

Human Rights From Below

[#Human Rights](#) [#Grassroots Movements](#) [#Bottom-Up Advocacy](#) [#Civil Society](#) [#Human Rights Activism](#)

Human Rights From Below explores the power of grassroots movements in advancing human rights. It examines how ordinary citizens, through collective action and advocacy, can effectively challenge injustice and promote social change. This bottom-up approach to human rights emphasizes the importance of local initiatives, community engagement, and amplifying the voices of marginalized communities in shaping a more just and equitable world.

Universal Declaration of Human Rights

All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood.

Everyone is entitled to all the rights and freedoms set forth in this Declaration, without distinction of any kind, such as race, colour, sex, language, religion, political or other opinion

national or social origin, property, birth or other status. Furthermore, no distinction shall be made on the basis of the political, jurisdictional or international status of the country

All are entitled to equal protection against any discrimination in violation of this Declaration and against any incitement to such discrimination.

Everyone charged with a penal offence has the right to be presumed innocent until proved guilty according to law in a public trial at which he has had all the guarantees necessary for his defence

No one shall be held guilty of any penal offence on account of any act or omission which did not constitute a penal offence, under national or international law

Everyone has the right to freedom of movement and residence within the borders of each state. (2)

Everyone has the right to leave any country, including his own, and to return to his country.

Everyone has the right to seek and to enjoy in other countries asylum from persecution.

This right may not be invoked in the case of prosecutions genuinely arising from non-political crimes or from acts contrary to the purposes and principles of the United Nations.

Everyone has the right to a nationality. (2) No one shall be arbitrarily deprived of his nationality nor denied the right to change his nationality

Men and women of full age, without any limitation due to race, nationality or religion, have the right to marry and to found a family. They are entitled to equal rights as to marriage, during marriage and at its dissolution.

Marriage shall be entered into only with the free and full consent of the intending spouses.

The family is the natural and fundamental group unit of society and is entitled to protection by society and the State.

and freedom, either alone or in community with others and in public or private, to manifest his religion or belief in teaching, practice, worship and observance.

The will of the people shall be the basis of the authority of government

Everyone, without any discrimination, has the right to equal pay for equal work.

Everyone who works has the right to just and favourable remuneration ensuring for himself and his family an existence worthy of human dignity, and supplemented, if necessary, by other means of social protection.

Everyone has the right to form and to join trade unions for the protection of his interests.

(1) Everyone has the right to a standard of living adequate for the health and well-being of himself and of his family, including food, clothing, housing

and medical care and necessary social services, and the right to security in the event of unemploy-

ment, sickness, disability, widowhood, old age or other lack of livelihood in circumstances beyond his control.

Motherhood and childhood are entitled to special care and assistance. All children, whether born in or out of wedlock, shall enjoy the same social protection.

(2) Education shall be directed to the full development of the human personality and to the strengthening of respect for human rights and fundamental freedoms.

Parents have a prior right to choose the kind of education that shall be given to their children.

These rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations.

Getting Away with Torture

Follows the paper trail of torture memos that led to abuses at Guantánámo, in Afghanistan, and in Iraq.

Getting Away with Torture

Recommendations -- Background: official sanction for crimes against detainees -- Torture of detainees in US counterterrorism operations -- Individual criminal responsibility -- Appendix: foreign state proceedings regarding US detainee mistreatment -- Acknowledgments and methodology.

Torture, Intelligence and Sousveillance in the War on Terror

Torture, Intelligence and Sousveillance in the War on Terror examines the communication battles of the Bush and Blair political administrations (and those of their successors in America and Britain) over their use of torture, first-hand or second-hand, to gain intelligence for the War on Terror. Exploring key agenda-building drivers that exposed the torture-intelligence nexus and presenting detailed case studies of key media events from the UK and USA, this insightful volume exposes dominant political discourses on the torture-for-intelligence policy. Whether in the form of unauthorized leaks,

official investigations, investigative journalism, real-time reporting, or Non-Governmental Organisation activity, this timely study evaluates various modes of resistance to governments' attempts at strategic political communication, with particular attention to 'sousveillance': community-based recording from first-person perspectives. A rigorous exposition of the power-knowledge relationships constituting the torture-intelligence nexus, which re-evaluates agenda-building models in the digital age and assesses the strength of the public sphere across the Third, Fourth and Fifth Estates, *Torture, Intelligence and Sousveillance in the War on Terror* will appeal to scholars across the social sciences with interests in media and communication, sociology and social theory, politics and political communication, international relations, and journalism.

Torture

Allows readers to use critical thinking to create informed opinions on where they stand on the issue of torture.

Torture

Over the course of human history, torture has been used as an instrument of war, a means of extracting information, and a mode of punishment. Many argue that it is a necessary weapon in times of war. Others insist that it constitutes cruel and unusual punishment, violates human rights laws, and fails to extract trustworthy information. This book dives into the debate over torture from all sides, using examples from recent history as well as sidebars, full-color photographs, and a glossary designed to improve young adults' understanding of this controversial topic.

Tortured Logic

Hoisted by their own petards

The Secrets of Abu Ghraib Revealed

On April 28, 2004, 60 Minutes II broadcast the now-infamous photos of prisoner abuse by American soldiers at Abu Ghraib. The news quickly spread worldwide, undermining the U.S. presence in Iraq. Despite several Department of Defense investigations and eleven courts-martial convictions, important questions remain about the events at Abu Ghraib. Who are these soldiers? How involved were top administration officials and army generals in the abuses? Were the soldiers simply following orders? Do these photographs depict a new American interrogation policy? Christopher Graveline and Michael Clemens provide the answers. No one has investigated the true story behind the events at Abu Ghraib as thoroughly as the authors. Only six people had complete knowledge of the Abu Ghraib investigation and prosecutions; Graveline and Clemens are two of them. They give readers unprecedented access to the inner workings of the investigation leading to the trials of PFC Lynndie England, Cpl. Charles Graner, and others. Complete with actual arguments of counsel, testimony, and evidence, this groundbreaking book puts the reader in the middle of the investigation and the subsequent trials, revealing one of the darker episodes in American military history.

