The Ultimate Sex Manual for Women

Did you know that, according to several scientific studies, orgasms can relieve pain? Or, that while 75% of men always reach orgasm during sex, only 29% of women report the same? (by National Health and Social Life Survey) Did you know that, according to the Museum of Sex, the vibrator was originally

used as a medicinal treatment for female "hysteria" during the 19th century, as it helped dissipating hysteria's anxiety-related symptoms? This book was a major success when launched for the first time, which proves that this knowledge is as urgently needed as also rare to find. It was written for women and combines the perspective of many that were interviewed for this purpose. As the Sex Industry grows by the millions, and the number of women and men that want to be in Adult Movies increases as well, it becomes clear that everyone has hidden ideas, believes, thoughts, habits and curiosities that, somehow, need to be satisfied. This book was created to promote an uplifting assimilation of all them, by proposing an analysis of sex that is mature, realistic, educational and insightful. Many books in the market, promoting modern but uncomfortable sex positions in order to increase women's pleasure, or showing them how to choose a good sex partner with the wrong rules, are far from the value that this book intends to offer. Here, you'll learn how to last longer, by knowing what to eat, drink and do, how to obtain maximum pleasure, how to have more fun and how to behave with multiple partners at the same time. Nevertheless, it doesn't forget the importance of meaningful relationships and their relation to sex, by describing the significance of its mind healing properties. "Sex is a part of nature" (Marilyn Monroe), "energy" (Beatrice Wood) and "a conversation carried out by other means" (Peter Ustinov).

The Ultimate Sex Manual for Men

This book doesn't measure, comment, or conflict with any same-sex escapades of the same-sex experiences.

The Ultimate Sex Guide for Women

Did you know that 99% of men are bad in bed (by Shawna, Pornstar), that while 75% of men always reach orgasm during sex only 29% of women report the same (by National Health and Social Life Survey), or that, on average, most men last anywhere from two to six minutes in bed (by Endurance Report)? After years examining different information on this subject and after applying it to several different women, there came a time in which, after many of them reveal the exact same thing, such as that most men can't fuck and should be taught how to, the necessity to write this book was very obvious. During the chapters of this book exists a clear guidance into finding horny people, seduce them into bed and fuck them properly, and all in the good Pornstar style. It's in the intent of uniting such people into a fulfilling bound of fun and entertainment while experiencing sex in the most fulfilling way

as possible that this book was created. You'll learn how to last more than one hour and even two hours, what to eat, drink and do, to get it, how to fuck with maximum pleasure for your partner and yourself, how to have more fun in sex, how to fuck multiple partners at the same time, and even how to keep lasting relationships with the best sex ever.

Feel Sexy Again

Have you ever wondered what it was that appeals to woman about Italian men? French men also have a certain “je ne sais quoi” but do you know why this is? In this book, I will explain why the appeal is so universal among women and what it is that these men have that perhaps you don't. Ask a woman about a fantasy romance, and no doubt, the idea of making love with a passionate Italian may figure in her dreams. It's not that she's even interested in being with a man of another culture. It's just that Italians have long since learned the art of lovemaking and do it with panache. Men, on the other hand, may think of an Italian woman as being hot, but it's the combination of man and woman that makes them like that. So what is it in the approach that is different? What makes a woman explode with passion? Well, I have been studying the subject for a rather long time and my findings may not be what you expect to read. However, they are accurate, bearing in mind both the male and female point of view. You may think that your macro approach to sex is working, but you may actually be surprised to know that being macho is low on the list of priorities when it comes to pleasing a woman in bed. Macho men are all about proving what they can do. They are less interested in caring about what the woman thinks or feels. These are the guys who boast about knowing all the secret parts of a woman, but who are least likely to be in the know. Why? Well, the fact is that women don't usually discuss their delicate parts with someone who has this attitude. Thus, it will only be by a sheer fluke of nature that she may actually climax during lovemaking. Wouldn't you prefer that your approach was what made sure she would be satisfied? As you read through the book, be prepared to see that a traditionalist approach is not going to gain you any brownie points. If you really want to make a woman sexually stimulated and happy, you need to appreciate that her part in the whole act of lovemaking is every bit as vital as his. It's not just a case of how hard you are. Neither is it a case of how much thrust you have. It's a two-way process and she needs to feel secure enough to let go. That won't happen if you don't teach her that she can relax and be herself with you, and most women can't do that, left to their own devices. It's an unfair world, though the classic view of a woman is that she doesn't have opinions when it comes to sex, or at least should not express them. If you are of this opinion, then this book is not written for you. It is written for those open minded enough to realize that the part a woman and man play in bed is equal or for those who wish it to be. I will show you what Italian men do that you may never have thought of! Here is a Preview of what You'll Learn... The Approach The purpose of foreplay The Different Types of Climax for a Woman The heavy uncontrollable climax Locating the G-spot Sex Toys.... And Much, Much More!

