The House of Hope

Robin and Joyce Hill lived in a gated community in Beijing. Their family's life was marked by luxury and the security of Robin's job as an engineer. Then one day, as members of their church, they had a chance to tour a state-run orphanage. Haunted by the needs of the children they saw there, for the next four years they tried to help the institute in meaningful ways.

The House of Hope

When Esperanza and her family arrive in the United States from Cuba, they rent a little house, una casita. It may be small, but they soon prove that there's room enough to share with a whole community. "It was a little house. Una casita . . . It was small. It smelled like old wet socks. . . But even though they were far from home, The family was together." As Esperanza and her family settle into their new house, they all do their part to make it a home. When other immigrant families need a place to stay, it seems

only natural for the family in la casita to help. Together they turn the house into a place where other new immigrants can help one another. Esperanza is always the first to welcome them to la casita. It's a safe place in a new land. Terry Catasus Jennings first came from Cuba to the U.S. in 1961, when she was twelve years old. With *The Little House of Hope*, she tells an inspiring, semi-autobiographical story of how immigrants can help each other find their footing in a new country. A Spanish edition, *La Casita de Esperanza*, will be released simultaneously. A Junior Library Guild Gold Standard Selection

After Alba Ashby suffers the Worst Events of Her Life, she finds herself at the door of 11 Hope Street, Cambridge. Once inside, Alba sees that 11 Hope Street is no ordinary place. Past residents include Virginia Woolf, Dorothy Parker, and Agatha Christie, who all stayed there when they, too, had lost hope. With the house's help, Alba decides to risk everything - and embarks on a journey that may even save her life.

From the ashes of her marriage comes the House of Hope—a safe haven for homeless moms and their children. But now those ashes of her destroyed marriage are being stirred again. When her long-gone husband's life hits rock bottom, he reappears and asks for one more chance. And Gabby faces what feels like an impossible choice. Take him back. Or keep moving forward without him. Toward someone new who hasn't betrayed her. Is God redeeming what Gabby thought was gone forever? Or is He leading her down a different path and giving her something—and someone—new?

But when the couple moves to Chicago to accommodate Philip's ambition, Gabby longs for the chance to find real purpose in her own life. A chance encounter with a homeless woman suddenly opens a door she never expected. The women of Manna House Women's Shelter need a Program Director--and she has the right credentials. Gabby's in her element, feeling God's call on her life at last, even though Philip doesn't like the changes he sees in her. But she never anticipated his ultimatum: quit your job at the shelter or risk divorce and losing custody of our sons. In this moment, Gabby's entire foundation shifts. She must find refuge, as in the song they sing at Sunday worship: "Where do I go when there's no one else to turn to . . . I go to the Rock I know that's able, I go to the Rock." House of War (Ben Hope, Book 20)

Religious progressives Buehrens and Parker discuss the political and personal relevance of the progressive theological movement in the early twenty-first century, covering challenges such as the teachings of fundamentalists, with anecdotes about themes such as eschatology, salvation, sin, and the history of ecumenical and universalist movements.

Who Do I Talk To?

Hope into Action, a charity founded by Ed Walker has a vision – of the church at the forefront of the fight against homelessness. Since 2010 it has worked in partnership with churches to supply homes, support, friendship and love for the homeless and marginalized, earning the Guardian's Public Service Award in 2017 and an award from the Centre for Social Justice. Here, Ed tells his story of faith and struggle as he and his wife Rachel stepped out in faith, developed a new theology of sharing and saw both tragic and wonderful outcomes. Visionary, inspiring and touching, Ed's experiences show how we can meet and grow in Christ as we interact with those in the shadows and those hidden in darkness.

When he locks eyes with a steely Victorian girl in a forgotten mirror, he's sure she's one of the fire's victims. If he can unravel the mystery, he can save his sanity . . . and possibly the girl who haunts his dreams. But more than 100 years in the past, the girl in the mirror is fighting her own battles. When her mother disappears and her sinister stepfather reveals his true intentions, Mila and her sister fight to escape Gravenhearst and unravel the house's secrets—before it devours them both.

