Organisational Governance - Aged Care Standard Eight - Organisational Governance - Aged Care Standard Eight by Aged Care Answers by CDCS 2,382 views 4 years ago 7 minutes, 6 seconds

- Governance,; not the boring topic no one understands or wants to talk about, but the underlying foundation to all the standards.

Introduction

Governance is how the organisation is 'Steered' or managed effectively and strategically

A good Board is an informed Board!

I am confident the organisation is well run. I can partner in improving the delivery of care and services.

Consumers will be listened to, and engaged in service development relevant to them and their care

You need to have clients to have a business!

Good governance is also about promoting a culture of safe, inclusive and quality care

Good governance is also about effective systems

Systems are what help us know what to do, when to do it, and how to do it

Good governance also means communicating information effectively

Good governance is about continually looking for ways to make things better

Change is sometimes necessary in order to improve something

Financial management is a huge part of ensuring an effective business

Staff have to be informed, engaged, well- supported and know how to do their job properly

Good governance includes open discussion with the consumer and other support people