The Devil's Garden

A behind-the-scenes look at war crimes in Yugoslavia

War Stories

War stories are mostly innocent fables and understood as such by both the teller and the hearer. However, they have long been used for political and national purposes, and those about the war in Vietnam were no exception, as painfully evidenced in the 2004 presidential campaign. John Kerry campaigned as a war hero. His opponents cast him as a liar and a traitor and their war story prevailed. *"War Stories"* delves into the myths associated with the Vietnam veteran's experience and looks at them through the war stories they told and continue to tell. Kulik conducts an extremely thorough review of the Vietnam literature and interviews participants wherever possible, poking holes in the war myths of people throughout the political spectrum. *War Stories* discusses how returning Vietnam vets were treated and delves into the myths that atrocities were commonplace, that all veterans of that war suffer from PTSD, and that all are guilt-ridden. Kulik's research and analysis of such stories lies at the heart of this book's originality and provides a new perspective on the Vietnam War for scholars, students, and general readers. His purpose in exposing such stories is not to deny or minimize American war

crimes in Vietnam but to cut through the cant of false stories so that we retain our outrage at those that are true. As we are faced with future war stories from Iraq and Afghanistan and their likely exploitation, the moral stance and the lessons learned in this book will be especially important."

Beyond the Killing Fields

The first collection of Sydney Schanberg's work to be published.

Privacy in the 21st Century

In *Privacy in the 21st Century* Alexandra Rengel offers an assessment of the International right to privacy within both a historical and modern context with a focus on the legal aspects of the right, its evolution and its future protection.

Overcoming the Bush Legacy in Iraq and Afghanistan

The military adventure that George W. Bush embarked on within months of his inauguration in 2001 was to eclipse everything else in his presidency. His name will forever be synonymous with the "war on terror." What started as a military response to al Qaeda's attacks in New York and Washington on 9/11, with the goal of neutralizing al Qaeda and its Taliban hosts in Afghanistan, quickly fused with the neo-conservative agenda to dominate and reshape the Middle East. Al Qaeda's terrorism was answered by the terror of American military power, which has destroyed or blighted the lives of millions in Afghanistan, Iraq, and Pakistan. Deepak Tripathi, a former BBC correspondent who has kept a keen eye on the region for more than three decades, identifies systematically the naive calculations, strategic and operational blunders, disregard for history and for other cultures, and even downright prejudice that have brought so much harm to so many. The legacy of Bush's foreign policy will take years to overcome, Tripathi argues. His war on terror provoked resentment and violent opposition, opened up sectarian divisions, and created Hobbesian conditions of war of all against all. The long-term price tag for America has been estimated at a colossal \$3 trillion, but as Tripathi seeks to demonstrate, the overall cost, in human and economic terms, will be incalculable.

Fascism

A cautionary examination of America's ongoing risk of fascism.

International Handbook of War, Torture, and Terrorism

Armed conflict, on domestic or foreign soil, impacts people's daily lives and shapes policy around the world. Millions live with the threat of terrorism, whether from random sources or known enemies. And the acceptability of torture is debated by politicians and public alike. The *International Handbook of War, Torture, and Terrorism* synthesizes historical backgrounds, current trends, and findings from the Personal and Institutional Rights to Aggression and Peace Survey (PAIRTAPS), administered in forty countries over nine global regions. Contributors examine the social, cognitive, and emotional roots of people's thinking on war and national security issues, particularly concerning the role of governments in declaring war, invading other countries, or torturing prisoners. By focusing on the cultural traditions and colonial histories of broad regions rather than of individual nations, the book demonstrates how context shapes ordinary citizens' views on what is justifiable during times of war, as well as more nebulous concepts of patriotism and security. The Handbook: Introduces the PAIRTAPS and explains the methodology for analyzing responses. Defines war-related concepts from the unique perspectives of Western Europe, U.K./U.S., Middle East, Gulf States, Russia/Balkans, Africa, Latin America, South/Southeast Asia, and East Asia. Provides an integrative summary of definitions and points of view. Situates results in terms of social engagement/disengagement theory. Considers implications for peace and reconciliation. As a reflection of the changing global landscape, the *International Handbook of War, Torture, and Terrorism* deserves to be read by a wide range of researchers in peace psychology, political science, sociology, and anthropology.

The Inter-American Court of Human Rights

This book provides a reference guide to the case law of the Inter-American Court of Human Rights. Structured in two parts, it covers the case law on jurisdiction and procedure before the Court and the case law on the scope of particular rights, drawing comparisons with the case law of the European Court of Human Rights.

Globalizing Torture

Following the terrorist attacks of September 11, 2001, the Central Intelligence Agency embarked on a highly classified program of secret detention and extraordinary rendition of terrorist suspects. The program was designed to place detainee interrogations beyond the reach of law. Suspected terrorists were seized and secretly flown across national borders to be interrogated by foreign governments that used torture, or by the CIA itself in clandestine 'black sites' using torture techniques. This report is the most comprehensive account yet assembled of the human rights abuses associated with secret detention and extraordinary rendition operations. It details for the first time the number of known victims, and lists the foreign governments that participated in these operations. It shows that responsibility for the abuses lies not only with the United States but with dozens of foreign governments that were complicit. More than 10 years after the 2001 attacks, this report makes it unequivocally clear that the time has come for the United States and its partners to definitively repudiate these illegal practices and secure accountability for the associated human rights abuses.