The House of Hope

Invited into a house where women are allowed to stay for 99 days while they turn their lives around, Alba, who has been struggling with a stalled academic career, learns about the refuge's famous past visitors while embarking on a personal journey of healing.

The House of Hope & Chocolate

You can only walk forward when you learn how to lean. Just months after her husband threw her out of their penthouse and sent their two sons away, Gabrielle Fairbanks is finally getting back on her feet. She has a job she loves at the homeless shelter, an apartment for her and the boys, caring friends, and even a new love interest. Best of all, an unexpected windfall has given her a brand-new dream--a House of Hope for homeless mothers and their children. Piece by piece, Gabby's new life is coming together--but the old one keeps dragging her back. First her husband Philip hints at a reconciliation...then hits her up for a loan to pay his gambling debts. And when Gabby tells him no, he makes a desperate move that puts them all in harm's way. How can she even think of embarking on a new venture when so much is up in the air? Gabby is realizing that she needs something far greater than her own strength or even that of her friends. That to move forward, she must first lean on the only One who knows what the future holds.

Who Do I Lean On?

Elie Wiesel called the genocide of the Armenians during the First World War 'the Holocaust before the Holocaust'. Around one and a half million Armenians - men, women and children – were slaughtered at the time of the First World War. This book outlines some of the historical facts and consequences of the massacres but sees it as its main objective to present the Armenians to the foreign reader, their history but also their lives and achievements in the present that finds most Armenians dispersed throughout the world. 3000 years after their appearance in history, 1700 years after adopting Christianity and almost 90 years after the greatest catastrophe in their history, these 50 'biographical sketches of intellectuals, artists, journalists, and others...produce a complicated kaleidoscope of a divided but lively people that is trying once again, to rediscover its ethnic coherence. Armenian civilization does not consist solely of stories about a far-off past, but also of traditions and a national conscience suggestive of a future that will transcend the present.' [from the Preface]

House of Hope

Raymond Williams possessed unique authority as Britain's foremost cultural theorist and public intellectual. Informed by an unparalleled range of reference and the resources of deep personal experience, his life's work represents a patient, exemplary commitment to the building of a socialist future. This book brings together important early writings including "Culture is Ordinary," "The British Left," "Welsh Culture" and "Why Do I Demonstrate?" with major essays and talks of the last decade. It includes work on such central themes as the nature of a democratic culture, the value of community, Green socialism, the nuclear threat, and the relation between the state and the arts. Here too, collected for the first time, are the important later political essays which undertake a thorough revaluation of the principles fundamental to the idea of socialist democracy, and confirm Williams as a shrewd and imaginative political theorist. In a sober yet constructive assessment of the possibilities for socialist advance, Williams—in the face of much recent intellectual fashion—powerfully reasserts his lifelong commitment to "making hope practical, rather than despair convincing." This valuable collection confirms Raymond Williams as a thinker of rare versatility and one of the outstanding intellectuals of our century.

Portraits of Hope

Life was good for Liz and Jack Sutherland. In eighteen years of marriage they had built a family, a successful law practice, and a warm happy home near San Francisco, in a house on Hope Street. But one Christmas morning, in the midst of joy and children's laughter, tragedy strikes, and Liz is left alone, facing painful questions in the face of unbearable loss. How can she go on without her husband, her partner, her best friend? The months pass, and Liz finds the strength to return to work and tend to her children. Then a devastating accident sends her oldest son to hospital - and brings a doctor called Bill Webster into her life. As the long days of summer blend into autumn, a new relationship offers new hope. With the anniversary of her husband's death approaching, Liz will face one more crisis before she can look back at a year of mourning and change - and ahead to the beginning of a new life, in the house on Hope Street.

