Spartan abs. Too blunt for everybody's good. Moody, broody, mysterious, and totally up in my business. I thought Heart's Edge would be safe. No two timing exes. No pink slips. No hulking, loud, inked up -Oh. Right. Leave it to a badass to bring the drama piping hot. Then he goes and saves a cat who means the world to my little niece. Making me a mushy little puddle of wishes. Wishing I didn't know his savage kiss like my own reflection. Or how erasing tears must be his superpower. Wishing I'd never poked his scary past. Or heard him growl when he swears it's not our future. There's no way this works. He's no white knight. I'm no princess. I need to go. He says stay. Even our sheet-ripping nights can't work miracles. Only an answer as the danger closes in. Is Warren my perfect slice of hero? From Wall Street Journal bestselling author Nicole Snow - a twisted small town love story. See how far a damaged alpha goes to claim the feisty damsel in distress under his skin. Full length romance novel with a rollicking Happily Ever After.

Everyone has secrets. Although, I was a master at concealing mine. But part of hiding was deception, and I'd become a veritable Pinocchio. He was like two different people-Eli and Dr. Paxton. While I knew the latter would turn out to be an incredible teacher, the idea of Eli being more threw me for a loop. I couldn't separate the two, and it seemed vastly inappropriate and strangely alluring. The practical side of me needed to win the war inside my mind. I had to please the teacher, not the man. But once I'd cross that line, there was no turning back. For either of us.

Hero at the Fall

What if saving the world was good for you? That's my promise in *The Happy Hero*. That you can be happier and healthier simply by making a difference to the world around you. I call this formula 'positive+action', and after decades of researching, writing about and living positive+action I've become convinced this the answer to enjoying a better life. I want to tell you stories of the people who have already discovered this secret. And set out the principles for how to feel good by doing good. Which sounds simple. Except that there's so much that needs to change, where do you even start? Everyday our media finds another international crisis or health scare, another predator or disaster. We are subject to an overwhelming barrage of fear and negativity each time we open our phones or switch on the TV. We have been trained out of happiness by these stories and turned into the victims of our own lives rather than the heroes. *The Happy Hero* will offer a simple solution: stop worrying about the world and start making it better. Because new research shows that trying to make a difference, even in the smallest ways, can extend your life, improve your relationships and even help you recover from a cold! And luckily, many of the changes we need to make to build a better world, we should want to do anyway. In *The Happy Hero* I'll share the emerging evidence of how heroism can make you happy. I'll also provide practical examples for getting started. This book will even take on the most intractable and complicated problem facing all of us: climate change. And we'll discover how solving it will solve so much more. The UK's top medical journal recently reported that the best way to protect your heart and slim your waistline is to count the carbon rather than calories in your food. The US Military insists that renewable energy will make our countries energy independent and help reduce conflict by providing cheaper sources of power to the poorest. In our own lives, we know that saving energy simply saves money. Together we can cut even huge challenges like climate change down to size. And every step and every action will come with their own reward.

Having lost a precious talking cup, Whetstone is also desperate to cover up his mistake and the two embark on a quarrelsome journey to find it and regain their heroic status. But Loki the trickster God is desperate to get his hands on the cup with a plan to unleash chaos across the nine worlds. Can Whetstone prove himself a hero after all when it matters most? The first in a hilarious and fast-paced trilogy about how to be brave, what it means to be a hero and just how confusing the Norse Gods really are. Fully illustrated throughout, Cat Weldon's *How to Be a Hero* is perfect for fans of *How to Train Your Dragon* and *Who Let the Gods Out*.
