.in Just a Few Moments We'll Move Further into the Heart Space Exploring Our Capacity for Gratitude and the Freedom Contentment and Lightness this Virtue Brings When We Hone Our Tension on all That We Have To Be Thankful for We Raise Our Vibration to a Higher Level at this Level Our Sense of Lack Diminishes and Fear Anxiety and Uncertainty of a More Difficult Time Latching On to Our Awareness

Gratitude Unlocks the Fullness of Life It Turns What We Have into Enough and More It Turns Denial into Acceptance Chaos to Order and Fusion to Clarity So before We Begin Our Journey into Deeper Levels of Gratitude and Awareness Let's Take another Full Breath into the Belly Inhaling for a Count of Four and Release Completely Exhaling to a Count of Four Take another Deep Breath in and Let It all Out One More Full Breath in and Let It all Back Out as Your Breath Resumes Its Natural Pace and Rhythm Draw Your Attention to the Hard Space as Your Breath Builds this Space Imagine It Expanding Energetically

Moving beyond the Physical Body Take a Moment To Honor the Service beneath You and any Cushions or Blankets That Provide Comfort and Support and Then Let Your Awareness Descend Moving through the Floor of the Room That Holds You Down into the Earth's Crust into the Rich Dense Soil That Supports all Life on this Planet Take a Moment To Give Thanks to the Earthly Elements That Allow Us To Thrive Rising Back up to the Body Now Expand Your Awareness through the Top Side of the Body Noting the Air That Surrounds You Take a Moment To Silently Thank this Invisible Energy Field for Supporting the Relationship between Humans Animals and the Plant Kingdom

All Ecosystems of the World Are a Part of You Everything on this Earth Is Interconnected and so We Can Find a Deep Sense of Gratitude for the Health and Vitality of all Ecosystems That Thrive Today these Pristine Ecosystems Hold the Key to a Vibrant and Radiant Future and as We Honor Them Devote Our Tension and Energy to Them They Begin To Flourish Now Coming Back into Your Body Take a Moment To Ground through the Breath Once Again Then Let Gratitude Wash through You for the People in Your Life That Support You and for any Animal Friends That Enrich Your Life

As You Tune Back into the Natural Flow of Your Breath You like a Nice Flow to the Steady Inward and Outward Movement of Waves Slowly Rocking You into a Deep and Restorative Sleep and as You Slowly Drift Off Allow the Following Words of Positive Affirmation To Continue Filling Your Inner Well of Gratitude Breath by Breath Let Yourself Sink a Little Bit Deeper Surrendering to the Beauty and Blessing of Deep Sleep I Am Blessed I Am Body Everything I Need the Universe Is Abundant My Heart Is Open and Ready To Receive

Please continue to meditate on this prayer for yourself.

Let us pray...

The Bible says that if there is any unforgiveness that it should be dealt with before praying.

Therefore we release any anger, bad feelings, resentment or any other wrong attitude before You now.

Praise You Father that the listener dwells in the secret place of the Most High!

In Jesus Name we declare protection over listener and each member of their family!
 In Jesus Name we call on those ministering spirits!
 Surround and guard the listener and their family!
 Lord, the listener and their family remain stable and fixed under the shadow of the Almighty, whose power no foe can withstand!
 Father You are the listener's refuge and their fortress!
 In Jesus Name no evil shall befall them!
 No injury or accident shall overtake them for You will give them warning to avoid it!
 In Jesus Name no plague or calamity shall come near their home!
 For You give Your mighty angels charge over them!
 Angels are encamped round about the listener and their family right now!
 You keep their foot from being caught in a trap or hidden danger!

The Healing Power of Reiki

The art of Reiki has the power to heal our minds, bodies, and spirits in ways few of us can imagine. The first Reiki master to practice in an operating room under the supervision of Dr. Mehmet Oz, author Raven Keyes tells moving stories of giving Reiki to rescue workers at Ground Zero, as well as PTSD survivors, professional athletes, trauma patients, and those suffering from crippling emotional pain. Keyes offers an abundance of inspirational experiences, sharing the joys and pains of working with patients, their loved ones, and their communities. Through stories and meditations, readers are filled with hope and a sense of good will. Helpful exercises are included to provide direct application of the material and the opportunity to engage with healing energy more deeply. Praise: "My gift is surgery. Raven's gift is energy healing."—Mehmet C. Oz, MD "I recommend this book to anyone wanting a deeper understanding of Reiki and how it can work with conventional medicine."—William Lee Rand, President of the Center for Reiki Research "Raven Keyes is a Reiki rock star angel!"—Elaine D'Farley, SELF Magazine