The Ultimate Guide to Oral Sex

The Ultimate Sex Guide Who's not looking for great sex? A satisfying sex life adds spice to your partner relationship. But how are you getting a better sex life? Lovemaking is more than just "making love." It involves the perfect mix of communication, the right attitude, loving your body, and the like. Here are some guidelines for helping women out there revive their lost sex drive and ultimately achieve a fulfilling sex life. Great Sex Guide #1: Do not stray your thoughts while you have sex. This means having the right sex attitude. You have to free yourself from negative feelings like self-consciousness,

guilt, bad judgment, and other hang-ups to fully experience the pleasure of sex. That also means you'll have to avoid worrying about your pending office work or the things you'll do the next day while making love with your partner. Just enjoy the moment and enjoy yourself. Great Sex Guide #2: Relax and do not put yourself under pressure. Special anxiety for women who are pressuring themselves to perform well during sex. That's why, by faking an orgasm, many women subconsciously hide their sexual problem. That's not the sex essence. It is recommended that you relax and enjoy your partner's intimate moments. Great Sex Guide #3: stay fit and be healthy. You probably know that people who have a lot of sex are happier people. Several studies support this. You need more energy to be able to have more sex. Enough sleep, plenty of rest, proper exercise, and a balanced diet can increase your sexual endurance. These healthy factors lead to better circulation of the blood to the sex organs, which is very important for excitement and orgasm. Great Sex Guide #4: Get rid of stress. Find ways to reduce stress to increase the likelihood of excitement. Why not go at least once a week to date with your partner? Or by taking a shower together or spending an intimate night by the beach, you can make your sex life more exciting and steamy. Great Sex Guide #5: Love your body and accept it. Do you hate to be chested flat or overweight? Just because you don't have the ideal size of your cup, that doesn't mean you can't have great sex. Only your sensuality can ruin your negative feelings towards your body. How good your body feels when you have sex with your partner is what matters. Learn how to love your body and its curves. You may not know that your big curves to your partner look sexy. Great Sex Guide #6: Don't worry about exploring and experimenting. It shouldn't be too serious about sharing the passion with your partner. Think of sex as a fun activity-you can be creative and try things differently. You can talk about your fantasies with your partner, for example, and find out how you can make them a reality. Find out what's turning you on in bed, too. Great Sex Guide #7: Communicate. Finally, getting better sex also requires good partner communication. Don't be afraid to talk about your sexual relationship with your partner. This will lead to understanding the sexual needs of each other, leading to greater sex life. If all of this sounds like your ideal book, then hop on over and hit now that buy button! Well, stress no more! Buy this book and also learn all... and DOWNLOAD IT NOW! Buy the Paperback Version of this Book and get the Kindle Book version for FREE

Great Sex Guide

I know men. I know what they want, how they think, and how weird they are. I worked in the adult industry for 20 odd years. I have been their whore in the bedroom, fulfilling their weirdest fantasies. I have been their cook in the kitchen when in a relationship, but I have also been their perfect girlfriend in their lives. Science describes women as being designed by nature to be dynamic, cyclical, and consequently moody. You know the PMS bitch we tend to be every month. We are said to be more depressed and medicated than men, that arguably explains why we are mean bitches. Think again after the reading of this book. Men are Bitches with Balls and it has been proven for years when they don't get what they want: they kill, they rape, they insult, they fight or diminish you. They express their stress differently and let's be honest, they have historically medicated (differently) with drinking and drugs. I realised something, we are ALL just humans, this is why I described men like being bitches with penises. Enjoy!
