

Risk Causes And Prevention Of Ischaemic Stroke In Elderly Patients With Symptomatic Internal Carotid Artery Stenosis

[#ischemic stroke](#) [#elderly patients](#) [#internal carotid artery stenosis](#) [#stroke risk factors](#) [#stroke prevention strategies](#)

Understanding the risks associated with ischemic stroke in elderly patients with symptomatic internal carotid artery stenosis is crucial for effective prevention. This includes identifying key risk factors such as hypertension, diabetes, and atrial fibrillation, and implementing strategies like medication management, lifestyle modifications, and potentially surgical intervention to reduce the likelihood of stroke and improve patient outcomes.

Risk Causes And Prevention Of Ischaemic Stroke In Elderly Patients With Symptomatic Internal Carotid Artery Stenosis

Carotid Artery Disease and Stroke: Prevention and Treatment | Q&A - Carotid Artery Disease and Stroke: Prevention and Treatment | Q&A by Johns Hopkins Medicine 124,190 views 12 years ago 10 minutes, 7 seconds - Professor of Surgery Bruce Perler discusses **causes**, symptoms, **risk factors**, and treatment of **carotid artery disease**, and **stroke**.

About Carotid Artery Disease and Stroke: Prevention and Treatment

What is your perspective on managing stroke risk in patients with carotid artery disease?

What is the role of a vascular surgeon?

What problems can carotid artery disease cause?

Who is at risk for developing carotid artery disease?

How do you determine the best treatment for carotid artery disease?

Describe the standard surgical treatment for carotid artery disease.

What are the minimally invasive alternatives to standard surgery?

What are the risks associated with treatment?

What is the importance of a certified vascular lab for testing?

What do you consider your greatest accomplishment?

Why should a patient come to Johns Hopkins?

Carotid artery disease can cause strokes, but a new procedure may stave them off - Carotid artery disease can cause strokes, but a new procedure may stave them off by WPLG Local 10 19,716 views 1 year ago 2 minutes, 35 seconds - A condition called **carotid artery disease**, can **cause**, debilitating **strokes**, but a new procedure can treat the condition.

What causes ischemic stroke and how to treat - What causes ischemic stroke and how to treat by Prisma Health 35,071 views 2 years ago 5 minutes, 5 seconds - Ischemic stroke, is the most common type of stroke. They occur as a result of an obstruction within a blood vessel supplying blood ...
