Outdoor Play in the Early Years

This handbook is intended for use by childcare personnel, school officials, parks and recreation personnel, equipment purchasers and installers, playground designers, and any other members of the general public (e.g., parents and school groups) concerned with public playground safety and interested in evaluating their respective playgrounds. It presents guidelines that aim to promote greater safety awareness among those who purchase, install, and maintain public playground equipment.

Public Playground Safety Handbook

Data gathered by a national survey of preschool playground equipment provided comprehensive information on all aspects of the play environment for young children. This collection presents the perspectives of writers on the function of playgrounds and the nature of children's play. In addition to the introduction by Sue C. Wortham and Joe L. Frost, the following articles make up the volume: (1) "National Survey of Preschool Centers Playground Equipment" (Louis Bowers); (2) "Results of the Survey" (Louis Bowers); (3) "Young Children and Playground Safety" (Joe L. Frost); (4) "Play Environments for Young Children: Design Perspectives" (Steen B. Esbensen); (5) "Infant-Toddler Playgrounds" (Sue C. Wortham); (6) "Advances in Playground Equipment for Young Children" (Marshal R. Wortham); (7) "Maintaining Play Environments: Training, Checklists, and Documentation" (Donna Thompson, Lawrence D. Bruya, Michael E. Crawford); (8) "Promoting Perceptual-Motor Development in Young Children's Play" (Tom Jambor); (9) "The Role of Adults in Children's Play" (Thomas D. Yawkey); (10) "Outdoor Play--What Happens Here?" (Mary S. Rivkin); and (11) "Magical Playscapes" (James Talbot, Joe L. Frost). (JD)

Public Playground Safety Handbook

The year's program consists of 25 weekly perceptual-motor lessons designed for students in preschool, kindergarten, first to third grade and special education classes.

A Child-centered Playground Safety Curriculum Approach

Grade level: k, p, t.

Handbook for Public Playground Safety

This document will: assist schools in planning playgrounds for children of all abilities; show ways that this can be done using limited resources; and suggest ways that such universal playgrounds can contribute to the overall educational objectives being developed in BC. This document will help organize the planning; identify the most useful applications; and determine the resources required. Can be utilized to augment individualized programs developed for students with special needs. Bibliography. Checklists and survey forms.

Playgrounds for Young Children

This book is designed for a teacher working with children ages 3-5 in a classroom, homeschool or home preschool environment. One of the most important aspects of this series is that it includes fun activities that will enhance their skills. These are complete lessons and activities that have been designed for compliance with federal and state guidelines for education. We go above and beyond to bring you MORE than what's expected in the public school system. The skills we will be working with include: listening skills, music, movement, language and literacy, mathematics, science, fine motor, creative art, sensory, dramatic play, and social skills. The book is organized by themes which will help you quickly find just the right information. The headings in the book will direct you quickly to large group, small group, and free time activities. It will also provide ideas for field trips. This volume covers: Family Culture, Fire Safety and Fire Fighters, Special Days - Hat Day, Shoes and Socks Day, Backwards Day, Pajamas and Monsters.

Perceptual-motor Lesson Plans, Level 1

Early Childhood Curriculum for All Learners: Integrating Play and Literacy Activities is designed to teach early childhood professionals about the latest research on play and early literacy and then to show them practical methods for adapting this research to everyday classroom practices that will encourage the development of learning skills. The authors link solid, play-based research to specific developmentally appropriate practices. By combining these two areas, the text demonstrates that academic learning and play activities are highly compatible, and that children can and do develop academic skills through play. In addition, the text focuses on socio-dramatic play, a recently acknowledged, essential aspect of child-initiated play interactions. It provides specific strategies that link these interactive behaviors with the early academic skills needed for the initial primary grades. Implementation of the information presented in this book will enable children to experience a richer transition into primary education classrooms.

Resources in Education

Thoughtful and timely, this book will help readers learn how to create an everyday preschool environment in which children feel safe; and, how to provide for children's safety in a variety of emergency situations without creating an atmosphere of fear. Coverage identifies positive steps teachers can take to deal with their own fear as well as children's fears; ways to set-up both indoor and outdoor areas with safety in mind; how to prepare for emergencies without worrying children; and, how to teach safe behavior through play. Most of the strategies discussed are presented in checklist format and followed by activities for involving children in the strategy's message and lists of relevant children's books. For prospective early childhood educators, or those promoting the health, safety, and nutrition in a preschool environment.

Physical Education Unit Plans for Preschool-kindergarten

The articles in this book offer ideas that could be used to initiate a plan of action designed to change elementary school playgrounds. They provide a broad scope of information needed for adequately providing for the needs of children who play on school playgrounds. The following articles are presented: (1) "Child Development and Playgrounds" (J. Frost); (2) "Playground Design: A Scientific Approach"

(L. Bowers); (3) "Playground Equipment: A Designer's Perspective" (J. Beckwith); (4) "Developing Responsibility of Children for Playground Safety" (P. Lowe); (5) "Teacher Commitment to Playground Safety" (L. Bruya); (6) "A System To Establish Playground Safety in the School" (E. Warrell); (7) "Project OLE: Outdoor Learning Environment for Children" (D. Sommerfeld and C. Dunn); (8) "Legeplads of Aarhus: A 'Playspace' Concept from Denmark" (S. Green); (9) "New Concepts in Playstructures from the Commercial Sector" (J. Beckwith); and (10) "A System To Manage the Risk of Lawsuit" (L. Bruya and J. Beckwith). (JD)

The Universal Playground

Guide for teachers, parents and designers interested in outdoor play as part of a child's development. Covers site assessment, planning, building and equipping new and existing playgrounds, with an emphasis on safety and learning. Includes a bibliography. The author is an experienced playground consultant and is a national director of the Child Accident Prevention Foundation of Australia.