The House at the End of Hope Street

House of Hope Novels

Fans of *Before We Were Yours* will adore this USA Today bestselling historical novel: A heartbreaking yet hopeful tale about a brave young woman who gives up everything to help unloved children--and shows that a little bit of kindness can go a long way. Never in a million years did Lauren Greenwood think she would be destitute and without a penny to her name. But when her father mercilessly disowns her in the depths of winter, that is her fate. Now homeless, Lauren finds America in the devastating grip of the Great Depression--children run wild in the icy streets, endless queues for soup kitchens line frosty sidewalks, and desperation hangs in the air. All alone in the world, Lauren finds an orphanage in the sprawling fields of the Virginia countryside, surrounded by snow-topped mountains and magnificent fir trees--a safe haven for those who have nowhere to go. But she is appalled to find children living in shocking conditions, huddled together for warmth, their hunger keeping them awake at night as the temperature plunges. The home for unloved orphans is on the brink of closure and the helpless

innocents may lose the roof over their heads... Lauren, heartbroken by the rejection of her own father, vows to provide these poor orphans with the love she never received. With Christmas just around the corner, she refuses to see them cast out onto the street, where they will not survive. When she sees an advertisement in the local newspaper, with an anonymous benefactor donating money to families crippled by the Depression, it could be the answer to her prayers. Can Lauren save these children who have been rejected by the world? Or in a time of so much suffering, is there simply no hope?

Resources of Hope

When Esperanza and her family arrive in the United States from Cuba, they rent a little house, una casita. It may be small, but they soon prove that there's room enough to share with a whole community. "It was a little house. Una casita . . . It was small. It smelled like old wet socks. . . But even though they were far from home, The family was together." As Esperanza and her family settle into their new house, they all do their part to make it a home. When other immigrant families need a place to stay, it seems only natural for the family in la casita to help. Together they turn the house into a place where other new immigrants can help one another. Esperanza is always the first to welcome them to la casita. It's a safe place in a new land. Terry Catasus Jennings first came from Cuba to the U.S. in 1961, when she was twelve years old. With *The Little House of Hope*, she tells an inspiring, semi-autobiographical story of how immigrants can help each other find their footing in a new country. A Spanish edition, *La Casita de Esperanza*, will be released simultaneously. A Junior Library Guild Gold Standard Selection

Barack Obama's success in becoming President of the United States meant that he dramatically changed the face that his country presented to the world. In this bestselling book, Barack Obama discusses the importance of empathy in politics, his hopes for a different America with different policies, and how the ideals of its democracy can be renewed. With intimacy and self-deprecating humour, Obama describes his experiences as a politician and balancing his family life with his public vocation. His search for consensus and his respect for the democratic process inform every sentence. A senator and a lawyer, a professor and a father, a Christian and a sceptic, Barack Obama has written a book of transforming power that will inspire people the world over.

The Garden of Hope

"Combining a reporter's eye for detail, the breathless narrative rush of an action movie and the generous heart of a hometown boy desperately trying to make sense of a place gone terribly wrong, Downs examines the social and economic disintegration of Hartford, Conn., in the 1990s through the coming-of-age of five African-American teenage boys. These young men-track stars, football players, scholars-try to make the right decisions while local and state politicians squabble over money, drug gangs roam the streets and the middle class-both white and black-flees to the suburbs. Harvey, Derrick, Eric, Hiram and Joshua make a pledge that no matter their future path, they will return to Hartford to rebuild their shattered city. The first half of the book flows with the power and grace of a finely tuned magazine article. Then Downs loses his focus and gets bogged down in a lengthy recounting of the boys' track coach's trial. The narrative shifts from the boys-now young men with growing families and burgeoning careers-to Downs's own struggle with his identity and the declining health of his grandfather. If the narrative splinters, perhaps it is an apt metaphor for the boys' pledge. Just one-Joshua-returned to Hartford. (Apr.)"--Publishers Weekly.

