Sea-Dogs All! (Illustrated Edition) (Dodo Press)

Captain Ahab's obsession with the white whale will seem like a minor eccentricity compared to the tales in this beautifully written adventure story about life on the high seas.

Ahab's Trade

Our young heroes little expected to be favored with so rare an experience as a trip under the sea in one of the great submarines. In this book the author accurately describes the submarine in action, and the many interesting features of this remarkable fighting craft are made clear to the reader by a series of splendid line drawings.

The South Sea Whaler

First published anonymously in 1861 under the name of "A Roving Printer," there has been much speculation about the true identity of the author who has since been named as John D Jones although there is no definitive proof of this. The book narrates the tale of a five year whaling voyage out of New Bedford on the *Emily Morgan*, giving an account of the day-to-day occupations of two young men who shipped on the whaler, supplying information on whales and offering vivid descriptions of whaling operations. The ship visited many islands, including Guam, the Hawaiian Islands, Tonga, Juan Fernandez, and Formosa, and the reader is given an insight into life in these far-flung destinations. Illustrated throughout with wood engravings.

The South Sea Whaler

In the following pages an attempt has been made--it is believed for the first time--to give an account of the cruise of a South Sea whaler from the seaman's standpoint. Two very useful books have been published--both of them over half a century ago--on the same subject; but, being written by the surgeons of whale-ships for scientific purposes, neither of them was interesting to the general reader. ["*Narrative of a Whaling Voyage round the Globe*," by F Debell Bennett, F.R.C.S. (2 vols). Bentley, London (1840). "*The Sperm Whale Fishery*," by Thomas Beale, M.R.C.S. London (1835).] They have both been long out of print; but their value to the student of natural history has been, and still is, very great, Dr. Beale's book, in particular, being still the authority on the sperm whale..."

The Sea Journal

Malaita is one of the major islands in the Solomons Archipelago and has the largest population in the Solomon Islands nation. Its people have an undeserved reputation for conservatism and aggression. Making Mala argues that in essence Malaitans are no different from other Solomon Islanders, and that their dominance, both in numbers and their place in the modern nation, can be explained through their recent history. A grounding theme of the book is its argument that, far than being conservative, Malaitan religions and cultures have always been adaptable and have proved remarkably flexible in accommodating change. This has been the secret of Malaitan success. Malaitans rocked the foundations of the British protectorate during the protonationalist Maasina Rule movement in the 1940s and the early 1950s, have heavily engaged in internal migration, particularly to urban areas, and were central to the 'Tension Years' between 1998 and 2003. Making Mala reassesses Malaita's history, demolishes undeserved tropes and uses historical and cultural analyses to explain Malaitans' place in the Solomon Islands nation today.