American Nuremberg

No subject is more hotly debated than the extreme measures that our government has taken after 9/11 in the name of national security. Torture, extraordinary rendition, drone assassinations, secret detention centers (or "black sites"), massive surveillance of citizens. But while the press occasionally exposes the dark side of the war on terror and congressional investigators sometimes raise alarms about the abuses committed by U.S. intelligence agencies and armed forces, no high U.S. official has been prosecuted for these violations – which many legal observers around the world consider war crimes. The United States helped establish the international principles guiding the prosecution of war crimes – starting with the Nuremberg tribunal following World War II, when Nazi officials were held accountable for their crimes against humanity. But the American government and legal system have consistently refused to apply these same principles to our own officials. Now Rebecca Gordon takes on the explosive task of "indicting" the officials who – in a just society – should be put on trial for war crimes. Some might dismiss this as a symbolic exercise. But what is at stake here is the very soul of the nation.

Torture Team

After 9/11. George W. Bush's administration declared that they were going to have to work through 'the dark side'. And they did: they turned their backs on international law and on America's history of respecting human rights. They wanted only legal advice that made it okay to torture, and they made sure they got it. Voices of dissent were sidelined, while low level officials brainstormed interrogation techniques and took their lead from Jack Bauer in 24. In *Torture Team*, Philippe Sands tracks down and interviews those responsible, and makes a compelling case that, in an ugly blotch on America's recent past, war crimes were committed for which no one has yet been held to account.

The Central Intelligence Agency [2 volumes]

The Central Intelligence Agency is essential in the fight to keep America safe from foreign attacks. This two-volume work traces through facts and documents the history of the CIA, from the people involved to the operations conducted for national security. This two-volume reference work offers both students and general-interest readers a definitive resource that examines the impact the CIA has had on world events throughout the Cold War and beyond. From its intervention in Guatemala in 1954, through the Bay of Pigs, the Vietnam War, the Iran-Contra Affair, and its key role in Afghanistan following the terrorist attacks of September 11th, 2001, this objective, apolitical work covers all of this controversial intelligence agency's most notable successes and failures. The content focuses on describing how a U.S. government organization that is unlike any other conducts covert warfare, surreptitiously collects information, and conducts espionage. The work allows for easy reference of former CIA operations and spies, looking at the positive and negative aspects of each operation and the "why" and "how" of its execution. The second volume provides documentation that supports and amplifies more than

200 cross-referenced entries. Readers will be able to understand the reasons behind the CIA's various actions, perceive how the agency's role has evolved across its 75-year history, and intelligently consider the viability and future of the CIA.

Killing Without Heart

Today's wars have no definitive end in sight, are conducted among civilian populations, and are fought not only by soldiers but also by unmanned aerial vehicles. According to M. Shane Riza, this persistent conflict among the people and the trend toward robotic warfare has outpaced deliberate thought and debate about the deep moral issues affecting the military mission and the warrior spirit. The pace of change, Riza explains, is revolutionizing warfare in ways seldom discussed but vitally important. A key development is risk inversion, which occurs when all noncombatants are at greater risk than.

Plausible Legality

In many ways, the United States' post-9/11 engagement with legal rules is puzzling. Officials in both the Bush and Obama administrations authorized numerous contentious counterterrorism policies that sparked global outrage, yet they have repeatedly insisted that their actions were lawful and legitimate. In *Plausible Legality*, Rebecca Sanders examines how the US government interpreted, reinterpreted, and manipulated legal norms and what these justificatory practices imply about the capacity of law to constrain state violence. Through case studies on the use of torture, detention, targeted killing, and surveillance, Sanders provides a detailed analysis of how policymakers use law to achieve their political objectives and situates these patterns within a broader theoretical understanding of how law operates in contemporary politics. She argues that legal culture--defined as collectively shared understandings of legal legitimacy and appropriate forms of legal practice in particular contexts--plays a significant role in shaping state practice. In the global war on terror, a national security culture of legal rationalization encouraged authorities to seek legal cover to construct the plausible legality of human rights violations in order to ensure impunity for wrongdoing. Looking forward, law remains vulnerable to evasion and revision. As Sanders shows, despite the efforts of human rights advocates to encourage deeper compliance, the normalization of post-9/11 policy has created space for future administrations to further erode legal norms.

The Constitution Under Siege

The Constitution Under Siege is a provocative teaching instrument that uses law, history, and politics to test what the law arguably "is" against assertions of what it "ought" to be. It examines the questionable impulses of presidents, members of Congress, the military, and intelligence agencies to bend or break the Constitution and the laws. In questioning the legitimacy of raw assertions of unaccountable power, the editors reject both the illustrative case approach of political scientists and precedent-driven approach of lawyers, supplementing key court cases with historically-rich essays, notes, and questions. These essays explain where our nation's "first principles" came from, and why they became imbedded, at least until recently, in our laws and institutions. Above all, these materials will prompt the reader to ask how, and by what authority, presidents, Congress, and even courts have come to allow the military and secret agencies to kidnap, torture, assassinate, or secretly detain citizens or aliens, and to use military and para-military force without running afoul of the Constitution and its Bill of Rights. "This superb book, written by two of the nation's most acute analysts of law and politics, provides readers with materials indispensable to an understanding of the many dubious assertions of governmental power, by both presidents and Congress, that have rocked the foundations of our republic. ... It is must reading for all those concerned about the future of constitutional government." -- David Gray Adler, James McClure Professor of Public Policy at the University of Idaho "The Constitution Under Siege offers unparalleled insights arising from the authors' singular mastery of documents, events, and law. From the Barbary pirates to Islamic terrorism, no single source more definitively instructs the reader as it interweaves American law and policy abroad. This is an indispensable book." -- Robert J. Spitzer, Distinguished Service Professor, SUNY, Cortland

Protecting the right to freedom of expression under the European Convention on Human Rights

European Convention on Human Rights – Article 10 – Freedom of expression 1. Everyone has the right to freedom of expression. This right shall include freedom to hold opinions and to receive and impart information and ideas without interference by public authority and regardless of frontiers. This article shall not prevent States from requiring the licensing of broadcasting, television or cinema enterprises.

