Some of the topics addressed include: employee dishonesty claims, check and securities forgery claims, financial institution bonds, fiduciary bonds and appeal and supercedes bonds, performance bonds, payment bonds, and many others.

Handling Fidelity, Surety, and Financial Risk Claims

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Handling Fidelity, Surety, and Financial Risk Claims, 1997

Restitution and Banking Law, written by leading practitioners and commentators, combines their experience in the field of restitution law and banking law to discuss major issues.

Handling Fidelity, Surety and Financial Risk Claims

A comprehensive guide to credit risk management The Handbook of Credit Risk Management presents a comprehensive overview of the practice of credit risk management for a large institution. It is a guide for professionals and students wanting a deeper understanding of how to manage credit exposures. The Handbook provides a detailed roadmap for managing beyond the financial analysis of individual transactions and counterparties. Written in a straightforward and accessible style, the authors outline how to manage a portfolio of credit exposures--from origination and assessment of credit fundamentals to hedging and pricing. The Handbook is relevant for corporations, pension funds, endowments, asset managers, banks and insurance companies alike. Covers the four essential aspects of credit risk management: Origination, Credit Risk Assessment, Portfolio Management and Risk Transfer. Provides ample references to and examples of credit market services as a resource for those readers having credit risk responsibilities. Designed for busy professionals as well as finance, risk management and MBA students. As financial transactions grow more complex, proactive management of credit portfolios is no longer optional for an institution, but a matter of survival.

Handling Fidelity, Surety, and Financial Risk Claims, 1996

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Handling Fidelity and Surety Claims

In 1994 a Reinsurance Working Party was set up by AIDA (Association Internationale de Droit des Assurances) with the aim of producing a series of comparative reports considering how particular aspects of reinsurance law operate in a range of jurisdictions.

Handling Fidelity and Surety Claims

Beginning with 1981, merger decisions of the Corporation are published separately as vol. 2 of the Annual report.

Law Books in Print: Subject index

This text introduces the commonly used, basic approaches for reserving and ratemaking in General Insurance. The methods are described through detailed examples that are linked from one chapter to another to illustrate their practical application. Also, professionalism requirements and standards of practice are presented to set the context for the methods and examples.

Bowker's Law Books and Serials in Print

This is the official report of the International Law Commission to the General Assembly on its seventy-third session dated 18 April-3 June and 4 July-5 August 2022.

Model Rules of Professional Conduct

Double insurance is an issue which frequently arises in practice. Dr Nisha Mohamed delves into the problems which arise in double insurance and the attempts to provide a solution to the uncertainty of the law in this area. The book begins with a fascinating look at the history and development of the law of double insurance, outlining how it has developed, and the factors the court may take into account when deciding cases involving double insurance. Attempting to provide a common law solution where no legislation has been enacted, the book covers contemporary instances of double insurance by focusing on: the relevant clauses (rateable proportion, excess, escape and other insurance) the difficulty of the courts in providing clear principles in cases of double insurance attempts to limit or exclude liability by the insurer how the clauses work in practice court decisions in various jurisdictions the Australian position under section 45 of the Insurance Contracts Act 1984 whether the Australian position can be adopted in the United Kingdom This text combines practical experience with academic rigour and will be of significant interest to lawyers, academics and insurance industry professionals alike.

Law Books Published

The Office of the Comptroller of the Currency (OCC) charters, regulates, and supervises all national banks and federal savings associations (collectively, banks), as well as federal branches and agencies of foreign banks. In regulating banks, the OCC has the power to: * examine the banks. * approve or deny applications for new charters, branches, capital, or other changes in corporate or banking structure. * take supervisory actions against banks that do not comply with laws and regulations or that otherwise engage in unsafe or unsound practices. The OCC also can remove officers and directors, negotiate agreements to change banking practices, and issue cease-and-desist (C&D) orders as well as civil money penalties (CMP). * issue rules and regulations, legal interpretations, and corporate decisions governing investments, lending, and other activities. Boards of directors play critical roles in the successful operation of banks. The OCC recognizes the challenges facing bank directors. The Director's Book: Role of Directors for National Banks and Federal Savings Associations helps directors fulfill their responsibilities in a prudent manner. This book provides an overview of the OCC, outlines directors' responsibilities as well as management's role, explains basic concepts and standards for safe and sound operation of banks, and delineates laws and regulations that apply to banks. To better understand a particular bank activity and its associated risks, directors should refer to the Comptroller's Handbook booklets, including the "Corporate and Risk Governance" booklet. For information generally found in board reports, including "red flags"--ratios or trends that may signal existing or potential problems--directors should refer to Detecting Red Flags in Board Reports: A Guide for Directors..

Books in Print Supplement

An in-depth scrutiny into the American savings and loan financial crisis in the 1980s. The authors come to conclusions about the deliberate nature of this financial fraud and the leniency of the criminal justice system on these 'Gucci-clad white-collar criminals'.

Books in Print

The Committee on Foreign Investment in the United States (CFIUS) is comprised of nine members, two ex officio members, and other members as appointed by the President representing major departments and agencies within the federal executive branch. While the group generally has operated in relative obscurity, the proposed acquisition of commercial operations at six U.S. ports by Dubai Ports World in 2006 placed the group's operations under intense scrutiny by Members of Congress and the public. Prompted by this case, some Members of the 109th and 110th Congresses questioned the ability of Congress to exercise its oversight responsibilities given the general view that CFIUS's operations lack

transparency. Other Members revisited concerns about the linkage between national security and the role of foreign investment in the U.S. economy. Some Members of Congress and others argued that the nation's security and economic concerns have changed since the September 11, 2001, terrorist attacks and that these concerns were not being reflected sufficiently in the Committee's deliberations. In addition, anecdotal evidence seemed to indicate that the CFIUS process was not market neutral. Instead, a CFIUS investigation of an investment transaction may have been perceived by some firms and by some in the financial markets as a negative factor that added to uncertainty and may have spurred firms to engage in behavior that may not have been optimal for the economy as a whole. On July 12, 2016, Senator Charles Grassley introduced S. 3161 to include the Secretary of Agriculture as a permanent member of the CFIUS and to include the national security impact of foreign investments on agricultural assets as part of the criteria the Committee uses in deciding to recommend that the President block a foreign acquisition.
