . . get a little crazy after that.* *also, you fall in love, but not with Lukas. Both exhilarating and wrenching, Hilary T. Smith's debut novel captures the messy glory of being alive, as seventeen-year-old Kiri Byrd discovers love, loss, chaos, and murder woven into a summer of music, madness, piercing heartbreak, and intoxicating joy.

A History of the Islamic Peoples;

Neha is a young, simple and smart girl with a master's degree in Finance. She has endured heartbreaking tragedy in her childhood and hopes the future would be more kind to her. But, due to a strange turn of events, she ends up in a marriage of convenience with Arjun, an attractive and adventurous entrepreneur. They both agree to be married for just a year. Their carefully laid plans shatter during the one year of marriage. Arjun discovers Neha is not as conventional and plain as he believed. There lurks a strong-minded, intelligent girl beneath the plain exterior which captures his attention. Neha, on the other hand, catches a glimpse of an amazing person in Arjun who just takes her breath away. Do they get the divorce that they had both desperately wanted? Or does life have something else in store for them? This is a lighthearted, happy, romantic book which will make you fall in love all over again.

Raavi Paar and Other Stories

Calm Down the Heart; is the sixth flower of English poems by Dr. G. S. Kushwaha. The alluring sound of these poems would certainly enter your ears and touch your heart. You can discover the passion of the poet and see the distinctive descriptions of the somber, delicate and translucent fragrance like those of 'Virtue, bliss, riches, a chaste wife brings, - 'Our suspects lie in heart, and jealousy in eyes'- 'Thought is a definite designer of life'- 'Frugality spawn of care, friend of control, and the root of riches'- 'Racial anxiety sink, caste, colour, creed, vanish tribulations these'- 'True life pleasures find in society'- 'War brings a horrible disaster," and many more themes lodged in the poems. The readers will experience the meaning and the true sense of life and finally sing- "My beloved smiles and my heart sing- Allures heavens and dole out blessing."
