Body of Water

A poet's memoir of taking an unplanned trip to the Bahamas and meeting a fishing guide who changed his life: "A splendid book."—Jim Harrison in The New York Times Book Review Chris Dombrowski, a poet and passionate fly-fisher, had a second child on the way and an income hovering perilously close to zero when he received a miraculous email: can't go, it's all paid for, just book a flight to Miami. Thus began a journey that would eventually lead to the Bahamas and to David Pinder, a legendary bonefishing guide. Bonefish are prized for their elusiveness and their tenacity. And no one was better at hunting them than Pinder, a Bahamian whose accuracy and patience were virtuosic. He knows what the fish think, said one fisherman, before they think it. By the time Dombrowski meets him, though, Pinder has been abandoned by the industry he helped build. With cataracts from a lifetime of staring at the water and a tiny severance package after forty years of service, he watches as the world of his beloved bonefish is degraded by tourists he himself did so much to attract. But as Pinder's stories unfold, Dombrowski discovers a profound integrity and wisdom in the bonefishing guide's life. "A poet and Montana-based fly-fishing guide recounts his trip to the Bahamas, where he met an aging guide who taught him about fish and life...loosely links reflections on his experiences catching and releasing bonefish, the history and geography of the Bahamas, the construction of fishing rods, stories he has told his children, and the difference between fishing or hunting for sport and for dinner."—Kirkus Reviews "Thematically complex, finely wrought, and profoundly life-affirming."—Publishers Weekly (starred review)

Glaucus, Or, The Wonders of the Shore

From the bestselling author of Saban, 4th and Goal, and Sowbelly comes the thrilling, untold story of the quest for the world record tarpon on a fly rod—a tale that reveals as much about Man as it does about the fish. In the late 1970s and early 1980s, something unique happened in the quiet little town on the west coast of Florida known as Homosassa. The best fly anglers in the world—Lefty Kreh, Stu Apte, Ted Williams, Tom Evans, Billy Pate, and others—all gathered together to chase the same Holy Grail: The world record for the world's most glamorous and sought-after fly rod species, the tarpon. The

anglers would meet each morning for breakfast. They would compete out on the water during the day, eat dinner together at night, socialize, and party. Some harder than others. The world record fell nearly every year. But records weren't the only things that were broken. Hooks, lines, rods, reels, hearts, and marriages didn't survive, either. The egos involved made the atmosphere electric. The difficulty of the quest made it legitimate. The drugs and romantic entanglements that were swept in with the tide would finally make it all veer out of control. It was a confluence of people and place that had never happened before in the world of fishing and will never happen again. It was a collision of the top anglers and the top species of fish which would lead to smashed lives for nearly all involved, man and fish alike. In *Lords of the Fly*, Burke, an obsessed tarpon fly angler himself, delves into this incredible moment. He examines the growing popularity of the tarpon, an amazing fish has been around for 50 million years, can live to 80 years old and can grow to 300 pounds in weight. It is a massive, leaping, bullet train of a fish. When hooked in shallow water, it produces "immediate unreality," as the late poet and tarpon obsessive, Richard Brautigan, once described it. Burke also chronicles the heartbreaking destruction that exists as a result—brought on by greed, environmental degradation, and the shenanigans of a notorious Miami gangster—and how all of it has shaped our contemporary fishery. Filled with larger-than-life characters and vivid prose, *Lords of the Fly* is not only a must read for anglers of all stripes, but also for those interested in the desperate yearning of the human condition.

Lords of the Fly

A rich, poetic, and socially relevant version of the great spiritual-philosophical classic of Taoism, the *Tao Te Ching*—from a legendary literary icon Most people know Ursula K. Le Guin for her extraordinary science fiction and fantasy. Fewer know just how pervasive Taoist themes are to so much of her work. And in *Lao Tzu: Tao Te Ching*, we are treated to Le Guin's unique take on Taoist philosophy's founding classic. Le Guin presents Lao Tzu's time-honored and astonishingly powerful philosophy like never before. Drawing on a lifetime of contemplation and including extensive personal commentary throughout, she offers an unparalleled window into the text's awe-inspiring, immediately relatable teachings and their inestimable value for our troubled world. Jargon-free but still faithful to the poetic beauty of the original work, Le Guin's unique translation is sure to be welcomed by longtime readers of the *Tao Te Ching* as well as those discovering the text for the first time.

