How Faith Works - Part Two - How Faith Works - Part Two by Roberts Liardon 56,886 views 3 years ago 59 minutes - Dr Roberts Liardon Presents: Fred Price Week.

Fundamentals of Faith

Faith Is the Evidence

We Walk by Faith and Not by Sight

The Duality of Existence

Biblical Example of the Duality of Existence

You Are a Spirit You Have a Soul and You Live inside of a Physical Body

If Ever Occurred to You that Maybe God Has Given You Credit for Having Enough Sins Credit for Loving Him Enough Credit for Desiring To Walk in His Word Enough that You Would Not Deliberately Desire Something Unholy Unclean Hurtful or Harmful Knowing that the Bible Says Your Body Is the Temple of the Holy Spirit That God Dwells in You and that You Would Not Deliberately Put Something in You That Would Destroy You Maybe God's Giving You Credit for Having that Much Sense and that's Why He Can Afford To Say What Things Soever You Desire Hmm See We've Been Losing Out on God's Blessing

And You Know What There's Only One Way You Can Delight Yourself in the Lord the Way You Delight Yourself in the Lord Is by Delighting Yourself in His Word because God and His Word Are One You CanNot Separate God from His Word any More than We Can Separate You from Your Word I Mean if Your Word Is No Good that Means You Are no Good if I Can't Count on Your Word That Means I Can't Count on You because You and Your Word Are One God in His Word or One if I Can't Count on His Word I Can't Count on God

And Then Giving Him an Opportunity To Fulfill His Word if He Does Everything That He Said He'LL Do in His Word Then You Know What You Can Say about God You Can Count on God You Can Count on His Word Isn't That Right so He Said Delight Thyself Also in the Lord the Only Way You Can Delight Yourself in the Lord Dear Friend Is by Delighting Yourself in His Word Alright Now Turn to John's Gospel Chapter 15 We'Re Talking about How Faith Works and We'Re Dealing with some Fundamental Principles Here We'Re Talking Now about How To Put the Mechanics into Operation We've We Found Out about the Essential Ingredients Now We'Re Finding Out How To Operate in Them and Jesus

We'Re Talking Now about How To Put the Mechanics into Operation We've We Found Out about the Essential Ingredients Now We'Re Finding Out How To Operate in Them and Jesus Said in Mark 11 : 24 What Things soever He Desire and What I'M Doing Now Is To Establish or I'M Attempting To Establish for You What the Bible Says Concerning Our Desires because as I Said I Used To Hear the Fact that When You'Re Not Supposed To Desire Anything all You Supposed Do Say the Lord's Will Be There Whatever the Lord Wills Whatever God Want but We Never Really Stop To Think about It I Mean that's Not GonNa Do Us any Good What God Wants as Such I Mean I'M the One That Has To Drive the Car I'M the One That Has To Eat the Food I'M the One That Has To Taste It I'M the One That Has To Wear the Clothes

And My Word Abides in You if You Do that You'Re Going To Know What the Will of God Is You'Re GonNa Know Your Covenant Rights You'Re Going To Know What Has Been Bought and Paid for by the Blood of Christ and What Rightfully Belongs to You You'Re Going To Know What Would Please

the Heavenly Father and You'Re Also Going To Know What Would Displease Him You'D Know What Would Be Harmful and Hurtful to You and What Jesus Is Saying Is that if You Abide in Me and My Words Abide in You You Will Never Desire To Have Something That Is Inconsistent with the Godly Life You'Li Never Desire To Have Something That Will Not that Will Hurt or Harm You You Will Not Desire Anything That Would Be Ungodly

So Jesus Has Given You Credit for Having that Kind of Commitment to Him and so He Can Afford To Say Ask What She Will He Said Delight Thyself Also in the Lord and He Shall Give You the Desires of Your Heart He Said if He Abide in Me Live in Settle Down in Take Up Residence in Me and My Word Lives in Settles Down in and Takes Up Residence in You He Shall Ask What He Will and It Shall Be Done for You of My Father Which Is in Heaven Alright Let's Go Back to Mark 11 : 24 a Mark 11 : 24 Now in Mark 11 : 24

A Walk in the Woods

God only knows what possessed Bill Bryson, a reluctant adventurer if ever there was one, to undertake a gruelling hike along the world's longest continuous footpath—The Appalachian Trail. The 2,000-plus-mile trail winds through 14 states, stretching along the east coast of the United States, from Georgia to Maine. It snakes through some of the wildest and most spectacular landscapes in North America, as well as through some of its most poverty-stricken and primitive backwoods areas. With his offbeat sensibility, his eye for the absurd, and his laugh-out-loud sense of humour, Bryson recounts his confrontations with nature at its most uncompromising over his five-month journey. An instant classic, riotously funny, A Walk in the Woods will add a whole new audience to the legions of Bill Bryson fans.