2. The exercise of these freedoms, since it carries with it duties and responsibilities, may be subject to such formalities, conditions, restrictions or penalties as are prescribed by law and are necessary in a democratic society, in the interests of national security, territorial integrity or public safety, for the prevention of disorder or crime, for the protection of health or morals, for the protection of the reputation or rights of others, for preventing the disclosure of information received in confidence, or for maintaining the authority and impartiality of the judiciary. In the context of an effective democracy and respect for human rights mentioned in the Preamble to the European Convention on Human Rights, freedom of expression is not only important in its own right, but it also plays a central part in the protection of other rights under the Convention. Without a broad guarantee of the right to freedom of expression protected by independent and impartial courts, there is no free country, there is no democracy. This general proposition is undeniable. This handbook is a practical tool for legal professionals from Council of Europe member states who wish to strengthen their skills in applying the European Convention on Human Rights and the case law of the European Court of Human Rights in their daily work.

The Political Impossibility of Modern Counterinsurgency

The counterinsurgency (COIN) paradigm dominates military and political conduct in contemporary Western strategic thought. It assumes future wars will unfold as "low intensity" conflicts within rather than between states, requiring specialized military training and techniques. COIN is understood as a logical, effective, and democratically palatable method for confronting insurgency—a discrete set of practices that, through the actions of knowledgeable soldiers and under the guidance of an expert elite, creates lasting results. Through an extensive investigation into COIN's theories, methods, and outcomes, this book undermines enduring claims about COIN's success while revealing its hidden meanings and effects. Interrogating the relationship between counterinsurgency and war, the authors question the supposed uniqueness of COIN's attributes and try to resolve the puzzle of its intellectual identity. Is COIN a strategy, a doctrine, a theory, a military practice, or something else? Their analysis ultimately exposes a critical paradox within COIN: while it ignores the vital political dimensions of war, it is nevertheless the product of a misplaced ideological faith in modernization.

The Senate Intelligence Committee Report on Torture (Academic Edition)

The study edition of book the Los Angeles Times called, "The most extensive review of U.S. intelligence-gathering tactics in generations." This is the complete Executive Summary of the Senate Intelligence Committee's investigation into the CIA's interrogation and detention programs -- a.k.a., The Torture Report. Based on over six million pages of secret CIA documents, the report details a covert program of secret prisons, prisoner deaths, interrogation practices, and cooperation with other foreign and domestic agencies, as well as the CIA's efforts to hide the details of the program from the White House, the Department of Justice, the Congress, and the American people. Over five years in the making, it is presented here exactly as redacted and released by the United States government on December 9, 2014, with an introduction by Daniel J. Jones, who led the Senate investigation. This special edition includes: • Large, easy-to-read format. • Almost 3,000 notes formatted as footnotes, exactly as they appeared in the original report. This allows readers to see obscured or clarifying details as they read the main text. • An introduction by Senate staffer Daniel J. Jones who led the investigation and wrote the report for the Senate Intelligence Committee, and a forward by the head of that committee, Senator Dianne Feinstein.

Plan of Attack

Award-winning journalist Bob Woodward has spent over thirty years in Washington's corridors of power. In *All the President's Men* it was he, together with Carl Bernstein, who exposed the Watergate scandal and he has been giving us a privileged front-row seat to White-House intrigue and decision-making ever since. With *PLAN OF ATTACK* he brings his investigative skills to bear on the administration of George W. Bush, and the build-up to war in Iraq. What emerges is a fascinating and intimate portrait of the leading powers in Bush's war council and their allies overseas as they prepare their pre-emptive attack and change the course of history.

Rule of Law, Misrule of Men

A passionate call for citizen action to uphold the rule of law when government does not. This book is a passionate call for citizen action to uphold the rule of law when government does not. Arguing that post-9/11 legislation and foreign policy severed the executive branch from the will of the people, Elaine

Scarry in *Rule of Law, Misrule of Men* offers a fierce defense of the people's role as guarantor of our democracy. She begins with the groundswell of local resistance to the 2001 Patriot Act, when hundreds of towns, cities, and counties passed resolutions refusing compliance with the information-gathering the act demanded, showing that citizens can take action against laws that undermine the rights of citizens and noncitizens alike. Scarry, once described in the *New York Times Sunday Magazine* as "known for her unflinching investigations of war, torture, and pain," then turns to the conduct of the Iraqi occupation, arguing that the Bush administration led the country onto treacherous moral terrain, violating the Geneva Conventions and the armed forces' own most fundamental standards. She warns of the damage done to democracy when military personnel must choose between their own codes of warfare and the illegal orders of their civilian superiors. If our military leaders uphold the rule of law when civilian leaders do not, might we come to prefer them? Finally, reviewing what we know now about the Bush administration's crimes, Scarry insists that prosecution—whether local, national, or international—is essential to restoring the rule of law, and she shows how a brave town in Vermont has taken up the challenge. Throughout the book, Scarry finds hope in moments where citizens withheld their consent to grievous crimes, finding creative ways to stand by their patriotism.