Lao Tzu: Tao Te Ching

Winner of the International Lannan Literary Award for Nonfiction Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patters) that we have only lately come to think of as "inanimate." How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the breathing earth? In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which--even at its most abstract--echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.

Comfort

Narrated by both Henry Cockburn and his father Patrick, this is the extraordinary story of the eight years since Henry's descent into schizophrenia- years he has spent almost entirely in hospitals- and his family's struggle to help him recover.

The Spell of the Sensuous

"DLP, Developmental Leadership Program; Australian Aid; Oxfam."

Henry's Demons

The eternal conflict between the will of man and the power of nature, as expressed by the sea. Contains a realistic and rhapsodical description of the Needles, the pointed rocks in the English Channel, and a man's terrifying fight with an octopus.

How Change Happens

Presents five hundred-one critical reading questions to prepare for the SAT I and other tests and includes skill builders on different subject matter such as U.S. history and politics, arts and humanities, health and medicine, literature and music, sports, science, and social studies.

The Toilers of the Sea

Do unto others as you would others should do to you. You can never be rude if you bear the rule always in mind, for what lady likes to be treated rudely? True Christian politeness will always be the result of an unselfish regard for the feelings of others, and though you may err in the ceremonious points of etiquette, you will never be im polite. Politeness, founded upon such a rule, becomes the expression, in graceful manner, of social virtues. The spirit of politeness consists in a certain attention to forms and ceremonies, which are meant both to please others and ourselves, and to make others pleased with us ;a still clearer definition may be given by saying that politeness is goodness of heart put into daily practice; the.re can be no true, politeness without kindness, purity, singleness of heart, and sensibility. Many believe that politeness is but a mask worn in the world to conceal bad passions and impulses, and to make a show of possessing virtues not really existing in the heart; thus, that politeness is merely hypocrisy and dissimulation. Do not believe this; be certain that those who profess such a doctrine are practising themselves the deceit they condemn so much.

501 Critical Reading Questions

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin

Harpers Weekly

Water acquisition, storage, allocation and distribution are intensely contested in our society, whether, for instance, such issues pertain to a conflict between upstream and downstream farmers located on a small stream or to a large dam located on the border of two nations. Water conflicts are mostly studied as disputes around access to water resources or the formulation of water laws and governance rules. However, explicitly or not, water conflicts nearly always also involve disputes among different philosophical views. The contributions to this edited volume have looked at the politics of contested knowledge as manifested in the conceptualisation, design, development, implementation and governance of large dams and mega-hydraulic infrastructure projects in various parts of the world. The special issue has explored the following core questions: Which philosophies and claims on mega-hydraulic projects are encountered, and how are they shaped, validated, negotiated and contested in concrete contexts? Whose knowledge counts and whose knowledge is downplayed in water development conflict situations, and how have different epistemic communities and cultural-political identities shaped practices of design, planning and construction of dams and mega-hydraulic projects? The contributions have also scrutinised how these epistemic communities interactively shape norms, rules, beliefs and values about water problems and solutions, including notions of justice, citizenship and progress that are subsequently to become embedded in material artefacts.

Ladies' Book of Etiquette, and Manual of Politéness

Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian.

I Know Why the Caged Bird Sings

'Richly documented and convincingly presented' -- New Society Mods and Rockers, skinheads, video nasties, designer drugs, bogus asylum seekers and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, *Folk Devils and Moral Panics* is essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

Contested Knowledges

"Slow violence" from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war occurs gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today.

Los Angeles Magazine

"As the psalms are a microcosm of the Old Testament, so the Expositions of the Psalms can be seen as a microcosm of Augustinian thought. In the Book of Psalms are to be found the history of the people of Israel, the theology and spirituality of the Old Covenant, and a treasury of human experience expressed in prayer and poetry. So too does the work of expounding the psalms recapitulate and focus the experiences of Augustine's personal life, his theological reflections and his pastoral concerns as Bishop of Hippo."--Publisher's website.

The Illustrated London News

A New York Times bestseller and enduring classic, *All About Love* is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. *All About Love* reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The *Utne Reader* declared bell hooks one of the "100 Visionaries Who Can Change Your Life." *All About Love* is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

LEAVES OF GRASS

Mencius was one of the great philosophers of ancient China, second only in influence to Confucius, whose teachings he defended and expanded. The Mencius, in which he recounts his dialogues with kings, dukes and military men, as well as other philosophers, is one of the Four Books that make up the essential Confucian corpus. It takes up Confucius's theories of jen, or goodness and yi, righteousness, explaining that the individual can achieve harmony with mankind and the universe by perfecting his innate moral nature and acting with benevolence and justice. Mencius' strikingly modern views on the duties of subjects and their rulers or the evils of war, created a Confucian orthodoxy that has remained intact since the third century BCE.