A Walk in the Woods

In the company of his friend Stephen Katz (last seen in the bestselling Neither Here nor There), Bill Bryson set off to hike the Appalachian Trail, the longest continuous footpath in the world. Ahead lay almost 2,200 miles of remote mountain wilderness filled with bears, moose, bobcats, rattlesnakes, poisonous plants, disease-bearing ticks, the occasional chuckling murderer and - perhaps most alarming of all - people whose favourite pastime is discussing the relative merits of the external-frame backpack. Facing savage weather, merciless insects, unreliable maps and a fickle companion whose profoundest wish was to go to a motel and watch The X-Files, Bryson gamely struggled through the wilderness to achieve a lifetime's ambition - not to die outdoors.

A Walk in the Woods

NEW YORK TIMES BESTSELLER • The classic chronicle of a “terribly misguided and terribly funny” (The Washington Post) hike of the Appalachian Trail, from the author of A Short History of Nearly Everything and The Body “The best way of escaping into nature.”—The New York Times Back in America after twenty years in Britain, Bill Bryson decided to reacquaint himself with his native country by walking the 2,100-mile Appalachian Trail, which stretches from Georgia to Maine. The AT offers an astonishing landscape of silent forests and sparkling lakes—and to a writer with the comic genius of Bill Bryson, it also provides endless opportunities to witness the majestic silliness of his fellow human beings. For a start there’s the gloriously out-of-shape Stephen Katz, a buddy from Iowa along for the walk. But A Walk in the Woods is more than just a laugh-out-loud hike. Bryson’s acute eye is a wise witness to this beautiful but fragile trail, and as he tells its fascinating history, he makes a moving plea for the conservation of America’s last great wilderness. An adventure, a comedy, and a celebration, A Walk in the Woods is a modern classic of travel literature. NOW A MAJOR MOTION PICTURE

A Walk in the Woods (Movie Tie-In)

Soon to be a major motion picture starring Robert Redford and Nick Nolte. The Appalachian Trail stretches from Georgia to Maine and covers some of the most breathtaking terrain in America-majestic mountains, silent forests, sparking lakes. If you're going to take a hike, it's probably the place to go. And Bill Bryson is surely the most entertaining guide you'll find. He introduces us to the history and ecology of the trail and to some of the other hardy (or just foolhardy) folks he meets along the way-and a couple of bears. Already a classic, "A Walk in the Woods " will make you long for the great outdoors (or at least a comfortable chair to sit and read in).

