Grammatica inglese

This is the second of a three-volume comprehensive reference work on "Gender across Languages", which provides systematic descriptions of various categories of gender (grammatical, lexical, referential, social) in 30 languages of diverse genetic, typological and socio-cultural backgrounds. Among the issues discussed for each language are the following: What are the structural properties of the language that have an impact on the relations between language and gender? What are the consequences for areas such as agreement, pronominalisation and word-formation? How is specification of and abstraction from (referential) gender achieved in a language? Is empirical evidence available for the assumption that masculine/male expressions are interpreted as generics? Can tendencies of variation and change be observed, and have alternatives been proposed for a more equal linguistic treatment of women and men? This volume (and the previous two volumes) will provide the much-needed basis for explicitly comparative analyses of gender across languages. All chapters are original contributions and follow a common general outline developed by the editors. The book contains rich bibliographical and indexical material. Languages of Volume 2: Chinese, Dutch, Finnish, Hindi, Icelandic, Italian, Norwegian, Spanish, Vietnamese, Welsh.

Grammatica inglese. Con esercizi di autoverifica e CD Audio

Politica, cultura, economia.

Grammatica inglese della comunicazione

Analyses by author, title and key word of books published in Italy.

Reference grammar. Grammatica inglese della comunicazione

Using an appealing visual layout, Soluzioni explains the major topics of Italian grammar in clear and concise language. Real language examples and plenty of varied and imaginative exercises show how grammar works in practice. This new edition includes: Tables and charts for easy navigation and at-a-glance comprehension Authentic material from Italian media and literature showing grammar in context Graded practice exercises with answers so learners can review their progress Free interactive exercises and weblinks on www.routledge.com/cw/rome . This second edition has been fully revised and updated with new examples and even more on contemporary usage making this the clearest and most comprehensive pedagogical grammar available.

Verbi inglesi. Manuale pratico per l'uso

A selection of material covering the most important areas of specialised linguistic usage.

English for Environmental Protection

Recent years have seen a revival of interest in morphology. The Yearbook of Morphology series supports and enforces this upswing of morphological research and gives an overview of the current issues and debates at the heart of this revival. The Yearbook of Morphology 1994 focuses on prosodic morphology, i.e. the interaction between morphological and prosodic structure, on the semantics of word formation, and on a number of related issues in the realm of inflection: the structure of paradigms, the relation between inflection and word formation, and patterns of language change with respect to inflection. There is also discussion of the relevance of the notion 'level ordering' for morphological generalizations. All theoretical and historical linguists, morphologists, and phonologists will want to read this book.