Folk Devils and Moral Panics

The 2020 UNODC Global Report on Trafficking in Persons is the fifth of its kind mandated by the General Assembly through the 2010 United Nations Global Plan of Action to Combat Trafficking in Persons. It covers more than 130 countries and provides an overview of patterns and flows of trafficking in persons at global, regional and national levels, based primarily on trafficking cases detected between 2017 and 2019. As UNODC has been systematically collecting data on trafficking in persons for more than a decade, trend information is presented for a broad range of indicators.

Slow Violence and the Environmentalism of the Poor

Movement Medicine is the kind of instruction manual you'll actually want to read. It is laced with personal stories from the authors' lives that are funny, inspiring and moving, as well as 38 recipes that will change the way you see and feel about yourself and your place in this world. Anybody in a body can take part. So that means you. Take a deep breath. Your drum is calling you. Its rhythm is in your blood. We are being challenged as a species to raise our game. The 9 Gateways are a map and a guide for the critical times we live in. In them, you will see the ancient and the modern, the psychotherapeutic and the shamanic, the devotional and the traditional, the scientific and the mystical, all woven together into material that is strong enough to support you to 'Live Your Dream.'

Expositions of the Psalms 1-32 (Vol. 1)

"Every one of these stories is about YOU." --Anthony de Mello Everyone loves stories; and in this book the bestselling author of Sadhana: A Way to God shares 124 stories and parables from a variety of traditions both ancient and modern. Each story resonates with life lessons that can teach us inescapable truths about ourselves and our world. De Mello's international acclaim rests on his unique approach to contemplation and ability to heighten self-awareness and self-discovery. His is a holistic approach, and in the words of one reviewer: "his mysticism cuts across all times and peoples and is truly a universal invitation." The Song of the Bird uses the familiar yet enduring medium of the story to illustrate profound realities that bring us in touch with the problems and concerns of daily life, as well as with our common spiritual quest. The aim is to develop the art of tasting and feeling the message of each story to the point that we are transformed. "Let the story speak to your heart, not to your brain," the author directs. "This may make something of a mystic out of you." Enhanced by lovely ink drawings, this is indeed a volume to treasure, to share, and to read many times over, for it is everyone's best companion on the road to spiritual growth.

All About Love

When first published, Marshall McLuhan's Understanding Media made history with its radical view of the effects of electronic communications upon man and life in the twentieth century.

Fair Society, Healthy Lives

God-Man: The Word Made Flesh is a unique book which offers an esoteric interpretation of the Holy Bible. The author explains the Bible as a parable for the human body and kundalini awakening. Throughout the book the author explains the connection between the law of nature, astrology and Christianity.

Mencius

Design academics and practitioners are facing a multiplicity of challenges in a dynamic, complex, world moving faster than the current design paradigm which is largely tied to the values and imperatives of commercial enterprise. Current education and practice need to evolve to ensure that the discipline of

design meets sustainability drivers and equips students, teachers and professionals for the near-future. New approaches, methods and tools are urgently required as sustainability expands the context for design and what it means to be a 'designer'. Design activists, who comprise a diverse range of designers, teachers and other actors, are setting new ambitions for design. They seek to fundamentally challenge how, where and when design can catalyse positive impacts to address sustainability. They are also challenging who can utilise the power of the design process. To date, examination of contemporary and emergent design activism is poorly represented in the literature. This book will provide a rigorous exploration of design activism that will re-vitalise the design debate and provide a solid platform for students, teachers, design professionals and other disciplines interested in transformative (design) activism. Design Activism provides a comprehensive study of contemporary and emergent design activism. This activism has a dual aim - to make positive impacts towards more sustainable ways of living and working; and to challenge and reinvigorate design praxis,. It will collate, synthesise and analyse design activist approaches, processes, methods, tools and inspirational examples/outcomes from disparate sources and, in doing so, will create a specific canon of work to illuminate contemporary design discourse. Design Activism reveals the power of design for positive social and environmental change, design with a central activist role in the sustainability challenge. Inspired by past design activists and set against the context of global-local tensions, expressions of design activism are mapped. The nature of contemporary design activism is explored, from individual/collective action to the infrastructure that supports it generating powerful participatory design approaches, a diverse toolbox and inspirational outcomes. This is design as a political and social act, design to enable adaptive societal capacity for co-futuring.