ABOUT THE BOOK There was a time in my life when I wanted to be Bill Bryson, when I thought, If this is what a writer does, I want to be a writer. He has an uncanny knack for unearthing the hilarity in the most mundane and shoving it in your face, for meeting the most insufferable, strange, and fascinating people, for doling out the perfect amount of bitter sarcasm, and for otherwise educating readers in an incredibly entertaining way. He's the guy you want at your dinner party, who you'd trust as your precious phone-a-friend. I was in college the first time I stumbled upon the writer. I wandered into a small bookshop one sunny afternoon to kill some time. A Walk in the Woods was propped up in the travel writing section with a staff recommendation card that had "one of my ALL TIME faves" scrawled on it in thick black Sharpie ink. I half-wondered how a book with what I considered to be an unimpressive cover could be an ALL TIME fave, so I flipped to a random page and started reading. It's safe to say that within seconds I was smiling one of those broad, dopey smiles, and within minutes, giggling stupidly to myself. I'm pretty sure that I actually started to work up a sweat, as I stood there in the now deafeningly silent shop, reading in my overly warm university hoody, suppressing my would-be shrieks. I've learned since then that Bryson should be read in the privacy of one's own home. Where one can feel free to snort, chuckle, guffaw, and otherwise revel in a cathartic case of the giggles. I used to read passages of Bryson out loud to a roommate of mine and can recall one particular scene from Notes From a Small Island that left us both short of breath for minutes. But it was with Bryson's 1998 bestseller that I had my first affair, and which has become, albeit very unoriginally, one of my all time faves. **MEET THE AUTHOR** Tiffanie Wen is a professional writer from the San Francisco Bay Area who's written for Newsweek, Flux Hawaii, Ode Magazine and more. When she's not working, she enjoys exploring new places around the world and spending time with her dogs, Rocky and Benny. **EXCERPT FROM THE BOOK** After living in the UK for over 20 years, famed travel writer Bill Bryson relocated his family to Hanover, New Hampshire and discovered that the Appalachian Trail ran through his small town. He decided to hike the 2,100-mile long trail and acquired the company of his old friend Stephen Katz. Without taking notes on the trail, Bryson still managed to write the wildly popular travel book, published in 1998, that held a seemingly permanent residence on New York Times Bestseller list. A Walk in the Woods is quintessential Bryson, hilarious at times and frightening at others, he takes the layman out into the woods, without ever asking him to ever leave his home. In 2008, Robert Redford confirmed rumors that there are plans to develop A Walk in the Woods into a feature film, starring Redford as Bryson. Today, the book is still one of the most popular pieces of work written about the Appalachian Trail. Buy a copy to keep reading!

Summary of Bill Bryson's A Walk in the Woods

In the company of his friend Stephen Katz (last seen in the bestselling *Neither Here nor There*), Bill Bryson set off to hike the Appalachian Trail, the longest continuous footpath in the world. Ahead lay almost 2,200 miles of remote mountain wilderness filled with bears, moose, bobcats, rattlesnakes, poisonous plants, disease-bearing ticks, the occasional chuckling murderer and - perhaps most alarming of all - people whose favourite pastime is discussing the relative merits of the external-frame backpack. Facing savage weather, merciless insects, unreliable maps and a fickle companion whose profoundest wish was to go to a motel and watch *The X-Files*, Bryson gamely struggled through the wilderness to achieve a lifetime's ambition - not to die outdoors.

A Walk in the Woods

A 41-year-old engineer quits his job to hike the Appalachian Trail. This is a true account of his hike from Georgia to Maine, bringing to the reader the life of the towns and the people he meets along the way.

Awol on the Appalachian Trail

"I come from Des Moines. Somebody had to." And, as soon as Bill Bryson was old enough, he left. Des Moines couldn't hold him, but it did lure him back. After ten years in England he returned to the land of his youth, and drove almost 14,000 miles in search of a mythical small town called Amalgam, the kind of smiling village where the movies from his youth were set. Instead he drove through a series of horrific burgs, which he renamed Smellville, Fartville, Coleslaw, Coma, and Doldrum. At best his search led him to Anywhere, USA, a lookalike strip of gas stations, motels and hamburger outlets populated by obese and slow-witted hicks with a partiality for synthetic fibres. He discovered a continent that was doubly lost: lost to itself because he found it blighted by greed, pollution, mobile homes and television; lost to him because he had become a foreigner in his own country.

The Lost Continent

Combined in one volume are Bryson's *Down Under*, an account of his memorable walk across Australia, and *A Walk in the Woods*, that tells of his lengthy stroll along the longest continuous footpath in the world - The Appalachian Trail, with his old friend Stephen Katz. The Trail stretches along the East Coast of the United States, from Georgia to Maine, through some of the most arresting and celebrated landscapes in America - the Smoky Mountains, Shenandoah National Park, the Berkshire Hills of Massachusetts and the Great North Woods of Maine.

Down Under, Or, In a Sunburned Country

"At the ages of 25 and 21, Lucy and Susan Letcher set out to thru-hike the entire 2,175 miles of the Appalachian Trail--barefoot. Quickly earning themselves the moniker of the Barefoot Sisters, the two begin their journey at Mount Katahdin and spend eight months making their way to Springer Mountain in Georgia. As they hike, they write about their adventures through the 100-mile Wilderness, the rocky terrain of Pennsylvania, and snowfall in the great Smoky Mountains. It's as close as one can get to hiking the Appalachian Trail without strapping on a pack"--Back cover.