ACADEMY of LEARNING Your Complete Preschool Lesson Plan Resource - Volume 4

Provides an overview of nutrition, health, and safety that emphasizes their interrelationship and the influences of heredity and the environment on each. Part 1 discusses food patterns and how they form, basic facts about nutrients, and guidelines for healthful eating. Part 2 contains chapters on growth and development and nutrition influences on this process as well as chapters on the nutritional needs of infants, toddlers, preschoolers, and children with special nutritional needs. Part 3 contains chapters on general health policies and procedures in the child care setting and on infectious diseases affecting children. Also discusses safety concerns, including providing safe environments for young children and teaching and practicing behaviors that promote children's safety. Part 4 provides general guidance on teaching children about nutrition, health and safety. Contains a chapter on curriculum with advice on lesson planning and a chapter on ways to involve parents in the nutrition, health and safety program.

Handbook for Public Playground Safety

Offers a friendly overview of playground safety tips and skills, such as taking turns going down the slide. Vivid photographs and easy-to-read text aid comprehension for early readers. Features include a table of contents, an infographic, fun facts, Making Connections questions, a glossary, and an index. A QR Code in each chapter gives readers access to additional online resources to further their learning. Aligned to Common Core Standards and correlated to state standards. Cody Koala is an imprint of Pop!, a division of ABDO.

Academy of Learning: Your Complete Preschool Lesson Plan Resource - Volume 3

Penguin and his animal friends demonstrate how to play safely and use good manners.

A Handbook for Public Playground Safety: General guidelines for new and existing playgrounds

Fire and Life Safety Educator: Principles and Practice, Second Edition Includes Navigate 2 Advantage Access, meets the objectives of NFPA 1035 (2015) for FLSE Levels I, II, III, Public Information Officer, Youth Firesetter Intervention Specialist, and Youth Firesetter Program Manager. It is written for practitioners, managers, and supervisors, as well as for those who are new to the FLSE field, covering fire behavior and prevention, code compliance, community risk reduction, risk assessment, and working with the public. Based solidly on research and proven tactics, it describes community outreach methods, how to effectively teach fire and life safety, and how to market prevention and preparedness messages to all age groups. In-depth instruction advises on developing fire and life safety curricula, objectives, lesson plans, and presentations. This second edition covers all aspects of designing, budgeting for, and managing a fire and life safety program; public relations and persuasion tactics; legal considerations; and best professional practices. The importance of program evaluation and how to conduct evaluation is explained. New chapters are included to address the public information officer role and specific responsibilities, Youth Firesetter intervention strategies, and Youth Firesetter program implementation.

Early Childhood Curriculum for All Learners

The first in a series of three monographs - Forthcoming volumes: Planning the home for occupancy, and Construction and equipment of the home.

The Developmental Benefits of Playgrounds

This Juvenile Firesetter Intervention Handbook is designed to teach communities how to develop an effective juvenile firesetter intervention program

Safety in Preschool Programs

Schools in Australia and around the world all have procedures and rules for keeping children safe. Even at school, where there are teachers to look after them, children still need to learn about safety and behaving thoughtfully towards others. Once they leave school grounds, children face different challenges, including road safety and stranger danger. Feeling sick, facing a sudden emergency, sun safety and much more are all covered, making this book a useful resource for any parent or teacher, as well as vital reading for children themselves.

A Handbook for public playground safety

The Complete Guide to Playground Development will guide you from design through construction, and every step in between, to your new dream playground in simple easy to understand terms. It also has information on the importance of play in child development; as well as resources to qualify playground equipment vendors, create a Play Program, define your site conditions, define your budget, follow current guidelines, find consultants, and certify safe and compliant installations. If you are planning to renovate or build a new playground this manual is an invaluable resource.

Perceptual-motor Lesson Plans

This practical and leading book offers a solid overview of what is involved in carefully planning and running quality early childhood programs. The authors believe that the lack of real quality in today's early childhood programs should be of paramount concern to future administrators, and so have created a book that will aid them in the initial planning of quality programs and serve as a helpful resource once programs are underway. Coverage is organized to illustrate, step-by-step, the way directors of early childhood programs must approach their role; examining, in turn, planning, operationalizing, and implementing high-quality programs for all young children. For administrative personnel at the elementary school level.

Play Spaces for Children

Early Childhood Education: Becoming a Professional is an inspiring introduction to the world of early childhood education, preparing the teachers of tomorrow to reach their full potential in their schools and communities. Written by a diverse and experienced author team (Kimberly A. Gordon Biddle, Ana Garcia-Nevarez, Wanda J. Roundtree-Henderson, and Alicia Valero-Kerrick), this text engages readers to connect contemporary educational and developmental theory and research to developmentally appropriate practices and applications that are easily implemented in the classroom. In response to today's ever-changing educational environment, the text focuses on both the importance of taking personal and professional responsibility, as well as today's issues in diversity—from supporting children with exceptionalities to supporting children and families in broader cultural contexts.
