Margarete Steiff made her first toy animal in 1880.

This is the best part of the whole job.

The material is blown in using compressed air.

First we lay the parts on the machine like this.

Then we get the parts ready to be attached to the body.

This is raw milk. It comes from one of several local dairies.

This is the heat exchanger

We aim for 75 degrees.

We're slowly adding the citric acid and slowly stirring the milk