The Little House of Hope

Written by Debra Kidd, *A Curriculum of Hope*: As rich in humanity as in knowledge explores how good curriculum design can empower schools to build bridges between their pupils' learning and the world around them. A great many schools are wondering how they can build a curriculum model that meets the demands of government policy as well as the needs of the children and communities they serve. In *Curriculum of Hope*, Debra illustrates how teachers can deliver learning experiences that genuinely link knowledge to life. Working on the premise that a strong curriculum is supported by five key pillars of practice coherence, credibility, creativity, compassion and community she presents a plethora of examples that demonstrate how schools, parents, pupils and the wider local community can learn together to build from within. Debra enquires into the ways in which schools can create units of work that are both knowledge- and humanity-rich, and challenges the view that the role of children is simply to listen and learn instead advocating their active engagement with local and global issues. She does so by delving into the role of pedagogy as a means of empowering children, and by exploring some of the more overlooked pedagogical tools that can have a great impact on children's learning and well-being story, movement and play as well as some of the recent research into memory and retention. Towards the back of the book you will find case studies demonstrating how teachers can work with both their own and other subject departments across the school to plan in ways that allow for pupil choice, autonomy and responsibility. Furthermore, there are some accompanying planning documents for these examples provided in the appendix (The Seed Catalogue) which you may find useful, and these documents are also available for download. Suitable for teachers and leaders in all schools.

The Book of Hope

Bonnie is scavenging on a beach when she finds a battered old row boat. And under the boat, a bare-footed boy-cold, hungry, and in need of help. The authorities have already been troubling Bonnie and Granda for breaking rules, but how can she leave this boy when he has no-one? Bonnie does her best to keep the boy hidden from the border guards, but as their suspicions grow, she wonders if it's time to escape the life she's always known. Under cover of darkness they set sail to the 'house of light' in search of a new beginning, and a sense of hope.

Houses Made of Wood and Light

American architect Hank Schubart was regarded as a genius for finding the perfect site for a house and for integrating its design into the natural setting, so that his houses appear to be as native to the forest around them as the trees and rocks. Salt Spring Island, one of the Gulf Islands in British Columbia, Canada, offered him a place to create the kind of architecture that responded to its surroundings, and Schubart-designed homes populate the island. Built of wood and glass, suffused with light, and oriented to views, they display characteristic features: random-width cedar siding, exposed beams, rusticated stonework. Over time, Schubart's homes on Salt Spring Island came to be considered uniquely Gulf Islands homes. This inviting book offers the first introduction to the life and architecture of West Coast modernist Henry A. Schubart, Jr. (1916-1998). While still in his teens, Schubart persuaded Frank Lloyd Wright to accept him as a Taliesin Fellow, and his year's apprenticeship in the master's workshop taught him principles of designing in harmony with nature that he explored throughout the rest of his life. Michele Dunkerley traces Schubart's career from his early practice in San Francisco at the noted firm Wurster, Bernardi & Emmons, to his successful firm with Howard Friedman, to his most lasting professional achievements on Salt Spring Island, where he became the de facto community architect, designing more than 230 residential, commercial, educational, and religious projects. Drawing lessons from his mentors over his decades on the island, he forged an everyday architecture with his mastery of detail and inventiveness. In doing so, he helped define how the island could grow without losing its soul. Color photographs and site plans display Schubart's remarkable homes and other commissions.

A Book of Various Vintage Furniture Made from Wood for the Home

Almost any type of wood could be used to build furniture, but some woods have always been favored for their beauty, durability, and workability. Before 1900, most furniture was made with these woods: walnut, oak, mahogany, rosewood, fruitwoods, and rare wood veneers and inlays were in common use. American Colonial furniture, dependent on local availability, was made with maple, oak, walnut, birch, and cherry, as well as pine. The preferred furniture woods were readily available, so less attractive or durable woods were used only for hidden parts inside a piece. For this reason, pre-1900 furniture is almost always worth restoring. As these preferred woods have become scarcer and more expensive, furniture has been made with more abundant woods; the traditional favorites have become rare. Today, most furniture is made with ash, pine, gum, and poplar; pine, fir, and other inexpensive woods are used for hidden parts. The rare woods are used only for very good furniture, and they're often used in combination with the less expensive woods. Being able to identify the type of wood used for your furniture can help you determine its real value. Wood identification can sometimes be the deciding factor when you aren't sure if a piece is worth refinishing or if it should be thrown away. There's a good chance that a beat-up old dresser, for instance, was built with what today is considered a rare wood. In this book, we'll show you how to make many furniture by step by step!