Walkabout

In 1948, the Appalachian Trail had been a continuous, 2,000-mile foot-path for 11 years, but no one had walked its length alone in a continuous journey -- until Earl Shaffer, a quiet Pennsylvanian, became the first of what is now more than 5,600 A.T. "thru-hikers" and a hiking legend, walking from Georgia to Maine as spring arrived to each area. In 1998, he hiked again as a 50th-anniversary celebration, to far greater publicity.

Bill Bryson's first travel book, *The Lost Continent*, was unanimously acclaimed as one of the funniest books in years. In *Neither Here nor There* he brings his unique brand of humour to bear on Europe as he shoulders his backpack, keeps a tight hold on his wallet, and journeys from Hammerfest, the northernmost town on the continent, to Istanbul on the cusp of Asia. Fluent in, oh, at least one language, he retraces his travels as a student twenty years before. Whether braving the homicidal motorists of Paris, being robbed by gypsies in Florence, attempting not to order tripe and eyeballs in a German restaurant or window-shopping in the sex shops of the Reeperbahn, Bryson takes in the sights, dissects the culture and illuminates each place and person with his hilariously caustic observations. He even goes to Liechtenstein.

One of Ours

An ambitious and mesmerizing novel from the bestselling author of *Rules of Magic*. *The Dovekeepers* is "striking....Hoffman grounds her expansive, intricately woven, and deepest new novel in biblical history, with a devotion and seriousness of purpose" (*Entertainment Weekly*). Nearly two thousand years ago, nine hundred Jews held out for months against armies of Romans on Masada, a mountain in the Judean desert. According to the ancient historian Josephus, two women and five children survived. Based on this tragic and iconic event, Hoffman's novel is a spellbinding tale of four extraordinarily bold, resourceful, and sensuous women, each of whom has come to Masada by a different path. Yael's mother died in childbirth, and her father, an expert assassin, never forgave her for that death. Revka, a village baker's wife, watched the murder of her daughter by Roman soldiers; she brings to Masada her young grandsons, rendered mute by what they have witnessed. Aziza is a warrior's daughter, raised as a boy, a fearless rider and expert marksman who finds passion with a fellow soldier. Shirah, born in Alexandria, is wise in the ways of ancient magic and medicine, a woman with uncanny insight and power. The lives of these four complex and fiercely independent women intersect in the desperate days of the siege. All are dovekeepers, and all are also keeping secrets—about who they are, where they come from, who fathered them, and whom they love.

Neither Here, Nor There

A short biography of American author and Anglophile Bill Bryson.

The Dovekeepers

In 2017, professional runner Rickey Gates ran 3,700 miles across the continental United States with just a small backpack and an anthropologist's curiosity to discover the divided America in which we live. In the book *Cross Country*, Gates documents this epic experience from South Carolina to San Francisco, sharing first-person essays, interviews, and over 200 photographs of the ordinary and extraordinary people and places he saw along the way. While Gates delivers unparalleled insight into the extreme athletic and mental challenge of this transcontinental run, running is not the core focus of *Cross Country*—it is a story of the remarkable people across the United States who we would otherwise never meet. • A photographic travelogue that follows along Rickey Gates's run across the country, and the individuals who live in it • Filled with portraits, landscapes, and collages of towns and communities that most people have never seen • From South Carolina to San Francisco, the five-month-long run covers 3,700 miles of hiking trails, rivers, and roads. Gates slept in the rain, carried meager possessions on his back, ran through the night, endured mental and physical challenges, and survived on a staple of gas station hot dogs and Pop Tarts. Delivering a patchwork portrait of America, Gates's captivating story captures the spirit of our country—that grit, determination, and compassion are qualities that can unite us all. • Perfect gift for runners, hikers, and lovers of the outdoors, as well as fans of travelogues, photography, and photo-journalism • A great pick for those who loved *Humans of New York* by Brandon Stanton, *The Oregon Trail: A New American Journey* by Rinker Buck, and *A Walk in the Woods: Rediscovering America on the Appalachian Trail* by Bill Bryson. • A unique perspective of the United States