Torture in international law : a guide to jurisprudence

Three hundred years ago, few people cared about the murky past of new arrivals to the United States, and the countries they had left made few efforts to pursue them to their new home. Today with the growth of bureaucracy, telecommunications, and air travel, extradition has become a full-time business. But the public's knowledge of, and consequent concern about, extradition remains minimal, aroused from time to time by newspaper headlines, only to fade. In this readable and compelling history of extradition in America, Christopher Pyle remedies that ignorance. Using American constitutional law and drawing on a wealth of historical cases, he describes the collision of law and politics that occurs when a foreign country demands the surrender of individuals held to be terrorists by some and freedom fighters by others. He shows how U.S. policymakers have attempted to substitute deportation for extradition, and turn the surrender of a foreign national (or even an American citizen) into a political rather than a judicial process. Beginning with the New England Puritans' refusal to surrender to the "regicides" who had signed the death warrant of King Charles I, he traces the attitudes and ideologies that have shaped American extradition practice, culminating in the efforts by the Reagan and Bush administrations to turn the legal extradition process into an executive tool of state policy. Along the way we meet such legal luminaries as James Madison and John Stuart Mill, William Rehnquist and Oliver North, as well as pirates and fugitive slaves, anarchists and refugees, drug lords and runaway sailors. Woven throughout this story is the author's belief that current developments in extradition law ignore or actually violate the principles of individual liberty, due process, and humanity on which we claim our country was built. As he remarks in the Introduction, "Extradition involves the surrender of human beings--persons under the protection of our Constitution--to foreign regimes, many of which are unjust. This reality was well understood in the eighteenth and nineteenth centuries, when the United States was a refuge for the victims of European oppression, but it has been disregarded frequently in the twentieth century as we have sought to stem the tide of immigration and develop advantageous economic and political relations with autocratic regimes of every stripe." Author note: Christopher H. Pyle is Professor of Politics at Mount Holyoke College. He is the author of several books and Congressional reports and has frequently testified before Congress on the subject of extradition and deportation.

Extradition, Politics, and Human Rights

Documents US Government attempts to justify torture techniques and coercive interrogation practices in ongoing hostilities.

The Torture Papers

Nineteen Eighty-Four (1949) was George Orwell's final novel and was completed in difficult conditions shortly before his early death. It is one of the most influential and widely-read novels of the post-war period.

Nineteen Eighty-Four

The Dark Side is a dramatic, riveting, and definitive narrative account of how the United States made self-destructive decisions in the pursuit of terrorists around the world—decisions that not only violated the Constitution, but also hampered the pursuit of Al Qaeda. In spellbinding detail, Jane Mayer relates

the impact of these decisions by which key players, namely Vice President Dick Cheney and his powerful, secretive adviser David Addington, exploited September 11 to further a long held agenda to enhance presidential powers to a degree never known in U.S. history, and obliterate Constitutional protections that define the very essence of the American experiment. With a new afterward. One of The New York Times 10 Best Books of the Year National Bestseller National Book Critics Circle Award Finalist A Best Book of the Year: Salon, Slate, The Economist, The Washington Post, Cleveland Plain-Dealer

The Dark Side

Focusing on highly topical issues such as torture, arbitrary detention, privacy, and discrimination, this book will help readers to understand for themselves the controversies and complexities behind human rights.

Inquiry Into the Treatment of Detainees in U.S. Custody

"Hiding in Plain Sight tells the story of the global effort to apprehend the world's most wanted fugitives. Beginning with the flight of an estimated thirty thousand Nazi war criminals after the Second World War, then moving on to the question of justice following the recent Balkan wars and the Rwandan genocide, and ending with the establishment of the International Criminal Court and America's pursuit of suspected terrorists in the aftermath of 9/11, the book explores the range of diplomatic and military strategies--both successful and unsuccessful--that states and international courts have adopted to pursue and capture war crimes suspects. It is a story fraught with broken promises, backroom politics, ethical dilemmas, and daring escapades--all in the name of international justice and human rights. In this exhaustively researched and compelling written work of political and judicial history, the authors argue that while the legal and operational regimes needed to apprehend and deliver suspected war criminals to justice are largely in place, the political will on the part of states to make arrests happen in a consistent and apolitical manner remains elusive. And until this situation is rectified, murderers will get away with murder, and torturers will retire with pensions"--Provided by publisher.

Human Rights

A startling exposé of the CIA's development and spread of psychological torture, from the Cold War to Abu Ghraib and beyond In this revelatory account of the CIA's secret, fifty-year effort to develop new forms of torture, historian Alfred W. McCoy uncovers the deep, disturbing roots of recent scandals at Abu Ghraib and Guantánamo. Far from aberrations, as the White House has claimed, A Question of Torture shows that these abuses are the product of a long-standing covert program of interrogation. Developed at the cost of billions of dollars, the CIA's method combined "sensory deprivation" and "self-inflicted pain" to create a revolutionary psychological approach—the first innovation in torture in centuries. The simple techniques—involving isolation, hooding, hours of standing, extremes of hot and cold, and manipulation of time—constitute an all-out assault on the victim's senses, destroying the basis of personal identity. McCoy follows the years of research—which, he reveals, compromised universities and the U.S. Army—and the method's dissemination, from Vietnam through Iran to Central America. He traces how after 9/11 torture became Washington's weapon of choice in both the CIA's global prisons and in "torture-friendly" countries to which detainees are dispatched. Finally McCoy argues that information extracted by coercion is worthless, making a case for the legal approach favored by the FBI. Scrupulously documented and grippingly told, A Question of Torture is a devastating indictment of inhumane practices that have spread throughout the intelligence system, damaging American's laws, military, and international standing.

Hiding in Plain Sight

This book reframes the historical, legal and moral discourse on the question of whether torture can be justified in exceptional circumstances.

The Publishers Weekly

Torture has been a topic of national discussion ever since it was revealed that "enhanced interrogation techniques" had been authorized as part of the war on terror. The United States and Torture provides us with a larger lens through which to view America's policy of torture, one that dissects America's long relationship with interrogation and torture, which roots back to the 1950s and has been applied, mostly

in secret, to “enemies,” ever since. The United States and Torture opens with a compelling preface by Sister Dianna Ortiz, who describes the unimaginable treatment she endured in Guatemala in 1987 at the hands of the the Guatemalan government, which was supported by the United States. Following Ortiz's preface, an interdisciplinary panel of experts offers one of the most comprehensive examinations of torture to date, beginning with the Cold War era and ending with today's debate over accountability for torture.

