## Love, Animals & Miracles

Dr. Bernie Siegel has long observed how relationships with animals have helped his patients, alleviating their suffering and heartbreak. Now, he's gathered many inspiring true stories, including delightful tales from the "Siegel Family Zoo" where "squawks, purrs, chirrups, squeaks, barks, and so on" fill the house. Other stories reveal animals as teachers and messengers, doctors and nurses, healers and miracle workers, and often as guileless clowns. Bernie writes that animals are here to show us how to be nonjudgmental and live better, healthier lives. Let these stories teach you, and apply their lessons to your daily life. If you have an animal, an appreciation for the inspirational, or simply the need for a smile, you'll treasure this celebration of animals as a source of love, wisdom, and miracles. A portion of the publisher's proceeds from this book will aid Ark Angel Society.

### A Book of Miracles

Heartwarming and Heart-Opening Stories Gathered from Decades of Medical Practice Bernie Siegel first wrote about miracles when he was a practicing surgeon and founded Exceptional Cancer Patients, a groundbreaking synthesis of group, individual, dream, and art therapy that provided patients with a "carefrontation." Compiled during his more than thirty years of practice, speaking, and teaching, the stories in these pages are riveting, warm, and belief expanding. Their subjects include a girl whose baby brother helped her overcome anorexia, a woman whose cancer helped her heal by teaching her to stand up for herself, and a family that was saved from a burning house by bats. Without diminishing the reality of pain and hardship, the stories show real people turning crisis into blessing by responding to adversity in ways that empower and heal. They demonstrate what we are capable of and show us that we can achieve miracles as we confront life's difficulties.

### ANIMAL MIRACLES OF THE GOD KIND

Animal Miracles of the God Kind contains over seventy inspirational stories of God's love for man and animals. Some stories contain supernatural dreams and visions. There are other accounts of miraculous rescues by those who care deeply for God's creatures. Some stories speak of angels and some are by noted ministers and those God has gifted with a heavenly presence. The stories are accompanied by over 200 scriptures revealing Biblical truths many are unaware of. Animal Miracles of the God Kind offers joy, comfort and assurance of God's eternal covenant with man and animals. Most of all it speaks of God, His son Jesus Christ, and their sacrificial love for all creation. Animal Miracles of the God Kind, written by Dr. Mary Buddemeyer-Porter, is a great example of God's grace and love for His creation. We see this in the wonderful testimonies in this book as well as the combination of God's Holy Word. The use of scripture showing that our four-legged friends are eternal is not only factual, but heartwarming as well. Bishop Dr. D. ### The Art of Healing

In 1979, Dr. Bernie S. Siegel, a successful surgeon, took a class from Elisabeth Kübler-Ross that focused on crayon drawing for healing, especially with patients facing life-threatening disease. Siegel incorporated into his practice these techniques — many of which were laughed at by others in the medical community. But his Exceptional Cancer Patients “carefrontation” protocol facilitated healings, often deemed miraculous, and attracted attention. “Dr. Bernie” discovered and shared the fact that while patients might need antibiotics, surgery, radiation, and chemotherapy, their bodies also want to heal. He found that this innate propensity could be aided by unconventional practices, including drawing. Why? Drawing produces symbols often representing the subconscious. Siegel shows how to interpret drawings to help with everything from understanding why we are sick to making treatment decisions and communicating with loved ones. All those facing ill health, and those caring for them, personally and professionally, will welcome the hands-on, patient-proven practices offered here.

### Saints of Feather and Fang

From sheepdogs to wombats to coyotes to jellyfish, animals serve important biological roles in the world. But those who love animals know there's more. We know our connection to other creatures is more than fur, scale, or feather deep. In Saints of Feather and Fang, writer and lifelong animal lover Caryn Rivadeneira looks at the ways that animals--from the pets who share our homes to the mysterious creatures of the deep--serve as spiritual guides for our hearts, minds, and souls. Christian scripture teems with mammals, birds, and reptiles, and research on animals' sensory responses suggests that we not only care for our beloved animals but they, at times, care for us. A therapy pony who visits stroke victims, a rescued pit bull who shows restraint, hedgehogs that scurry down highways made just for them: these stories offer entrance to tender, whimsical, and deeply theological reflection on creaturely delight, instinct, curiosity, adaptation, fear, and awe. In them we discover and connect with the God who beckons, rescues, and shelters us with stretched-out wings.