Global Report on Trafficking in Persons 2020

Access to water and sanitation is internationally recognized human right. Yet more than two billion people lack even the most basic of services. The latest United Nations World Water Development Report, Leaving No One Behind, explores the symptoms of exclusion and investigates ways to overcome inequalities.

Movement Medicine

As seen on Oprah's SuperSoul Sunday In a time of social and ecological crisis, what can we as individuals do to make the world a better place? This inspirational and thought-provoking book serves as an empowering antidote to the cynicism, frustration, paralysis, and overwhelm so many of us are feeling, replacing it with a grounding reminder of what's true: we are all connected, and our small, personal choices bear unsuspected transformational power. By fully embracing and practicing this principle of interconnectedness—called interbeing—we become more effective agents of change and have a stronger positive influence on the world. Throughout the book, Eisenstein relates real-life stories showing how small, individual acts of courage, kindness, and self-trust can change our culture's guiding narrative of separation, which, he shows, has generated the present planetary crisis. He brings to conscious awareness a deep wisdom we all innately know: until we get our selves in order, any action we take—no matter how good our intentions—will ultimately be wrongheaded and wronghearted. Above all, Eisenstein invites us to embrace a radically different understanding of cause and effect, sounding a clarion call to surrender our old worldview of separation, so that we can finally create the more beautiful world our hearts know is possible. With chapters covering separation, interbeing, despair, hope, pain, pleasure, consciousness, and many more, the book invites us to let the old Story of Separation fall away so that we can stand firmly in a Story of Interbeing.

The Song of the Bird

Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture. Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie. Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside

technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

Understanding Media

An illustrated exploration of fandom that combines academic essays with artist pages and experimental texts. *Fandom as Methodology* examines fandom as a set of practices for approaching and writing about art. The collection includes experimental texts, autobiography, fiction, and new academic perspectives on fandom in and as art. Key to the idea of “fandom as methodology” is a focus on the potential for fandom in art to create oppositional spaces, communities, and practices, particularly from queer perspectives, but also through transnational, feminist and artist-of-color fandoms. The book provides a range of examples of artists and writers working in this vein, as well as academic essays that explore the ways in which fandom can be theorized as a methodology for art practice and art history. *Fandom as Methodology* proposes that many artists and art writers already draw on affective strategies found in fandom. With the current focus in many areas of art history, art writing, and performance studies around affective engagement with artworks and imaginative potentials, fandom is a key methodology that has yet to be explored. Interwoven into the academic essays are lavishly designed artist pages in which artists offer an introduction to their use of fandom as methodology. Contributors Taylor J. Acosta, Catherine Grant, Dominic Johnson, Kate Random Love, Maud Lavin, Owen G. Parry, Alice Butler, SooJin Lee, Jenny Lin, Judy Batalion, Ika Willis. Artists featured in the artist pages Jeremy Deller, Ego Ahaïwe Sowinski, Anna Bunting-Branch, Maria Fusco, Cathy Lomax, Kamau Amu Patton, Holly Pester, Dawn Mellor, Michelle Williams Gamaker, The Women of Colour Index Reading Group, Liv Wynter, Zhiyuan Yang

God-Man

Winner of Honor Book for the 2016 Montana Book Award At twenty years old, Pete Fromm heard of a job babysitting salmon eggs, seven winter months alone in a tent in the Selway-Bitterroot Wilderness. Leaping at this chance to be a mountain man, with no experience in the wilds, he left the world. Thirteen years later, he published his beloved memoir of that winter, *Indian Creek Chronicles —Into the Wild with a twist*. Twenty five years later, he was asked to return to the wilderness to babysit more fish eggs. But no longer a footloose twenty year old, at forty-five, he was the father of two young sons. He left again, alone, straight into the heart of Montana's Bob Marshall wilderness, walking a daily ten mile loop to his fish eggs through deer and elk and the highest density of grizzly bears in the lower 48 states. *The Names of the Stars* is not only a story of wilderness and bears but also a trek through a life lived at its edges, showing how an impulsive kid transformed into a father without losing his love for the wilds. From loon calls echoing across Northwood lakes to the grim realities of life guarding in the Nevada desert, through the isolation of Indian Creek and years spent running the Snake and Rio Grande as a river ranger, Pete seeks out the source of this passion for wildness, as well as explores fatherhood and mortality and all the costs and risks and rewards of life lived on its own terms.