A Question of Torture

The Prohibition of Torture in Exceptional Circumstances

Lajja

A savage indictment of religious extremism and man's inhumanity to man, *Lajja* was banned in Bangladesh, but became a bestseller in the rest of the world. The Duttas—Sudhamoy and Kironmoyee, and their children, Suranjan and Maya— have lived in Bangladesh all their lives. Despite being members of a small, vulnerable Hindu community, they refuse to leave their country, unlike most of their friends and relatives. Sudhamoy believes with a naive mix of optimism and idealism that his motherland will not let him down. And then, on 6 December 1992, the Babri Masjid is demolished. The world condemns the incident, but its immediate fallout is felt most acutely in Bangladesh, where Muslim mobs begin to seek out and attack Hindus. The nightmare inevitably arrives at the Duttas' doorstep, and their world begins to fall apart.

Lajja

Lajja, The Controversial Novel By Bangladeshi Writer Taslima Nasrin, Is A Savage Indictment Of Religious Extremism And Man S Inhumanity To Man. The Duttas-Sudhamoy, Kironmoyee, And Their Two Children, Suranjan And Maya-Have Lived In Bangladesh All Their Lives. Despite Being Part Of The Country S Small Hindu Community, That Is Terrorized At Every Opportunity By Muslim Fundamentalists, They Refuse To Leave Their Country, As Most Of Their Friends And Relatives Have Done. Sudhamoy, An Atheist, Believes With A Naive Mix Of Optimism And Idealism That His Motherland Will Not Let Him Down.... And Then, On 6 December 1992, The Babri Masjid At Ayodhya In India Is Demolished By A Mob Of Hindu Fundamentalists. The World Condemns The Incident, But Its Fallout Is Felt Most Acutely In Bangladesh, Where Muslim Mobs Begin To Seek Out And Attack The Hindus.... The Nightmare Inevitably Arrives At The Duttas Doorstep-And Their World Begins To Fall Apart.... Unremittingly Dark And Menacing, The Novel Exposes The Mindless Bloodthirstiness Of Fundamentalism And Brilliantly Captures The Insanity Of Violence In Our Time.

Shame

Not since Salman Rushdie's *Satanic Verses* has the publication of a book provoked such mob violence, public outcries for the arrest and death of the author, and international efforts to secure her safety. The animosity and bloodletting between Muslim and Hindu extremists on the Indian subcontinent is centuries old. When the Barbri Mosque at Ayodhya, India, was destroyed by Hindu fundamentalists on December 6, 1992, fierce mob reprisals took place against the Hindu minority in Muslim Bangladesh. These incidents form the backdrop for Dr. Taslima Nasrin's explosive and courageous book, *Shame*, describing the nightmarish fate of one family within her country's small Hindu community. Her book so angered Muslim leaders that a fatwa, or holy judgment, was invoked, offering thousands of dollars to anyone who would kill her. The Soldiers of Islam accused her of "blasphemy and conspiracy against Islam," while the Bengali government charged her with sacrilege merely for saying that the Koran should be revised. After months in hiding, Dr. Nasrin escaped to Sweden with the aid of American, French, and European Union authorities. Her commitment to eliminating religious extremism worldwide is stated in her preface to *Shame*: "The disease of religious fundamentalism must be fought at every turn. I will continue to write and protest persecution and discrimination. I am convinced that the only way the fundamentalist forces can be stopped is if all of us join together to fight their malignant influence. I, for one, will not be silenced."

SHAMELESS

'The textual tension between the real and the imaginary nourishes and complicates the narrative ... Shameless exposes the hypocrisies of Kolkata, the distrust and hatred that exists between the [Hindu and Muslim] communities.' -- Ashutosh Bhardwaj, award-winning writer and journalist 'Shameless is a far more marinated novel than its predecessor ... The emotional seesaw between the creator and her creations gives the plot a cerebral intensity ... Nasreen distils hard-hitting truth through her lived experiences, transforming her individual predicament to strike a universal chord through her deft storytelling.' -- Somak Ghoshal, Livemint 'My name is Suranjan. You don't recognize me? You wrote a novel about me. It was called Lajja.' One day in Calcutta, Taslima suddenly finds herself face to face with Suranjan, the principal character from her controversial novel Lajja. Persecuted in their native Bangladesh, Suranjan and his family have, like Taslima, moved to the city across the border. But is life for a Hindu family from an Islamic nation any better in a country where a majority of the population happens to be Hindu? Leading poor, unmoored lives, exploited and frustrated at every step of the way, and always carrying with them the memories of a scarred communal history, Suranjan and so many others like him seem to lead incomplete lives in their so-called 'safe haven'. Shameless, the explosive sequel to Lajja, is an uncompromising, heart-breaking look at ordinary people's lives in our troubled times.

Shodh

Taslima Nasrin is known for her powerful writing on women's rights and uncompromising criticism of religious fundamentalism. This defiance on her part had led to the ban on the Bengali original of this book by the Left Front in West Bengal as well as the Government of Bangladesh in 2003. While the West Bengal government lifted the injunction after the ban was struck down by the Calcutta High Court in 2005, Nasrin was eventually driven out of Kolkata and forced to expunge passages from the book, besides facing a four-million-dollar defamation lawsuit. Bold and evocative, Split: A Life opens a window to the experiences and works of one of the bravest writers of our times.

Split

On 22 November 2007, the city of Kolkata came to a rude, screeching halt as a virulent mob of religious fanatics took to the streets. Armed with a fatwa from their ideologues, the mob demanded Taslima Nasrin leave the city immediately. While the Kolkata Police allegedly stood watching, mere dumb witnesses to such hooliganism, a morally, intellectually and politically bankrupt Left Front government, tottering under the strain of their thirty-year-old backward-looking rule, decided to ban her book and drive her out of Kolkata, a city she has always considered her second home. Dark, provocative and, at times, surreal, Exile is a moving and shocking chronicle of Taslima Nasrin's struggles in India over a period of five months, set against a rising tide of fundamentalism and intolerance that will resonate powerfully with the present sociopolitical scenario.

