American Indian Ways of Life

Iowa has more than eighteen thousand archaeological sites, and research in the past few decades has transformed our knowledge of the state's human past. Drawing on the discoveries of many avocational and professional scientists, Lynn Alex describes Iowa's unique archaeological record as well as the challenges faced by today's researchers, armed with innovative techniques for the discovery and recovery of archaeological remains and increasingly refined frameworks for interpretation. The core of this book--which includes many historic photographs and maps as well as numerous new maps and drawings and a generous selection of color photos--explores in detail what archaeologists have learned from studying the state's material remains and their contexts. Examining the projectile points, potsherds, and patterns that make up the archaeological record, Alex describes the nature of the earliest settlements in Iowa, the development of farming cultures, the role of the environment and environmental change, geomorphology and the burial of sites, interaction among native societies, tribal affiliation of early historic groups, and the arrival and impact of Euro-Americans. In a final chapter, she examines the question of stewardship and the protection of Iowa's many archaeological resources.

American Indian Ways of Life

The pre-Columbian culture of the Mississippi woodlands has received surprisingly little attention from historians. Studying this culture, which was in many respects highly advanced, opens an entirely new perspective on what we are used to thinking of as "American" history. This essay by a distinguished historian and teacher is aimed at world history classes and other classes that cover the Americas before the arrival of the Europeans.

Iowa's Archaeological Past

Issue for Mar. 1948 contains paper: The Beginnings of Swedish immigration into Illinois a century ago, by: Conrad Bergendoff.

Illinois History

Includes entries for maps and atlases.

Native Americans Before 1492

A cumulative list of works represented by Library of Congress printed cards.

Records of Early Bison in Illinois

Outlines the early history of Eastern Iowa as reconstructed from artifacts found at archaeological excavations in the area.

A Bibliography of Illinois Archaeology

June and Dec. issues contain listings of periodicals.

Native American Uses of Plants and Animals in Illinois

Miskwabik, Metal of Ritual examines the thousands of beautiful and intricate ritual works of art -- from ceremonial weaponry to delicate copper pendants and ear ornaments -- created in eastern North America before the arrival of Europeans. The first comprehensive examination of this 3,000-year-old metallurgical tradition, the book provides unique insight into the motivation of the artisans and the significance of these objects, and highlights the brilliance and sophistication of the early civilizations of the Americas. Comparing the ritual architecture and metallurgy of the original Americans with the ethnological record, Amelia M. Trevelyan begins to unravel the mystery of the significance of the objects as well as their special functions within the societies that created them. The book includes dozens of striking color and black and white photographs.
