Introduction to Literature

'I had placed one [owl] on a branch of the mango tree, and was stooping to pick up the other, when I received quite a heavy blow on the back of my head. A second or two later, the mother owl swooped down at Grandfather, but he was agile enough to duck out of its way.' This is a collection of Ruskin Bond's 'small town' stories. Meet Ranji's wonderful bat which is his lucky charm, along with wacky parrots, ostriches, owls and a number of idiosyncratic characters in other stories. Hold your breath as Romi cycles through a raging forest fire and follow the Boy Scouts on delightful adventures. Lose yourself in timeless romantic classics 'The Eyes Have It' and 'Time Stops at Shamli' and savour the bittersweetness of 'The Blue Umbrella'. The Routledge Handbook of North American Languages is a one-stop reference for linguists on those topics that come up the most frequently in the study of the languages of North America (including Mexico). This handbook compiles a list of contributors from across many different theories and at different stages of their careers, all of whom are well-known experts in North American languages. The volume comprises two distinct parts: the first surveys some of the phenomena most frequently discussed in the study of North American languages, and the second surveys some of the most frequently discussed language families of North America. The consistent goal of each contribution is to couch the content of the chapter in contemporary theory so that the information is maximally relevant and accessible for a wide range of audiences, including graduate students and young new scholars, and even senior scholars who are looking for a crash course in the topics. Empirically driven chapters provide fundamental knowledge needed to participate in contemporary theoretical discussions of these languages, making this handbook an indispensable resource for linguistics scholars.

From Rwanda to Afghanistan, from Sudan to Iraq, this brilliantly written and at times blackly funny work of reportage shows how the humanitarian aid industry, the media and warmongers the world over are locked in a cycle of mutual support. Drawing on her decades of first-hand experience, Linda Polman's gripping narrative introduces us to the key players in this twisted game, to the aid-workers and the warlords themselves. Among many others, there is the Bible-bashing one-man NGO who rescued two Sierra Leonean girls from life in an amputee camp y only to change his mind and try to send them back again; the director of the World Bank in Kabul who estimates that 35y40 per cent of all aid in Afghanistan is looted or lost; and the rebel soldier who explains that war does not mean fighting: 'W.A.R. means Waste All Resources. Destroy everything. Then you people will come and fix it.' War Games is a controversial exposy from the front lines of the humanitarian aid industry by one of the most intrepid and brilliantly incisive journalists of our times.