Exile

Spring, 1971, East Pakistan. Rehana Haque is throwing a party for her beloved children, Sohail and Maya. Her young family is growing up fast, and Rehana wants to remember this day forever. But out on the hot city streets, something violent is brewing. As the civil war develops, a war which will eventually see the birth of Bangladesh, Rehana struggles to keep her children safe and finds herself facing a heartbreaking dilemma.

A Golden Age

This groundbreaking book throws open a window on a world unknown to most Westerners. Taslima Nasrin revisits her early years — from her auspicious birth on a Muslim holy day to the threshold of

womanhood at fourteen — in a small rural village during the years East Pakistan became Bangladesh. Set against the background of the fight for independence, Nasrin's earliest memories alternate between scenes of violence and flight and images of innocent pleasures of childhood in her extended family. A precocious child, Nasrin's acute awareness of the injustice and suffering endured by her mother and other Muslim women cause her to turn from the Koran in early adolescence, and to begin a journey to redefine her world. Her growing awareness of the class discriminations, gender disparities, and growing religious orthodoxy and intolerance in her family and her rural village parallel the broader social and cultural upheaval emerging in the new nation, and foreshadow the growth of a feminist dissident courageous enough to defy the fundamentalist Muslim clerics. "Nasrin's voice is the voice of humanism everywhere."-- Wole Soyinka "I am sure you have become tired of being called 'the female Salman Rushdie' . . . but please know that there are many people in many countries working to . . . defend you against those who would cheerfully see you dead. . . . In the West, there are too many eloquent apologists working to convince people of the fiction that women are not discriminated against in Muslim countries or that, if they are, it has nothing to do with religion."-- Excerpt from an open letter from Salman Rushdie to Taslima Nasrin

Meyebela

French Lover is the story of Nilanjana, a young Bengali woman from Kolkata who moves to Paris after getting married to Kishanlal, a restaurant owner. Kishanlal's luxurious apartment seems to be a gilded cage for Nilanjana, and she feels stifled within its friendless confines. Her marriage, where she functions as little more than a housekeeper and sex object, is far from fulfilling and Nilanjana desperately looks for a way out of the boredom and depression that threaten to engulf her. It is at this point that she meets Benoir Dupont, a blond, blue-eyed handsome Frenchman, and is swept off her feet. Benoir introduces Nilanjana to the streets, cafes and art galleries of Paris. In her passionate, sexually liberating relationship with Benoir, she finally begins to have an inkling of her own desires. The relationship ends when Nilanjana realises that Benoir's first priority is himself and not the woman he loves, and that her need for him has ended. But her road to self-discovery has only just begun. Bold in concept and powerful in execution, French Lover is a fascinating glimpse into the workings of a woman's mind as she struggles to come to terms with her identity in a hostile world.

French Lover

This book would have been completed earlier but for events that disrupted millions of lives across India, including those of journalists : the demolition of the Babri Masjid at Ayodhya, by a Hindu mob on 6 December 1992 and the communal riots that followed across the country. In January 1993, the selective massacres of Muslims at Bombay and the devastating revenge bomb blasts there two months later led to extensive travelling and reporting for the New York Times. In addition, there was 'normal reporting' : the Punjab, environmental, economic and political issues such as the billion dollar scam.

Strangers Of The Mist

The Game In Reverse is the first volume of Nasrin's poetry in English translation. Presented here are more than forty of the poems that have gathered both an international following and considerable controversy for the author.

The Game in Reverse

Set in the backdrop of the Bangladesh Liberation War of 1971, this book recollects Taslima Nasrin's early years. From her birth on a holy day to the dawn of womanhood at fourteen to her earliest memories that alternate between scenes of violence, memories of her pious mother, the rise of religious fundamentalism, the trauma of molestation and the beginning of a journey that redefined her world, *My Girlhood* is a tour de force.

My Girlhood

'My name is Suranjan. You don't recognize me? You wrote a novel about me. It was called *Lajja*.' One day in Calcutta, Taslima suddenly finds herself face to face with Suranjan, the principal character from her controversial novel *Lajja*. Persecuted in their native Bangladesh, Suranjan and his family have, like Taslima, moved to the city across the border. But is life for a Hindu family from an Islamic nation any better in a country where a majority of the population happens to be Hindu? Leading poor, unmoored lives, exploited and frustrated at every step of the way, and always carrying with them the memories of a scarred communal history, Suranjan and so many others like him seem to lead incomplete lives in their so-called 'safe haven'. *Shameless*, the explosive sequel to *Lajja*, is an uncompromising, heart-breaking look at ordinary people's lives in our troubled times.

Lajja

Internationally acclaimed Bangladeshi writer Taslima Nasrin brings together for the first time in English a compelling collection of her work written over a period of thirty years. In this powerful selection of essays, Taslima confronts issues of women's oppression and gender inequality, freedom of speech, and religious violence. In bold, pragmatic style, her language of protest challenges the androcentric paradigms that have dictated the female experience for millennia. Taslima unflinchingly questions long held views on marriage, effects of religious rituals on women, prostitution, genital mutilation, divorce, and sexual assault, among many other crucial issues. Forced into exile after being expelled from Bangladesh for her frank and brave writing, Nasrin has been a heroic and courageous voice throughout the world, with many of her works topping the bestseller lists. *Taslima Unbound* captures the essence of her life's work and is key for those seeking to gain a deeper understanding of this celebrated feminist writer. Taslima Nasrin has been the recipient of the Woodrow Wilson Fellowship, the UNESCO-Madanjeet Singh Prize for the promotion of tolerance and non-violence, the Simone de Beauvoir Prize, an honorary doctorate from the American University of Paris, among many other important recognitions.