WINNER: NATIONAL GEOGRAPHIC TRAVELLER READER AWARD FOR BEST TRAVEL BOOK OF THE YEAR 2016 WINNER: BOOKS ARE MY BAG READER AWARD FOR BEST AUTOBIOGRAPHY OR BIOGRAPHY 2016 Twenty years ago, Bill Bryson went on a trip around Britain to celebrate the green and kindly island that had become his adopted country. The hilarious book that resulted, *Notes from a Small Island*, was taken to the nation's heart and became the bestselling travel book ever,

and was also voted in a BBC poll the book that best represents Britain. Now, to mark the twentieth anniversary of that modern classic, Bryson makes a brand-new journey round Britain to see what has changed. Following (but not too closely) a route he dubs the Bryson Line, from Bognor Regis to Cape Wrath, by way of places that many people never get to at all, Bryson sets out to rediscover the wondrously beautiful, magnificently eccentric, endearingly unique country that he thought he knew but doesn't altogether recognize any more. Yet, despite Britain's occasional failings and more or less eternal bewilderments, Bill Bryson is still pleased to call our rainy island home. And not just because of the cream teas, a noble history, and an extra day off at Christmas. Once again, with his matchless homing instinct for the funniest and quirkiest, his unerring eye for the idiotic, the endearing, the ridiculous and the scandalous, Bryson gives us an acute and perceptive insight into all that is best and worst about Britain today.

The Road to Little Dribbling

Bill Bryson has the rare knack of being out of his depth wherever he goes - even (perhaps especially) in the land of his birth. This became all too apparent when, after nearly two decades in England, the world's best-loved travel writer upped sticks with Mrs Bryson, little Jimmy et al. and returned to live in the country he had left as a youth. Of course there were things Bryson missed about Blighty but any sense of loss was countered by the joy of rediscovering some of the forgotten treasures of his childhood: the glories of a New England autumn; the pleasingly comical sight of oneself in shorts; and motel rooms where you can generally count on being awakened in the night by a piercing shriek and the sound of a female voice pleading, 'Put the gun down, Vinnie, I'll do anything you say.' Whether discussing the strange appeal of breakfast pizza or the jaw-slackening direness of American TV, Bill Bryson brings his inimitable brand of bemused wit to bear on that strangest of phenomena - the American way of life.

The Body

The powerful and affirming story of a father's journey with his teenage daughter to the far reaches of Alaska Alaska's Arctic National Wildlife Refuge, home to only a handful of people, is a harsh and lonely place. So when James Campbell's cousin Heimo Korth asked him to spend a summer building a cabin in the rugged Interior, Campbell hesitated about inviting his fifteen-year-old daughter, Aidan, to join him: Would she be able to withstand clouds of mosquitoes, the threat of grizzlies, bathing in an ice-cold river, and hours of grueling labor peeling and hauling logs? But once there, Aidan embraced the wild. She even agreed to return a few months later to help the Korths work their traplines and hunt for caribou and moose. Despite windchills of 50 degrees below zero, father and daughter ventured out daily to track, hunt, and trap. Under the supervision of Edna, Heimo's Yupik Eskimo wife, Aidan grew more confident in the woods. Campbell knew that in traditional Eskimo cultures, some daughters earned a rite of passage usually reserved for young men. So he decided to take Aidan back to Alaska one final time before she left home. It would be their third and most ambitious trip, backpacking over Alaska's Brooks Range to the headwaters of the mighty Hulahula River, where they would assemble a folding canoe and paddle to the Arctic Ocean. The journey would test them, and their relationship, in one of the planet's most remote places: a land of wolves, musk oxen, Dall sheep, golden eagles, and polar

bears. At turns poignant and humorous, *Braving It* is an ode to America's disappearing wilderness and a profound meditation on what it means for a child to grow up—and a parent to finally, fully let go.