Wood

Humans have been building homes from wood for thousands of years, and yet, in a contemporary world of option and innovation the most primitive resource could in fact be the most pertinent. Stretching back to historic Japanese houses, becoming synonymous with resort accommodation, and intertwining itself in the modern trend of hygge, its tactility and warmth has influenced countless architectural design movements. A safe, sturdy, and sustainable alternative to concrete, architects are rediscovering wood's universal appeal. *Out of the Woods* documents their progressive and inspiring creations from the foundations up.

P A U L M . P E R K I N S was born in San Diego, California in 1948 and moved to Hawaii in that same year. His father, a submarine sonarman, was stations between Pearl Harbor and San Diego for twenty years. The novel (*Wood Made Flesh*) was a result of Paul's hard work studying at Long Ridge Writers Group, where he was enrolled in Writing Courses, Novel Writing, Short Stories and Magazine Articles. The novel is fiction, however, is inclusive of facts about Paul's life growing up and his interest in the three monotheistic religions of the world. Paul, now 62, has seen prophecies unveiled. He has read and studied hundreds of books and articles about religious prophecies and has concluded that *The Third Secret* is a forewarning of what will take place in our times. Just look around and see what was right 100 years ago is now wrong and what was wrong 100 years ago is now acceptable by our deeply sinful world. This novel, although fictional, is eighty percent factual.

Three teens investigate a mysterious death to break a curse, escape dark forces, and do the right thing in this suspenseful tale for middle schoolers. For as long as the Vickery twins can remember, Lee and his mother have served Memory, while Felix and his father assist Death. This is the Agreement. But one Halloween, Gretchen Whipple smashes her way into their lives. Her bargain is simple: If the twins help her solve the murder of local girl Essie Hasting, she'll help them break the Agreement. The more the three investigate, however, the more they realize that something's gone terribly wrong in their town. Death is on the loose, and if history repeats itself, Essie's might not be the last murder in Poplar Wood . . . Simultaneously heartwarming and delightfully spooky, *The House in Poplar Wood* is a story about

a boy's desire to be free, a girl's desire to make a difference, and a family's desire to be together again. Praise for *The House in Poplar Wood* "With expert pacing and detailed worldbuilding, the story unfurls into a smart, thrilling mystery, equal parts dark and gentle, that explores questions about freedom, power, and choosing one's master." —Publishers Weekly, starred review "The suspenseful plot is unspooled slowly, but the magical elements, evocative, intelligent writing, and ever ratcheting suspense keep it interesting." —Kirkus Reviews, starred review "The foreboding atmosphere perfectly matches the dark mystery and high stakes confronting the middle-schoolers." —Booklist "A breathtaking and elegant tale with vivid prose, a spooky setting, and a fiercely determined group of unlikely friends. Will have readers flipping pages late into the night." —Ashley Herring Blake, acclaimed author of *Ivy Aberdeen's Letter to the World*

Then he ran off by himself to the top of the little hill, and stood looking over the lake. All this time he had scarcely answered Mr. Curtis' questions. He was thinking. At last his face lighted up with a smile, and he exclaimed, -- "I have it; just the thing. How would you like a stone house? You have plenty of material on your land." "A stone house is too damp," answered Mr. Curtis, shaking his head. "No, I prefer a well-made wooden house with back plaster and tarred paper to keep out the wind. I can use all my stone in building walls around my farm." "How much land is there?" "Sixty acres in this piece; and I have just purchased twenty more of wood; fo
