Four Most Remarkable Facts

An Atom Doesn't Even Know You're There It Doesn't Even Know It's There Atoms Are Mindless Particles Think after all They Don't Know a Thing Yet Somehow for the Length of Your Existence these Tiny Devoted Particles Will Engage in All the Delicate Cooperative Efforts Necessary To Keep You Humming To Make You You To Give You Form and Shape and that You Enjoy this the Rare and Supremely Agreeable Condition Known as Life this Is Really Hard To Explain because There Is Nothing Special about the Atoms That Make You a Human Being or any Other Living Thing Is an Assortment of Almost Embarrassingly Mundane Components Principally Carbon Hydrogen Oxygen and Nitrogen this Is the Same Stuff You Would Find in a Pile of Dirt the Only Thing Special about the Atoms That Make You Is that They Make You That Is of Course the Miracle of Life
This Is Really Hard To Explain because There Is Nothing Special about the Atoms That Make You

a Human Being or any Other Living Thing Is an Assortment of Almost Embarrassingly Mundane Components Principally Carbon Hydrogen Oxygen and Nitrogen this Is the Same Stuff You Would Find in a Pile of Dirt the Only Thing Special about the Atoms That Make You Is that They Make You That Is of Course the Miracle of Life but Having Obliging Atoms Is Only Part of the Good Fortune That Got You Here to Guildhall on Quite a Lovely Evening in 2010 You've Also Been Incredibly Lucky Genealogically Ancestrally Statistically Speaking You Shouldn't Be Here None of Us Should Survival But It Is Certainly the Case that the Only Life That Is Turned Up So Far and Very Possibly Ever Will Is Found on this One Single Unprepossessing Blue Planet in the Name of the Solar System Two-Thirds of the Way Out from the Center of the Milky Way and that's Not Much in a Great Big Universe Particularly When You Consider that All that Life on that Small Blue Planet Is Found Almost Exclusively in a Frail Wisp of Water and Atmosphere around the Surface if You Imagine that Earth's Shrunk Down to the Size of a Standard Desktop Robe Then the Atmosphere Is Only about the Thickness of Two Coats of Varnish and the Part of that Atmosphere That Supports Life the Biosphere as It Is Known Is Only a Small Part of that Most of the Earth Is Too Cold or Dry or Lofty Most of Us Life Is Confined to an Exceedingly Modest Range Just 1 4 Percent of Earth's Land Area Contains More than Half Its Biodiversity I Can't Think of a Better Reason than that To Be Worried about Global Warming Which Brings Me to My Third and Penultimate Amazing Fact that We Live on a Planet That We Don't Really Know There May Be no Other Detectable Life in the Universe but There Is Such an Abundance of It Here on Our Own Planet That We Don't Actually Know How Much There Is

The Most Brilliant and Thoughtful Naturalist of Our Generation Edward or Wilson Who Is It Goes without Saying a Fellow of the Royal Society Put It Better and More Succinctly than Anyone Ever Has in His Classic Work the Diversity of Life He Wrote One Planet One Experiment It Really Is as that We Are Moving into a World That Is Very Uncertain and Very Scary in all Kinds of Ways every Problem We Have Will Be Solved by Science or It Won't Be Solved this Really Is no Time for Cutting Well There's Just One Other Thing That I Learned about while Research in My Book

We Are Moving into a World That Is Very Uncertain and Very Scary in all Kinds of Ways every Problem We Have Will Be Solved by Science or It Won't Be Solved this Really Is no Time for Cutting Well There's Just One Other Thing That I Learned about while Research in My Book about Life It Doesn't Last Very Long I'M Afraid Even a Good Full Human Life Goes On for Only About 650 , 000 Hours Does It Seem Very Much so There Really Isn't a Moment To Be Lost I Don't Know about You but with that in Mind I'M Really Going To Enjoy a Drink in a Minute

I Would Like To Put in a Plug for that Book and Nnedi for His Other Book Which He Showed Us during His Lecture It's a Wonderful Book and I Encourage You To To Buy It and It's Only So Wonderful because of the Inspiration and Leadership of Bill Bryson I'D Like Also To Express Thanks at this Point to the Lord Mayor of London the City of London Corporation for Hosting this Evening's Lecture and Also Gresham College for a Significant Role in Organizing Tonight's Event Just a Historical Remark as Bill Has Told Us the Royal Society's Foundation Was Closely Linked with that of Gresham College I Think Everyone Would Accept that if the Uk Is To Thrive and Embark on a High Growth High Tech Led Economy Then We Can Do this Only if We Ensure that Bright People Are Attracted into Science Taught Well in Our Universities and Encouraged and the Rosses House Aim Is To Ensure that this Happens and We Hope that Our Political Masters Are Receptive to this It Requires a Collaboration between Scientists in Academia and in Industry and the Royal Society Itself Very Concerned about this We Try To Ensure that the Young Scientists We Support Are Made Aware of What They Can Do in Industry