Notes from a Big Country

Winner of the 2014 National Outdoor Book Awards for History/Biography Emma Gatewood told her family she was going on a walk and left her small Ohio hometown with a change of clothes and less than two hundred dollars. The next anybody heard from her, this genteel, farm-reared, 67-year-old great-grandmother had walked 800 miles along the 2,050-mile Appalachian Trail. And in September 1955, having survived a rattlesnake strike, two hurricanes, and a run-in with gangsters from Harlem, she stood atop Maine's Mount Katahdin. There she sang the first verse of "America, the Beautiful" and proclaimed, "I said I'll do it, and I've done it." Grandma Gatewood, as the reporters called her, became the first woman to hike the entire Appalachian Trail alone, as well as the first person—man or woman—to walk it twice and three times. Gatewood became a hiking celebrity and appeared on TV and in the pages of *Sports Illustrated*. The public attention she brought to the little-known footpath was unprecedented. Her vocal criticism of the lousy, difficult stretches led to bolstered maintenance, and very likely saved the trail from extinction. Author Ben Montgomery was given unprecedented access to Gatewood's own diaries, trail journals, and correspondence, and interviewed surviving family members and those she met along her hike, all to answer the question so many asked: Why did she do it? The story of Grandma Gatewood will inspire readers of all ages by illustrating the full power of human spirit and determination. Even those who know of Gatewood don't know the full story—a story of triumph from pain, rebellion from brutality, hope from suffering.

Grandma Gatewood's Walk

In 1995, before leaving his much-loved home in North Yorkshire to move back to the States for a few years with his family, Bill Bryson insisted on taking one last trip around Britain, a sort of valedictory tour of the green and kindly island that had so long been his home. His aim was to take stock of the nation's public face and private parts (as it were), and to analyse what precisely it was he loved so much about a country that had produced Marmite; a military hero whose dying wish was to be kissed by a fellow named Hardy; place names like Farleigh Wallop, Titsey and Shellow Bowells; people who said 'Mustn't grumble', and 'Ooh lovely' at the sight of a cup of tea and a plate of biscuits; and Gardeners' Question Time. *Notes from a Small Island* was a huge number-one bestseller when it was first published, and has become the nation's most loved book about Britain, going on to sell over two million copies.

Bill Bryson goes to Kenya at the invitation of CARE International, the charity dedicated to working with local communities to eradicate poverty around the world. Kenya, generally regarded as the cradle of humankind, is a land of stunning landscapes, famous game reserves, and a vibrant culture, but it also has many serious problems, including refugees, AIDS, drought and grinding poverty. It also provides plenty to worry a nervous traveller like Bill Bryson: hair-raising rides in light aircraft, tropical diseases, snakes, insects and large predators. Bryson casts his inimitable eye on a continent new to him, and the resultant diary, though short in length, contains all his trademark laugh-out-loud wit, wry observation and curious insight. All the author's royalties from this book, as well as all profits, will go to CARE International.

The Appalachian Trail

Bill Bryson's first travel book opened with the immortal line, "I come from Des Moines. Somebody had to." In this deeply funny and personal memoir, he travels back in time to explore the ordinary kid he once was, in the curious world of 1950s Middle America. It was a happy time, when almost everything was good for you, including DDT, cigarettes and nuclear fallout. This is a book about one boy's growing up. But in Bryson's hands, it becomes everyone's story, one that will speak volumes especially to anyone who has ever been young.

Unique encounters with wild birds from the acclaimed scientist and “a dedicated watcher happy to knock down the fourth wall of zoology” (The Wall Street Journal). In his modern classics *One Man's Owl* and *Mind of the Raven*, Bernd Heinrich has written memorably about his relationships with wild ravens and a great horned owl. In *One Wild Bird at a Time*, Heinrich returns to his great love: close, day-to-day observations of individual wild birds. There are countless books on bird behavior, but Heinrich argues that some of the most amazing bird behaviors fall below the radar of what most birds do in aggregate. Heinrich's “passionate observations [that] superbly mix memoir and science” lead to fascinating questions—and sometimes startling discoveries (The New York Times Book Review). A great crested flycatcher, while bringing food to the young in their nest, is attacked by the other flycatcher nearby. Why? A pair of Northern flickers hammering their nest-hole into the side of Heinrich's cabin deliver the opportunity to observe the feeding competition between siblings, and to make a related discovery about nest-cleaning. One of a clutch of redstart warbler babies fledges out of the nest from twenty feet above the ground, and lands on the grass below. It can't fly. What will happen next? Heinrich “looks closely, with his trademark ‘hands-and-knees science’ at its most engaging, [delivering] what can only be called psychological marvels of knowing” (The Boston Globe). “An engaging memoir of the opportunities for doing scientific research without leaving one's own backyard.”—Kirkus Reviews