Shameless

Life is a balancing act and opposites do attract: Life and Death; God and Devil; Weak and Strong; Man and Woman; Wrong and Right; Black and White; and Day and Night. The conflict continue... A just and placid world will be a boring one. So, we have the unjust and perturbed one... just to restore balance and make everything equal. However, equality is a cruel word. Ask the pans of a balancing scale; put Adam in one and Eve in the other, and you have a story to tell.

Homecoming

In her Muslim hijab, with her down-turned gaze, Najwa is invisible to most eyes, especially to the rich London families whose houses she cleans. But twenty years earlier it was a different story. Najwa was at university in Khartoum and, as an upper-class westernised Sudanese, her dreams were to marry well and raise a family. However, those days of innocence came to an abrupt end and tough years followed. Now Najwa finds solace in her visits to the Mosque, the companionship of the Muslims she meets there and in the hijab she adopts. Her dreams may have shattered but her awakening to Islam has given her a different peace. Then Najwa meets a younger man and slowly they begin to fall in love ...

Sriradha

An insider's account of the personalities and policies that shaped Indian diplomacy Former foreign secretary, Maharajakrishna Rasgotra joined India's external affairs ministry when Jawaharlal Nehru, Girija Shankar Bajpai, Sardar Patel were—with a mix of pragmatism and hope—creating the foreign policy of the newly independent nation. This was taking place as the Cold War slid into the subcontinent

and complex relationships with India's neighbours—China, Pakistan and Nepal—were taking shape. Looking back on those crucial years with a discerning eye for the interplay of personalities—Nehru, Krishna Menon, or S. Radhakrishnan, for instance—Rasgotra assesses their influence on events and their impact on the evolution of Indian diplomacy. For over three decades Rasgotra's assignments took him to Nepal, Britain and France, among other countries, as well as twice to the United States. His account of Nixon and Kissinger, and the mix of truculence and persuasion in their dealings with Mrs Gandhi in the run up to the 1971 Bangladesh war, sheds new light on the events of that time. His tenure as foreign secretary covered a period of great change and *A Life in Diplomacy* provides a ringside view of the beginnings of ethnic violence in Sri Lanka, the last years of the Cold War, the negotiations on the formation of SAARC, Mrs Gandhi's assassination and the Bhopal gas disaster. This is a compelling, authoritative account of a personal and professional journey; a reflective look at the leaders, events and forces that formed relations between India and the world over fifty years.

Lajj

The Dattas have lived in Bangladesh all their lives. Despite being members of a small Hindu community, they refuse to leave the country. And then, on 6 December 1992, the Babri Masjid at Ayodhya is demolished by a mob of Hindu fundamentalists. The nightmare inevitably arrives at the Dattas' doorstep, and their world begins to fall apart.

Taslima Unbound

Imaginary Maps presents three stories from noted Bengali writer Mahasweta Devi in conjunction with readings of these tales by famed cultural and literary critic, Gayatri Chakravorty Spivak. Weaving history, myth and current political realities, these stories explore troubling motifs in contemporary Indian life through the figures and narratives of indigenous tribes in India. At once delicate and violent, Devi's stories map the experiences of the "tribals" and tribal life under decolonization. In "The Hunt," "Douloti the Bountiful" and the deftly wrought allegory of tribal agony "Pterodactyl, Pirtha, and Puran Sahay," Ms. Devi links the specific fate of tribals in India to that of marginalized peoples everywhere. Gayatri Spivak's readings of these stories connect the necessary "power lines" within them, not only between local and international structures of power (patriarchy, nationalisms, late capitalism), but also to the university.

When Devil Married God

Story in the form of a novel of the assassination of India's saintly leader, Mahatma Gandhi, in January, 1948.

Minaret

Translated by Taslima Nasreen herself, the poems in *All About Women* reflect the passion which makes her a feminist, a staunch fighter for women's rights and against religious fundamentalism and oppression against women. They speak for a broad and secular outlook. As she says in one of her poems, 'From now on let religion's other name be humanity'.

100 Poems of Taslima Nasreen

This work of research by Taj Hashmi puts the issue of women's position in society in historical as well as Islamic perspectives to relate it to the objective conditions in Bangladesh. In eight illuminating chapters, he narrates how Quranic edicts about women have through the ages been misinterpreted by the power elites and the mullahs to suppress women. Even NGOs are not immune from exploiting them. Hope, according to the author, lies in the literacy and economic self-reliance of the Bangladeshi women.

A Life in Diplomacy

Both a dictionary and a glossary of terms that attempts to cover the entire field of Islam. Also included are brief biographies of eminent Muslims and Islamic scholars throughout the ages, providing a ready reference to authorities normally cited.

Taslima Nasrin - The Death Order and its Background

reference book

Lajja

Translated from the Bengali, about Hindu Muslim relations and political use of religion in the Indian subcontinent and its effect on Bangladesh.

Revenge

A retelling of the Ramayana, a wondrous tale of cosmic adventure from India, immerses us in a world of heroes and gods and demons. Like another famous Hindu epic, the Mahabharata, it is both a teaching saga and an entertaining story of the eternal struggle between good and evil.

Imaginary Maps

Articles with reference chiefly to Bangladesh and India.

Nine Hours to Rama

'This brave and timely book should be required reading for every Indian.'--Nayantara Sahgal In this revised paperback edition of his best-selling book, Ravish Kumar, one of our bravest and most mature public voices, examines why debate and dialogue have given way to hate and intolerance in India, how elected representatives, the media and other institutions are failing us, and looks at ways to repair the damage to our democracy. A new introduction and two additional essays examine developments since the election results of May 2019.

Exile

All about Women