Design Activism

'A must-read ... satisfying, rich ... loaded with flavour' Sunday Telegraph This book is a celebration of food. By food, Michael Pollan means real, proper, simple food - not the kind that comes in a packet, or has lists of unpronounceable ingredients, or that makes nutritional claims about how healthy it is. More like the kind of food your great-grandmother would recognize. *In Defence of Food* is a simple invitation to junk the science, ditch the diet and instead rediscover the joys of eating well. By following a few pieces of advice (Eat at a table - a desk doesn't count. Don't buy food where you'd buy your petrol!), you will enrich your life and your palate, and enlarge your sense of what it means to be healthy and happy. It's time to fall in love with food again. For the past twenty years, Michael Pollan has been writing about the places where the human and natural worlds intersect: food, agriculture, gardens, drugs, and architecture. His most recent book, about the ethics and ecology of eating, is *The Omnivore's Dilemma*, named one of the ten best books of 2006 by the New York Times and the Washington Post. He is also the author of *The Botany of Desire*, *A Place of My Own* and *Second Nature*.

The United Nations world water development report 2019

Living on a damaged planet challenges who we are and where we live. This timely anthology calls on twenty eminent humanists and scientists to revitalize curiosity, observation, and transdisciplinary conversation about life on earth. As human-induced environmental change threatens multispecies livability, *Arts of Living on a Damaged Planet* puts forward a bold proposal: entangled histories, situated narratives, and thick descriptions offer urgent “arts of living.” Included are essays by scholars in anthropology, ecology, science studies, art, literature, and bioinformatics who posit critical and creative tools for collaborative survival in a more-than-human Anthropocene. The essays are organized around two key figures that also serve as the publication’s two openings: Ghosts, or landscapes haunted by the violences of modernity; and Monsters, or interspecies and intraspecies sociality. Ghosts and Monsters are tentacular, windy, and arboreal arts that invite readers to encounter ants, lichen, rocks, electrons, flying foxes, salmon, chestnut trees, mud volcanoes, border zones, graves, radioactive waste—in short, the wonders and terrors of an unintended epoch. Contributors: Karen Barad, U of California, Santa Cruz; Kate Brown, U of Maryland, Baltimore; Carla Freccero, U of California, Santa Cruz; Peter Funch, Aarhus U; Scott F. The More Beautiful World Our Hearts Know Is Possible

This panoramic analysis of the condition of Western societies has been hailed as a classic. This first English edition has taken its place as a core text of contemporary sociology alongside earlier typifications of society as postindustrial and current debates about the social dimensions of the postmodern. Underpinning the analysis is the notion of the risk society'. The changing nature of society's relation to production and distribution is related to the environmental impact as a totalizing, globalizing economy based on scientific and technical knowledge becomes more central to social organization and social conflict.

Drawing Futures

In the fifth novel in the Sean Stranahan mystery series, Montana's favorite fly fisherman-detective tackles a case of lost love, murder, and wildlife politics. *Cold Hearted River*, the sixth in the series, is now available. “Keith McCafferty is a top-notch, first-rate, can’t-miss novelist.” —C.J. Box, #1 New York Times bestselling author In the wake of Fourth of July fireworks in Montana’s Madison Valley, Hyalite County sheriff Martha Ettinger and Deputy Sheriff Harold Little Feather investigate a horrific scene at the Palisades cliffs, where a herd of bison have fallen to their deaths. Victims of blind panic caused by the pyrotechnics, or a ritualistic hunting practice dating back thousands of years? The person who would know is beyond asking, an Indian man found dead among the bison, his leg pierced by an arrow. Farther up the valley, fly fisherman, painter, and sometime private detective Sean Stranahan has been hired by the beautiful Ida Evening Star, a Chippewa Cree woman who moonlights as a mermaid at the Trout Tails Bar & Grill, to find her old flame, John Running Boy. The cases seem unrelated—until Sean’s search leads him right to the brink of the buffalo jump. With unforgettable characters and written with Spur Award Winner Keith McCafferty’s signature grace and wry humor, *Buffalo Jump Blues* weaves a gripping tale of murder, wildlife politics, and lost love.
