The Instant-Series Presents "Instant Mind Power" How to Train and Sharpen Your Mental Abilities Instantly! System Updating In Progress... Your mind is a superhuman computer. It houses all your cognitive abilities: concentration, memory, awareness, reasoning, perception, etc. It's the command center that controls your entire being. It's your very existence. Your mind is - who you are. MIND = YOU Wouldn't you like to enhance this power of your mind to... - Perform tasks and get things done faster

- Memorize and recall things better - Learn anything easily without a sweat - Unleash your natural creative ability - Achieve the kind of success you want The capacity of limitless human potential and what your own mind can do for you are unfathomable. Scientists have proven that the more you use certain areas of your brain - like for learning - increases neural pathways comprised of neuron brain cells to build stronger and newer connections that are the makeup for our intelligence, making it easier to assimilate and process information faster like a supercomputer. Thus, you can upgrade your mind to be smarter through mental training, mind exercises, and even fun brain games. Within "Instant Mind Power": * How to perform a simple mind hack to process information then retrieve them from your memory bank like a recorded movie scene with every detail intact. * How to rewire your mind with the "mental numbing" technique to suppress your sensitivity to nonessential stimuli to give you unstoppable laser focus. * How to practice channeling your thoughts at an instant snap whenever you need to, so you have mastery control over whatever it is you want your mind to do instead of it controlling you. * How to program your mind through "horizontal mind mapping" to force it to get things done even when it's difficult or don't feel like it. * How to train your brain to its fully optimized-operating mode with a series of mind training so you can increase your mental abilities to think more clearly and quickly. * Plus, custom practical "how-to" strategies, techniques, applications and exercises on how to sharpen your mind. ...and much more. Your mind is the input correlating to the output of life you will have. Control your mind to conquer your life; and you can achieve the extraordinary. After all - a mind IS a terrible thing to waste. Reconfigure your human-computer hardware to be a superhuman intelligence.

The Wisconsin Times

In the stirring signature number from the 1944 Broadway musical *On the Town*, three sailors on a 24-hour search for love in wartime Manhattan sing, "New York, New York, a helluva town." The Navy boys' race against time mirrored the very real frenzy in the city that played host to 3 million servicemen, then shipped them out from its magnificent port to an uncertain destiny. This was a time when soldiers and sailors on their final flings jammed the Times Square movie houses featuring lavish stage shows as well as the nightclubs like the Latin Quarter and the Copacabana; a time when bobby-soxers swooned at the Paramount over Frank Sinatra, a sexy, skinny substitute for the boys who had gone to war. Richard Goldstein's *Helluva Town* is a kaleidoscopic and compelling social history that captures the youthful electricity of wartime and recounts the important role New York played in the national war effort. This is a book that will prove irresistible to anyone who loves New York and its relentlessly fascinating saga. Wartime Broadway lives again in these pages through the plays of Lillian Hellman, Robert Sherwood, Maxwell Anderson, and John Steinbeck championing the democratic cause; Irving Berlin's *This Is the Army* and Moss Hart's *Winged Victory* with their all-servicemen casts; Rodgers and Hammerstein's *Oklahoma!* hailing American optimism; the Leonard Bernstein–Jerome Robbins production of *On the Town*; and the *Stage Door Canteen*. And these were the days when the Brooklyn Navy Yard turned out battleships and aircraft carriers, when troopships bound for Europe departed from the great Manhattan piers where glamorous ocean liners once docked, where the most beautiful liner of them all, the *Normandie*, caught fire and capsized during its conversion to a troopship. Here, too, is an unseen New York: physicists who fled Hitler's Europe spawning the atomic bomb, the FBI chasing after Nazi spies, the Navy enlisting the Mafia to safeguard the port against sabotage, British agents mounting a vast intelligence operation. This is the city that served as a magnet for European artists and intellectuals, whose creative presence contributed mightily to New York's boisterous cosmopolitanism. Long before 9/11, New York felt vulnerable to a foreign foe. *Helluva Town* recalls how 400,000 New Yorkers served as air-raid wardens while anti-aircraft guns ringed the city in anticipation of a German bombing raid. Finally, this is the story of New York's emergence as the power and glory of the world stage in the wake of V-J Day, underlined when the newly created United Nations arose beside the East River, climaxing a storied chapter in the history of the world's greatest city.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To

hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

An exceptionally illustrated fiction for millions of Blizzard fans, Diablo III: Book of Cain is the source book for Blizzard Entertainment's Diablo franchise and forthcoming Diablo III game. Book of Cain is the must-have illustrated history of the Diablo universe as told by the games' core narrator Deckard Cain. In Blizzard Entertainment's Diablo® and Diablo II, the recurring character of Deckard Cain delivered quests, accompanied the brave adventurer, and, as the last of the Horadrim, provided a link to the greater history of the world of Sanctuary. Ever mysterious during these appearances, Cain hinted at a larger story, providing snippets of it in his notebook. Diablo III: Book of Cain is Cain's formal record of this greater tale—a dissertation on the lore of the Diablo universe, told by one who has witnessed and participated in some of the epic events that make up the eternal conflict between the High Heavens and the Burning Hells. Designed as an “in-world” artifact from the Diablo universe, Diablo III: Book of Cain includes Cain's revealing meditations, as well as dozens of sketches and color artworks depicting the angelic and demonic beings who wage constant war with one another.