### Animals in Heaven?

It is always hard to say good-bye. As Catholics, we know that our human loved ones are called by Christ to join Him in eternity, dwelling in heavenly bliss before God, enlightened by the light of glory, sharing in the fullness of the eternal life Christ has prepared for us. But what about our pets, and the animals that fill the earth and our lives with such special beauty? Does God have a place for them? Where do animals go when they die? Are they just dust? What is the destiny of creation? Does God really care about any of creation besides man? Would God, the Author of all life, cast the non-human creation He called good into nothingness? Isn't it illogical to believe that God would find worthless that which is "hard-wired" to give Him praise? Is it so hard to understand that animals created by God with a particular good would not also have knowledge of their Creator? It is a universal concern for stewards of creation who, in their humanness, consider such questions in their hearts. I write this book as a way to explore tenets of the Catholic faith that address creation; of bringing insight and spiritual truths to animal lovers and lovers of creation; and as evidential support of the truth that all creation was given its order, time, place, and purpose from its Creator, who sustains and preserves it at all times, always!

### Monsters and Miracles

Monsters and Miracles is the story of a complex and conflicted warrior for children and animals who changed the consciousness of a nation more than a century ago. As an animal advocate, I love the story of Henry Bergh, founder of the first animal protection society in America. It is simply a must-read for anyone interested in the humane movement and true American heroes. - Rory Freedman, author of Beg and co-author of Skinny Bitch. Henry Bergh is widely thought to have started the animal protection movement in America and now, thanks to Gary Kaskel's intelligent and compelling biography, we know how this came to be. Kaskel paints a detailed and personal portrait of the man who taught us to respect animals. This is an important book that will be on the shelf for years to come-and it's a great read. - Elizabeth Hess, author of Nim Chimpsky: The Chimp Who would Be Human and Lost and Found. Kaskel has woven an urbane and atmospheric tale of New York and Europe in the mid-19th century and an aristocrat's passionate crusade not only to bring America forward on the subject of animal cruelty and children's rights but for meaning and purpose in his own life. - Andrew Gross, author of The Dark Tide and The Blue Zone

### The Flow of Kittens

Most of us have been to a pet store looking at the kittens and puppies up for adoption. We've watched whole litters of puppies and kittens at play. These tiny balls of fur and fluff briefly stop their antics to stare at us, as we stare lovingly at them. Deep down we wish we could take them all home with us. Have you ever wondered what it would be like to adopt a whole litter of kittens at once? Have you ever wondered what they were thinking? Most of us have a pet cat or dog, maybe two. These pets become a part of our family; we love them, nurture them, put up with them, and cry for them. This book tells the story of our adventures as we adopt a litter of four kittens right from our front porch. The story is told from both my point of view and that of Patches, one of our four kittens. There is a different dynamic raising a whole litter in the house. It's like having a family within a family! These little bundles of high spirited joy lifted our hearts in ways we did not expect, right when we needed it most. Truly little miracles!

### Miracle Dogs

Five to seven million companion animals enter shelters every year, and more than half are euthanized due to the lack of space. Professional pet photographer Liz Stavrinos spends much of her time on projects related to animal rescue. *Miracle Dogs* was born out of her desire to collect and share the stories of the dogs she's met over the years, showcasing the incredible bravery and compassion of both canines and rescuers.

### Miracle Paws, a Love Story

*Miracle Paws, A Love Story* is about a rescued pup that changes the life of four people who are dealing with old wounds, and new opportunities while they rescue animals every day! It is a light romance that focuses on the miracles that happen when you open your heart.