Twelve Years a Slave

Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Fasting

"You're blessed when you've worked up a good appetite for God." Matthew 5:6 The Message We live in hungry times. Ours is a consumer culture, predisposed to quickly fill the cravings of body and mind. The idea of fasting--the voluntary denial of something for a specific time, for a spiritual purpose--sets us immediately on edge. But Lynne Baab makes the case that anyone can fast. Fasting is an expression of freedom. Free from the patterns and habits that mark everyday life, from time to time we can move beyond our appetites into meaningful encounter with God. In Fasting you'll discover an ancient Christian practice that extends beyond giving up food to any regular activity in our contemporary lives. You'll see how taking a break from eating--or driving, or checking e-mail, or watching television--opens us up to discover new things about ourselves and God and the world around us. You'll see that while not everyone should forgo food, anyone can step out of routine to feed the soul. In a time of great spiritual hunger, God invites us all to a feast: fellowship with the Creator of the universe, where all our truest needs are identified and attended to.

Achtung-Panzer!

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Handbook of Nutraceuticals Volume I

As soon as Dr. Stephen DeFelice coined the phrase nutraceutical, product and supplement developers swung into action. Yet among the numerous books available on nutraceuticals, there is none that systematically lists, categorizes, and analyzes nutraceutical extracts and formulations in a pharmacopoeia-like manner. Handbook of Nutraceuticals, Volume 1: Ingredients, Formulations, and Applications lists information on many ingredients used in nutraceuticals, developing their formulations and applications. The book includes contributions from experts with pharmaceutical backgrounds, providing an examination of nutraceuticals from a pharmaceutical perspective. Building a foundation with coverage of historical background, definitions, and challenges, the book offers insight into nutraceutical ingredients from plant, animal, and mineral origin. It then covers the characterization of nutraceuticals' physicochemical, analytical, pharmacological, and pharmacokinetic classification, followed by information on regulatory requirements. The book highlights applications in cardiovascular disease, bone and joint treatments, diabetes management, weight management, skin health, probiotics and prebiotics, tranquilizing medicinal plants, dietary foods, and more. Interest in new diet regimens and new products for increased health and longevity will continue to grow, giving dietary supplements an increasing amount of cupboard space in most households. With quality of content unsurpassed by many resources, the book discusses the characterization processes for nutraceuticals based on the contributors' experience in pharmaceuticals. It then explores how those proven techniques may be applied to the development and manufacture of nutraceutical products.

Social Policy, Public Policy

'Seldom has a senior public servant been so candid. As a key policymaker, Meredith Edwards takes us inside the process to reveal how we get the policies that affect so much of our lives.' - Paul Kelly, International Editor, The Australian 'This innovative and important volume, unique in the policy literature, provides ideas and case studies of interest to everyone who cares about the quality of Australian public policy. It will be an indispensable guide to past choices, and its lessons should help shape future Australian social policy decisions.' - Dr Glyn Davis, co-author of The Australian Policy Handbook How are social policies conceived, developed and put into practice? Based on four case studies of social policy reforms in which the author was a major player (the Child Support Scheme, AUSTUDY, the Higher Education Contribution scheme (HECS) and long-term employment policies presented as 'Working Nation') Social Policy, Public Policy provides insights into what is often otherwise seen as a 'black box' on how policy advice occurs. Meredith Edwards' personal experience, revealed in extracts from her journal, provides a picture of what social policy participants actually do, something on which too little has been written. Questions addressed in the book include: How was the policy problem identified and articulated and by whom? What were the key ingredients in policy analysis? When did consultation occur and in what form? How was the policy decision arrived at? What were the events between decision and implementation? And what evaluation processes occurred? Social Policy, Public Policy is essential reading for all students of public policy and policy advisers.

God's Chosen Fast

Arthur Wallis offers this balanced study on fasting, and seeks to give to the subject the weight that Scripture gives it while also avoiding exaggeration and over-emphasis. This book includes a biblical index, and an appendix dealing with the textual problems surrounding four references to fasting in the New Testament.

