Through re-examination of colonial and post-colonial encounters, this collection of essays makes a strategic intervention into the current debate over the study of "Western Civilization." Together they question whether, at least since Columbus, "the West" has existed independent of its relations with those deemed Other.

### Crossing Cultures

Informative, easy-to read text and oversized photographs draw in readers as they learn about the Algonquin. Traditional ways of life, including social structure, homes, food, art, clothing, and more are covered. A map highlights the tribe's homeland, while fun facts and a timeline with photos help break up the text. Also discussed is contact with Europeans and American settlers, as well as how the people keep their culture alive today. The book closes with a quote from a tribe leader. Readers are left with a deeper understanding of the Algonquin people. Table of contents, glossary, and index included. Aligned to Common Core standards and correlated to state standards. Big Buddy Books is an imprint of Abdo Publishing, a division of ABDO.

When the English first arrived at the Outer Banks in the summer of 1584, they were greeted by native Algonquian-speaking people who had long occupied present-day North Carolina. That historic contact initiated the often-turbulent period of early American history commonly known as the Roanoke Voyages. Unfortunately, contemporary accounts regularly mischaracterize or marginalize the Algonquians, and their significance in this period is poorly understood. This volume is a unique collection of narratives highlighting by name all of the Algonquians who played a role in the often-contentious attempts to establish the first permanent English colony in the New World. Starting with Manteo, the fascinating Croatoan Indian who traveled to England twice and learned to speak English, this book focuses on the identities and endeavors of each of these individual Algonquians and tells their stories.

Explorations in American Archaeology is a collection of original essays relating to the areas of archaeology within which Hurt conducted pioneering research. The contributions include a number of noted scholars in both North And South America and reflect Hurt's regional and topical interests. This volume is focused to a considerable degree of continuity among its contributions. Many of the papers provide new data and insights related to seminal and contemporary issues in American archaeology, and is strengthened by Pedro Schmitz and other prominent Brazilian archaeologists who provide new and unpublished data regarding native subsistence strategies. Due to the integration and continuity of the entire volume, those searching for specific information will find essays throughout the volume useful to their purposes.

### The Algonquian Series

This collection of John Howard Payne's Papers is a significant recovery of firsthand political and social histories of Indigenous cultures, particularly the Cherokees, a southeastern tribe, whose ancestral lands included parts of the present-day states of Georgia, Alabama, Tennessee, and North Carolina. The papers enable readers to understand how the Cherokees and many other American Indians endured and persevered as they encountered forced removal in the 1830s due to the Indian Removal Act. The papers are also a source of cultural revitalization, elucidating the work of Sequoyah, a Cherokee genius, who in 1821 introduced his syllabary, a phonemic system with eighty-five symbols. John Howard Payne (1791-1852), an American actor, poet, and playwright, was so taken by the Cherokees' story that he lobbied Congress to forgo their removal and wrote articles in contemporary newspapers supporting Cherokees. In 1835 Payne journeyed to the Cherokee Nation and met with John Ross, Cherokee chief from 1828 to 1866, who found in Payne a colleague to assist him and other Cherokees with their cause against removal and in preserving their ancient social, spiritual, and political heritages. Payne gathered and recorded correspondence between Cherokees such as Ross, who was fluent in English, and U.S. officials. These papers include multiple correspondences, ratified and unratified treaties, contemporary newspaper articles, and resolutions sent to Congress appealing for justice for the Cherokees. Payne also assembled letters and writings by New England Congregationalist missionaries who resided in mission stations throughout the Cherokee Nation. Available in print for the first time, this remarkable repository of information provides a fuller understanding of the political climates Cherokees encountered throughout the early to mid-nineteenth century.

### A Northern Algonquian Source Book

Faced with finding a livable response to globalization, many communities are renegotiating their identities and functions and, in some instances, entirely new communities are being formed. Renegotiating Community asks what happens to the autonomy of individuals and communities under the influence of globalization. Original case studies show how a range of communities are renegotiating the meanings of community and autonomy while living with, and sometimes challenging, the processes of globalization. By addressing the coercive and comforting dimensions of community – as well as the need to reconcile conflicting claims to autonomy – this book redraws the conceptual maps through which community, globalization, and autonomy are understood.

This book serves as a definitive reference for inverse morphology across all documented Algonquian languages. It considers not only the morphology of the inverse construction but also its syntax and pragmatics, giving equal weight to diachronic, typological, functional, and formal perspectives.

### Algonquians of the East Coast

Since 1917, much has been written about the life and death of artist Tom Thomson on Canoe Lake in Ontario's Algonquin Park. Thomson was a major influence on the Group of Seven, but until now, little

has been known about the women whose lives he touched: Annie Fraser, proprietress of Mowat Lodge who likely knew a lot more than she ever let on; Louisa Blecher, mother of Martin Blecher the man who was silently accused of playing a hand in Thomson's death; Molly Colson, owner of the Algonquin Hotel where Tom was last seen; and the elusive Winnifred Trainor, Thomson's alleged love interest. After years of painstaking research, Gaye I. Clemson's ALGONQUIN VOICES brings to life the lives of these and many other courageous women who have lived and loved on the shores of Algonquin Park's famous Canoe Lake since 1905. "In 1997 I got inspired to trace and record the settlement history of all of my Canoe Lake neighbours," Clemson, a 48-year resident of Canoe Lake, explains. "In the process I discovered a treasure trove of family stories about the lives of women pioneers, business owners, children's camp leaders and independent spirits from all walks of life, who were captivated by the lake's haunted history and beauty and chose to settle on Canoe Lake, some with husbands and children and others without." Beginning in the early 1900's, ALGONQUIN VOICES tells in words and pictures the stories of over 20 pioneers, business women, children's' camp leaders and independent spirits who chose to make Canoe Lake their summer, and in some cases year round, home. It shares their life and settlement history, artistic and professional endeavours, family traditions and summer amusements including first hand insight as to how they coped (and in some cases earned a living) with the challenges of day-to-day living without city conveniences, miles from civilization deep in the heart of one of North America's most well-known parks. It makes an important contribution in helping 21st C young women understand better what life was like for their grandmothers and great grandmothers 100+ years ago and get in touch with their collective feminist roots that are so easily forgotten in the hustle and bustle of our modern lives.

#### Bulletin

A compilation of published ethnobotanical data pertaining to all of the Algonkian speaking peoples of eastern North America and field data concerning the Algonquin bands of the Ottawa River drainage and the Cree bands of the St. Maurice drainage of western Quebec. These data help illuminate past subsistence patterns, the seasonal movements of the Algonquin, and the relationship between Algonquin bands and other Algonkian speakers. They also indicate that the Algonquin previously enjoyed a subarctic subsistence orientation similar to that of the Cree and other northerners in contrast to their Iroquoian neighbours thus necessitating a redefinition of the eastern subarctic culture area.

#### Algonquin

A linguistic history of Native American place-names in Indiana In tracing the roots of Indiana place names, Michael McCafferty focuses on those created and used by local Native Americans. Drawing from exciting new sources that include three Illinois dictionaries from the eighteenth century, the author documents the language used to describe landmarks essential to fur traders in Les Pays d'en Haut and settlers of the Old Northwest territory. Impeccably researched, this study details who created each name, as well as when, where, how and why they were used. The result is a detailed linguistic history of lakes, streams, cities, counties, and other Indiana names. Each entry includes native language forms, translations, and pronunciation guides, offering fresh historical insight into the state of Indiana.