Sundial of the Seasons

Living in a world circumscribed by up-to-the-minute news and electronic tools we barely master before they are out-of-date, we attempt to shield ourselves from environmental events which threaten to overturn our constructed reality. Naturally, in such fast-paced and topsy-turvy surroundings we watch the sky and earth for signs of regularity; looking to the changing seasons for hope and rejuvenation, and seeking out the voices of those who speak of constancy in the changes of the natural world. Hal Borland was such a voice. Every week, beginning in 1941, in the editorial pages of The New York Times he would speak of living on the land—this natural world we all try to understand. In this collection of

365 of his essays, arranged daily within the twelve months, he writes with a familiarity of the ways of the country that is at once humble and resiliently knowledgeable. In *Sundial of the Seasons* you will find page-long ruminations on such topics as "Fog" ("a unique blend of mood and weather"), "The Bumblebee" ("Bumblebees tolerate man, up to a point"), "Dandelions" ("Neither flood nor drouth seems to discourage it"), and "Fishing" ("The fish caught are only a lesser part of the catch"), all in celebration of the everyday events of life in the country. Begin each day with the gentle wit and wisdom of the person who, for nearly four decades, wrote his "outdoor editorials" in an engaging and inimitable fashion eagerly read by thousands.

Odes

'Interspersed with acts of breathtaking linguistic daring.' Charlotte Mendelson, *Observer Book of the Year* Opening with a powerful and tender 'Ode to the Hymen', Sharon Olds uses this age-old poetic form to address many aspects of herself, in a collection that is centred around the female body and female pleasures, and touches along the way on parts of her own story which will be familiar from earlier works, each episode and memory now burnished by the wisdom and grace of looking back. In such poems as 'Ode to My Sister', 'Ode of Broken Loyalty', 'Ode to My Whiteness', 'Blow Job Ode', 'Ode to the Last 38 Trees in New York City Visible from This Window', Olds treats us to an intimate self-examination that, like all her work, is universal and by turns searing and charming in its honesty. From the early bodily joys and sorrows of her girlhood to the recent deaths of those dearest to her – the 'Sheffield Mountain Ode' for Galway Kinnell is one of the most stunning pieces here – Olds shapes her world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

The Federal Energy Office

It is the wet season in the Australian outback. Drunk and delirious, an old ex-pilot known as "Pisspot Stevie" lies dying in a remote cabin in the Queensland bush. When a priest named Roger Hargreaves comes upon him, Stevie is smoking opium to relieve the pain of his last moments. The priest listens as Stevie, in an opium-fueled haze, begins to describe a very different life he once lived—not in the past, but decades in the future, as a mixed-race aviator who finds love and glory in service to the Queen. After Stevie's death, as Hargreaves tries to sort dream from reality, he makes discoveries that cause him to wonder if he has been granted a glimpse beyond the veil.

Fasting in the New Testament

JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. "The son of the Wolf" (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, "The Call of the Wild" (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including "The Sea-Wolf" (1904), "White Fang" (1906), "South Sea Tales" (1911), and "Jerry of the South Seas" (1917). One of London's most interesting novels is the semi-autobiographical "Martin Eden" (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

In the Wet

A suspenseful account of the glorious days a century ago when our national madness began. A post-season series of games to establish supremacy in the major leagues was not inevitable in the baseball world. But in 1903 the owner of the Pittsburgh Pirates (in the well-established National League) challenged the Boston Americans (in the upstart American League) to a play-off, which he was sure his team would win. They didn't—and that wasn't the only surprise during what became the first World Series. In *Autumn Glory*, Louis P. Masur tells the riveting story of two agonizing weeks in which the stars blew it, unknown players stole the show, hysterical fans got into the act, and umpires had to hold on for dear life. Before and even during the 1903 season, it had seemed that baseball might succumb to the forces that had been splintering the sport for decades: owners' greed, players' rowdiness, fans' unrest. Yet baseball prevailed, and Masur tells the equally dramatic story of how it did so, in a country preoccupied with labor strife and big-business ruthlessness, and anxious about the welfare of those crowding into cities such as Pittsburgh and Boston (which in themselves offered competing versions of the American dream). His colorful history of how the first World Series consolidated baseball's hold on the American imagination makes us see what one sportswriter meant when he wrote at the time, "Baseball is the melting pot at a boil, the most democratic sport in the world." All in all, Masur believes, it still is.

You are too loud, too much, too BLAH BLAH BLAH!" The warrior dialogue I would say to myself was "Don't Cry. Hold it in. If you cry you are weak. I don't want anyone to help me. I will **DO IT MYSELF!** I have to do everything," and more and more untrue statements that would anchor in pseudo soils and patterns.
